A Marvellous Year for Plums

Britain in 1956: the Suez Crisis. Prime Minister Anthony Eden, described by a colleague as 'half mad baronet and half beautiful woman', is faced with the terrible possibility of leading his country into war. His health is collapsing. His friends, colleagues and opponents, among them Hugh Gaitskell and Ian Fleming and his wife Ann, are facing crises of their own, crises of conscience and crises of the heart. Hugh Whitemore's new play is a true epic: a suspenseful thriller, an achingly romantic love story and a fascinating examination of a flashpoint in our history which still resonates today. What is the cost of an 'illegal' war?

Pack of Lies

In 1961, Peter and Helen Kroger, two Americans living in a London suburb, were convicted of spying for the Russians and sentenced to twenty years' imprisonment. From these facts Hugh Whitemore has written a powerfully moving fictional account of the events leading up to their arrest with the action centered on the totally unsuspecting Jackson household – Bob, Barbara and their daughter Julie. The Jacksons live opposite the Krogers, believing them to be a convivial Canadian couple and their closest friends. Then a mysterious stranger arrives, announcing he is from MI5 and quietly coerces the Jacksons into allowing their house to be used as a surveillance post. In the nightmare months that follow, the Jacksons' decent, happy life is shattered as the truth about their much-loved friends is gradually revealed to them and, helpless in an alien, sordid world of deception and treachery, Barbara reaches breaking point with the agonizing realization that the Krogers have betrayed her and she, in turn, has betrayed the Krogers.

When I Lived in Bohemia

Peter Brook is one of the most influential directors of our time, whose productions are a byword for imagination, energy and innovation. He was born into a Russian émigré family in London and, after a turbulent time at Oxford University, he veered between directing West End comedy, new work from abroad and opera at Covent Garden. By the 1960s he was moving towards greater experimentation, with controversial works like *The Marat/Sade*, films like *Lord of the Flies*, and landmark stagings of Shakespeare of which the most famous was the 'white box' production of *A Midsummer Night's Dream*. In 1970, at the height of his success, he moved to Paris and immediately set off with a group of actors to Persia, Africa, Mexico and the USA in an attempt to discover a universal language of theatre. Since then, Brook has continued pushing at the boundaries of theatre and film. In this first authoritative biography, arising out of an association and friendship with Brook of more than forty years, Michael Kustow tells the revealing story of a man whose life has been a never-ending quest for meaning.

But Spring, who has overcome a raucous and scandalous past, isn't looking for, nor does she want, love. As their attraction grows, will their differences come between them or unite them for an everlasting love?

The Theatre of Shelley

The incredible untold story of how Ann Lowe, a Black woman and granddaughter of slaves, rose above personal struggles and racial prejudice to design and create one of America's most famous wedding dresses of all time for Jackie Kennedy. 1953, New York City Less than a week before the society wedding of the year where Jacqueline Bouvier will marry John F. Kennedy, a pipe bursts at Ann Lowe's dress shop and ruins eleven dresses, including the expensive wedding dress, a dress that will be judged by thousands. A Black designer who has fought every step of the way, Ann knows this is only one struggle after a lifetime of them. She and her seamstresses will find the way to re-create the dresses. It may take all day and all night for the next week to accomplish the task, but they will do it. 1918, Tampa Raised in Jim Crow Alabama, Ann learned the art of sewing from her mother and her grandmother, a former slave, who are the most talented seamstresses in the state. After Ann elopes at twelve with an older man who soon proves himself to be an abusive alcoholic, her dreams of becoming a celebrated designer seem to be put on hold. But then a wealthy Tampa socialite sees Ann's talent and offers her an amazing opportunity—the chance to sew and design clothing for Florida's society elite. Taking her young son in the middle of the night, Ann escapes her husband and embarks on the adventure of a lifetime. Based on the true story of one of the most famous designers of the twenties through the sixties who has since been unjustly forgotten, *By Her Own Design* is an unforgettable novel of determination despite countless obstacles and a triumph celebrated by the world.

A Midsummer-night's Dream

Now as this is the very last book of all this series that began in the long long ago, perhaps you may like to hear something of the man who thought over every one of the twenty-five, for fear lest a story should creep in which he did not wish his little boys and girls to read. He was born when nobody thought of travelling in anything but a train—a very slow one—or a steamer. It took a great deal of persuasion to induce him later to get into a motor and he had not the slightest desire to go up in an aeroplane—or to possess a telephone. Somebody once told him of a little boy who, after giving a thrilling account at luncheon of how Randolph had taken Edinburgh Castle, had expressed a desire to go out and see the Museum; 'I like old things better than new,' said the child! 'I wish I knew that little boy,' observed the man. 'He would just suit me.' And that was true, for he too loved great deeds of battle and adventure as well as the curious carved and painted fragments guarded in museums which show that the lives described by Homer and the other old poets were not tales made up by them to amuse tired crowds gathered round a hall fire, but were real—real as our lives now, and much more beautiful and splendid. All beasts were his friends, just because they were beasts, unless they had been very badly brought up. He never could resist a cat, and cats, like beggars, tell each other these things and profit by them. A cat knew quite well that it had only to go on sitting for a few days outside the window where the man was writing, and that if it began to snow or even to rain, the window would be pushed up and the cat would spend the rest of its days stretched in front of the fire, with a saucer of milk beside it, and fish for every meal. But life with cats was not all peace, and once a terrible thing happened when Dickon-draw-the-blade was the Puss in Possession. His master was passing through London on the way to take a journey to some beautiful old walled towns in the south of France where the English fought in the Hundred Years War, and he meant to spend a few weeks in the country along the Loire which is bound up with the memory of Joan of Arc. Unluckily, the night after he arrived from Scotland Dickon went out for a walk on the high trellis behind the house, and once there did not know how to get down again. Of course it was quite easy, and there were ropes of Virginia creeper to help, but Dickon lost his presence of mind, and instead of doing anything sensible only stood and shrieked, while his master got ladders and steps and clambered about in the dark and in the cold, till he put Dickon on the ground again. Then Dickon's master went to bed, but woke up so ill that he was obliged to do without the old towns, and go when he was better to a horrid place called Cannes, all dust and tea-parties.

The Strange Story Book

As the firing died down and the merciless bombardment ended, the Argentine forces in and around Stanley, the capital of the Falkland Islands, were forced to surrender. As the detritus of war was burned or buried over time, healing the scars across the land, which faded faster than the scars in the minds of the men who fought in this terrible conflict, one bundle of papers survived. They were the letters which never made it home on the last flight out of the war zone before the final battle ended: the letters of a group of Argentine soldiers who recount the hope and the horror of their daily lives alongside some of the most dramatic and famous events in the war's history, telling the story as it is - gritty and visceral - against the backdrop of the war which the junta's press machine tells their families they are winning. Carrying the hopes of their nation on their shoulders, the men who fought the war for a place they called "Malvinas" - a place they were taught to love but never knew - tell the untold story of the war first hand. As veteran historian Ricky D Phillips fills in the canvas around them and tells the story of the Argentine army at war, of the men who fought in the conflict, and attempts to track down the authors of the Last Letters from Stanley.

The Mech Who Loved Me

First published in 1889, this novel has two main plots; one set in the real world at the time the book was published (the Victorian era), the other in the fictional world of Fairyland.

The Unseen

This landmark state-of-the-nation play is a panoramic drama portraying the age-old battle between realism and idealism. The kettle boils in 1936 as the fascists are marching. Tea is brewed in 1946, with disillusion in the air at the end of the war. In 1956, as rumours spread of Hungarian revolution, the cup is empty. Sarah Khan, an East End Jewish mother, is a feisty political fighter and a staunch communist. Battling against the State and her shirking husband, she desperately tries to keep her family together. *Chicken Soup with Barley* captures the collapse of an ideology alongside the disintegration of a family. Theatrical and Circus Life

"*Intentions* By Oscar Wilde was published in 1891 when Wilde was at the height of his form, these brilliant essays on art, literature, criticism, and society display the flamboyant poseur's famous wit and wide learning. A leading spokesman for the English Aesthetic movement, Wilde promoted art for art's sake against critics who argued that art must serve a moral purpose. On every page of this collection the gifted literary stylist admirably demonstrates not only that the characteristics of art are ""distinction, charm, beauty, and imaginative power, but also that criticism itself can be raised to an art form possessing these very qualities. In the opening essay, Wilde laments the decay of Lying as an art, a science, and a social pleasure. He takes to task modern literary realists like Henry James and Emile Zola for their ""monstrous worship of facts"" and stifling of the imagination. What makes art wonderful, he says, is that it is absolutely indifferent to fact, invents, imagines, dreams, and keeps between herself and reality the impenetrable barrier of beautiful style, of decorative or ideal treatment."
