Drug Abuse Prevention Among Youth from Ethnic and Indigenous Minorities

This publication is the result of a 'hands on theme meeting' held in Brisbane, Australia, 3-7 June 2002. The United Nations Office on Drugs and Crime, youth NGOs and other partners participated in this meeting. It includes a brief review of the literature on minority youth and the abuse of alcohol, tobacco and other drugs. Among the topics examined are how to evaluate programmes and how to ensure funding.

Drug Abuse Prevention Among Youth from Ethnic and Indigenous Minorities

The stigma attached to drug abuse is often reinforced by racial and ethnic stereotypes while at the same time these very stereotypes push young people towards substance abuse. It is this complex cycle of reinforcing negative stereotypes, marginalization, and drug abuse that prompted this publication which is meant for use by youth groups and workers dealing with this issue.

Drug Abuse Prevention among Youth from Ethnic and Indigenous Minorities

Illicit drug supply and demand are inextricably linked components of a single phenomenon. Contents of this 2007 report by the International Narcotics Control Board (INCB): (1) The International Drug Control Conventions: History, Achievements and Challenges; (2) Operation of the International Drug Control System; (3) Analysis of the World Situation; (4) Recommendations to Governments, the United Nations and Other Relevant International and Regional Organizations. Annexes: (1) Regional Groupings Used in the Report of the INCB for 2008; (2) Current Membership of the INCB.

Drug Use Among Racial/ethnic Minorities

Estimates indicate that as many as 1 in 4 Americans will experience a mental health problem or will misuse alcohol or drugs in their lifetimes. These disorders are among the most highly stigmatized health conditions in the United States, and they remain barriers to full participation in society in areas as basic as education, housing, and employment. Improving the lives of people with mental health and substance abuse disorders has been a priority in the United States for more than 50 years. The Community Mental Health Act of 1963 is considered a major turning point in America's efforts to improve behavioral healthcare. It ushered in an era of optimism and hope and laid the groundwork for the consumer movement and new models of recovery. The consumer movement gave voice to people with mental and substance use disorders and brought their perspectives and experience into national discussions about mental health. However over the same 50-year period, positive change in American public attitudes and beliefs about mental and substance use disorders has lagged behind these advances. Stigma is a complex social phenomenon based on a relationship between an attribute and a stereotype that assigns undesirable labels, qualities, and behaviors to a person with that attribute. Labeled individuals are then socially devalued, which leads to inequality and discrimination. This report contributes to national efforts to understand and change attitudes, beliefs and behaviors that can lead to stigma and discrimination. Changing stigma in a lasting way will require coordinated efforts, which are based on the best possible evidence, supported at the national level with multiyear funding, and planned and implemented by an effective coalition of representative stakeholders. *Ending Discrimination Against People with Mental and Substance Use Disorders: The Evidence for Stigma Change* explores stigma and discrimination faced by individuals with mental or substance use disorders and recommends effective strategies for reducing stigma and encouraging people to seek treatment and other supportive services. It offers a set of conclusions and recommendations about successful stigma change strategies and the research needed to inform and evaluate these efforts in the United States.

Report of the International Narcotics Control Board (2008)

This collection provides authoritative coverage of neurobiology of addiction, models of addiction, socio-cultural perspectives on drug use, family and community factors, prevention theories and techniques, professional issues, the criminal justice system and substance abuse, assessment and diagnosis, and more.

Ending Discrimination Against People with Mental and Substance Use Disorders

Universal Declaration of Human Rights begins as "All human beings are born free and equal in dignity and rights." and "Everyone is entitled to all the rights and freedoms set forth in this Declaration, without distinction of any kind, such as race, colour, sex, language, religion, political or other opinion, national or social origin, property, birth or other status." But some segments of the society have more rights and freedoms than "others". Although the "Others" have been given names such as Groups that Need Special Protection, they are now called Disadvantaged Groups and include children, young people, addicts, the elderly, the disabled, immigrants, minorities, ex-convicts, women, single-parent families, the poor. Considering that the majority of the world's population consists of children, young people, women and the elderly, it is obvious that the problems of disadvantaged groups are actually the problems of society. Although the groups are counted individually, a person is in more than one group; The disadvantaged poor child can grow up to be a woman who becomes a single parent.

Encyclopedia of Substance Abuse Prevention, Treatment, and Recovery

As globalisation gains momentum, international migration continues to divide opinion and polarise policy makers, politicians, and advocates. This polarisation has been reflected in research and publications, with pro-globalisation being pitched against anti-globalisation on the one hand, and an explosion of research on migration on the other. This book examines the interaction between the two and their impact on health for the first time, highlighting the myths and realities from an international, multi-disciplinary perspective. The book starts with an examination of the complex and multifaceted aspects of the globalisation phenomenon and its impact on population displacement and health, and concludes with a regional level analysis supported by country-specific examples. By highlighting common issues and differences across the globe, this book shows policy makers, political leaders, and international committees on migration the specificities of global migration and good practice across the world. Particular attention is paid to practical policy responses and governance as well as legal frameworks to manage the dynamics of migration, engage international institutions, and to maximise the benefits that

internal and international migration bring. Contents: Globalisation, Migration and Health: An Introduction (André M N Renzaho) Forced and Voluntary Migration: Patterns of Internal and International Migration, Burden of Diseases and Policy Response: Forced Internal Displacement: Pattern, Health Impacts and Policy Response (André M N Renzaho) The Social and Health Dimensions of Refugees and Complex Humanitarian Emergencies (Joseph Kamara and André M N Renzaho) Health, Social, and Economic Impact of Voluntary Migration (André M N Renzaho) Case Studies — Asylum Seekers, Healthy Migrant Effect, and Access and Utilisation of Health Services: Invisible and Suffering: Prolonged and Systematic Detention of Asylum Seekers Living in Substandard Conditions in Greece (Sheila Cyril and André M N Renzaho) The Health Status, Service Needs and Barriers to Accessing Care for Detention and Community-Based Asylum Seekers in Australia (Emily Hadgkiss and André M N Renzaho) Women, Children and Men Trapped in Unsafe Corridors (Kevin Pottie, Chuck Hui and Fabien Schneider) Migration and Health Effects in the Netherlands (Paul Herfs and Olta Gishti) Health Equity: Evidence-Based Guidelines, E-Learning and Physician Advocacy for Migrant Populations in Canada (Kevin Pottie and Doug Gruner) Hispanic Immigration and the Epidemiological Paradox (Mary Lou de Leon Siantz) Migration and the Healthy Migrant Effect in Australia: Current Knowledge, Gaps, and Opportunity for Future Research (André M N Renzaho) The Social Dimensions of Internal Migration and Health in China (André M N Renzaho) Migration Challenges and Health Policy in South Korea (André M N Renzaho) Migrant Health in the Workplace: A Multi-Country Comparison (Lata Satyen, John W Toumbourou, David Mellor, Ilmiye Secer and Matin Ghayour-Minaie) The Morbid Effect Associated with Racism Experienced by Immigrants: Findings from Australia (Kevin Dunn, Yin Paradies, Rosalie Atie and Naomi Priest) Conclusion: Globalisation and Migration: Reflections, Policy Directions and Conclusion (André M N Renzaho) Readership: Advanced undergraduate and graduate students in humanitarian and development studies, public health experts and practitioners, policy makers, and political leaders. Key Features: Examines the dynamics of migration and their impact on health from a global perspective Studies the impact globalisation has on population displacement Country-specific case studies are analysed in this book Keywords: Globalisation; Migration and Health; Forced Migration; Voluntary Migration; Hukou; China

Alcohol Prevention Strategies for Ethnic Minority Youth

Key Features Supports the notion that culture, and not race, is the best way to understand differences among individuals; therefore this volume focuses on culture to provide an index to the terms, concepts, and issues in the mainstream for the field. Presents a thorough overview of the psychology of racial, ethnic, and minority issues and covers all of the major ethnic groups and subgroups in the United States. Includes topics on sociological issues as well as conceptual issues relevant to the field of multicultural psychology.

Cultural Competence for Evaluators

This volume provides a serious examination of substance use prevention research and practice as components of the continuum from health promotion through to prevention and health care in sub-groups and in the general population. Extensive background chapters provide portals into the evolution of the field and the cutting edge research being conducted on the etiology, epidemiology, and genetics of substance use and abuse. The global nature and health burden of substance use and abuse incorporates assessments of the serious problems related to the prevention of legal substance use (i.e., alcohol and tobacco) and how lessons learned in those arenas may apply to the prevention of illicit substance use. Research and practice chapters detail a range of effective evidence-based programs, policies and practices and emerging prevention interventions from the literatures on the family and school contexts in addition to innovations involving mindfulness and the social media. Continued advancements in substance use prevention research, practice, training, and policy are projected. Included among topics addressed are: Progression of substance use to abuse and substance use disorders The tobacco prevention experience: a model for substance use prevention? Policy interventions: intended and unintended influences on substance use Qualitative methods in the study of psychoactive substance use Use of media and social media in the prevention of substance use Supporting prevention science and prevention research internationally The array of research accomplishments and real-world methods presented in Prevention of Substance Use merits the attention of a variety of researchers and practitioners, including public health professionals, health psychologists, and epidemiologists.

Drug Abuse Among Minority Youth

This book explores the risk and protective factors of rural life and minority status for youth and their families. It provides innovative perspectives on well-documented developmental challenges (e.g., poverty and lack of resources) as well as insights into the benefits of familial and cultural strengths. Coverage includes recent theories in child development, empirical studies of rural minority populations, and leading-edge interventions for urgent issues. The volume presents a spectrum of opportunities for understanding and providing services for youth in the United States through the lens of a diverse collection of ethnic minority experiences in rural settings. Topics featured in this volume include: Theoretical models focused on the intersection of ethnicity and rural settings. Family processes, child care, and early schooling in rural minority families. Promising strategies for conducting research with rural minority families. Strengths-based educational interventions in rural settings. Promoting supportive contexts for minority youth in low-resource rural communities. Rural Ethnic Minority Youth and Families in the United States is a valuable resource for researchers and professors, clinicians and related professionals and graduate students across such disciplines as clinical child, school and developmental psychology, family studies, social work and public health.

DISADVANTAGED GROUPS: A SOCIAL POLICY PERSPECTIVE

Adolescent Addiction: Epidemiology, Assessment, and Treatment presents a comprehensive review of information on adolescent addiction, including prevalence and co-morbidity rates, risk factors to addiction, and prevention and treatment strategies. Unlike other books that may focus on one specific addiction, this book covers a wide range of addictions in adolescents, including alcohol, cannabis, tobacco, eating, gambling, internet and video games, and sex addiction. Organized into three sections, the book begins with the classification and assessment of adolescent addiction. Section two has one chapter each on the aforementioned addictions, discussing for each the definition, epidemiology, risk factors, co-morbidity, course and outcome, and prevention and intervention. Section three discusses the assessment and treatment of co-morbid conditions in greater detail as well as the social and political implications of adolescent addictions. Intended to be of practical use to clinicians treating adolescent addiction, the book contains a wealth of information that will be of use to the researcher as well. Contributors to the book represent the US, Canada, the UK, New Zealand, and Australia. About the Editor: Cecilia A. Essau is professor of developmental psychopathology at Roehampton University in London, UK. Specializing in child and adolescent psychopathology, she has been an author or editor of 12 previous books in child psychopathology and is author of over 100 research articles and book chapters in this area. Comprehensive with the state-of-the-art information on important and the most common adolescent addiction Easy to understand and organized chapters Written by international experts

Globalisation, Migration and Health

Learn about the latest federally supported research on ethnicity and drug use The National Institute on Drug Abuse has supported professional research into variation among ethnic groups' use, abuse, and recovery from alcohol, tobacco, and other drugs, as well as research into perceptions of and readiness for treatment. 21st Century Research on Drugs and Ethnicity: Studies Supported by the National Institute on Drug Abuse takes a detailed look at the research performed in the last three years to help provide evidence-based and culturally competent counseling and treatment for individuals suffering from substance abuse/addiction syndromes. Top researchers discuss crucial unique issues in ethnic group use of psychoactive substances. This valuable resource explores the studies to better enable treatment, counseling, and prevention personnel who work in treatment programs, community groups, and schools to provide effective evidence-based practices tailored to the population they serve. 21st Century Research on Drugs and Ethnicity: Studies Supported by the National Institute on Drug Abuse presents prominent researchers such as J. Scott Tonigan, William Miller, and Mario de la Rosa who reveal and discuss the latest important data. This volume can be used by practitioners to increase the rates of individuals making healthy choices, or recovering from and sustaining recovery from abuse syndromes. The book also includes an introduction by Lula Beatty, PhD, Chief of the Special Populations Office at the National Institute on Drug Abuse. Topics discussed in 21st Century Research on Drugs and Ethnicity: Studies Supported by the National Institute on Drug Abuse include: a comparison of professional models of treatment readiness analysis of how client culture matches treatment culture Native American client response to modern treatment modalities research on current rates of drug use among racial/ethnic groups at colleges study into injecting drug use behaviors problems of treatment underutilization by Latinos/Latinas and much more! 21st Century Research on

Drugs and Ethnicity: Studies Supported by the National Institute on Drug Abuse is a valuable resource for human service workers, psychologists, social workers, addictions researchers, educators, trainers, treatment personnel, and graduate students in counseling, social work, health, and addictions.

Encyclopedia of Multicultural Psychology

This wide-ranging handbook brings together experts in the sociology of drug abuse prevention. Providing a comprehensive overview of the accumulated knowledge on prevention theory, intervention design, and development and prevention research methodology, this work also promotes prevention science as an evolving field in the practice and policy of drug abuse prevention.

Report of the International Narcotics Control Board for ...

Leading experts provide a critical appraisal of existing research and theory as they relate to issues surrounding the diagnosis, etiology, and treatment of major mental disorders among Asian adults.

Prevention of Substance Use

'Each topic is covered in sufficient depth, currency, and clarity to be of value to the neophyte and the seasoned researcher/clinician.' --- American Journal of Psychiatry, from a review of a previous volume The current volume addresses a range of issues across this diverse field, including the effects on society, physiology and biochemistry, clinical pathology, and trends in treatment.

Rural Ethnic Minority Youth and Families in the United States

Leading authorities in the field of racial and ethnic minority psychology have contributed to this handbook. It offers a thorough, scholarly overview of the psychology of racial, ethnic and minority issues in the U.S.A.

Drug Abuse Among Ethnic Minorities

What is known about the influence of ethnicity upon drug use? How can this knowledge be used to develop prevention programmes for multi-ethnic youth? Contributors to this invaluable book address these and other pressing questions. They consider specific problems and challenges confronting researchers involved in studying substance abuse in minority communities; explore explanations for racial and ethnic differences in drug use; and examine possible risk and protective factors which influence use. Current drug abuse prevention models in settings including schools, communities and homeless shelters are also presented.

United Nations Publications

This insightful volume describes a sample of prevention demonstration projects of the Center for Substance Abuse Prevention (CSAP). Substance Abuse Prevention in Multicultural Communities illuminates various aspects of prevention theory, practice, and research with a focus on the design, implementation, adaptation, and outcome of specific demonstration programs. Researchers work with prevention professionals to describe, measure, and intensify effects of interventions upon both intermediate problems and the ultimate long-term goal of decreasing substance abuse. Chapters in Substance Abuse Prevention in Multicultural Communities demonstrate how the CSAP demonstration logic model works. The process of prevention program design begins with an analysis of the root causes of the problem as defined by the specific community and illuminated by theory. Comprehensive prevention programs that buttress community strengths and build on local resources are then designed to deal with these problems. The programs you'll learn from include: a leadership and substance abuse prevention program, based on the social influence model, for girls in grades 6-8 from four geographically and ethnically diverse communities a program intricately designed to build resiliency and protective factors within young at-risk American Indian children in a Head Start program which addresses school transition, school readiness, school attendance, and classroom-based prevention activities. a family skills training program for African American parents in substance abuse treatment, which evolved in response to client and evaluation feedback a program for Native American families, which uses a culturally oriented curriculum emphasizing traditional values, beliefs, and practices a coalition of neighborhood agencies, organized to provide a comprehensive array of school and community-based prevention services, which impacted gang membership in inner-city Latino youth. a prevention program specifically designed to serve the diverse needs of Asian-American youth from five different Asian

ethnic communities a model substance abuse prevention program implemented to provide counseling, mentoring, and academic support to Hispanic and African-American students in an urban public middle school the nationally recognized FAST program which strengthens the family and brings parents and schools together in building up protective factors for high risk elementary students a program that combines several complementary strategies to develop personal and communal empowerment in Native American communities. Substance Abuse Prevention in Multicultural Communities illustrates the wealth of information generated by demonstration programs. Unlike a standard research protocol that imposes and tests a rigid, single-focused intervention under carefully controlled circumstances, these programs do science in real-life situations, documenting and measuring effects of multiple interventions.

Adolescent Addiction

Examines the design, implementation, and results of promising comprehensive, community-based drug use prevention program for young adolescents, regardless of their funding sources. Profiles a number of successful programs across the country. Charts and tables.

21st Century Research on Drugs and Ethnicity

Adolescent substance abuse is the nation's #1 public health problem. It originates out of a developmental era where experimentation with the world is increasingly taking place, and where major changes in physical self and social relationships are taking place. These changes cannot be understood by any one discipline nor can they be described by focusing only on the behavioral and social problems of this age period, the characteristics of normal development, or the pharmacology and addictive potential of specific drugs. They require knowledge of the brain's systems of reward and control, genetics, psychopharmacology, personality, child development, psychopathology, family dynamics, peer group relationships, culture, social policy, and more. Drawing on the expertise of the leading researchers in this field, this Handbook provides the most comprehensive summarization of current knowledge about adolescent substance abuse. The Handbook is organized into eight sections covering the literature on the developmental context of this life period, the epidemiology of adolescent use and abuse, similarities and differences in use, addictive potential, and consequences of use for different drugs; etiology and course as characterized at different levels of mechanistic analysis ranging from the genetic and neural to the behavioural and social. Two sections cover the clinical ramifications of abuse, and prevention and intervention strategies to most effectively deal with these problems. The Handbook's last section addresses the role of social policy in framing the problem, in addressing it, and explores its potential role in alleviating it.

Development, Security and Justice for All

This book presents the etiology, assessment, prevention and cessation of eleven focal addictions within an appetitive motivation framework of addiction. It is intended for upper-level undergraduates and graduate students, practitioners, and researchers who want an introduction to cutting edge research and practice in the addictions field.

Handbook of Drug Abuse Prevention

Handbook of Adult Psychopathology in Asians

The Boulder Statements on Legal Research Education

This title looks at the signature pedagogy set out in the Boulder Statements on Legal Research Pedagogy and Legal Research Education, and places it within the framework of the rich literature on information literacy, adult learning and experiential learning. The structures (surface, deep, tacit and shadow) of an ideal pedagogy for legal research educators are addressed. Chapters include assessment; integrating legal research into the curriculum; teaching the values and limits of intermediation and disintermediation; social networking for workplace and school; metacognition; relationship of legal tools and the legal structure; and critical information studies.--Publisher.

Teaching Legal Research

Legal research is a fundamental skill for all law students and attorneys. Regardless of practice area or work venue, knowledge of the sources and processes of legal research underpins the legal professional's work. Academic law librarians, as research experts, are uniquely qualified to teach legal research. Whether participating in the mandatory, first-year law school curriculum or offering advanced or specialized legal research instruction, law librarians have the up-to-date knowledge, the broad view of the field, and the expertise to provide the best legal research instruction possible. This collection offers both theoretical and practical guidance on legal research education from the perspectives of the law librarian. Containing well-reasoned, analytical articles on the topic, the volume explains and supports the law librarian's role in legal research instruction. The contributors to this book, all experts in teaching legal research, challenge academic law librarians to seize their instructional role in the legal academy. This book was based on a special issue of Legal Reference Services Quarterly.

The IALL International Handbook of Legal Information Management

Around the world, legal information managers, law librarians and other legal information specialists work in many settings: law schools, private law firms, courts, government, and public law libraries of various types. They are characterized by their expertise in working with legal information in its many forms, and by their work supporting legal professionals, scholars, or students training to become lawyers. In an ever-shrinking world and a time of unprecedented technological change, the work of legal information managers is challenging and exciting, calling on specialized knowledge and skills, regardless of where in the world they practice their profession. Their role within legal systems contributes substantially to the administration of justice and the rule of law. This International Handbook addresses the policy and strategic issues with which legal information managers and law librarians need to engage in the context of the diverse legal environments in which they work. It provides resources, analysis, and considered studies on an international basis for seasoned professionals, those about to enter the field, and anyone interested in the evolution of legal information in the twenty-first century.

Expert Views on Improving the Quality of Legal Research Education in the United States

Compendium of 16 selected papers from West Publishing Company's "call for papers"

Rutgers Computer & Technology Law Journal: Volume 41, Number 1 - 2015

The Rutgers Computer & Technology Law Journal offers its issues in convenient and modern ebook formats for e-reader devices, apps, pads, smartphones, and computers. This first issue of Volume 41, 2015, features new articles and student contributions on cutting-edge topics related to: teleradiology, jurisdiction, and malpractice; teaching 'next gen' research methods such as Ravel and Casetext to law students; regulating 3D-printing as firearms creators; employment, privacy, and social media; and privacy issues of cell phone tracking. In the new ebook edition, quality presentation includes active TOC, linked notes, active URLs in notes, proper digital and Bluebook formatting, and inclusion of images and tables from the original print edition. Founded in 1969, the Journal is the oldest computer law periodical in the academic world. Since its inception, the Journal has maintained a tradition of excellence, and has designed each publication issue to foster critical discourse on the technological breakthroughs impacting the legal landscape.

Research Methods for Studying Legal Issues in Education

USA. Textbook presenting a bibliographic and legal research guide to all phases of American law - provides legal research techniques and methodology in simplified form, for use in subject and topic research, comprises extensive examples and reference materials through citations from new york state law, covers legal education and includes a brief directory of legal publishers.

Research Methods for Studying Legal Issues in Education

Softbound - New, softbound print book.

Legal Research and Education Abridgment

This research book provides a self-help approach to learning the law library. Each of the six tours of the library in this work builds on lessons learned in the previous set of exercises.

Legal Research Illustrated

It is absolutely essential that today's law librarians are digitally literate and possess an understanding and awareness of recent advancements and trends in information technology as they pertain to the library field. *Law Librarianship in the Digital Age* offers a one-stop, comprehensive guide to achieving both of those goals.

Guideline Statement on the Establishment of New Law Schools

The Changing Role of Academic Law Librarianship is an authoritative, insiders perspective on key strategies for understanding and navigating the current trends in law school librarianship. Featuring library directors and managers representing some of the nations top law schools, these experts guide the reader through the history of law school librarianship and outline major elements of the librarians role today, including monitoring budgets, allocating resources, harnessing new technologies, and enhancing research education. These top librarians give tips on addressing some of the challenges inherent in a changing landscape, such as improving interlibrary loan services, cultivating modern pedagogy, and evaluating titles and volume counts. Additionally, these leaders give tips on stimulating student legal research skills, digitizing rare materials in collections, marketing, and communicating services, and maximizing the librarians managerial role. The different niches represented and the breadth of perspectives presented enable readers to get inside the minds of some of the leading information managers of today, as these experienced law school librarians offer up their thoughts around the keys to navigating an ever-evolving profession.

The Teaching of Legal Research

This research book provides a self-help approach to learning the law library. Each of the six tours of the library in this work builds on lessons learned in the previous set of exercises.

Legal Research

This book provides a bridge between the introductory research methods books and the discipline-specific, higher level texts. Its unique feature is the coverage of the detailed process of research rather than the findings of research projects. Chapter authors have been carefully selected by their expertise, discipline and location to give an eclectic range of perspectives. Particular care has been taken to balance positivist with interpretivist approaches throughout. The authors focus is on the practical consequences of research philosophies, strategies and techniques by using their own research and by evaluating the work of others. *Advanced Research Methods in the Built Environment* addresses common topics raised by postgraduate level researchers rather than dealing with all aspects of the research process. Issues covered range from the practicalities of producing a journal article to the role of theory in research. The material brought together here provides a valuable resource for the training and development of doctoral and young researchers and will contribute to a new sense of shared methodological understanding across built environment research.

Law Librarianship in the Digital Age

The Grants Register 2023 is the most authoritative and comprehensive guide available of postgraduate and professional funding worldwide. It contains international coverage of grants in almost 60 countries, both English and non-English speaking; information on subject areas, level of study, eligibility and value of awards; and information on over 6,000 awards provided by over 1,300 awarding bodies. Awarding bodies are arranged alphabetically with a full list of awards to allow for comprehensive reading. The Register contains full contact details including telephone, fax, email and websites as well as details of application procedures and closing dates. It is updated annually to ensure accurate information.

Fairy Tales: A Tract with TheRpgMinx - Fairy Tales: A Tract with TheRpgMinx by Just Jake 146,919 views 8 years ago 31 minutes - Hugo, Jake, and Minx try to figure out how Santa Claus makes **people**, terrorists. Check out Minx!

Let's go back in time and watch Harry's childhood

Harry, guess what? Santa Claus is coming to town! L

Jesus is real! He's no fairy tale. He's the most important person in the universe

When Jesus left heaven to come to this dark sin-cursed earth. He was 'The Light Of The World'..

When Jesus healed the blind and raised the dead, the religious crowd feared and hated Him.

10 years after his release from juvenile hall, Harry made the 10 Most Wanted List of the F.B.I.

Remember me Harry?

Real Science Exchange: Maintenance of Health in the Ruminant Digestive Tract - Real Science Exchange: Maintenance of Health in the Ruminant Digestive Tract by BalchemANH 476 views 3 years ago 57 minutes - Real Science Exchange- Episode 9 Maintenance of Health in the Ruminant Digestive **Tract**, Guest: Dr. Brian Aldridge, University of ...

A central theme for the discussion is Dr. Aldridge's way of thinking; when we see an issue, such as intestinal problems, we think of bugs rather than thinking about the animals themselves. Pathogens very often are the manifestation of poor health rather than the cause of poor health.

Dr. Aldridge introduces the idea of a healthy phenotype and a resistant phenotype.

While learning about genetics and discussing various factors, Dr. Aldridge brings it back to the basic formula of phenotype = genetics x environment x time.

The group discussed natural stressors from a changing environment. Dr. Aldridge dove into research that examines the need to build the relationship between human caretakers and, in the case of the discussion, cattle.

While the industry often seeks out standard protocols or key performance indicators, KPIs, it's not always as easy as a set approach to management that works across the industry.

Diets play a big part in animal health, but Dr. Aldridge discusses how your dietary approach can also support the resistant phenotypes.

Dr. Aldridge answers questions from the lecturer audience, and the discussion includes diving into the outcome from a disease is determined by the extent and duration of the pathology.

Structural Engineer's Pocket Book British Standards Edition

* British Standards Edition, as a companion to the more recent Eurocode third edition *Time-saving, affordable, first-point-of-reference for structural and civil engineers * Brings together data from many sources into a compact, easy-to-use format * On-the-job rules of thumb to design specifications

BOTH MANUALS: Approved for public release; distribution unlimited. **DESCRIPTION.** This manual contains the complete operating instructions and procedures for UH-60A, UH-60Q, UH-60L, and EH-60A helicopters. The primary mission of this helicopter is that of tactical transport of troops, medical evacuation, cargo, and reconnaissance within the capabilities of the helicopter. The observance of limitations, performance, and weight and balance data provided is mandatory. The observance of procedures is mandatory except when modification is required because of multiple emergencies, adverse weather, terrain, etc. Your flying experience is recognized and therefore, basic flight principles are not included. **IT IS REQUIRED THAT THIS MANUAL BE CARRIED IN THE HELICOPTER AT ALL TIMES.**

Manual ...

Jamgön Kongtrul Lodrö Taye presents practical teachings from a variety of Tibetan Buddhist traditions in this volume of The Treasury of Precious Instructions. The Treasury of Precious Instructions by Jamgön Kongtrul Lodrö Taye, one of Tibet's greatest Buddhist masters, is a shining jewel of Tibetan literature, presenting essential teachings from the entire spectrum of practice lineages that existed in Tibet. In its eighteen volumes, Kongtrul brings together some of the most important texts on key topics of Buddhist thought and practice as well as authoring significant new sections of his own. In this, the eighteenth volume, Kongtrul expands on The One Hundred and Eight Guidebooks, a collection of teaching manuals compiled by the sixteenth-century Tibetan master Kunga Drolchok, adding Indic source texts, Tibetan antecedents, and later interpretations. Though compiled by a Jonangpa abbot and transmitted by the Jonang tradition, these teaching manuals are actually drawn from the Kadam, Sakya, Kagyu, and, to a lesser extent, Nyingma traditions. They are succinct and impart practical wisdom, as transmitted by key figures like Kunga Chogdrub and Lowo Khenchen Sonam Lhundrub. Gyurme Dorje, the translator, provides extensive notes and helpful context throughout. The resulting volume preserves and integrates the diverse lineages of Tibetan Buddhism while providing useful advice to practitioners.

Manuals Combined: M998 Army HMMWV HUMMER HUMVEE Repair Operator Parts Technical Publication

Over 1,000 total pages INTRODUCTION 1-1.1 Purpose. This chapter provides a general history of the development of military diving operations. 1-1.2 Scope. This chapter outlines the hard work and dedication of a number of individuals who were pioneers in the development of diving technology. As with any endeavor, it is important to build on the discoveries of our predecessors and not repeat mistakes of the past. 1-1.3 Role of the U.S. Navy. The U.S. Navy is a leader in the development of modern diving and underwater operations. The general requirements of national defense and the specific requirements of underwater reconnaissance, demolition, ordnance disposal, construction, ship maintenance, search, rescue and salvage operations repeatedly give impetus to training and development. Navy diving is no longer limited to tactical combat operations, wartime salvage, and submarine sinkings. Fleet diving has become increasingly important and diversified since World War II. A major part of the diving mission is inspecting and repairing naval vessels to minimize downtime and the need for dry-docking. Other aspects of fleet diving include recovering practice and research torpedoes, installing and repairing underwater electronic arrays, underwater construction, and locating and recovering downed aircraft.

Bureau of Ships Manual

Over 1,300 total pages 14086A Electronics Technician, Volume 1 Safety and Administration 'This is the first volume in the ET Training Series. Covers causes and prevention of mishaps, handling of hazardous materials; identifies the effects of electrical shock; purpose of the tag-out bill and personnel responsibilities, documents, and procedures associated with tag out; and identifies primary safety equipment associated with ET work. Provides an overview of general and technical administration and logistics. Included are descriptions of forms and procedures included in the Maintenance Data System (MDS) and publications that should be included in a ship's technical library. Also included is a basic description of the Naval Supply System and COSAL. This volume combines the previous ET volumes 1 & 2 and has been updated. 14087 ELECTRONICS TECHNICIAN, VOLUME 02--ADMINISTRATION OBSOLETE: no further enrollments allowed. Provides an overview of general and technical administration and logistics. Included are descriptions of forms and procedures included in the Maintenance Data System (MDS) and publications that should be included in a ship's technical library. Also included is a basic description of the Naval Supply System and COSAL. 14088 ELECTRONICS TECHNICIAN, VOLUME 03--COMMUNICATIONS SYSTEMS Provides operations-related information on Navy communications systems including SAS, TEMPEST, satellite communications, Links 11, 4-A, and 16, the C2P system, and a basic introduction to local area networks (LANs). 14089 ELECTRONICS TECHNICIAN, VOLUME 04--RADAR SYSTEMS Provides a basic introduction to air search, surface search, ground-controlled approach, and carrier controlled approach RADAR systems. Included are basic terms associated with RADAR systems, descriptions of equipment that compose the common systems, descriptions of RADAR interfacing procedures and equipment, and primary radar safety topics. 14090 ELECTRONICS TECHNICIAN, VOLUME 05--NAVIGATION SYSTEMS Introduces the

primary navigation systems used by U.S. Navy surface vessels. It provides a basic introduction to and explanation of the Ship's Inertial Navigation System (SINS), the U.S. Navy Navigation Satellite System (NNSS), and the NAVSTAR Global Positioning System (GPS) and associated equipment. It then provides an introduction to and explanation of the Tactical Air Navigation system (TACAN) and its associated equipment. The information provided is written at an introductory level and is not intended to be used by technicians for diagnoses or repairs. 14091 ELECTRONICS TECHNICIAN, VOLUME 06--DIGITAL DATA SYSTEMS Covers the following subject matter on computers and peripherals: fundamentals and operations, configurations and hardware, operator controls and controlling units, components and circuits, central processing units and buses, memories, input/output and interfacing, instructions and man/machine interfaces, magnetic tape storage, magnetic disk storage, CD-ROM storage, printers, data conversion devices and switchboards. 14092 ELECTRONICS TECHNICIAN, VOLUME 07--ANTENNAS AND WAVE PROPAGATION Covers a basic introduction to antennas and wave propagation. It includes discussions about the effects of the atmosphere on rf communications, the various types of communications and radar antennas in use today, and a basic discussion of transmission lines and waveguide theory. 14093 ELECTRONICS TECHNICIAN, VOLUME 08--SUPPORT SYSTEMS Provides a basic introduction to support systems: liquid cooling, dry air, ac power distribution, ship's input, and information transfer. It includes discussions on configuration, operation and maintenance of these systems.

Guide for Assembling New Federal Personnel Manuals

Over 1,600 total pages ... 14097 FIRE CONTROLMAN SUPERVISOR Covers Fire Controlman supervisor responsibilities, organization, administration, inspections, and maintenance; supervision and training; combat systems, subsystems, and their maintenance; and weapons exercises. 14098 FIRE CONTROLMAN, VOLUME 01, ADMINISTRATION AND SAFETY Covers general administration, technical administration, electronics safety, and hazardous materials as they pertain to the FC rating. 14099A FIRE CONTROLMAN, VOLUME 02--FIRE CONTROL SYSTEMS AND RADAR FUNDAMENTALS Covers basic radar systems, fire control systems, and radar safety as they relate to the Fire Controlman rating. 14100 FIRE CONTROLMAN, VOLUME 03--DIGITAL DATA SYSTEMS Covers computer and peripheral fundamentals and operations, configurations and hardware, operator controls and controlling units, components and circuits, central processing units and buses, memories, input/output and interfacing, instructions and man/machine interfaces, magnetic tape storage, magnetic disk storage, CD-ROM storage, printers, data conversion devices, and switchboards. 14101 FIRE CONTROLMAN, VOLUME 04--FIRE CONTROL MAINTENANCE CONCEPTS Introduces the Planned Maintenance System and discusses methods for identifying and isolating system faults, liquid cooling systems used by Fire Controlmen, battery alignment (purpose, equipment, and alignment considerations), and radar collimation. 14102 FIRE CONTROLMAN, VOLUME 05--DISPLAY SYSTEMS AND DEVICES Covers basic display devices and input devices associated with Navy tactical data systems as used by the FC rating. 14103 FIRE CONTROLMAN, VOLUME 06--DIGITAL COMMUNICATIONS Covers the fundamentals of data communications, the Link-11 and Link-4A systems, and local area networks. 14104A FIREMAN Provides information on the following subject areas: engineering administration; engineering fundamentals; the basic steam cycle; gas turbines; internal combustion engines; ship propulsion; pumps, valves, and piping; auxiliary machinery and equipment; instruments; shipboard electrical equipment; and environmental controls.
