Household Words

The history of St. Augustine, Florida may be wrong. Native Americans from one North Florida tribe are said to have lived for centuries due to the inexplicable power of a mysterious source of water. Some say this is not true. Early explorers went in search of this Fountain of Youth only to come back disappointed. Still, the Fountain did indeed exist. Young Lt. Stephen Hathorne, shipwrecked in Spanish La Florida in 1808 will discover the secrets of this tribe if he can survive the trip. Indeed, he discovers that he and his own family are responsible for their very existence! Traveling through threads of time's sensitive fabric, Stephen and his new-found love will have to face many dangers: pirates, zealots, slavers, and a madman from the future before they can find peace in the past. In this story,

four time periods of the beautiful and exotic Floridian town of St. Augustine are explored. Although a sci-fi romance, lovers of history will be thrilled at the meticulous detail.

Household Words :

Triumph of Hope From Theresienstadt and Auschwitz to Israel Now available in English, here is the award-winning and internationally acclaimed testament of a Jewish woman who was taken to Auschwitz while several months pregnant, where she was forced to confront perhaps the most agonizing choice ever imposed upon any woman, upon any human being, so that both she and her newborn infant should not die in a Nazi "medical" experiment personally conducted by the infamous Dr. Josef Mengele. And just as vividly, Ruth Elias recounts the aftermath of her imprisonment, and the difficult path to a new life in a new land: Israel, where new challenges, new obstacles awaited. "One of the most powerful memoirs provided to us by a survivor." --Indiana Jewish Post and Opinion "Well-written...not only provides a remarkably honest picture of the unspeakable reality of living in ghettos and slave-labor and death camps, but also what it meant to be Jewish in Europe in the 1920s and 1930s...This is one of the best Holocaust memoirs I have read." --Washington Jewish Week "The understated tone of this memoir adds to the author's powerful re-creation of her life as a young Czechoslovak Jewish woman during the Holocaust." --Publishers Weekly

A New Discovery; Or, Provision in Our Nervous System for the Continuance of Youth. (The Tree of Life and Its Angel Guard [in Verse].)

After a half-century of activism, John McConnell, the true founder of Earth Day, here relates his global promotion of peace, justice, and Earth care. Following the Kennedy assassination, McConnell's Minute for Peace gained worldwide attention. This led to his Earth Day and other initiatives aimed at promoting people and planet. In this book, he shares the views that garnered support during the environmental movement from 1969 onward, and that have inspired followers for forty years at annual Earth Day ceremonies at the UN and cities across the globe. John McConnell coined the term Earth Day in 1968, proposed its celebration on the spring equinox to the City of San Francisco in October 1969, and announced it in November at a UNESCO Conference. The City responded by hosting the first Earth Day on March 21, 1970. Margaret Mead, UN Secretary-General U Thant, President Ford, and thirty-three Nobel laureates supported McConnell's Earth Day, and thirty-six worldwide dignitaries signed McConnell's Earth Day Proclamation, supporting Earth Day on the spring equinox, an annual planetary holiday linking people everywhere without regard to politics, culture, national border, or religion. In 1957, after Sputnik, McConnell promoted the Star of Hope, a satellite devoted to peace. This effort sparked his origination of Earth Day, the Earth Flag, Earth Trustees, and the Earth Magna Charta. He worked with UN officials and other leaders to overcome differences and build common ground for peace, aiming to ensure our planet's future and human survival. This book chronicles his global mission, his life journey, and his unique contributions toward a peaceful and cherished planet.

The Stars of Christmas

A must-have for every quilter: the ultimate pattern resource, with an astounding 5,500 blocks. With 5,500 blocks to copy, adapt, and combine in countless ways, no quilter will ever have to run out of patterns anymore. Some designs are classics and taken from museum collections, handed from friend to friend, or kept in a family for many years. Each pattern is drawn on a grid showing the number of squares to the block which makes it easy to mix-and-match, because they all draft to the same size. The dazzling choices include a Premium Star, Double Pyramid, Strips and Squares, Farmer's Puzzle, Sunburst, Beggar's Blocks, and countless more. They're arranged by type--including 4-, 5-, and 9-patch patterns; circles and curves; octagons; diamonds; and 8-point stars--and all indexed alphabetically by name. There's even information on each block's source. As a special bonus Maggie Malone has included a section of Alphabet Patch Patterns to use for personalizing every block. No quilter can do without this book.
