Southward Ho!

Excerpt from Southward Ho: And Other Essays As I crossed the swing bridge I saw, lying in her accustomed berth, the schooner Eastre, as I had seen her many times on her periodical visits, for this corner berth seemed hers by historic right, like the berths of the Dutch eel-schuyts in the Pool of London by Billingsgate Wharf. She looked just the same as ever, neither older nor younger, indeed She had reached that age when time seems to pass by unheeding and unheeded, as is often the case with hearty old women. Her grey mainsail apped loosely and untidily, with its square brown patch in the right-hand corner, as it always did when She was in dock; and her blue-jerseyed crew were disembarking her fami liar cargo of bundles of boardlike salted fish. Her sides, as usual, were almost guiltless of paint, and inclined to portliness; they bulged, unnaturally for a schooner, from a square stern, on which was painted in yellow letters on a blue ground. Entries are alphabetically arranged by author with copious notes on the condition and binding of each copy. Nine appendices provide listings of selected periodicals, series publications, anthologies, yearbooks, and topical works.

Five Millennia of Prescriptions for Spiritual Healing

A Bookman's Catalogue Vol. 1 A-L

The English Theatrical Avant-Garde, 1900–1925 unearths an extensive range of hitherto forgotten or ignored theatre practices. In doing so it reveals some of the well-known figures of the early twentieth-century English theatre in a strikingly new light. It fluently describes an intensity of innovation and experiment that together made the Edwardian theatre rather more radical, and rather more

queer, than we've ever thought. Where the majority of writing on the early twentieth-century theatrical avant-garde is concerned with European movements and experiments, English activity of the period is often seen as parochial and conservative – mainly realism and issues-based drama. This book presents a new model of how avant-gardes might work; a model based not on masculine individualism but on communal inclusion. In describing this fascinating material, the author introduces us to many new figures and shows familiar ones in different ways: there's Florence Farr, independent woman; Bob Trevelyan, radical pacifist and music drama pioneer; Granville Barker doing fairy plays while de-dramatising drama; Laurence Housman, socialist, homosexual, scripting *St Francis*; and the oddly modern J.M. Barrie. Together they made theatre practices rich in their diversity but consistent in their attempt to be new, producing a theatrical avant-garde unlike any other. This is a vital and indispensable new study for scholars and students of early twentieth-century theatre in England and beyond.

Wisdom for the Soul

Philip Waller explores the literary world in which the modern best-seller first emerged, with writers promoted as stars and celebrities, advertising both products and themselves.

The English Theatrical Avant-Garde 1900-1925

The City is the best, funniest, saddest, and most thought-provoking compilation ever assembled on the urban scene. James A. Clapp has arranged more than three thousand quotations—epigrams, epithets, verses, proverbs, scriptural references, witticisms, lyrics, literary references, and historical observations—on urban life from antiquity until the present. These quotes are drawn from the written and spoken words of more than one thousand writers throughout history. This volume, with contributions from speakers, poets, song writers, politicians philosophers, scientists, religious leaders, historians, social scientists, humorists, architects, journalists, and travelers from and to many lands is designed to be used by writers, speechmakers, students, and scholars on cities and urban life. Clapp's text is striking for its sharp contrasts of urban and rural life and the urbanization process in different historical times and geographical areas. This second edition includes four hundred new entries, updated birth dates and occupations of quoted authors, and an expanded and updated introduction and preface. Clapp also added new introduction pages for each section containing pictures and unique quotations. The indexes have also been expanded to include more subjects and cities. The scope of this book is international, including entries on most major and many minor cities of the world. It is noteworthy for its pleasures as well as its insights.

The City

Excerpt from *Southward Ho: Notes of a Four to and Through the State of Gorgia in the Winter of 1885-6* Slow; that-bewildering wilderness of bricks and chimney-pots, dust and smoke, with its four or five millions of men, women, and children, every one of whom has, actively or passively, to conjugate each day the verb to be, to do, or to suffer, - leaving that centre of world-wide commerce and correspondence, that Babylon, Athens, Rome, and Jerusalem all in one; that aggregate. The City, Second Edition

Inspects the allure of books, their curative and restorative properties, and the passion for them that leads to bibliomania. This title comments on why we read, where we read - on journeys, at mealtimes, on the toilet (this has 'a long but mostly unrecorded history'), in bed, and in prison - and what happens to us when we read.
