Six Centuries of English Literature-Vol II

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

A Short History of English Literature

This book guides through some six centuries of English literature, beginning with Chaucer's time, and goes on to analyse the background, interconnections and major achievements of individual writers in each period. It is useful to the student of English literature and to the general reader.

ENGLISH ANTHOLOGY OF PROSE & P

As "the English Athens," Oxford has long been seen as central to England's intellectual life. For over six centuries the city has been lauded, slighted, and cited in the pages of English literature. While it has been hailed as the embodiment of excellence, beauty, and truth on the one hand, it has also been attacked for its elitism, insularity, and traditionalism on the other. *Oxford in English Literature* provides for the first time an overview of these literary representations, ranging from Chaucer's account of medieval students to modern-day detective stories set in the city. The book begins with the early university, possibly founded by an eighth-century princess named Frideswide. The volume moves on through the Middle Ages with Chaucer's clerks and Foxe's martyrs. *Oxford in English Literature* touches on more recent centuries with Lewis Carroll and Alice in Wonderland, Matthew Arnold, Max Beerbohm and Evelyn Waugh, and the "Infamous St. Oscar." Following the rise of the colleges, the literature becomes characterized by a sense of insulation, for the closed collegiate structure led to elitism and eccentricity. The notion of the university as a paradise of youth, beauty, and intelligence led to the so-called Oxford myth and the backlash against it after World War II. The underlying argument of John Dougill's work is that the defining symbol of Oxford is not so much the dreaming spire as the college wall. In Oxford literature the college is depicted as a world of its own--secluded, conservative, and eccentric, driven by its own rituals. Idealized, it becomes a cloistered utopia, an Athenian city-state, a fantasy wonderland, or an Arcadian idyll. Exclusivity led to resentment from those on the outside, as is evident in Thomas Hardy's *Jude the Obscure*. With the advent of democratic and egalitarian values in the twentieth century, the privilege and elitism of the university has come under increasing attack, as has the whole notion of the "English Athens." *Oxford in English Literature* is aimed at the general reader interested in the literature and history of a very unusual town. Its familiar subject and the inclusion of numerous rare and specially commissioned illustrations and photographs make this a compelling book. John Dougill is Associate Professor of English Literature, Ryukoku University, Kyoto, Japan. He is an Oxford graduate and author of *The Writers of English Literature*.

ENGLISH ANTHOLOGY OF PROSE & P

There is but one study more interesting than the history of literature, and that is the study of literature itself. That the former should often be mistaken for the latter is scarcely to be wondered at when we consider the intimate and almost indivisible relationship existing between them. Yet, in truth, they are as capable of separate consideration as are music and the history of music. Oxford in English Literature

Excerpt from An English Anthology of Prose and Poetry: Shewing the Main Stream of English Literature Through Six Centuries (14th Century-19th Century) The plan Of this book is simple, but it is believed to be new. My object has been not to supply one more portable collection of gems, but to show the progress of the English language and literature as the gradual gathering of many tributaries into one stream, or of many characters and influences into one great national concourse. In attempting this I found at once that three conditions imposed themselves. The selection must include both prose and verse and it must treat upon the same footing all printed work of interest, whether scientific, philosophical, political or creative. But thirdly, an arrangement must be devised by which the reader should be enabled to follow the stream continuously, to trace without confusion the entrance and effect of the gathering influences. It has generally been the custom in making a volume of selections to place the authors according to their dates of birth but from my point of view this was too mechanical an arrangement and would often introduce confusion where it was a chief object to be clear. The moment of birth is not the moment of a great writer's entry into the world of thought: nor is it possible to fix any age at which genius or literary influence may be said in general to take effect. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

Six Centuries of English Poetry

Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

English Social History

Excerpt from Six Centuries of English Poetry; Tennyson to Chaucer: Typical Selections From the Great Poets The extracts given at the beginning of each Century will serve to keep in mind the leading peculiarities which distinguished the poetry of each period; and the lists of poets and their works will be found valuable for purposes of reference. Before beginning the study of the selections both teacher and pupils should read this Introduction carefully. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

Six Centuries of English Poetry

Book Excerpt: can't serve as exhaustive aids. The pupil should, so far as possible, investigate for himself and make his own discoveries. Questions concerning the derivation of words and the syntax of sentences are to be discussed only so far as they will aid in the understanding of some passage or of the piece as a whole. 5. Learn some of the most important facts connected with the author's life. What were the conditions under which he wrote this piece? What was the character of his education and of the other influences which shaped his life and distinguished his works? Learn what some of the leading critics have said concerning his works as a poet. 6. Finally, read the poem again, as a whole, and discuss its qualities as a work of literary art, and again point out its distinctive beauties and characteristic excellences. The extracts given at the beginning of each Century will serve to keep in mind the leading peculiarities which distinguished the poetry of each period; and the lists of poets and the Read More

Six Centuries of English Poetry: Tennyson to Chaucer

In all six of its volumes The Broadview Anthology of British Literature presents British literature in a truly distinctive light. Fully grounded in sound literary and historical scholarship, the anthology takes a fresh approach to many canonical authors, and includes a wide selection of work by lesser-known writers. The anthology also provides wide-ranging coverage of the worldwide connections of British literature, and it pays attention throughout to issues of race, gender, class, and sexual orientation. It includes comprehensive introductions to each period, providing in each case an overview of the historical and cultural as well as the literary background. It features accessible and engaging headnotes for all authors, extensive explanatory annotations throughout, and an unparalleled number of illustrations and contextual materials, offering additional perspectives both on individual texts and on larger social and cultural developments. Innovative, authoritative, and comprehensive, The Broadview Anthology of British Literature embodies a consistently fresh approach to the study of literature and literary history. The full Broadview Anthology of British Literature comprises six bound volumes, together with an extensive website component; the latter has been edited, annotated, and designed according to the same high standards as the bound book component of the anthology, and is accessible through the broadviewpress.com website by using the passcode obtained with the purchase of one or more of the bound volumes. Highlights of Volume 6: The Twentieth Century and Beyond include: Joseph Conrad's "The Secret Sharer," "An Outpost of Progress," an essay on the Titanic, and a substantial range of background materials, including documents on the exploitation of central Africa that set "An Outpost of Progress" in vivid context; and a large selection of late twentieth and early twenty-first century writers such as Ian McEwan, Kazuo Ishiguro, and Zadie Smith. For the convenience of those whose focus does not extend to the full period covered in the final volume of The Broadview Anthology of British Literature (Volume 6: The Twentieth Century and Beyond), that volume is now available either in its original one-volume format or in this alternative two-volume format, with Volume 6a (The Early Twentieth Century) extending to the end of WWII, and Volume 6b (The Late Twentieth Century and Beyond) covering from WWII into the present century.

The full anthology comprises six bound volumes, together with an extensive website component; the latter has been edited, annotated, and designed according to the same high standards as the bound book component of the anthology, and is accessible by using the passcode obtained with the purchase of one or more of the bound volumes. For the second edition of this volume a considerable number of changes have been made. Henry Fielding's *Tragedy of Tragedies* has been added, as has a new section of material from eighteenth-century periodicals. A new Contexts section entitled "Transatlantic Currents" includes writings by such figures as Paine, Franklin, and Price, as well as material on the slave trade. The Contexts sections on "Town and Country" and on "Mind and God, Faith and Science" have also been expanded; a variety of writings on the Royal Society and other scientific matters have been added to the latter. Additional chapters from Equiano's *Interesting Narrative* have been added, and there are new selections by Samuel Johnson (including his "Letter to Lord Chesterfield" and facsimile pages from the Dictionary). Book 3 from *Gulliver's Travels* has been added; that work now appears in its entirety. There are also additional selections by Pope, Pepys, and Astell. *The Castle of Otranto* and *The Wivings* have been moved from the bound book to the website component of the anthology. (Both are available as volumes in the Broadview Editions series, and may be added at a very modest additional cost in a shrink-wrapped combination package.)

An English Anthology of Prose and Poetry, Shewing the Main Stream of English Literature Through Six Centuries.(14th Century-19th Century)

Now available in paperback, this is the first full-scale history of early modern English literature in nearly a century. It offers new perspectives on English literature produced in Britain between the Reformation and the Restoration. While providing the general coverage and specific information expected of a major history, its twenty-six chapters address recent methodological and interpretive developments in English literary studies. The book has five sections: Modes and Means of Literary Production, Circulation, and Reception, The Tudor Era from the Reformation to Elizabeth I, The Era of Elizabeth and James VI, The Earlier Stuart Era, and The Civil War and Commonwealth Era. While England is the principal focus, literary production in Scotland, Ireland and Wales is treated, as are other subjects less frequently examined in previous histories, including women's writings and the literature of the English Reformation and Revolution. This innovatively-designed history is an essential resource for specialists and students.

The Broadview Anthology of British Literature Volume 6B: The Twentieth Century and Beyond: From 1945 to the Twenty-First Century

Innovative, authoritative and comprehensive, The Broadview Anthology of British Literature has established itself as a leader in the field. The full anthology comprises six bound volumes, together with an extensive website component; the latter has been edited, annotated, and designed according to the same high standards as the bound book component of the anthology, and is accessible by using the passcode obtained with the purchase of one or more of the bound volumes. These two volumes provide an overview of British literature in its social and historical context from the Anglo-Saxon period through to the twenty-first century. They trace literary developments in all genres, and touch as well on key developments in the history of the language and the history of print culture. And they provide essential historical background for those unfamiliar with the unfolding of British political, social, economic, and cultural history during each of the six periods into which the study of British literature is commonly divided (The Medieval Period, The Renaissance and Early Seventeenth Century, The Restoration and the Eighteenth Century, The Age of Romanticism, The Victorian Era, The Twentieth

Century and Beyond). Included are a wide variety of illustrations, including 24 pages of color plates in each volume. The material for *British Literature: A Historical Overview* has been drawn from the general introductions to the six volumes of the acclaimed Broadview Anthology of British Literature. A Historical Overview, Volume B is also available; this covers the age of Romanticism through the twentieth century and beyond.

Six Centuries of English Poetry [From] Tennyson to Chaucer

This volume charts the rise of professional women writers across diverse fields of intellectual enquiry and through different modes of writing in the period immediately before and during the reign of Queen Victoria. It demonstrates how, between 1830 and 1880, the woman writer became an agent of cultural formation and contestation, appealing to and enabling the growth of female readership while issuing a challenge to the authority of male writers and critics. Of especial importance were changing definitions of marriage, family and nation, of class, and of morality as well as new conceptions of sexuality and gender, and of sympathy and sensation. The result is a richly textured account of a radical and complex process of feminization whereby formal innovations in the different modes of writing by women became central to the aesthetic, social, and political formation of British culture and society in the nineteenth century.

The Broadview Anthology of British Literature Volume 6: The Twentieth Century and Beyond

This Is A New Release Of The Original 1892 Edition.

British Literature: A Historical Overview, Volume B

In all six of its volumes The Broadview Anthology of British Literature presents British literature in a truly distinctive light. Fully grounded in sound literary and historical scholarship, the anthology takes a fresh approach to many canonical authors, and includes a wide selection of work by lesser-known writers. The anthology also provides wide-ranging coverage of the worldwide connections of British literature, and it pays attention throughout to issues of race, gender, class, and sexual orientation. It includes comprehensive introductions to each period, providing in each case an overview of the historical and cultural as well as the literary background. It features accessible and engaging headnotes for all authors, extensive explanatory annotations, and an unparalleled number of illustrations and

contextual materials. Innovative, authoritative and comprehensive, The Broadview Anthology of British Literature has established itself as a leader in the field. The full anthology comprises six bound volumes, together with an extensive website component; the latter has been edited, annotated, and designed according to the same high standards as the bound book component of the anthology, and is accessible by using the passcode obtained with the purchase of one or more of the bound volumes. The two-volume Broadview Anthology of British Literature: Concise Edition provides an attractive alternative to the full six-volume anthology. Though much more compact, the Concise Edition nevertheless provides instructors with substantial choice, offering both a strong selection of canonical authors and a sampling of lesser-known works. With an unparalleled number of illustrations and contextual materials, accessible and engaging introductions, and full explanatory annotations, this edition of the acclaimed Broadview Anthology provides concise yet wide-ranging coverage for British literature survey courses. Sylvia Townsend Warner, Stevie Smith, J.M. Coetzee, Eavan Boland, and Zadie Smith are among those given full author entries for the first time. There are also new selections by a number of authors who were already included in the anthology—among them Seamus Heaney, Margaret Atwood, and Carol Ann Duffy. There are new contextual materials as well—including material on “The Natural, the Supernatural, and the Sublime” in the Age of Romanticism section, and material on “The New Art of Photography” in The Victorian Era. The new edition concludes with a new section offering a range of poetry, fiction, and non-fiction prose under the heading “Literature, Politics, and Cultural Identity in the Late Twentieth- and Early Twenty-first Centuries.” The Concise edition will also now include a substantial website component, providing for much greater flexibility. And an increasing number of works from the full six-volume anthology (or from its website component) are being made available in stand-alone Broadview Anthology of British Literature editions. (Tennyson’s *In Memoriam*, for example, which was previously included in these pages, will now be available both as part of a stand-alone Broadview Anthology of British Literature edition of Tennyson’s selected poetry and as part of the website component of the anthology’s Concise Edition.)

British Literature: A Historical Overview, Volume A

In all six of its volumes The Broadview Anthology of British Literature presents British literature in a truly distinctive light. Fully grounded in sound literary and historical scholarship, the anthology takes a fresh approach to many canonical authors, and includes a wide selection of work by lesser-known writers. The anthology also provides wide-ranging coverage of the worldwide connections of British literature, and it pays attention throughout to issues of race, gender, class, and sexual orientation. It includes comprehensive introductions to each period, providing in each case an overview of the historical and cultural as well as the literary background. It features accessible and engaging headnotes for all authors, extensive explanatory annotations, and an unparalleled number of illustrations and contextual materials. Innovative, authoritative and comprehensive, The Broadview Anthology of British Literature has established itself as a leader in the field. The full anthology comprises six bound volumes, together with an extensive website component; the latter has been edited, annotated, and designed according to the same high standards as the bound book component of the anthology, and is accessible by using the passcode obtained with the purchase of one or more of the bound volumes. For the second edition of this volume a number of changes have been made. Elizabeth Gaskell’s “Our Society at Cranford” has been added, as has Anthony Trollope’s “A Turkish Bath.” Charles Dickens is now represented with a number of short selections. The selection of poems by D.G. Rossetti has been expanded considerably (the entire 1870 *House of Life* sequence is included), as has that by Michael Field. A selection of poems by two key figures who also appear in the anthology’s twentieth century volume (Thomas Hardy and W.B. Yeats) is also now included. Several of the Contexts sections in the volume have been expanded—notably “The Place of Women in Society,” which now includes material concerning the Contagious Diseases Acts) and “Britain, Empire, and a Wider World,” which now includes a section on the Great Exhibition of 1851. The volume will also include additional visual material—including four more pages of full color illustrations. Inevitably, some selections have been dropped from the bound book; these will all remain available, however, on the anthology’s website component. The most significant change in that direction is Dickens’s *A Christmas Carol*. As well as remaining available on the website, that work—like *Hard Times*, *Great Expectations*, and approximately 100 other titles from the Victorian period, is available as a stand-alone volume in the Broadview Editions series, and may be added (at little or no additional cost to the student) in a shrink-wrapped combination package.

Six Centuries of English Literature: Chaucer to Spenser, with introductory essay by W.L. Renwick

This deeply researched collection offers a comprehensive introduction to the eighteenth-century trade in street literature – ballads, chapbooks, and popular prints – in England and Scotland. Offering detailed studies of a selection of the printers, types of publication, and places of publication that constituted the cheap and popular print trade during the period, these essays delve into ballads, slip songs, story books, pictures, and more to push back against neat divisions between low and high culture, or popular and high literature. The breadth and depth of the contributions give a much fuller and more nuanced picture of what was being widely published and read during this period than has previously been available. It will be of great value to scholars and students of eighteenth-century popular culture and literature, print history and the book trade, ballad and folk studies, children's literature, and social history.

A Critical Dictionary of English Literature and British and American Authors, Living and Deceased, from the Earliest Accounts to the Latter Half of the Nineteenth Century

In all six of its volumes The Broadview Anthology of British Literature presents British literature in a truly distinctive light. Fully grounded in sound literary and historical scholarship, the anthology takes a fresh approach to many canonical authors, and includes a wide selection of work by lesser-known writers. The anthology also provides wide-ranging coverage of the worldwide connections of British literature, and it pays attention throughout to issues of race, gender, class, and sexual orientation. It includes comprehensive introductions to each period, providing in each case an overview of the historical and cultural as well as the literary background. It features accessible and engaging headnotes for all authors, extensive explanatory annotations throughout, and an unparalleled number of illustrations and contextual materials, offering additional perspectives both on individual texts and on larger social and cultural developments. Innovative, authoritative, and comprehensive, The Broadview Anthology of British Literature embodies a consistently fresh approach to the study of literature and literary history. The full Broadview Anthology of British Literature comprises six bound volumes, together with an extensive website component; the latter has been edited, annotated, and designed according to the same high standards as the bound book component of the anthology, and is accessible through the broadviewpress.com website by using the passcode obtained with the purchase of one or more of the bound volumes. Highlights of Volume 6: The Twentieth Century and Beyond include: Joseph Conrad's "The Secret Sharer," "An Outpost of Progress," an essay on the Titanic, and a substantial range of background materials, including documents on the exploitation of central Africa that set "An Outpost of Progress" in vivid context; and a large selection of late twentieth and early twenty-first century writers such as Ian McEwan, Kazuo Ishiguro, and Zadie Smith. For the convenience of those whose focus does not extend to the full period covered in the final volume of The Broadview Anthology of British Literature (Volume 6: The Twentieth Century and Beyond), that volume is now available either in its original one-volume format or in this alternative two-volume format, with Volume 6a (The Early Twentieth Century) extending to the end of WWII, and Volume 6b (The Late Twentieth Century and Beyond) covering from WWII into the present century.

The History of British Women's Writing, 1830-1880

More than fifty specialists have contributed to this new edition of volume 1 of The Cambridge Bibliography of English Literature. The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis, articulation and coordination that it has been retained in all its essentials for the new edition. The task of the new contributors has been to revise and integrate the lists of 1940 and 1957, to add materials of the following decade, to correct and refine the bibliographical details already available, and to re-shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries.

Six Centuries of English Poetry

In all six of its volumes The Broadview Anthology of British Literature presents British literature in a truly distinctive light. Fully grounded in sound literary and historical scholarship, the anthology takes a fresh approach to many canonical authors, and includes a wide selection of work by lesser-known writers. The anthology also provides wide-ranging coverage of the worldwide connections of British literature, and it pays attention throughout to issues of race, gender, class, and sexual orientation. It includes comprehensive introductions to each period, providing in each case an overview of the historical and cultural as well as the literary background. It features accessible and engaging headnotes for all authors, extensive explanatory annotations, and an unparalleled number of illustrations and contextual

materials. Innovative, authoritative and comprehensive, The Broadview Anthology of British Literature has established itself as a leader in the field. The full anthology comprises six bound volumes, together with an extensive website component; the latter has been edited, annotated, and designed according to the same high standards as the bound book component of the anthology, and is accessible by using the passcode obtained with the purchase of one or more of the bound volumes. For those seeking an even more streamlined anthology than the two-volume Concise Edition, The Broadview Anthology of British Literature is now available in a compact single-volume version. The edition features the same high quality of introductions, annotations, contextual materials, and illustrations found in the full anthology, and it complements an ample offering of canonical works with a vibrant selection of less-canonical pieces. The compact single-volume edition also includes a substantial website component, providing for much greater flexibility. An increasing number of works from the full six-volume anthology (or from its website component) are also being made available in stand-alone Broadview Anthology of British Literature editions that can be bundled with the anthology.
