More effectively meet the diverse literacy needs of the growing Latino population by learning how to evaluate and select quality Latino children's literature. Latinos are the fastest growing and largest ethnic minority in the United States. The number of Latino children is at a historic high. As a result, librarians and teachers in the United States must know how to meet the informational, cultural, and traditional literacy needs of this student demographic group. An ideal way to overcome this challenge is by providing culturally accurate and authentic children's literature that represents the diversity of the Latino cultures. Much more than simply a topical bibliography, this book details both historical and current practices in educating Latino children; explains why having quality Latino children's literature in classrooms and libraries is necessary for the ethnic identity development of Latino children; and offers a historical overview of Latino children's literature in America. Web resources of interest to educators working with Latino children are also included.

Piñatas Y Flores de Papel

In this timely tale of immigration, two cousins learn the importance of family and friendship. A year of discoveries culminates in a performance full of surprises, as two girls find their own way to belong. Mexico may be her parents' home, but it's certainly not Margie's. She has finally convinced the other kids at school she is one-hundred percent American—just like them. But when her Mexican cousin Lupe visits, the image she's created for herself crumbles. Things aren't easy for Lupe, either. Mexico hadn't felt like home since her father went North to find work. Lupe's hope of seeing him in the United States comforts her some, but learning a new language in a new school is tough. Lupe, as much as Margie, is in need of a friend. Little by little, the girls' individual steps find the rhythm of one shared dance, and they learn what "home" really means. In the tradition of *My Name is Maria Isabel*—and simultaneously published in English and in Spanish—Alma Flor Ada and her son Gabriel M. Zubizarreta offer an honest story of family, friendship, and the classic immigrant experience: becoming part of something new, while straying true to who you are.

Dancing Home

A buoyant, breathtaking poem from Juan Felipe Herrera — brilliantly illustrated by Caldecott Honoree Lauren Castillo — speaks to every dreaming heart. Have you ever imagined what you might be when you grow up? When he was very young, Juan Felipe Herrera picked chamomile flowers in windy fields and let tadpoles swim across his hands in a creek. He slept outside and learned to say good-bye to his amiguitos each time his family moved to a new town. He went to school and taught himself to read and write English and filled paper pads with rivers of ink as he walked down the street after school. And when he grew up, he became the United States Poet Laureate and read his poems aloud on the steps of the Library of Congress. If he could do all of that . . . what could you do? With this illustrated poem of endless possibility, Juan Felipe Herrera and Lauren Castillo breathe magic into the hopes and dreams of readers searching for their place in life.

Saturdays and Sundays are very special days for the child in this story. On Saturdays, she visits Grandma and Grandpa, who come from a European-American background, and on Sundays -- los domingos -- she visits Abuelito y Abuelita, who are Mexican-American. While the two sets of grandparents are different in many ways, they also have a great deal in common -- in particular, their love for their granddaughter. While we follow our narrator to the circus and the pier, share stories from her grandparents' pasts, and celebrate her birthday, the depth and joy of both cultures are conveyed in Spanish and English. This affirmation of both heritages will speak to all children who want to know more about their own families and ethnic backgrounds.

First Spanish Reader

Have you ever wanted to learn Spanish and have fun at the same time? Most of the time, teaching books are boring. They always have the same kind of format: Two (sometimes more) people talking about where the library is, or where to find Juan. That's boring, and to be honest, it's not a great way to learn the language (not to mention that they don't always talk about things that you might encounter in your daily life, for example, a judgmental ghost, being the last man on Earth, or maybe find that the love of your life has been stolen). But in this book, I will give you 20 short stories that will range from science fiction to romance, everything in between and sometimes even more. These stories will give you an entire picture of the Spanish language, and how to appreciate the subtlety of the language. The Spanish language is rich, full of small differences between the different countries. Things that might be one way in Argentina might be different in Spain or Mexico. But don't worry, with this book, you will have a firm grasp on the language, and you will be able to understand and have a conversation with any Spanish speaker. After each story, there will be a questionnaire section where you will answer questions about the stories in Spanish. I really suggest to grab a blank page, and write down the answers, or the small assignments that you will be given (don't worry, they won't be long!). Remember to write them in Spanish, so you can practice and use the language. Also, in this section, you will find grammar and fun facts not just from the stories themselves, but from the inspirations behind them, and facts about living

in a Spanish country. I hope you like them. All these stories are written from my heart, and I deeply hope that you will find them funny, mysterious, romantic, or at least entertaining. That's my goal as a writer, and I hope you enjoy your time reading (and learning!) Get your copy now!

Spanish Short Stories

This is an all new version of the popular PARALLEL TEXT series, containing eight pieces of contemporary fiction in the original Spanish and in English translation. Including stories by Fuentes, Molinas, Marquez and Cortazar, this volume gives a fascinating insight into Spanish and Latin American culture and literature as well as providing an invaluable educational tool.

Short Stories in Spanish

Margarita is a girl from two worlds. Her heart lies in Cuba, her mother's tropical island country, a place so lush with vibrant life that it seems like a fairy tale kingdom. But most of the time she lives in Los Angeles, lonely in the noisy city and dreaming of the summers when she can take a plane through the enchanted air to her beloved island. Words and images are her constant companions, friendly and comforting when the children at school are not.

Enchanted Air

In this Hawaiian folk tale, Punia tricks the King of Sharks, the guardian of the lobster cave; three times he brings home fresh lobster for dinner. But each time Punia succeeds, the King of Sharks gets angrier. Will the shark take revenge on Punia, or will Punia's clever tricks make him the hero of his whole village?

Punia and the King of Sharks

Hidden Forest has a new resident. Little Red Hen and her seven little chicks have moved into a cottage and plan to grow a bountiful crop of corn in the nearby field. The problem is that none of the Red Hen's neighbors are willing to help with the hard work. "Not I," says the dog, the goose, and the lazy cat. So Goldilocks, who has heard about the new arrivals from her friend Little Red Riding Hood, comes up with a neighborly idea: Why don't all the residents of Hidden Forest chip in and work on the garden? Better yet, why not make it a surprise? Of course there are a couple of residents who might not be so cooperative. Will Wolfy Lupus and his cousin Fer O'Cious hatch a new plot of their own? Following the highly acclaimed Dear Peter Rabbit and Yours Truly, Goldilocks, Alma Flor Ada and Leslie Tryon offer young readers another peek into the world of their favorite storybook characters, revealed through the charming letters they write to one another.

Henry and Mudge and the Best Day of All

A lyrical biography of a Cuban slave who escaped to become a celebrated poet. Born into the household of a wealthy slave owner in Cuba in 1797, Juan Francisco Manzano spent his early years by the side of a woman who made him call her Mama, even though he had a mama of his own. Denied an education, young Juan still showed an exceptional talent for poetry. His verses reflect the beauty of his world, but they also expose its hideous cruelty. Powerful, haunting poems and breathtaking illustrations create a portrait of a life in which even the pain of slavery could not extinguish the capacity for hope. *The Poet Slave of Cuba* is the winner of the 2008 Pura Belpré Medal for Narrative and a 2007 Bank Street - Best Children's Book of the Year. Latino Interest.

My Papi Has a Motorcycle

Funny Bones tells the story of how the amusing calaveras—skeletons performing various everyday or festive activities—came to be. They are the creation of Mexican artist José Guadalupe (Lupe) Posada (1852–1913). In a country that was not known for freedom of speech, he first drew political cartoons, much to the amusement of the local population but not the politicians. He continued to draw cartoons throughout much of his life, but he is best known today for his calavera drawings. They have become synonymous with Mexico's Día de los Muertos (Day of the Dead) festival. Juxtaposing his own art with that of Lupe's, author Duncan Tonatiuh brings to light the remarkable life and work of a man whose art

is beloved by many but whose name has remained in obscurity. The book includes an author's note, bibliography, glossary, and index.

Funny Bones

A New York Times bestseller that brings to life one of the bloodiest battles of World War II—and the beginning of the end of the Third Reich. On August 5, 1942, giant pillars of dust rose over the Russian steppe, marking the advance of the 6th Army, an elite German combat unit dispatched by Hitler to capture the industrial city of Stalingrad and press on to the oil fields of Azerbaijan. The Germans were supremely confident; in three years, they had not suffered a single defeat. The Luftwaffe had already bombed the city into ruins. German soldiers hoped to complete their mission and be home in time for Christmas. The siege of Stalingrad lasted five months, one week, and three days. Nearly two million men and women died, and the 6th Army was completely destroyed. Considered by many historians to be the turning point of World War II in Europe, the Soviet Army's victory foreshadowed Hitler's downfall and the rise of a communist superpower. Bestselling author William Craig spent five years researching this epic clash of military titans, traveling to three continents in order to review documents and interview hundreds of survivors. *Enemy at the Gates* is the enthralling result: the definitive account of one of the most important battles in world history. It became a New York Times bestseller and was also the inspiration for the 2001 film of the same name, starring Joseph Fiennes and Jude Law.

Enemy at the Gates

Children around the world hear different night sounds before they go to sleep. Asleep approaches, children across the world listen to the noises of the night. Familiar with the sounds surrounding them, they can only imagine what other kids hear as they lie in their beds far, far away. One young boy, camping outside and listening to katydids, dreams about kids just like him, only different. He pictures Maria in Brazil hearing howling monkeys, Habib in Egypt listening to the shifting sand, Meli in Western Samoa hearing squeaking fruit bats ... Such dreams take him through the night and "all the way to morning." Glowing and evocative illustrations depict a journey around the world, capturing and celebrating the wonderful diversity of children everywhere. On a camping trip, a father tells his son what children in other countries such as Israel, Japan, & Kenya hear as they go to sleep at night.

Blue Mountain Ballads

(Vocal Solo). (Words by Tennessee Williams) Contents: Heavenly Grass * Lonesome Man * Cabin * Sugar in the Cane.

O'er the Far Blue Mountain

A definitive collection of poetic works by the eminent playwright features substantial piece variants, poems from his plays, and accompanying explanatory notes, in a volume that is complemented by a CD recording of the author's reading of his Blue Mountain Ballads and other works. Reprint.

The Collected Poems of Tennessee Williams

An appreciation of the rich and distinctive folklife in one of the earliest settled regions in southern Appalachia

Blue Ridge Folklife

The Central Blue Ridge, taking in the mountainous regions of northwestern North Carolina and southwestern Virginia, is well known for its musical traditions. Long recognized as one of the richest repositories of folksong in the United States, the Central Blue Ridge has also been a prolific source of commercial recording, starting in 1923 with Henry Whitter's "hillbilly" music and continuing into the 21st century with such chart-topping acts as James King, Ronnie Bowman and Doc Watson. Unrivalled in tradition, unequalled in acclaim and unprecedented in influence, the Central Blue Ridge can claim to have contributed to the musical landscape of Americana as much as or more than any other region in the United States. This reference work—part of McFarland's continuing series of Contributions to Southern Appalachian Studies—provides complete biographical and discographical information on more than 75 traditional recording (major commercial label) artists who are natives of or lived mostly in the northwestern North Carolina counties of Alleghany, Ashe, Avery, Surry, Watauga and Wilkes, and the southwestern Virginia counties of Carroll and Grayson. Primary recordings as well as appearances on anthologies are included in the discographies. A chronological overview of the music is provided in the Introduction, and the Foreword is by the celebrated musician Bobby Patterson, founder of the Mountain and Heritage record labels.

Traditional Musicians of the Central Blue Ridge

Considers the lives and contributions of 144 significant composers in the field. Includes a general discography, bibliography, and indexes for both titles and poets.

A Singer's Guide to the American Art Song: 1870-1980

Originally published in 1994. Filling a gap in the sound recordings of traditional Anglo-American folk music this volume covers both vocal and instrumental material from the 1920s to the 1990s. The listings have also been limited to performers native to the tradition rather than "revival" performers. The album selection is grouped into field recordings and commercial (pre-1942) recordings, with subdivisions into individual recordings or anthologies. The discography not only reflects its author's in-depth knowledge of Anglo-American folk music's historical development but charts a valuable step forward in the evaluation, as well as select listing, of available sound recordings.

Catalog of Copyright Entries

One of the greatest American dramatists of the 20th century, Tennessee Williams is known for his sensitive characterizations, poetic yet realistic writing, ironic humor, and depiction, of harsh realities in human relationship. His work is frequently included in high school and college curricula, and his plays are continually produced. *Critical Companion to Tennessee Williams* includes entries on all of Williams's major and minor works, including *A Streetcar Named Desire*, *Cat on a Hot Tin Roof*, *The Glass Menagerie*, a novel, a collection of short stories, two poetry collections, and personal essays; places and events related to his works; major figures in his life; his literary influences; and issues in Williams scholarship and criticism. Appendixes include a complete list of Williams's works; a list of research libraries with significant Williams holdings; and a bibliography of primary and secondary sources.

Traditional Anglo-American Folk Music

"Poems [to] convey some of the awe, wonder, and love we feel for this very special 'spot of earth'" --from author's introduction.

Critical Companion to Tennessee Williams

Few writers achieve success in more than one genre, and yet if Tennessee Williams had never written a single play he would still be known as a distinguished poet. The excitement, compassion, lyricism, and humor that epitomize his writing for the theater are all present in his poetry. Tennessee Williams's fame as a playwright has unjustly overshadowed his accomplishment in poetry. This paperback edition of *In the Winter of Cities*—his collected poems to 1962—permits a wider audience to know Williams the poet. The poems in this volume range from songs and short lyrics to personal statements of the greatest intensity and power. They are rich in imagery and illuminated by the psychological intuition which we know so well from Williams's plays.

For her admirers, Dolly Parton, who has appeared on *PEOPLE*'s cover six times, has poured her heart into everything she does, not least the autobiographical songs she writes like "I Will Always Love You" and her aching tribute to her mother "Coat of Many Colors." Generous as an artist and humanitarian, she even helped finance breakthrough research that produced the Moderna vaccination for COVID-19. In this special edition 'Dolly Parton at 75,' it's *PEOPLE*'s turn to pay heartfelt tribute to a classic American entertainer. Inside is a revealing exclusive interview ("I've always been a great lover because I just feel my sensuality, my sexuality, my passion," Parton says), a conversation with her longtime stylist about putting together the iconic Dolly look and an excerpt from 'Dolly Parton, Songteller: My Life in Lyrics.' Happy 75th, Dolly, many happy returns.

Gone to the Country chronicles the life and music of the New Lost City Ramblers, a trio of city-bred musicians who helped pioneer the resurgence of southern roots music during the folk revival of the late 1950s and 1960s. Formed in 1958 by Mike Seeger, John Cohen, and Tom Paley, the Ramblers introduced the regional styles of southern ballads, blues, string bands, and bluegrass to northerners yearning for a sound and an experience not found in mainstream music. Ray Allen interweaves biography, history, and music criticism to follow the band from its New York roots to their involvement with the commercial folk music boom. Allen details their struggle to establish themselves amid critical debates about traditionalism brought on by their brand of folk revivalism. He explores how the Ramblers ascribed notions of cultural authenticity to certain musical practices and performers and how the trio served as a link between southern folk music and northern urban audiences who had little previous exposure to rural roots styles. Highlighting the role of tradition in the social upheaval of mid-century America, *Gone to the Country* draws on extensive interviews and personal correspondence with band members and digs deep into the Ramblers' rich trove of recordings.

American folklife is steeped in world cultures, or invented as new culture, always evolving, yet often practiced as it was created many years or even centuries ago. This fascinating encyclopedia explores the rich and varied cultural traditions of folklife in America - from barn raisings to the Internet, tattoos, and Zydeco - through expressions that include ritual, custom, crafts, architecture, food, clothing, and art. Featuring more than 350 A-Z entries, "Encyclopedia of American Folklife" is wide-ranging and inclusive. Entries cover major cities and urban centers; new and established immigrant groups as well as native Americans; American territories, such as Guam and Samoa; major issues, such as education and intellectual property; and expressions of material culture, such as homes, dress, food, and crafts. This encyclopedia covers notable folklife areas as well as general regional categories. It addresses religious groups (reflecting diversity within groups such as the Amish and the Jews), age groups (both old age and youth gangs), and contemporary folk groups (skateboarders and psychobillies) - placing all of them in the vivid tapestry of folklife in America. In addition, this resource offers useful insights on folklife concepts through entries such as "community and group" and "tradition and culture." The set also features complete indexes in each volume, as well as a bibliography for further research.

Singers are faced with a unique challenge among musicians: they must express not just the music, but the lyrics too. To effectively communicate the meaning behind these words, singers must understand the many references embedded in the vast international repertoire of great art songs. They must deal with the meaning of the lyrics, frequently in a language not their own and of a culture unfamiliar to them. From Zelter and Schubert to Rorem and Musto, *Researching the Song* serves as an invaluable guide for performers, teachers, and enthusiasts to the art song repertoire. Its more than 2,000 carefully researched entries supply information on most of the mythological, historical, geographical, and literary references contained in western art song. The authors explain the meaning of less familiar literary terms, figures, and authors referenced in song while placing songs in the context of larger literary sources. Readers will find entries dealing with art songs from the German, French, Italian, Russian, Spanish, South American, Greek, Finnish, Scandinavian, and both American and British English repertoires. Sources, narratives, and explanations of major song cycles are also given. Organized alphabetically, the lexicon includes brief biographies of poets, lists of composers who set each poet's work, bibliographic materials, and brief synopses of major works from which song texts were taken, including the plots of all Restoration theater works containing Purcell's vocal music. The more performers know and understand the literary elements of a song, the richer their communication will be. *Researching the Song* is a vital aid for singers and teachers in interpreting art songs and building song recital programs.

Gone to the Country

In 1908 John Lomax set out on horseback with an Edison phonograph and wax cylinders to record and preserve America's folk music. He spent the next four decades doing some hard travelling and found over 5,000 songs in Arkansas mountain cabins, Mississippi prison farms, New Orleans saloons, Minnesota lumber camps and Texas cattle camps. He discovered ballads, blues, children's songs, fiddle tunes, field hollers, lullabies, play-party songs, religious dramas, spirituals, and work songs and his recordings inspired generations of musicians from Bob Dylan and Pete Seeger to Billy Bragg and Kurt

Cobain. *Adventures of a Ballad Hunter* is Lomax's own memoir of an eventful life containing vibrant, often haunting, stories of the people he met and recorded, as well as the lyrics for dozens of songs. Lomax describes singers and musicians from Silver Jack and Big Bill Swanson to Lead Belly, he relates the stories behind some of the twentieth-century's most important songs, 'Home on the Range' and 'Goodnight Irene' to 'Rock Island Line' and 'In the Pines'. Discover his trip to Parchman Convict Farm where he first heard 'The Midnight Special' and the funeral home in South Carolina where he heard the spiritual classic 'Honey in the Rock'. *Adventures of a Ballad Hunter* is essential reading for all music fans-from folkies, alt-country to blues and roots music, as well as a perceptive portrait of America's history.

It is said that Bascom Lamar Lunsford would "cross hell on a rotten rail to get a folk song" -- his Southern highlands folk-song compilations now constitute one of the largest collections of its kind in the Library of Congress -- but he did much more than acquire songs. He preserved and promoted the Appalachian mountain tradition for generations of people, founding in 1928 the Mountain Dance and Folk Festival in Asheville, North Carolina, an annual event that has shaped America's festival movement. Loyal Jones pens a lively biography of a man considered to be Appalachian music royalty. He also includes a "Lunsford Sampler" of ballads, songs, hymns, tales, and anecdotes, plus a discography of his recordings.

Roots of a Region reveals the importance of folk traditions in shaping and expressing the American South. This overview covers the entire region and all forms of expression-oral, musical, customary, and material. The author establishes how folklore pervades and reflects the region's economics, history (especially the Civil War), race relations, religion, and politics. He follows with a catalog of those folk-cultural traits-from food and crafts to music and story-that are distinctly southern. The book then explores the Native American and Old World sources of southern folk culture. Two case studies serve as examples to students and as evidence of the author's larger points. The first traces the origins and development of an artifact type, the clay jug; the second examines a place, Georgia, and the relationship of its folklore to the region as a whole. The author concludes by looking to the future of folklife in a region that has lost much of its agrarian base as it modernizes, a future dependent on recent immigration and appreciation of older southern traditions by a largely urban audience. Supporting these explorations are 115 illustrations-sixteen in color-and an extensive bibliography of books on southern folk culture. John A. Burrison is Regents Professor of English and director of the folklore curriculum at Georgia State University. He also serves as curator of the Goizueta Folklife Gallery at the Atlanta History Museum and of the Folk Pottery Museum of Northeast Georgia at Sautee Nacoochee Center. His previous books are *Brothers in Clay: The Story of Georgia Folk Pottery*, *Storytellers: Folktales and Legends from the South*, and *Shaping Traditions: Folk Arts in a Changing South*.

Old Time Mountain Banjo

The first book devoted entirely to women in bluegrass, *Pretty Good for a Girl* documents the lives of more than seventy women whose vibrant contributions to the development of bluegrass have been, for the most part, overlooked. Accessibly written and organized by decade, the book begins with Sally Ann Forrester, who played accordion and sang with Bill Monroe's Blue Grass Boys from 1943 to 1946, and continues into the present with artists such as Alison Krauss, Rhonda Vincent, and the Dixie Chicks. Drawing from extensive interviews, well-known banjoist Murphy Hicks Henry gives voice to women performers and innovators throughout bluegrass's history, including such pioneers as Bessie Lee Mauldin, Wilma Lee Cooper, and Roni and Donna Stoneman; family bands including the Lewises, Whites, and McLains; and later pathbreaking performers such as the Buffalo Gals and other all-girl bands, Laurie Lewis, Lynn Morris, Missy Raines, and many others.

Paul Bowles began travelling the moment he could - leaving America as a teenager to visit Gertrude Stein in Paris. He settled in Morocco after the war, and for thirty years travelled in North Africa, Central America, Southeast Asia, India and Sri Lanka (where he bought an island). He wrote articles, essays and journals along the way - writing which ranks with his novels in its astute observation, dry wit and impeccable prose. *Travels* brings together for the first time Paul Bowles's travel writing and journals. It includes the full text of his book *Their Heads Are Green* along with thirty other pieces, previously unpublished in book form. They are accompanied by fifty photos from the Bowles archive.

James Crissman explores cultural traits related to death and dying in Appalachian sections of Tennessee, Virginia, Kentucky, North Carolina, and West Virginia, showing how they have changed since the 1600s. Relying on archival materials, almost forty photographs, and interviews with more than 400 mountain dwellers, Crissman focuses on the importance of family and "neighborliness" in mountain society. Written for both scholarly and general audiences, the book contains sections on the death watch, body preparation, selection or construction of a coffin or casket, digging the grave by hand, the wake, the funeral, and other topics. Crissman then demonstrates how technology and the

encroachment of American society have turned these vital traditions into the disappearing practices of the past.

From Studio to Stage

Throughout the Upland South, the banjo has become an emblem of white mountain folk, who are generally credited with creating the short-thumb-string banjo, developing its downstroking playing styles and repertory, and spreading its influence to the national consciousness. In this groundbreaking study, however, Cecelia Conway demonstrates that these European Americans borrowed the banjo from African Americans and adapted it to their own musical culture. Like many aspects of the African-American tradition, the influence of black banjo music has been largely unrecorded and nearly forgotten--until now. Drawing in part on interviews with elderly African-American banjo players from the Piedmont--among the last American representatives of an African banjo-playing tradition that spans several centuries--Conway reaches beyond the written records to reveal the similarity of pre-blues black banjo lyric patterns, improvisational playing styles, and the accompanying singing and dance movements to traditional West African music performances. The author then shows how Africans had, by the mid-eighteenth century, transformed the lyrical music of the gourd banjo as they dealt with the experience of slavery in America. By the mid-nineteenth century, white southern musicians were learning the banjo playing styles of their African-American mentors and had soon created or popularized a five-string, wooden-rim banjo. Some of these white banjo players remained in the mountain hollows, but others dispersed banjo music to distant musicians and the American public through popular minstrel shows. By the turn of the century, traditional black and white musicians still shared banjo playing, and Conway shows that this exchange gave rise to a distinct and complex new genre--the banjo song. Soon, however, black banjo players put down their banjos, set their songs with increasingly assertive commentary to the guitar, and left the banjo and its story to white musicians. But the banjo still echoed at the crossroads between the West African griots, the traveling country guitar bluesmen, the banjo players of the old-time southern string bands, and eventually the bluegrass bands. The Author: Cecelia Conway is associate professor of English at Appalachian State University. She is a folklorist who teaches twentieth-century literature, including cultural perspectives, southern literature, and film.

Masterful in its simplicity, *Chronicle in Stone* is a touching coming-of-age story and a testament to the perseverance of the human spirit. Surrounded by the magic of beautiful women and literature, a boy must endure the deprivations of war as he suffers the hardships of growing up. His sleepy country has just thrown off centuries of tyranny, but new waves of domination inundate his city. Through the boy's eyes, we see the terrors of World War II as he witnesses fascist invasions, allied bombings, partisan infighting, and the many faces of human cruelty—as well as the simple pleasures of life. Evacuating to the countryside, he expects to find an ideal world full of extraordinary things, but discovers instead an archaic backwater where a severed arm becomes a talisman and deflowered girls mysteriously vanish. Woven between the chapters of the boy's story are tantalizing fragments of the city's history. As the devastation mounts, the fragments lose coherence, and we perceive firsthand how the violence of war destroys more than just buildings and bridges.

The Autobiography of the People in Verse

It's the late 1940s in Skopje, Yugoslavia, in the critical year leading to Tito's break with Stalin. Pushed to leave mountain villages to become the new proletariat in urban factories, a flood of peasants crowds into Skopje—and with them, all of their goats. Suffering from hunger, Skopje's citizens welcome the newcomers. But municipal leaders are faced with a dilemma when the central government issues an order calling for the slaughter of the country's goat population. With food so scarce, will they hide the outlawed animals? Or will they comply with the edict and endure the bite of hunger? *The Time of the Goats* is the second novel in Luan Starova's acclaimed multivolume Balkan saga. It follows the main characters from *My Father's Books* and the tragicomic events of their lives in Skopje as the narrator's intellectual father and the head goatherd become friends. As local officials clumsily carry out absurd policies, Starova conveys the bonds of understanding and mutual support that form in Skopje's poorest neighborhoods. At once historical and allegorical, folkloric and fantastic, *The Time of the Goats* draws lyrically on Starova's own childhood.

The mathematical sciences are part of nearly all aspects of everyday life-the discipline has underpinned such beneficial modern capabilities as Internet search, medical imaging, computer animation, numerical weather predictions, and all types of digital communications. The *Mathematical Sciences in 2025* examines the current state of the mathematical sciences and explores the changes needed for the discipline to be in a strong position and able to maximize its contribution to the nation in 2025. It finds the vitality of the discipline excellent and that it contributes in expanding ways to most areas of science and engineering, as well as to the nation as a whole, and recommends that training for future generations of mathematical scientists should be re-assessed in light of the increasingly cross-disciplinary nature of the mathematical sciences. In addition, because of the valuable interplay between ideas and people from all parts of the mathematical sciences, the report emphasizes that universities and the government need to continue to invest in the full spectrum of the mathematical sciences in order for the whole enterprise to continue to flourish long-term.

The properties of different steels are described, detailing the effect of composition, processing and heat treatment. Where appropriate an introduction is given to standard specifications and design codes provided on component manufacture and property requirements for successful service performance. The book deals with steel products in some depth, in four chapters covering wide strip, structural steels, engineering and stainless steel grades. At the beginning of each chapter an overview is given which details important features of the grades and a historical perspective of their development. Also featured are up to date information on steel prices and specifications. Northern Albania and Montenegro are the only regions in Europe to have retained a true tribal society up to the mid-twentieth century. This book provides the first scholarly investigation of this tribal society, a pioneer work that offers a detailed survey of all the major Albanian-speaking tribes in Albania, Montenegro and Kosovo. Robert Elsie provides comprehensive material on the 69 different tribes, including data on their locations, religious affiliations, tribal structures and relations, population statistics, tribal folklore, legends and history. Also included are excerpts from the works of prominent nineteenth and early-twentieth century writers, such as Edith Durham and Johann Georg von Hahn, who travelled through the tribal regions, as well as short biographies on prominent figures linked to the tribes. As the first book of its kind, *The Tribes of Albania* will be of interest to scholars and students of the Balkans, of southeastern European anthropology, ethnography and history.

Most of the policy discussion about stimulating innovation has focused on the federal level. This study focuses on the significant activity at the state level, with the goal of improving the public's understanding of key policy strategies and exemplary practices. Based on a series of workshops and conferences that brought together policymakers along with leaders of industry and academia in a select number of states, the study highlights a rich variety of policy initiatives underway at the state and regional level to foster knowledge based growth and employment. Perhaps what distinguishes this effort at the state level is most of all the high degree of pragmatism. Operating out of necessity, innovation policies at the state level often involve taking advantage of existing resources and recombining them in new ways, forging innovative partnerships among universities, industry and government organizations, growing the skill base, and investing in the infrastructure to develop new technologies and new industries. Many of these initiatives are being guided by leaders from the private sector and universities. The objective of *Best Practices in State and Regional Innovation Initiatives: Competing in the 21st Century* is not to do an empirical review of the inputs and outputs of various state programs. Nor is it to evaluate which programs are superior. Indeed, some of the notable successes, such as the Albany nanotechnology cluster, represent a leap of leadership, investment, and sustained commitment that has had remarkable results in an industry that is actively pursued by many countries. The study's goal is to illustrate the approaches taken by a variety of highly diverse states as they confront the increasing challenges of global competition for the industries and jobs of today and tomorrow.

The Tribes of Albania

Besa is a code of honor deeply rooted in Albanian culture and incorporated in the faith of Albanian Muslims. It dictates a moral behavior so absolute that nonadherence brings shame and dishonor on oneself and one's family. Simply stated, it demands that one take responsibility for the lives of others in their time of need. In Albania and Kosovo, Muslims sheltered, at grave risk to themselves and their families, not only the Jews of their cities and villages, but thousands of Jews fleeing the Nazis from

other European countries. Over a five-year period, photographer Norman H. Gershman sought out, photographed, and collected these powerful and moving stories of heroism in *Besa: Muslims Who Saved Jews in World War II*. The book reveals a hidden period in history, slowly emerging after the fall of an isolationist communist regime, and shows the compassionate side of ordinary people in saving Jews. They acted within their true Muslim faith.

Sacrifice and Modern Thought

How to imagine the imagination is a topic that draws philosophers the way flowers draw honeybees. From Plato and Aristotle to Wittgenstein and Sartre, philosophers have talked and written about this most elusive of topics--that is, until contemporary analytic philosophy of mind developed. Perhaps it is the vast range of the topic that has scared off our contemporaries, ranging as it does from mental images to daydreams. The guiding thread of this book is the distinction Colin McGinn draws between perception and imagination. Clearly, seeing an object is similar in certain respects to forming a mental image of it, but it is also different. McGinn shows what the differences are, arguing that imagination is a *sui generis* mental faculty. He goes on to discuss the nature of dreaming and madness, contending that these are primarily imaginative phenomena. In the second half of the book McGinn focuses on what he calls cognitive (as opposed to sensory) imagination, and investigates the role of imagination in logical reasoning, belief formation, the understanding of negation and possibility, and the comprehension of meaning. His overall claim is that imagination pervades our mental life, obeys its own distinctive principles, and merits much more attention.

"THE CODE OF LEKE DUKAGJINI is a great cultural treasure, comparable to the chapters of The Old Testament." "It provides deep insights into the ancient society of the Albanians, their somber dignity & their magnificent sense of honor."--David Binder, The New York Times. "This legal system was established & passed on to future generations as a common law by Leke Dukagjini, a co-fighter of the legendary Skenderbeg." "The 'Besa' or the 'word of honor' as stated in THE CODE OF LEKE DUKAGJINI which means peace & protection to those whom it is given, has become today an important fighting tool in the political struggle of Kosovo's Albanians against Serb oppression."--Victor Meier, The Frankfurter Allgemeine Zeitung. "The legal Code of the Albanians known by them for a thousand years, is one of the most original in the history of mankind. Among the basic pillars of this code are the equality of men before the code & the non-abuse of justice." "The entire essence of the legal code of the Albanians is an unparalleled rigorous respect for this basic principle: non-violation of the dignity of a man- his honor, home, & life."--Ismail Kadare, Albanian writer.

Palimpsest

The decades after 1750 saw the Ottoman Empire undergo tremendous stresses that culminated in the first stirrings of nationalism among Christian subjects and an irrevocable commitment to reform by the Muslim state. By 1830, Serbs and Greeks had fought successfully for autonomy or independence, and Sultan Mahmud II had prepared the way for the Tanzimat by abolishing the Janissary Corps and other discredited institutions. In spite of the importance of this era for both Ottoman and Balkan history, marking as it does the transition from the pre-modern to the modern, scholars have shown remarkably little interest in the factors triggering such important developments. The contributors to this volume examine instances of problems affecting the Balkans and of state efforts to fix them. Issues considered include law and justice, centralization and provincial autonomy, taxation and land disputes, and the stresses of war. The cases studied here should give both the specialist and the general reader a clearer picture of the forces of change at work in the most important region of the empire during this era of transition.

Best Practices in State and Regional Innovation Initiatives

According to Thomas Metzinger, no such things as selves exist in the world: nobody ever had or was a self. All that exists are phenomenal selves, as they appear in conscious experience. The phenomenal self, however, is not a thing but an ongoing process; it is the content of a "transparent self-model." In *Being No One*, Metzinger, a German philosopher, draws strongly on neuroscientific research to present a representationalist and functional analysis of what a consciously experienced first-person perspective actually is. Building a bridge between the humanities and the empirical sciences of the mind, he develops new conceptual toolkits and metaphors; uses case studies of unusual states of mind

such as agnosia, neglect, blindsight, and hallucinations; and offers new sets of multilevel constraints for the concept of consciousness. Metzinger's central question is: How exactly does strong, consciously experienced subjectivity emerge out of objective events in the natural world? His epistemic goal is to determine whether conscious experience, in particular the experience of being someone that results from the emergence of a phenomenal self, can be analyzed on subpersonal levels of description. He also asks if and how our Cartesian intuitions that subjective experiences as such can never be reductively explained are themselves ultimately rooted in the deeper representational structure of our conscious minds.

In a major Contribution to the theory of perception, A.D.Smith presents a truly original defense of direct realism the view that in perception we are directly aware of things in a physical world. It offers two arguments against direct realism-one concerning illusion, and one concerning hallucination that upto now no theory of perception could adequately rebut.At the heart of Smiths theory is a new way of drawing the distinction between perception and sensation alone with an unusual treatment of the nature of object of hallucination .

Kanuni i Lekë Dukagjinit

From Ismail Kadare, winner of the inaugural Man Booker International Prize – a novelist in the class of Coetzee, Pamuk, Márquez, and Rushdie – the stunning new translation of one of his major works. In the early fifteenth century, as winter falls away, the people of Albania know that their fate is sealed. They have refused to negotiate with the Ottoman Empire, and war is now inevitable. Soon enough, dust kicked up by Turkish horses is spotted from a citadel. Brightly coloured banners, hastily constructed minarets, and tens of thousands of men fill the plain below. From this moment on, the world is waiting to hear that the fortress has fallen. The Siege tells the enthralling story of the weeks and months that follow – of the exhilaration and despair of the battlefield, the constantly shifting strategies of war, and those whose lives are held in the balance, from the Pasha himself to the artillerymen, astrologer, blind poet, and harem of women who accompany him. "Believe me," the general said. "I've taken part in many sieges but this," he waved towards the castle walls, "is where the most fearful carnage of our times will take place. And you surely know as well as I do that great massacres always give birth to great books. You really do have an opportunity to write a thundering chronicle redolent with pitch and blood, and it will be utterly different from the graceful whines composed at the fireside by squealers who never went to war." Brilliantly vivid, as insightful as it is compelling, The Siege is an unforgettable account of the clash of two great civilisations, and a portrait of war that will resonate across the centuries.

Infectious diseases continue to pose a substantial threat to the operational capacity of military forces. Protecting Our Forces reviews the process by which the U.S. military acquires vaccines to protect its warfighters from natural infectious disease threats. The committee found that poorly aligned acquisition processes and an inadequate commitment of financial resources within the Department of Defense vaccine acquisition process "rather than uncleared scientific or technological hurdles" contribute

to the unavailability of some vaccines that could protect military personnel and, implicitly, the welfare and security of the nation. Protecting Our Forces outlines ways in which DoD might strengthen its acquisition process and improve vaccine availability. Recommendations, which include combining all DoD vaccine acquisition responsibilities under a single DoD authority, cover four broad aspects of the acquisition process: (1) organization, authority, and responsibility; (2) program and budget; (3) manufacturing; (4) and the regulatory status of special-use vaccines.

Being No One

Launched in May 2000, the aims of the COST C12 cooperative action were: to develop, combine and disseminate new technical engineering technologies to improve the quality of urban buildings to propose new technical solutions to architects and planners to reduce the disturbance caused by construction in urban areas and improve urban quality of life. This volume contains the proceedings of the COST C12 final conference held in Innsbruck, Austria from January 20-22 2005. The book reflects not only the outcome of the four years' work of the cooperative, but also the contributions made by other international experts at the conference, focused on three broad themes: mixed building technology; structural integrity under exceptional actions; and urban design.

The Problem of Perception

1958. In a dorm room in Moscow, a young writer is woken by the sound of angry voices on the radio. Through the fog of a hangover he hears the news that a novel called Doctor Zhivago has earned its author the Nobel Prize. There is uproar. The author, Boris Pasternak, faces exile, the press hound him and demand that he refuse the award. A few days earlier the young writer found a copy of this book - could those simple pages really be so dangerous? Based on Ismail Kadare's own experience, *Twilight of the Eastern Gods* is a fictionalised recreation of his time as a student at the prestigious Gorky Institute for World Literature - a strange 'factory of the intellect' set up to produce a new generation of Socialist writers. With its drunken nights, uninspiring professors, specially selected students and enforced Socialist Realism his time at the Gorky Institute brought Kadare to the brink of abandoning writing altogether. In English for the first time, *Twilight of the Eastern Gods* is a portrait of a city and a time, it is a story of youth, of disenchantment and of the incredible importance of the written word.

Beethoven and the French Revolution

When a young Algerian named Meursault kills a man, his subsequent imprisonment and trial are puzzling and absurd. The apparently amoral Meursault--who puts little stock in ideas like love and God--seems to be on trial less for his murderous actions, and more for what the authorities believe is his deficient character.

Kosovo, Path to Freedom

What are the causes of imperial decline? This work studies the Ottoman empire in the 18th and 19th centuries to argue that the Ottoman imperial decline resulted from a combination of Ottoman internal dynamics with external influences. Specifically, it contends that the split within the Ottoman social structure across ethno-religious lines interacted with the effects of war and commerce with the West to produce a bifurcated Ottoman bourgeoisie. This bourgeoisie, divided into disparate commercial and bureaucratic elements, was able to challenge the sultan but was ultimately unable to salvage the empire. Instead, the Ottoman empire was replaced by the Turkish nation-state and others in the Balkans and the Middle East. This work will appeal to students of sociology and Ottoman studies.

The Siege

Gabriel Garcia Marquez is a gifted writer, and nowhere does he write with the fervor that he does in "One Hundred Years of Solitude," a pleasurable ride unmatched in modern literature.
