Never Look Back

Between December 1938 and September 1939, nearly ten thousand refugee children from Central Europe, mostly Jewish, found refuge from Nazism in Great Britain. This was known as the Kindertransport movement, in which the children entered as "transmigrants," planning to return to Europe once the Nazis lost power. In practice, most of the kinder, as they called themselves, remained in Britain, eventually becoming citizens. This book charts the history of the Kindertransport movement, focusing on the dynamics that developed between the British government, the child refugee organizations, the Jewish community in Great Britain, the general British population, and the refugee children. After an analysis of the decision to allow the children entry and the machinery of rescue established to facilitate its implementation, the book follows the young refugees from their European homes to their resettlement in Britain either with foster families or in refugee hostels. Evacuated from the cities with hundreds of thousands of British children, they soon found themselves in the countryside with new foster families, who often had no idea how to deal with refugee children barely able to understand English. Members of particular refugee children's groups receive special attention: participants in the Youth Aliyah movement, who immigrated to the United States during the war to reunite with their families; those designated as "Friendly Enemy Aliens" at the war's outbreak, who were later deported to Australia and Canada; and Orthodox refugee children, who faced unique challenges attempting to maintain religious observance when placed with Gentile foster families who at times even attempted to convert them. Based on archival sources and follow-up interviews with refugee children both forty and seventy years after their flight to Britain, this book gives a unique perspective into the political, bureaucratic, and human aspects of the Kindertransport scheme prior to and during World War II.

Women Defying Hitler

This timely volume brings together an international team of leading scholars to explore the ways that women responded to situations of immense deprivation, need, and victimization under Hitler's dictatorship. Paying acute attention to the differences that gender made, *Women Defying Hitler* examines the forms of women's defiance, the impact these women had, and the moral and ethical dilemmas they faced. Several essays also address the special problems of the memory and historiography of women's history during World War II, and the book features standpoints of historians as well as the voices of survivors and their descendants. Notably, this book also serves as a guide for human behaviour under extremely difficult conditions. The book is relevant today for challenging discrimination against women and for its nuanced exploration of the conditions minorities face as outspoken protagonists of human rights issues and as resisters of discrimination. From this perspective the voices being empowered in this book are clear examples of the importance of protest by women in forcing a totalitarian regime to pause and reconsider its options for the moment. In revealing so, *Women Defying Hitler* ultimately foregrounds that women rescuers and resisters were and are of great continuing consequence.

My Name is Freida Sima

Freida Sima (Bertha) Eisenberg Kraus was one of two million Jewish men, women and children who emigrated from Europe to the United States during the Great Wave of Immigration (1881-1914). In many respects, her story was representative of an entire generation of young women who came to America during those years.

Children's Exodus

In the months leading up to the outbreak of World War Two, Britain rushed to evacuate nearly 10,000 Jewish children from the Nazi occupied territories. Through the unprecedented cooperation of religious and governmental organizations, the Kindertransport spared thousands of Jewish children from the terror of the Third Reich and provided them with host families in Britain. "Children's Exodus" offers an in-depth look at the people and politics behind the various chains of rescue as well as the personal narratives of the children who left everything behind in the hope of finding safety. Drawing on unpublished interviews, journals, and articles, Vera K. Fast examines the religious and political tensions that emerged throughout the migration and at times threatened to bring operations to a halt. "Children's Exodus" captures the life-affirming stories of child refugees with vivid detail and examines the motivations - religious or otherwise - of the people that orchestrated one of the greatest rescue missions of all time.

The Kindertransport

Jennifer Craig-Norton sets out to challenge celebratory narratives of the Kindertransport that have dominated popular memory as well as literature on the subject. According to these accounts, the Kindertransport was a straightforward act of rescue and salvation, with little room for a deeper, more complex analysis. This volume reveals that in fact many children experienced difficulties with settlement: they were treated inconsistently by refugee agencies, their parents had complicated reasons for giving them up, and their caregivers had a variety of motives for taking them in. Against the grain of many other narratives, Craig-Norton emphasizes the use of archival sources, many of them newly discovered testimonial accounts and letters from Kinder to their families. This documentary evidence together with testimonial evidence allows compelling insights into the nature of interactions between children and their parents and caregivers and shows readers a more nuanced and complete picture of the Kindertransport.

Refugees in Twentieth-Century Britain

A timely history of the entry, reception and resettlement of refugees to Britain across the twentieth century.

A Very Special Life, the Bernice Chronicles

This book tells the story of mid-20th century Jewish America through the eyes of Bernice Cohen Schwartz, born in NYC in 1923, whose life reflects much of American Jewry's 20th century history: the Great Depression, WWII, Jewish educational and Institutions, the response to Israel, and the development of Jewish suburbia.

Cities of Refuge

Contrasts the experiences of German Jewish refugees from the Holocaust who fled to London and New York City. In the years following Hitler's rise to power, German Jews faced increasingly restrictive antisemitic laws, and many responded by fleeing to more tolerant countries. *Cities of Refuge* compares the experiences of Jewish refugees who immigrated to London and New York City by analyzing letters, diaries, newspapers, organizational documents, and oral histories. Lori Gemeiner Bihler examines institutions, neighborhoods, employment, language use, name changes, dress, family dynamics, and domestic life in these two cities to determine why immigrants in London adopted local customs more quickly than those in New York City, yet identified less as British than their counterparts in the United States did as American. By highlighting a disparity between integration and identity formation, Bihler challenges traditional theories of assimilation and provides a new framework for the study of refugees and migration. "This is the first comprehensive comparative study of German Jewish immigration during the period of National Socialism. Comparing German Jews who fled their homeland and resettled in London with those who resettled in New York City, Bihler carefully documents the distinct structural conditions each group encountered and consequently the divergent lives the two immigrant groups led. Bihler's numerous significant insights would be unattainable without her intellectual commitment to rigorous comparative study." — Judith M. Gerson, coeditor of *Sociology Confronts the Holocaust: Memories and Identities in Jewish Diasporas*

The Jews of Wales

This study considers Welsh Jewry as a geographical whole and is the first to draw extensively on oral history sources, giving a voice back to the history of Welsh Jewry, which has long been a formal history of synagogue functionaries and institutions. The author considers the impact of the Second World War on Wales's Jewish population, as well as the importance of the Welsh context in shaping the Welsh-Jewish experience. The study offers a detailed examination of the numerical decline of Wales's Jewish communities throughout the twentieth century, and is also the first to consider the situation of Wales's Jewish communities in the early twenty-first, arguing that these communities may be significantly fewer in number and smaller than in the past but they are ever evolving.

Get the Children Out!

The grocer, the teacher, the soldier, the Quaker... Mike Levy shines a light on the courageous deeds of twenty-two women and men who transformed the lives of the Kindertransport and other refugees. In 1938, when the Government refused to act and those around them turned a blind eye, these heroic individuals took it upon themselves to orchestrate one of the greatest lifesaving missions the world has ever seen. Until now the compelling accounts of these extraordinary rescue missions have remained untold. Mike Levy is a researcher for the US Holocaust Memorial Museum and the Association for Jewish Refugees, an educator with the Holocaust Education Trust and Chair of The Harwich Kindertransport Memorial and Learning Trust. In support of Safe Passage £1 from the Sale of this book will be donated to Safe Passage and used to help child refugees find legal routes to sanctuary. You can find out more about the vital work done by Safe Passage on their website.

For the Love of Shirley

In 1938 and 1939, some 10,000 children and young people fled to the UK to escape Nazi persecution. Known as the 'Kindertransport', this effort has long been hailed as a wartime success story – but there are uncomfortable truths at its heart. The Kindertransport was a complex visa waiver scheme, and its organizers did not necessarily act with altruism. The British government required a guarantee to indemnify itself against any expenses, and refused to admit the child refugees' parents. The selection criteria prioritized those who were likely to make the best contribution to society, rather than the most urgent cases. And some children and young people were placed in unsuitable homes, where many arrangements irrevocably broke down. Written with striking empathy and insight, Andrea Hammel's expert analysis casts new light on what really happened during the Kindertransport. Revelatory and impassioned, this book will be essential reading for anyone interested in the history of migration and refugees, and offers thought-provoking lessons for how we might make life easier for children fleeing conflict today.

The Kindertransport

Living or dead, present or absent, sadly dysfunctional or merrily adequate, the figure of the mother bears enormous freight across a child's emotional and intellectual life. Given the vital role literary mothers play in books for young readers, it is remarkable how little scholarly attention has been paid to the representation of mothers outside of fairy tales and beyond studies of gender stereotypes. This collection of thirteen essays begins to fill a critical gap by bringing together a range of theoretical perspectives by a rich mix of senior scholars and new voices. Following an introduction in which the coeditors describe key trends in interdisciplinary scholarship, the book's first section focuses on the pedagogical roots of maternal influence in early children's literature. The next section explores the shifting cultural perspectives and subjectivities of the twentieth century. The third section examines the interplay of fantasy, reality, and the ethical dimensions of literary mothers. The collection ends with readings of postfeminist motherhood, from contemporary realism to dystopian fantasy. The range of critical approaches in this volume will provide multiple inroads for scholars to investigate richer readings of mothers in children's and young adult literature.

Mothers in Children's and Young Adult Literature

The first transnational study of the memory of the Kindertransport and the first to explore how it is represented in museums, memorials, and commemorations. The Kindertransport, the rescue of ca. 10,000 Jewish children from the Nazi sphere of control and influence before the Second World War, has often been framed as a "British story." This book recognizes that even though most of the "Kinder" were initially brought to the UK and many stayed, it was more than that. It therefore compares British memory of the Kindertransport to that of other host nations (the US, Canada, Australia, and New Zealand). It is the first book to ask how the Kindertransport is remembered both in the countries of origin, particularly Germany, and in the host nations, as well as the first to analyze how it is represented in museums, memorials, and commemorations. Seeing memory of the Kindertransport in the host nations and in Germany as significantly different, the study argues that the different national memory discourses around the Nazi persecution of Jews shape the respective countries' images of the Kindertransport, and that those images in turn shape the discourses - especially in Britain. Yet while national memory frameworks remain crucial to how the Kindertransport is remembered, the book also documents the increasing significance of transnational memory trends that link the host nations with each other and with the countries from which the children originated. The persecution of Jews shape the respective countries' images of the Kindertransport, and that those images in turn shape the discourses - especially in Britain. Yet while national memory frameworks remain crucial to how the Kindertransport is remembered, the book also documents the increasing significance of transnational memory trends that link the host nations with each other and with the countries from which the children originated.

National and Transnational Memories of the Kindertransport

Explores how British subjects of different 'races' collectively shaped what it means to be British today, focusing on 1910-45 Hong Kong.

Multiracial Britishness

Shortlisted for the 2021 Wolfson History Prize and a finalist for the 2021 Cundill History Prize Told for the first time from their perspective, the story of children who survived the chaos and trauma of the Holocaust—named a best history book of 2020 by the Daily Telegraph "Impressive, beautifully written, judicious and thoughtful. . . . Will be a major milestone in the history of the Holocaust and its legacy."—Mark Roseman, author of *The Villa, the Lake, the Meeting* How can we make sense of our lives when we do not know where we come from? This was a pressing question for the youngest survivors of the Holocaust, whose prewar memories were vague or nonexistent. In this beautifully written account, Rebecca Clifford follows the lives of one hundred Jewish children out of the ruins of conflict through their adulthood and into old age. Drawing on archives and interviews, Clifford charts the experiences of these child survivors and those who cared for them—as well as those who studied them, such as Anna Freud. *Survivors* explores the aftermath of the Holocaust in the long term, and reveals how these children—often branded “the lucky ones”—had to struggle to be able to call themselves

“survivors” at all. Challenging our assumptions about trauma, Clifford’s powerful and surprising narrative helps us understand what it was like living after, and living with, childhoods marked by rupture and loss.

Survivors

This book presents a selection of the newest research on themes amplified by the sixth annual Beyond Camps and Forced Labour conference on the post-Holocaust period, including ‘displaced persons’, reception and resettlement, exiles and refugees, trials and justice, reparation and restitution, and memory and testimony. The chapters highlight new, transnational approaches and findings based on underused and newly opened archives, including compensation files of the British government; on historical actors often on the periphery within English-language historiography, including Romanian and Hungarian survivors; and new approaches such as the spatial history of Drancy, as well as geographies that have undergone less scrutiny, for example, Tehran, Chile, Mexico and Cyprus. This volume represents the vibrant and varied state of research on the aftermath of the Holocaust.

Beyond Camps and Forced Labour

This book explores the work and legacy of Professor David Cesarani OBE, a leading British scholar and expert on Jewish history who helped to shape Holocaust research, remembrance and education in the UK. It is a unique combination of chapters produced by researchers, curators and commemoration activists who either worked with and/or were taught by the late Cesarani. The chapters in this collection consider the legacies of Cesarani’s contribution to the discipline of history and the practice of public history. The contributors offer reflections on Cesarani’s approach and provide new insights into the study of Anglo-Jewish history, immigrants and minorities and the history and public legacies of the Holocaust.

The Jews, the Holocaust, and the Public

In 2020 and 2021, at the height of the Covid pandemic, Gwrych Castle was familiar to the British public as the setting of *I’m A Celebrity... Get Me Out Of Here!* Lesser known is that, at the beginning of the Second World War, this once-grand country house in North Wales became home to around two hundred Jewish refugee children who had been rescued from Europe on the Kindertransport. Under trying conditions, while the families they had been separated from faced the gravest of dangers, these children and their adult guardians established a Hachshara at Gwrych Castle: a training centre intended to prepare them for the dream of establishing a Jewish homeland in Palestine (Eretz Yisrael), where they hoped one day to be reunited with the families they left behind. In this fascinating debut, historian Andrew Hesketh tells the story of these refugees and the community they built, shining a light on a chapter of Jewish history that deserves to be far more widely known. He recounts moving moments of friendship, respect, tension and humour as the new arrivals and local residents came to know each other, while the shadows of war loomed ever closer, and the Hachshara project found itself facing an uncertain future.

Escape to Gwrych Castle

This volume examines the Kindertransport to Britain 1938/39. The seventeen contributions provide various new perspectives, which are investigated for the first time in this volume. Chapters focus on the Kindertransport in British historiography, on the identity development of specific groups of Kindertransportees, on the Kindertransportees’ further migration pattern, and on Kindertransport literature. Further contributions include a comparative study of Kindertransportees and evacuees, an article on therapeutic work with former Kindertransportees and reports on various memorial and cultural projects. The volume questions widely held myths and assumptions and provides new insights into the Kindertransport phenomenon.

The Kindertransport to Britain 1938/39

A dazzling multi-generational examination exploring Jewishness in Europe, the Holocaust and the dark spectres of anti-Semitism and populism.

Burgenland

This handbook is the most comprehensive and up-to-date single volume on the history and memory of the Holocaust in Britain. It traces the complex relationship between Britain and the destruction of

Europe's Jews, from societal and political responses to persecution in the 1930s, through formal reactions to war and genocide, to works of representation and remembrance in post-war Britain. Through this process the handbook not only updates existing historiography of Britain and the Holocaust; it also adds new dimensions to our understanding by exploring the constant interface and interplay of history and memory. The chapters bring together internationally renowned academics and talented younger scholars. Collectively, they examine a raft of themes and issues concerning the actions of contemporaries to the Holocaust, and the responses of those who came 'after'. At a time when the Holocaust-related activity in Britain proceeds apace, the contributors to this handbook highlight the importance of rooting what we know and understand about Britain and the Holocaust in historical actuality. This, the volume suggests, is the only way to respond meaningfully to the challenges posed by the Holocaust and ensure that the memory of it has purpose.

The Palgrave Handbook of Britain and the Holocaust

This publication marks the tenth anniversary of the Association of Jewish Refugees in Great Britain (AJR). It contains tributes to Britain and a brief history of the organisation itself. Most of the short articles deal with Jewish refugee contributions in England in various fields; i.e. trade and industry, science and the arts.

Britain's New Citizens

This book challenges the widely held view which condemns as weak and half-hearted Anglo-Jewish efforts on behalf of European Jews during the Nazi period. Anglo-Jewish organizations achieved remarkable successes in the pre-war years, combining their administrative expertise with the financial guarantee of maintenance to accomplish the rescue of over fifty thousand refugees. By tragic contrast, their lack of political and diplomatic experience during wartime rendered them almost entirely incapable of influencing an intransigent government engaged in global war to save Jewish lives.

Holocaust and Rescue

Ernst Papanek was an Austrian pedagogue who worked with Jewish refugee children in France in 1939/40, before he was forced to leave to the United States. There, he nevertheless continued his work to point out the impact of war, genocide and displacement on children, who were often forgotten in major discussions about the war and the losses it had created. This volume provides a short biographical outline of Papanek and a theoretical discussion about the impact of war and genocide on children who are forced out of their lives and who were not only physically displaced as a consequence. The second part of the book assembles some of Papanek's important texts about the children he had worked with and for, to make his thoughts and important considerations accessible for a broader academic and non-academic public alike.

Ernst Papanek and Jewish Refugee Children

Combining reader and information, this volume brings the past alive by linking key events to a fast moving narrative. It tells the story of a Jewish girl who flees to England from Nazi Germany, and her struggle not to forget the persecution she suffered, but also to fit in with her new life.

I Can Never Go Home Again

From 1938 over 10,000 Jewish and Catholic children were helped to escape from Nazi Europe. The children were bundled onto trains and set off across Germany and Holland to the ferries which took them to England. This book traces the story of the Kindertransporte and those who helped organize the exodus. The book is based on previously unpublished records and extensive interviews and describes the often painful adjustments of the young refugees to a strange country and the often lonely life of billeting, fostering, evacuation and even deportation.

The Last Goodbye

This important book tells the story of how ten thousand Jewish children were rescued out of Nazi Europe just before the outbreak of World War 2. They were saved by the Kindertransport — a rescue mission that transported the children (or Kinder) from Nazi-ruled countries to safety in Britain. The book includes real-life accounts of the children and is illustrated with archival photographs, paintings

of pre-war Nazi Germany by artist, Hans Jackson, and original art by the Kinder commemorating their rescue.

And the Policeman Smiled

The story of what it was like to grow up Jewish in Nazi Germany, to escape danger and fear, and also to leave family and friends, on the British Kindertransport scheme. Among the voices we hear are those of two of the organisers, an English foster mother, and 13 surviving children.

Rescuing the Children

"...a scholarly yet readable book...pioneering work" Journal of Jewish Studies Based on numerous in-depth and personal interviews with members of three generations, this is the first comprehensive study of German-Jewish refugees who came to England in the 1930s. The author addresses questions such as perceptions of Germany and Britain and attitudes towards Judaism. On the basis of many case studies, the author shows how the refugees adjusted, often amazingly successfully, to their situation in Britain. While exploring the process of acculturation of the German-Jews in Britain, the author challenges received ideas about the process of Jewish assimilation in general, and that of the Jews in Germany in particular, and offers a new interpretation in the light of her own empirical data and of current anthropological theory. Marion Berghahn, Independent Scholar and Publisher, studied American Studies, Romance Languages and Philosophy at the universities of Hamburg, Freiburg and Paris. These subjects, together with history, later on formed the basis of her scholarly publishing program.

Into the Arms of Strangers

The present volume is the result of an interdisciplinary oral history research project, which was carried out at the Centre for German-Jewish Studies at the University of Sussex. It focuses on the Kindertransport, the British rescue operation saving 10,000 predominantly German-Jewish children from Nazi Germany, and is based on in-depth case studies of five child survivors of the Holocaust. Looking at human development over the life cycle as mediated by intervening trauma was at the heart of the project, which examined the making and breaking of a child's close ties to significant others, processes of identity formation under acculturative stress as well as the creation and recall of traumatic memories. The study is thus one of the few in the field of attachment research which sheds light on the lifelong influence which early attachment has on coping with massive cumulative trauma. The former child refugees' narratives are enriched by letters, diaries, or articles written by them and their (host) families as well as by interviews conducted with family members and friends. Consequently, we can look at individual lives and collective destinies from more than one perspective as we are provided with rich, multi-layered accounts of people's whole-life trajectories. While each Holocaust survivor's developmental story is unique, it is, however, linked to the others' by the common experience of negotiating an identity between two countries, cultures, and religions against the background of unparalleled political upheavals, and as such also sheds light on, and offers ways out of, the traumata suffered in present-day contexts of enforced migration and displacement.

Continental Britons

The story of the Prague Kindertransports and the splendid achievements of Sir Nicholas Winton and Trevor Chadwick in getting some 660 children to safety has often been told. This was only part of a much larger rescue operation. Before Winton and Chadwick even arrived, Doreen Warriner was making Lists of those most in danger, negotiating for visas and shepherding trainloads of people to safety. When she left Prague in April 1939, spirited out of the country before the Gestapo could arrest her for smuggling 'wanted' refugees on her trains, her successor was the indomitable Canadian Beatrice Wellington, who was more than a match for the Gestapo, and indeed for a slow-moving British officialdom. These two were directly responsible for saving some thousands of men, women and children. This book reveals the full extent of the British rescue effort for the first time. It devotes a chapter to each of the major participants – each one a fascinating character, and four of them willing to drop whatever they were doing in their lives to come to the aid of those in danger.

Trauma and Attachment in the Kindertransport Context

In June 1939, shortly before her eleventh birthday, Vera Gissing escaped from occupied Czechoslovakia, leaving behind her parents, family and friends, to spend six years in Britain. Throughout the war years Vera kept a diary, recording her day-to-day experiences, her longing for her parents, her hopes and prayers for the freedom of her country. By the time she returned to Prague to set up home with her aunt in 1945, she knew that both her parents had died - her mother in Belsen, her father on a death march. She came back to England in 1949 and has lived here ever since. The memories and emotions rekindled by a reunion of the Czech school in Wales where she was educated, encouraged Vera to go back to the diaries and letters from her parents that she had not touched for forty years, and in 'Pearls of Childhood' she provides a powerful and moving account of the life of one child growing up in extraordinary circumstances.

The Rescue of the Prague Refugees 1938-39

The amazing story of the evacuation of hundreds of Jewish British children, many of them recent refugees, to the countryside at the outbreak of WWII. There they found loving families and devoted teachers. There Dr. Judith Grunfeld, a"n, ran a school, and raised her own young family during these difficult times. With family reminiscences.

Pearls of Childhood

The monograph provides the first comprehensive, detailed account of German-speaking refugees in Ireland 1933-1945 - where they came from, immigration policy towards them and how their lives turned out in Ireland and afterwards. Thanks to unprecedented access to thousands of files of the Irish Department of Justice (all still officially closed) as well as extensive archive research in Ireland, Germany, England, Austria as well as the US and numerous interviews it is possible for the first time to give an almost complete overview of how many people came, how they contributed to Ireland, how this fits in with the history of migration to Ireland and what can be learned from it. While Exile studies are a well-developed research area and have benefited from the work of research centres and archives in Germany, Austria, Great Britain and the USA (Frankfurt/M, Leipzig, Hamburg, Berlin, Innsbruck, Graz, Vienna, London and SUNY Albany and the Leo Baeck Institutes), Ireland was long neglected in this regard. Instead of the usual narrative of "no one was let in" or "only a handful came to Ireland" the authors identified more than 300 refugees through interviews and intensive research in Irish, German and Austrian archives. German-speaking exiles were the first main group of immigrants that came to the young Irish Free State from 1933 onwards and they had a considerable impact on academic, industrial and religious developments in Ireland.

An Irish Sanctuary

This book is the first of its kind: a historical inquiry into the family life of British diplomats between 1945 and 1990. It examines the ways in which the British Diplomatic Service reacted to and were influenced by the radical social changes that took place in Britain during the latter half of the twentieth century. It asks to what extent diplomats, who strove to protect their enclosed and elite circles, were suitable to represent this changing nation. Drawing on previously unseen primary sources and interview testimony, this book explores themes of societal change, end of empire, second wave feminism, new approaches to childcare, and developments in the civil service. It explores questions of belonging and identity, as well as enduring perceptions of this organisation that is (often mistakenly) understood to be quintessentially 'British'. Offering new and fresh insights, this book will be of interest to students

and scholars in history, historical geography, political studies, sociology, feminist studies and cultural studies.

Refugees in Europe, 1919-1959

With the rise of Nazism and antisemitism in Europe in the 1930s, many Jews fled persecution and sought refuge in Britain. Tells the stories of refugees in Birmingham (many of them children) and how they were expelled from their schools, professions, and homelands (in Austria, Germany, Czechoslovakia, Poland, and Hungary). Describes their problems in adapting to the new circumstances and the reaction of the Jewish and general communities. Antisemitism is mentioned throughout the book in relation to individual experiences.

Diplomatic Families and Children's Mobile Lives

Britain has largely been in denial of its migrant past - it is often suggested that the arrivals after 1945 represent a new phenomenon and not the continuation of a much longer and deeper trend. There is also an assumption that Britain is a tolerant country towards minorities that distinguishes itself from the rest of Europe and beyond. The historian who was the first and most important to challenge this dominant view is Colin Holmes, who, from the early 1970s onwards, provided a framework for a different interpretation based on extensive research. This challenge came not only through his own work but also that of a 'new school' of students who studied under him and the creation of the journal *Immigrants and Minorities* in 1982. This volume not only celebrates this remarkable achievement, but also explores the state of migrant historiography (including responses to migrants) in the twenty-first century.

Taming the beast: making questions about the supply system tractable by quantifying risk - Taming

the beast: making questions about the supply system tractable by quantifying risk by IDA 37 views

1 year ago 35 minutes - Presenters: Joseph Fabritius and Kyle Remley (IDA) The DoD sustainment system is responsible for managing the supply of ...

Working Capital funds are used to replenish wholesale stock in the Sustainment hierarchy

DOD has billions of dollars tied up in overstocked Items and low demand items. How did we get here?

We need a consistent way to compare different items' stock posture across the fleet

To validate our method, we can use predictions at a date in the past, and compare it to real outcomes

Summary

Not all items are created equal

We determine item importance using historical demands and the readiness impact (criticality) of items

Tying importance to IMEC is inherently subjective, but a single standard is enforced across all items

We selected IMECS that correlate more closely with item importance
