Red River Valley Brides- Part One

Part One consists of the first three books in the series Heart of a Lady Dancing with the Preacher Man Last Bride, Last Man

Heart of a Lady

Randal Thomas made it abundantly clear that Jo Ella Masterson would never be anything but a whore at Al's Saloon. But Jo Ella had other plans. Unlike most of the others she could read and when she found a newspaper ad for mail-order-brides, she talked half of Al's girls into finding a husband and settling down as real ladies. When the stagecoach caring the girls overturned on a sharp curve in the road, the girls were battered and bruised. When Harry Jones, the Sheriff of Veda rescues Jo Ella and the girls, they are taken to the doctor and then to the boardinghouse in Veda. Ma Jones, Harry's mother owned the boardinghouse. She'd be looking out for them. But immediately Jo Ella is pulled between two attractive men, Harry the Sheriff and a dangerous looking cattle rancher named Dillon. Dillon was just shy of the law all the time and intriguing. Harry on the other hand was dependable and always straight with her. When a bank robbery goes wrong and Jo Ella is kidnapped, Harry goes after her. Dillon follows and meets up with Harry. Harry informs Dillon he can rescue Jo Ella, because Harry is going after the robbers. Somehow, Jo Ella must choose between the two of them. Jo Ella is tempted by Dillon, but will the straight and narrow Sheriff be her real hero?

Winning the Lady (Book Four of the Red River Valley Brides Series)

Trish was married to Chester. She wasn't happy, but she was content, until Chester lost her in a poker game. Trish was devastated. How could he do such a thing? Gil Davis offered Trish a proposition. If she'd stay with him for the next three years, and come to the gambling tables with him, he'd pay her a small salary, and take care of her until she was able to get a divorce. Could she trust Gil? Did he offer her heaven or hell? And how could she keep her heart safe for three long years.

Along the Path...One Woman's Journey Through Grief....

I started these notes which turned into a blog which helped me process my grief from the loss of both parents, and my husband...plus loss in other areas of life. We are comforted by God and in turn we have the opportunity to comfort others along their paths as well....

Last Bride, Last Man (Book Three of the Red River Valley Brides Series)

Nadine had signed the contract, just like the other four girls, to marry before the year was up in Vada or work in the saloon. But no one knew the girls came from a saloon. She was worried about finding a black husband for herself. All the black men she'd met so far were either already married or too young. It seemed hopeless. However, while she was nursing Gerty back to health, Gerty's brother came home. Gabrielle Martin Lewis was a man's man, and when he found out Nadine had taken a married white man, he scorned her and told her to buy a wedding dress, they would be married on Sunday. That's how it all started. All of Nadine's hopes rode on the fact that she had to give her white lover up. Could she do it? Was marriage to a man of color worth it? But she married Gabe and her life began to change. What Nadine had to decide was whether it was for the better or not. She married a man who didn't want to make her his. Nadine had physical needs, always had. Could she dare to live with a man that wouldn't have her?

Last Bride, Last Man

Nadine Williams needed to find herself a husband. A black husband. But most of the colored men in Vada were either already married or too young. That is until Gabrielle Lewis came to town to see his sister.

Marty Robbins

From his first performance in the late 1940s until his early death in 1982, Marty Robbins established himself as one of the most popular and successful singer/songwriters in the latter half of the 20th century. On the country charts, he racked up 15 #1 hits, including the crossover smashes El Paso and A White Sport Coat (and a Pink Carnation). A beloved entertainer, Robbins received honors from every major music association. El Paso became the first Grammy ever awarded to a Country song, while My Woman My Woman My Wife received the 1970 Grammy for Best Country Song. In 1969 Robbins was named artist of the decade by the Academy of Country Music. He was inducted into the Nashville Songwriters Hall of Fame in 1975 and the Country Music Hall of Fame in 1982. In addition to his success as a singer/songwriter, Robbins loved car racing. In the early 1970s he joined the NASCAR circuit and raced the rest of his life. In Marty Robbins: Fast Cars and Country Music, author Barbara J. Prueett provides an exhaustive overview of Robbins' life and career. Nearly half of the book is a chronological listing (starting in 1948) of more than 2,000 magazine and newspaper articles and other sources of information about Robbins. Another section provides a basic discography of his hundreds of recordings, including both albums and singles released in his lifetime and after. The book also features a list of all of the songs he copyrighted, stories about his stock car racing activities, several previously unpublished photographs, and interviews with those who knew and worked with him—and even an

extensive interview with Robbins himself. As a tribute to a great entertainer, this volume will be of interest not only to entertainment writers and researchers, but also to Marty Robbins fans worldwide.

Sixteen year-old Anya's parents have been murdered because her father was the head of a notorious underworld gang. Now she is determined to keep herself and her siblings away from that world. But her father's relatives aren't so keen to let them go. When Anya's violent ex-boyfriend is poisoned with contaminated chocolate - chocolate that is produced illegally by Anya's criminal family - she is arrested for attempted murder. Disconcertingly, it is the new D.A. in town who releases her from jail, but her freedom comes with conditions. The D.A. is the father of Win, a boy at school to whom Anya feels irresistibly drawn. Win's father won't risk having his political ambitions jeopardised by his son seeing a member of a crime family. She is to stay away with him. Anya knows she risks her freedom and the safety of her brother and sister by seeing Win again. Neither the D.A. nor the underworld will allow it. But the feeling between them is so strong that she may be unable to resist him . . .

For all the discussion in the media about creationism and 'Intelligent Design', virtually nothing has been said about the evidence in question - the evidence for evolution by natural selection. Yet, as this succinct and important book shows, that evidence is vast, varied, and magnificent, and drawn from many disparate fields of science. The very latest research is uncovering a stream of evidence revealing evolution in action - from the actual observation of a species splitting into two, to new fossil discoveries, to the deciphering of the evidence stored in our genome. Why Evolution is True weaves together the many threads of modern work in genetics, palaeontology, geology, molecular biology, anatomy, and development to demonstrate the 'indelible stamp' of the processes first proposed by Darwin. It is a crisp, lucid, and accessible statement that will leave no one with an open mind in any doubt about the truth of evolution.

Proofreading, Revising & Editing Skills Success in 20 Minutes a Day

The Copyeditor's Handbook is a lively, practical manual for newcomers to publishing and for experienced editors who want to fine-tune their skills or broaden their understanding of the craft. Addressed to copyeditors in book publishing and corporate communications, this thoughtful handbook explains what copyeditors do, what they look for when they edit a manuscript, and how they develop the editorial judgment needed to make sound decisions. This revised edition reflects the most recent editions of The Chicago Manual of Style (15th ed.), the Publication Manual of the American Psychological Association (5th ed.), and Merriam-Webster's Collegiate Dictionary (11th ed.).

All These Things I've Done

Anthropology is the study of all humans in all times in all places. But it is so much more than that. "Anthropology requires strength, valor, and courage," Nancy Scheper-Hughes noted. "Pierre Bourdieu called anthropology a combat sport, an extreme sport as well as a tough and rigorous discipline. ... It teaches students not to be afraid of getting one's hands dirty, to get down in the dirt, and to commit yourself, body and mind. Susan Sontag called anthropology a "heroic" profession." What is the payoff for this heroic journey? You will find ideas that can carry you across rivers of doubt and over mountains of fear to find the light and life of places forgotten. Real anthropology cannot be contained in a book. You have to go out and feel the world's jagged edges, wipe its dust from your brow, and at times, leave your blood in its soil. In this unique book, Dr. Michael Wesch shares many of his own adventures of being an anthropologist and what the science of human beings can tell us about the art of being human. This special first draft edition is a loose framework for more and more complete future chapters and writings. It serves as a companion to anth101.com, a free and open resource for instructors of cultural anthropology. This 2018 text is a revision of the "first draft edition" from 2017 and includes 7 new chapters.

College Algebra provides a comprehensive exploration of algebraic principles and meets scope and sequence requirements for a typical introductory algebra course. The modular approach and richness of content ensure that the book meets the needs of a variety of courses. College Algebra offers a wealth of examples with detailed, conceptual explanations, building a strong foundation in the material before asking students to apply what they've learned. Coverage and Scope In determining the concepts, skills, and topics to cover, we engaged dozens of highly experienced instructors with a range of student audiences. The resulting scope and sequence proceeds logically while allowing for a significant amount of flexibility in instruction. Chapters 1 and 2 provide both a review and foundation for study of Functions that begins in Chapter 3. The authors recognize that while some institutions may find this material a prerequisite, other institutions have told us that they have a cohort that need the prerequisite skills built into the course. Chapter 1: Prerequisites Chapter 2: Equations and Inequalities Chapters 3-6: The Algebraic Functions Chapter 3: Functions Chapter 4: Linear Functions Chapter 5: Polynomial and Rational Functions Chapter 6: Exponential and Logarithm Functions Chapters 7-9: Further Study in College Algebra Chapter 7: Systems of Equations and Inequalities Chapter 8: Analytic Geometry Chapter 9: Sequences, Probability and Counting Theory

The Ultimate Sniper

How should we treat non-human animals? In this immensely powerful and influential book (now with a new introduction by Sapiens author Yuval Noah Harari), the renowned moral philosopher Peter Singer addresses this simple question with trenchant, dispassionate reasoning. Accompanied by the disturbing evidence of factory farms and laboratories, his answers triggered the birth of the animal rights movement. 'An extraordinary book which has had extraordinary effects... Widely known as the bible of the animal liberation movement' Independent on Sunday In the decades since this landmark classic first appeared, some public attitudes to animals may have changed but our continued abuse of animals in factory farms and as tools for research shows that the underlying ideas Singer exposes as ethically indefensible are still dominating the way we treat animals. As Yuval Harari's brilliantly argued introduction makes clear, this book is as relevant now as the day it was written.

This handbook provides advice on best practice for the recovery, publication and archiving of animal bones and teeth from Holocene archaeological sites (ie from approximately the last 10,000 years). It has been written for local authority archaeology advisors, consultants, museum curators, project managers, excavators and zooarchaeologists, with the aim of ensuring that approaches are suitable and cost-effective.

SAS Survival Handbook, Revised Edition

The Arctic, long described as the world's last frontier, is quickly becoming our first frontier—the front line in a world of more diffuse power, sharper geopolitical competition, and deepening interdependencies between people and nature. A space of often-bitter cold, the Arctic is the fastest-warming place on earth. It is humanity's canary in the coal mine—an early warning sign of the world's climate crisis. The Arctic "regime" has pioneered many innovative means of governance among often-contentious state and non-state actors. Instead of being the "last white dot on the map," the Arctic is where the contours of our rapidly evolving world may first be glimpsed. In this book, scholars and practitioners—from Anchorage to Moscow, from Nuuk to Hong Kong—explore the huge political, legal, social, economic, geostrategic and environmental challenges confronting the Arctic regime, and what this means for the future of world order.

Embrace off-grid green living and imagine a more sustainable future with the original guide to self-sufficiency. For over 40 years, John Seymour has inspired thousands to make more eco-friendly choices with his advice on living sustainably. The New Complete Book of Self-Sufficiency offers step-by-step instructions on everything from chopping trees to harnessing solar power; from growing fruit and

vegetables, and preserving and pickling your harvest, to baking bread, brewing beer, and making cheese. Seymour shows you how to live off the land, running your own smallholding or homestead, and raising (and butchering) livestock. In a world of mass production, intensive farming, and food miles, Seymour's words offer an alternative: a celebration of investing time, labour, and love into the things we need. While we won't all be able to move to the countryside, we can appreciate the need to eat food that has been grown ethically or create things we can cherish, using skills that have been handed down through generations. This bestselling classic is a balm for anyone who has ever sought solace away from the madness of modern life.

On the Origin of Species (or, more completely, On the Origin of Species by Means of Natural Selection, or the Preservation of Favoured Races in the Struggle for Life), [3] published on 24 November 1859, is a work of scientific literature by Charles Darwin which is considered to be the foundation of evolutionary biology.[4] Darwin's book introduced the scientific theory that populations evolve over the course of generations through a process of natural selection. It presented a body of evidence that the diversity of life arose by common descent through a branching pattern of evolution. Darwin included evidence that he had gathered on the Beagle expedition in the 1830s and his subsequent findings from research, correspondence, and experimentation
