Prose Unseens for A-Level Latin

This volume is designed to accompany the OCR A-Level specification in Latin (first teaching September 2016), with practice unseen passages from Livy, the set prose for Paper 1, together with passages from a selection of other writers to support Paper 2, for which no author is set. A bank of 80 passages aims to take Sixth Form students from the level of heavily adapted post-GCSE ('AS'-equivalent) passages and develop their knowledge and skills to reach A-Level standard. But this is not just a book of unseen passages: there is a chronological progression through the unseens in order to give the reader a sense of the narrative of Roman history, exploring key events through the words of original texts. Every passage begins with an introduction, outlining the basic content of the passage, followed by a 'lead-in' sentence, paraphrasing the few lines before the passage begins. Part 1 passages are straight translation exercises on the model of the A-Level Paper 1. They also feature, however, a 'Discendum' box, highlighting a facet of Latin prose with which students may not be familiar, or extension questions on grammar and style. Part 2 passages are accompanied by questions on comprehension, translation and grammar, replicating the demands of Paper 2 in full. An extensive word list is provided in the form of checklists which build the reader's knowledge of the most commonly occurring words and phrases in Latin prose. The passages are punctuated with discussions of Roman history during the periods covered in the passages, and a comprehensive introduction includes portraits of the authors featured in the book, as well as grammatical reminders to help readers deal with both the trickier elements of unseen prose and with A-Level grammatical analysis questions.

Latin Unseens for A Level

This collection of Latin unseen passages forms a companion volume to Latin Momentum Tests for GCSE, and is intended to be used similarly by students preparing for examinations at AS, A2 and AEA levels. The largest section is set at AS level and comprises prose passages forming a coherent story based on original sources but simplified to maintain a level of difficulty appropriate for this level. The text assumes the student will have a working knowledge of a typical vocabulary list of about 1000 words. Most of the rest of the passages are, with rare exceptions, un-adapted Latin, both prose and verse, taken from the authors used in the examinations. Difficult or rare words are glossed. The last few passages are of a standard of difficulty appropriate to AEA level. All passages are of a similar length and format to those used in the examinations. One sample mark scheme has been included to give teachers and students some insight into how these unseens are marked in the examinations.

Greek Unseen Translation

This is a useful collection of 120 passages from Greek authors, ideal for students at GCSE and A level. The first half contains twenty adapted passages building up to GCSE level, thirty lightly adapted ones for AS, and ten easy unadapted passages to introduce the translation of verse. The second half contains thirty prose and thirty verse passages of A level standard, unadapted except by minor omissions. Vocabulary beyond the core assumed at each level is glossed.

Advanced Latin

Advanced Latin offers a range of material to help students build and develop the knowledge and skills needed for A2 and Pre-U Latin. There are 24 translation/comprehension exercises, based on passages taken predominantly from Livy, Caesar and Ovid. These match exactly the requirements of A2, but the passages work equally well as unseens for those working towards Pre-U. Six further passages are offered for unseen translation only, and are designed to stretch the most able. There are then 12 passages of continuous prose for translation into Latin, each supported by notes to help the student; and an appendix that contains a comprehensive English-Latin vocabulary. To support the study of A2 and Pre-U literature, there are short commentaries on sample passages from each of the prescribed authors, demonstrating a variety of interpretative approaches. In addition, for each author there is an annotated bibliography, to guide both teacher and student to the most useful secondary literature available. A separate section focuses on the Pre-U unseen literary criticism option and offers six practice passages.

Ovid Unseens

Ovid Unseens provides a bank of 80 practice passages of Latin verse, half elegiac and half hexameter. Taken from across Ovid's works, including the *Metamorphoses*, *Fasti*, *Heroides*, *Amores* and *Tristia*, the passages help build students' knowledge and confidence in a notoriously difficult element of Latin language learning. Every passage begins with an introduction, outlining the basic story and theme of the passage, followed by a 'lead-in' sentence, paraphrasing the few lines before the passage begins. The first set of passages are translation exercises of 12-16 lines, each accompanied by a Discendum box which highlights a key feature of poetic Latin, equipping students further with the skills to tackle ever more difficult verse passages at first sight. These are followed by longer passages with scansion exercises and questions on comprehension and stylistic analysis, replicating unseen verse exam questions in full. The comprehensive introduction provides an overview of Ovid's life and work, an account of some of the stylistic features of his poetry, and practical help in the form of tips on how to approach the more challenging lines of Latin verse and produce a fluent translation. A step-by-step guide to scansion, with practice exercises and answers, covers the essential principles for scanning lines of Latin verse, from the basics of understanding syllables, feet and types of metres, to coping with elision and caesurae. A guideline verse vocabulary list is provided which covers words particularly common in Ovid's works. Broken down into small 'checklists', each corresponding to a group of four passages, the vocabulary is learnt cumulatively and as it is encountered.

Latin Beyond GCSE

Latin Beyond GCSE covers all the linguistic requirements for the OCR AS and A Level in Latin. It aims to bring students to a point where they can tackle original Latin texts with confidence. Although designed as a continuation of Latin to GCSE, it is self-contained and can be used independently. This new edition is brought in line with the new OCR specifications and benefits from a completely redesigned layout, with added colour and images. The answer key is available on a companion website. The first part of the book introduces new constructions and the translation of sentences from English to Latin, with reading passages at AS standard. The next sections provide translation and comprehension passages at AS and A-level, including verse unseens, scansion, and a list of 300 common poetic words. Next come longer unadapted extracts from a range of authors. Finally there is a reference section including a summary of all constructions, a comprehensive grammar, and a general vocabulary of about 1200 Latin words.

Latin Prose Composition

This book helps students to write Latin using increasingly complex forms of expression. Part 1 gives guidance and practice exercises for the new sentences required at GCSE, while Parts 2 and 3 contain a series of chapters of grammatical introduction and exercises for translation into Latin leading up to A Level and Pre-U. Part 4 takes students into more advanced areas of composition. Continuous passages are included from an early stage alongside stand-alone sentences. Leigh gives clear guidance on the characteristic features of Latin prose, such as word order and subordination, as well as more advanced grammatical complexities. At the back of the book, lists of vocabulary and accidence provide reference and revision tools for students at all levels. Working through the book the rewards of learning to write Latin are clear: not merely a challenge to be overcome, prose composition gives a heightened

appreciation of how Latin authors used the language to express themselves in their own particular styles.

Covering all the linguistic requirements (grammar, syntax and vocabulary) for GCSE Latin, the book is closely linked to OCR's current syllabus. This immensely useful textbook provides straightforward and easy to understand explanations of every grammatical construction needed for GCSE, from ablative absolutes to result clauses. The book concentrates on understanding the principles behind accidence and syntax, reducing the need for rote learning. 650 practice sentences provide ample opportunity for the student to get to grips with every point of grammar as it is introduced. Essential GCSE Latin can be used on its own, or as a revision guide for a fast but comprehensive recap of the language. Helpful, concise and clear, the book has an easily navigable structure which breaks down the language into bite-sized sections. Essential GCSE Latin also includes a list of all the vocabulary needed for the exam and a glossary of grammar terms for quick and easy reference. Revision material is included at the end of Part 2.

Tacitus Histories I: A Selection

This is the endorsed publication from OCR and Bloomsbury for the Latin AS and A-Level (Group 1) prescription of Histories Book I sections 4 (*finis Neronis ...*) to 7, 12–14, 17–23 and 26, and the A-Level (Group 2) prescription of Histories Book I sections 27–36, 39–44 and 49, giving full Latin text, commentary and vocabulary, with a detailed introduction that also covers the prescribed text to be read in English for A Level. Histories I starts in AD 69, during the civil war after the death of Nero. Tacitus describes the unstable conditions in the Roman Empire, as different generals are elevated by their soldiers to the position of emperor. In the prescribed selection, rebellion and violence break out in the city of Rome, as the Praetorian Guard of the emperor Galba transfer their support to a controversial younger man, Otho. Tacitus vividly portrays the elderly Galba's attempts to maintain order and discipline as power slips from his grasp, while Otho inspires the disorderly soldiers, keeping control only with difficulty over this volatile group of men. Resources are available on the Companion Website www.bloomsbury.com/ocr-editions-2019-2021

Tacitus, Annals IV: A Selection

This is the OCR-endorsed publication from Bloomsbury for the Latin AS and A-Level (Group 1) prescription of Tacitus' Annals IV, sections 1–4 (*... non adversus habebatur*), 7–12, and 39–41, and the A-Level (Group 2) prescription of sections 52–54, 57–60, 67–71 and 74–75, giving full Latin text, commentary and vocabulary, with a detailed introduction that also covers the prescribed sections to be read in English for A Level. It is AD 23 and we are in the ninth year of the reign of Rome's second emperor, Tiberius. Increasingly he has come to rely on the assistance of the Praetorian Prefect, Lucius Aelius Sejanus, in the running of Rome. But Sejanus has ambitions beyond being a mere assistant, extending even as far as the imperial throne itself. Tacitus vividly portrays the machinations of Sejanus as he attempts to manoeuvre himself into a position to assume the ultimate authority, characterising the period as one dominated by villainy, betrayal and deceit. Resources are available on the Companion Website.

Derrida

This biography of Jacques Derrida (1930–2004) tells the story of a Jewish boy from Algiers, excluded from school at the age of twelve, who went on to become the most widely translated French philosopher in the world – a vulnerable, tormented man who, throughout his life, continued to see himself as unwelcome in the French university system. We are plunged into the different worlds in which Derrida lived and worked: pre-independence Algeria, the microcosm of the École Normale Supérieure, the cluster of structuralist thinkers, and the turbulent events of 1968 and after. We meet the remarkable series of leading writers and philosophers with whom Derrida struck up a friendship: Louis Althusser, Emmanuel Levinas, Jean Genet, and Hélène Cixous, among others. We also witness an equally long series of often brutal polemics fought over crucial issues with thinkers such as Michel Foucault, Jacques Lacan, John R. Searle, and Jürgen Habermas, as well as several controversies that went far beyond academia, the best known of which concerned Heidegger and Paul de Man. We follow a series of courageous political commitments in support of Nelson Mandela, illegal immigrants, and gay marriage. And we watch as a concept – deconstruction – takes wing and exerts an extraordinary influence way beyond the philosophical world, on literary studies, architecture, law, theology, feminism, queer theory, and postcolonial studies. In writing this compelling and authoritative biography, Benoît Peeters talked to over a hundred individuals who knew and worked with Derrida. He is also the first person to make use of the huge personal archive built up by Derrida throughout his life and of his extensive correspondence. Peeters' book gives us a new and deeper understanding of the man who will perhaps be seen as the major philosopher of the second half of the twentieth century.

Greek Beyond GCSE

Greek Beyond GCSE covers all the linguistic requirements for the OCR AS and A Level in Classical Greek. It aims to bring students to a point where they can tackle original Greek texts with confidence. Although designed as a continuation of Greek to GCSE, it is self-contained and can be used independently. This second edition is brought in line with the current OCR specifications. The first part of the book introduces new constructions accompanied by exercises including the translation of sentences from English to Greek and reading passages (which in the opening chapters are lightly adapted). The next sections provide translation and comprehension passages at both AS and A Level standard, including verse unseens, scansion, and a list of 300 common poetic words (new to this edition). Next come longer unadapted extracts from a range of authors. Finally there is a reference section including a summary of all constructions, a comprehensive grammar, various appendices and a vocabulary of about 1,200 Greek words.

Cicero, Philippic 2, 44–50, 78–92, 100–119

Cicero composed his incendiary Philippics only a few months after Rome was rocked by the brutal assassination of Julius Caesar. In the tumultuous aftermath of Caesar's death, Cicero and Mark Antony found themselves on opposing sides of an increasingly bitter and dangerous battle for control. Philippic 2 was a weapon in that war. Conceived as Cicero's response to a verbal attack from Antony in the Senate, Philippic 2 is a rhetorical firework that ranges from abusive references to Antony's supposedly sordid sex life to a sustained critique of what Cicero saw as Antony's tyrannical ambitions. Vituperatively brilliant and politically committed, it is both a carefully crafted literary artefact and an explosive example of crisis rhetoric. It ultimately led to Cicero's own gruesome death. This course book offers a portion of the original Latin text, vocabulary aids, study questions, and an extensive commentary. Designed to stretch and stimulate readers, Ingo Gildenhard's volume will be of particular interest to students of Latin studying for A-Level or on undergraduate courses. It extends beyond detailed linguistic analysis to encourage critical engagement with Cicero, his oratory, the politics of late-republican Rome, and the transhistorical import of Cicero's politics of verbal (and physical) violence.

Virgil Aeneid XI: A Selection

This is the endorsed publication from OCR and Bloomsbury for the Latin AS and A-Level (Group 3) prescription of Aeneid Book XI, lines 1–224, and the A-Level (Group 4) prescription of Aeneid Book XI, lines 498–521, 532–596, 648–689, and 725–835, giving full Latin text, commentary and vocabulary, with a detailed introduction that also covers the prescribed text to be read in English for A Level. In Book XI Pallas, the warrior son of Evander who was killed by Turnus, is buried, amid the mourning of his father and the Trojans. After a truce to collect and bury the dead on both sides, fighting resumes, during which the warrior-maiden Camilla battles bravely for the Latins before being killed. The events of the book take up just four days: Pallas' funeral occupies the first; the second and third are devoted (briefly) to the truce and burials; the fourth, taking up the second half of the book, is concerned with

Camilla's aristeia, in which she is likened to an Amazon. Resources are available on the Companion Website www.bloomsbury.com/ocr-editions-2019-2021

Latin Language Tests for Levels 1 and 2 and GCSE

This collection of tests provides practice for students preparing to take the new Latin language examinations at the WJEC examination board Levels 1 and 2. It also includes tests similar to those used in the OCR examination board GCSE examinations. The book is divided into five sections, each devoted to a different format or level of tests. Words that are not expected to be known at each level are glossed. The range of grammatical and syntactical features is similar to that found in the public examinations. The tests are designed to cover translation and comprehension of specially constructed stories in Latin. Readers are not expected to have familiarity with any particular course book, and the stories may also be used simply as a graduated Latin reader, if desired. The Triumph of Mercy

Discusses philosopher Mullā ṣadrā's commentary on the opening chapter of the Qur'ān. This book investigates the convergence of philosophy, scriptural exegesis, and mysticism in the thought of the celebrated Islamic philosopher Mullā ṣadrā (d. 1050/1640). Through a careful presentation of the theoretical and practical dimensions of ṣadrā's Qur'ānic hermeneutics, Mohammed Rustom highlights the manner in which ṣadrā offers a penetrating metaphysical commentary upon the Fatiha, the chapter of the Qur'ān that occupies central importance in Muslim daily life. Engaging such medieval intellectual giants as Fakhr al-Dīn al-Rāzī (d. 606/1210) and Ibn 'Arabī (d. 638/1240) on the one hand, and the wider disciplines of philosophy, theology, Sufism, and Qur'ānic exegesis on the other, ṣadrā's commentary upon the Fatiha provides him with the opportunity to modify and recast many of his philosophical positions within a scripture-based framework. He thereby reveals himself to be a profound religious thinker who, among other things, argues for the salvation of all human beings in the afterlife. Mohammed Rustom is Assistant Professor of Islamic Studies at Carleton University. He is the coeditor (with Atif Khalil and Kazuyo Murata) of *In Search of the Lost Heart: Explorations in Islamic Thought* by William C. Chittick, also published by SUNY Press.

Virgil Aeneid XII: A Selection

This is the OCR-endorsed publication from Bloomsbury for the Latin AS and A-Level (Group 3) prescription of Aeneid Book XII, lines 1–106, 614–727, and the A-Level (Group 4) prescription of Aeneid Book XII, lines 728–952, giving full Latin text, commentary and vocabulary, with a detailed introduction that also covers the prescribed text to be read in English for A Level. Aeneid XII is the final book of Virgil's Roman epic. The war fought between Aeneas' refugee Trojans and the people of Latium here reaches a bloody, moving climax. The OCR selection contains two scenes of rich emotion focussed on the Italian war-leader Turnus as he reacts to military defeat and crisis, followed by the full narrative of the decisive single combat between Turnus and Aeneas with which the poem concludes. This is one of the great passages in Latin literature – grand in content and style, complex and challenging in its subject matter. Resources are available on the Companion Website.

Latin to GCSE

A companion to Bloomsbury's popular two-volume Greek to GCSE, this is the first course for Latin students that directly reflects the curriculum in a clear, concise and accessible way. Enhanced by colour artwork and text features, the books support the new OCR specification for Latin (first teaching 2016) as well as meeting the needs of later students, both at university and beyond. Written by two experienced school teachers, one also an examiner, the course is based on a keen understanding of what pupils find difficult, concentrating on the essentials and on the explanation of principles in both accidence and syntax: minor irregularities are postponed and subordinated so that the need for rote learning is reduced. User-friendly, it also gives pupils a firm foundation for further study. Part 1 covers the basics, whilst Part 2 introduces a wider range of grammatical forms and constructions, with a vocabulary of 450 words and reading material about the developing Republic, the war with Hannibal, the rise of Julius Caesar, and Augustus and the early emperors. Practice passages and revision sentences for GCSE complete Part 2, which has a reference section covering the whole course.

Reading Latin

A bestselling Latin course designed to help mature beginners read classical Latin fluently and intelligently. Greek to GCSE: Part 1

First written in response to a JACT survey of over 100 schools, and now endorsed by OCR, this textbook has become a standard resource for students in the UK and for readers across the world who are looking for a clear and thorough introduction to the language of the ancient Greeks. Revised throughout and enhanced by coloured artwork and text features, this edition will support the new OCR specification for Classical Greek (first teaching 2016). Part 1 covers the basics and is self-contained, with its own reference section. It covers the main declensions, a range of active tenses and a vocabulary of 250 Greek words to be learned. Pupil confidence is built up by constant consolidation of the material covered. After the preliminaries, each chapter concentrates on stories with one source or subject: Aesop, Homer's *Odyssey* and Alexander the Great, providing an excellent introduction to Greek culture alongside the language study. Written by a long-time school teacher and examiner, this two-part course is based on experience of what pupils find difficult, concentrating on the essentials and on the understanding of principles in both accidence and syntax: minor irregularities are postponed and subordinated so that the need for rote learning is reduced. It aims to be user-friendly, but also to give pupils a firm foundation for further study.

Roman Sexualities

This collection of essays seeks to establish Roman constructions of sexuality and gender difference as a distinct area of research, complementing work already done on Greece to give a fuller picture of ancient sexuality. By applying feminist critical tools to forms of public discourse, including literature, history, law, medicine, and political oratory, the essays explore the hierarchy of power reflected so strongly in most Roman sexual relations, where noblemen acted as the penetrators and women, boys, and slaves the penetrated. In many cases, the authors show how these roles could be inverted--in ways that revealed citizens' anxieties during the days of the early Empire, when traditional power structures seemed threatened. In the essays, Jonathan Walters defines the impenetrable male body as the ideational norm; Holt Parker and Catharine Edwards treat literary and legal models of male sexual deviance; Anthony Corbeill unpacks political charges of immoral behavior at banquets, while Marilyn B. Skinner, Ellen Oliensis, and David Fredrick trace linkages between social status and the gender role of the male speaker in Roman lyric and elegy; Amy Richlin interrogates popular medical belief about the female body; Sandra R. Joshel examines the semiotics of empire underlying the historiographic portrayal of the empress Messalina; Judith P. Hallett and Pamela Gordon critique Roman caricatures of the woman-desiring woman; and Alison Keith discovers subversive allusions to the tragedy of Dido in the elegist Sulpicia's self-depiction as a woman in love.

Tacitus, Annals, 15.20–23, 33–45

The emperor Nero is etched into the Western imagination as one of ancient Rome's most infamous villains, and Tacitus' Annals have played a central role in shaping the mainstream historiographical understanding of this flamboyant autocrat. This section of the text plunges us straight into the moral cesspool that Rome had apparently become in the later years of Nero's reign, chronicling the emperor's fledgling stage career including his plans for a grand tour of Greece; his participation in a city-wide orgy climaxing in his publicly consummated 'marriage' to his toy boy Pythagoras; the great fire of AD 64, during which large parts of central Rome went up in flames; and the rising of Nero's 'grotesque' new palace, the so-called 'Golden House', from the ashes of the city. This building project stoked the rumours that the emperor himself was behind the conflagration, and Tacitus goes on to present us with Nero's gruesome efforts to quell these mutterings by scapegoating and executing members of an unpopular new cult then starting to spread through the Roman empire: Christianity. All this contrasts starkly with four chapters focusing on one of Nero's most principled opponents, the Stoic senator Thrasea Paetus, an audacious figure of moral fibre, who courageously refuses to bend to the forces of imperial corruption and hypocrisy. This course book offers a portion of the original Latin text, study aids with vocabulary, and a commentary. Designed to stretch and stimulate readers, Owen's and Gildenhard's incisive commentary will be of particular interest to students of Latin at both A2 and undergraduate level. It extends beyond detailed linguistic analysis and historical background to encourage critical engagement with Tacitus' prose and discussion of the most recent scholarly thought.

Classics from 5 to 16

Written by Andrew Wallace-Hadrill, one of the world's foremost scholars on Roman social and cultural history, this well-established introduction to Rome in the Age of Augustus provides a fascinating insight into the social and physical contexts of Augustan politics and poetry, exploring in detail the impact of the new regime of government on society. Taking an interpretative approach, the ideas and environment manipulated by Augustus are explored, along with reactions to that manipulation. Emphasising the role and impact of art and architecture of the time, and on Roman attitudes and values, Augustan Rome explains how the victory of Octavian at Actium transformed Rome and Roman life. This thought-provoking yet concise volume sets political changes in the context of their impact on Roman values, on the imaginative world of poetry, on the visual world of art, and on the fabric of the city of Rome.

Literature in Language Education

“A provocative history” of intrigue and class struggle in Ancient Rome—“an important alternative to the usual views of Caesar and the Roman Empire” (Publishers Weekly). Most historians, both ancient and modern, have viewed the Late Republic of Rome through the eyes of its rich nobility—the 1 percent of the population who controlled 99 percent of the empire’s wealth. In *The Assassination of Julius Caesar*, Michael Parenti recounts this period, spanning the years 100 to 33 BC, from the perspective of the Roman people. In doing so, he presents a provocative, trenchantly researched narrative of popular resistance against a powerful elite. As Parenti carefully weighs the evidence concerning the murder of Caesar, he adds essential context to the crime with fascinating details about Roman society as a whole. In these pages, we find reflections on the democratic struggle waged by Roman commoners, religious augury as an instrument of social control, the patriarchal oppression of women, and the political use of homophobic attacks. *The Assassination of Julius Caesar* offers a whole new perspective on an era thought to be well-known. “A highly accessible and entertaining addition to history.” —Book Marks

The Assassination of Julius Caesar

This volume offers a wide range of sample passages from literature written in Latin in the British Isles during the period from about 1500 to 1800. It includes a general introduction to and bibliography to the Latin literature of these centuries, as well as Latin texts with English translations, introductions and notes. These texts present a rich panorama of the different literary genres, styles and themes flourishing at the time, illustrating the role of Latin texts in the development of literary genres, the diversity of authors writing in Latin in early modern Britain, and the importance of Latin in contemporary political, religious and scientific debates. The collection, which includes both texts by well-known authors (such as John Milton, Thomas More and George Buchanan) and previously unpublished items, can be used as a point of entry for students at school and university level, but will also be of interest to specialists in a number of academic disciplines.
