El Empresario Del Papel Higienico

Lamentablemente, no todos podemos llegar a ser grandes figuras del mundo empresarial como los creadores de Mango, Zara, Google, Apple, Microsoft, o Facebook. La mayoría estamos destinados a ser empresarios del papel higiénico: innovadores capaces de hacer

El empresario del papel higiénico

In July 1942, thirteen-year-old Anne Frank and her family, fleeing the occupation, went into hiding in an Amsterdam warehouse. Over the next two years Anne vividly describes in her diary the frustrations of living in such close quarters, and her thoughts, feelings and longings as she grows up. Her diary ends abruptly when, in August 1944, they were all betrayed. First published over sixty years ago, Anne Frank's *Diary of a Young Girl* has reached millions of young people throughout the world. BBC TV's major new dramatization brings her extraordinary writing to life in a way that will engage and inspire a whole new generation. 'One of the greatest books of the last century' - Guardian

The Diary of a Young Girl

WHAT VALUABLE COMPANY IS NOBODY BUILDING? The next Bill Gates will not build an operating system. The next Larry Page or Sergey Brin won't make a search engine. If you are copying these guys, you aren't learning from them. It's easier to copy a model than to make something new: doing what we already know how to do takes the world from 1 to n, adding more of something familiar. Every new creation goes from 0 to 1. This book is about how to get there. 'Peter Thiel has built multiple breakthrough companies, and *Zero to One* shows how.' ELON MUSK, CEO of SpaceX and Tesla 'This book delivers completely new and refreshing ideas on how to create value in the world.' MARK ZUCKERBERG, CEO of Facebook 'When a risk taker writes a book, read it. In the case of Peter Thiel, read it twice. Or, to be safe, three times. This is a classic.' NASSIM NICHOLAS TALEB, author of *The Black Swan*

Zero to One

Nobel prize winner and author of *One Hundred Years of Solitude* Gabriel Garcia Marquez tells a tale of an unrequited love that outlasts all rivals in his masterpiece *Love in the Time of Cholera*. 'It was inevitable: the scent of bitter almonds always reminded him of the fate of unrequited love' Fifty-one years, nine months and four days have passed since Fermina Daza rebuffed hopeless romantic Florentino Ariza's impassioned advances and married Dr Juvenal Urbino instead. During that half-century, Florentino has fallen into the arms of many delighted women, but has loved none but Fermina. Having sworn his eternal love to her, he lives for the day when he can court her again. When Fermina's husband is killed trying to retrieve his pet parrot from a mango tree, Florentino seizes his chance to declare his enduring love. But can young love find new life in the twilight of their lives? 'The most important writer of fiction in any language' Bill Clinton 'An exquisite writer, wise, compassionate and extremely funny' Sunday Telegraph 'An amazing celebration of the many kinds of love between men and women' The Times

Love in the Time of Cholera

'Lolita is comedy, subversive yet divine' Martin Amis, Observer Poet and pervert, Humbert Humbert becomes obsessed by twelve-year-old Lolita and seeks to possess her, first carnally and then artistically, 'to fix once for all the perilous magic of nymphets'. Is he in love or insane? A tortured soul or a monster? Humbert Humbert's fixation is one of many dimensions in Nabokov's dizzying masterpiece, which is suffused with a savage humour and rich, elaborate verbal textures. Filmed by Stanley Kubrick in 1962, and again in 1997 by Adrian Lyne, *Lolita* has lost none of its power to shock and awe. 'There's no funnier monster in literature than poor, doomed Humbert Humbert' Independent

Lolita

A happily married woman's perfect life shatters when her husband turns up dead hundreds of miles away from where he should have been, and she suddenly discovers that there was a part of him she knew nothing about. Alice Dupont's perfect marriage was a perfect lie. When her husband, Chris, dies in a car accident, far from where he should have been, Alice's life falls apart. After the police close the case, she is left with more questions than answers. While learning to cope with her loss and her new identity as a single mother of two, Alice becomes obsessed with unraveling the mystery surrounding her husband's death and decides to start her own investigation. Retracing her husband's last known whereabouts, she soon discovers clues that lead her to a small island near Nantucket. As she insinuates herself into the lives of the island's inhabitants in an effort to discover what they knew about her husband, Alice finds herself increasingly involved in their private lives and comes to a disturbing realization: she has been transformed into a person she no longer recognizes. In seeking an answer to what her husband was doing before he died, Alice discovers not only a side of him she never knew, but sides of her own character she has never explored. Part mystery, part moving family

drama, part psychological page-turner, *Alice's Island* is a novel whose vivid characters hold the reader rapt right up until the final page.

Alice's Island

Written by a Russian prince who renounced his title, this work promotes an anarchist market economy — a system of autonomous cooperative collectives. A century after its initial publication, it remains fresh and relevant.

The Conquest of Bread

The authors document how four forces--exponential technologies, the DIY innovator, the Technophilanthropist, and the Rising Billion--are conspiring to solve our biggest problems. "Abundance" establishes hard targets for change and lays out a strategic roadmap for governments, industry and entrepreneurs, giving us plenty of reason for optimism.

Better Spending for Better Lives

This is a practical guide for Occupational Therapists and others who provide services to people who have Duchenne muscular dystrophy. The goal of the book is to deepen the readers understanding of the support that occupational therapists can offer to families who are affected by this condition. Written by experienced occupational therapists with a special interest in Duchenne muscular dystrophy. The book will provide information and support to therapists who may be working in isolation, or who rarely work with this client group. It is for the experienced therapist as well as the student. Each chapter of this book gives a clear and comprehensive description of different aspects of occupational therapy assessments and interventions.

Abundance

What happens when the bottlenecks that stand between supply and demand in our culture go away and everything becomes available to everyone? "The Long Tail" is a powerful new force in our economy: the rise of the niche. As the cost of reaching consumers drops dramatically, our markets are shifting from a one-size-fits-all model of mass appeal to one of unlimited variety for unique tastes. From supermarket shelves to advertising agencies, the ability to offer vast choice is changing everything, and causing us to rethink where our markets lie and how to get to them. Unlimited selection is revealing truths about what consumers want and how they want to get it, from DVDs at Netflix to songs on iTunes to advertising on Google. However, this is not just a virtue of online marketplaces; it is an example of an entirely new economic model for business, one that is just beginning to show its power. After a century of obsessing over the few products at the head of the demand curve, the new economics of distribution allow us to turn our focus to the many more products in the tail, which collectively can create a new market as big as the one we already know. The Long Tail is really about the economics of abundance. New efficiencies in distribution, manufacturing, and marketing are essentially resetting the definition of what's commercially viable across the board. If the 20th century was about hits, the 21st will be equally about niches.

Occupational Therapy and Duchenne Muscular Dystrophy

One of the true classics of horror, now with a new stunning cover look. *THE SHINING* is regarded as one of Stephen King's masterpieces. Danny is only five years old, but in the words of old Mr Hallorann he is a 'shiner', aglow with psychic voltage. When his father becomes caretaker of the Overlook Hotel, Danny's visions grow out of control. As winter closes in and blizzards cut them off, the hotel seems to develop a life of its own. It is meant to be empty. So who is the lady in Room 217 and who are the masked guests going up and down in the elevator? And why do the hedges shaped like animals seem so alive? Somewhere, somehow, there is an evil force in the hotel - and that, too, is beginning to shine ...

The Long Tail

What if society wasn't fundamentally rational, but was motivated by insanity? This thought sets Jon Ronson on an utterly compelling adventure into the world of madness. Along the way, Jon meets psychopaths, those whose lives have been touched by madness and those whose job it is to diagnose it, including the influential psychologist who developed the Psychopath Test, from whom Jon learns

the art of psychopath-spotting. A skill which seemingly reveals that madness could indeed be at the heart of everything . . . Combining Jon Ronson's trademark humour, charm and investigative incision, *The Psychopath Test* is both entertaining and honest, unearthing dangerous truths and asking serious questions about how we define normality in a world where we are increasingly judged by our maddest edges. 'The belly laughs come thick and fast – my God, he is funny . . . provocative and interesting' – Observer

The Shining

GOOD OMENS SEASON 2 COMING 28TH JULY ON AMAZON PRIME. The book behind the Amazon Prime / BBC Series starring David Tennant, Michael Sheen, Jon Hamm and Benedict Cumberbatch. 'Ridiculously inventive and gloriously funny' Guardian What if, for once, the predictions are right, and the Apocalypse really is due to arrive next Saturday, just after tea? It's a predicament that Aziraphale, a somewhat fussy angel, and Crowley, a fast-living demon, now find themselves in. They've been living amongst Earth's mortals since The Beginning and, truth be told, have grown rather fond of the lifestyle and, in all honesty, are not actually looking forward to the coming Apocalypse. And then there's the small matter that someone appears to have misplaced the Antichrist . . . What readers are saying about Good Omens: ***** 'A superb recipe for disaster. I didn't stop grinning from beginning to end.' ***** 'Both Gaiman and Pratchett are great authors and they complement each other brilliantly.' ***** 'Superbly enjoyable read. Seamlessly co-written.'

The Psychopath Test

Good Omens

A NATIONAL BOOK CRITICS CIRCLE AWARD WINNER THE POSTHUMOUS MASTERWORK FROM "ONE OF THE GREATEST AND MOST INFLUENTIAL MODERN WRITERS" (JAMES WOOD, THE NEW YORK TIMES BOOK REVIEW) Composed in the last years of Roberto Bolaño's life, 2666 was greeted across Europe and Latin America as his highest achievement, surpassing even his previous work in its strangeness, beauty, and scope. Its throng of unforgettable characters includes academics and convicts, an American sportswriter, an elusive German novelist, and a teenage student and her widowed, mentally unstable father. Their lives intersect in the urban sprawl of Santa Teresa—a fictional Juárez—on the U.S.-Mexico border, where hundreds of young factory workers, in the novel as in life, have disappeared.

The Toilet Paper Entrepreneur

THE SUNDAY TIMES BESTSELLER 'Listen out for Rutger Bregman. He has a big future shaping the future' Observer 'A more politically radical Malcolm Gladwell' New York Times 'The Dutch wunderkind of new ideas' Guardian In Utopia for Realists, Rutger Bregman shows that we can construct a society with visionary ideas that are, in fact, wholly implementable. Every milestone of civilisation – from the end of slavery to the beginning of democracy – was once considered a utopian fantasy. New utopian ideas such as universal basic income and a fifteen-hour work week can become reality in our lifetime. From a Canadian city that once completely eradicated poverty, to Richard Nixon's near implementation of a basic income for millions of Americans, Bregman takes us on a journey through history, beyond the traditional left-right divides, as he introduces ideas whose time has come.

Now, for the first time, a philosopher undertakes a systematic investigation of the moral and aesthetic issues to which cultural appropriation gives rise. Cultural appropriation is a pervasive feature of the contemporary world (the Parthenon Marbles remain in London; white musicians from Bix Beiderbeck to Eric Clapton have appropriated musical styles from African-American culture) Young offers the first

systematic philosophical investigation of the moral and aesthetic issues to which cultural appropriation gives rise Tackles head on the thorny issues arising from the clash and integration of cultures and their artifacts Questions considered include: "Can cultural appropriation result in the production of aesthetically successful works of art?" and "Is cultural appropriation in the arts morally objectionable?" "I devour every single delicious word Alexa Riley writes." —#1 New York Times and USA TODAY bestselling author Maya Banks New York Times bestselling author Alexa Riley's first full-length novel shows just what happens when a strong, possessive man finds the woman of his dreams I'll never forget the way she looked, so confident and sure of herself. I watched her from a distance. She wasn't ready for me yet. I didn't approach her and I didn't disturb her, but I never once took my eyes off her. Mallory Sullivan is ready to start her new life. After graduating at the top of her class, she's landed one of the most coveted internships in the United States. Hard work and determination have gotten her to this moment of living the life she only dreamed of growing up in foster care. From the start, I knew that she would be my greatest achievement, so the day I let her go, I set down a path for her. A path to me. She never expected Oz to be the greatest culmination of those dreams. But sometimes fate determines who you fall in love with. Who makes you lose control. Who owns your soul. And then you realize it wasn't fate at all... I've wanted to care for and protect her since the first moment I saw her. I've constructed everything in our lives so that at the perfect moment, I could have her, could give her the life she deserves. The time has come. This book is approximately 97,000 words One-click with confidence. This title is part of the Carina Press Romance Promise: all the romance you're looking for with an HEA/HFN. It's a promise!

The book is very well-structured. . . [It] provides a timely contribution to a conversation with a long history, and debates over the nature and purpose of the university seem certain to figure prominently in educational discourse for many years to come. Peter Roberts, Journal of Educational Administrative and History Drawing from experience as a professor in innovation and entrepreneurship and as a consultant to universities, Wissema offers deep insights into management of the modern universities. The book is well-written and all those university administrators who wish to transform their universities into entrepreneurial universities would find the book very useful. Jandhyala B.G. Tilak, Journal of

Educational Planning and Administration In Central and Eastern Europe, universities are struggling to adapt to the new economic and institutional situations. The concept of the Third Generation University is powerful in giving direction. In addition, the book offers much practical advice, taken from the author's experience as a consultant to universities. Marjan Bojadzhiev, University American College Skopje, Macedonia Although the quality of university management makes or breaks the effectiveness and efficiency of a university, most university managers come unprepared to the job while only few books and courses in the subject are available. This book offers, amongst other things, welcome insights into the issue of university management. In Wageningen, the concept of the Third Generation University has proven to be inspiring, challenging and operational. It enabled us to develop science for Impact for a variety of new stakeholders. M. Kropff, Wageningen University and Research Centre, the Netherlands This book demonstrates that universities are subject to fundamental change, evolving from science-based, monodisciplinary institutions into transfunctional, international know-how hubs named third generation universities or 3GUs. J.G. Wissema explores the combination of forces that propel this dramatic change, tracing the historic development of universities, and exploring the technology-based enterprises, technostarters and financiers for start-ups and young enterprises that are the main partners of these 3GUs. He goes on to illustrate that universities play a new role as incubators of new science- or technology-based enterprises and take an active role in the exploitation of the knowledge they create. The book concludes with suggestions regarding the way in which changes in the university's mission should be reflected in subsequent organisational changes. Offering practical advice on the route forward for universities, and elucidating the role of education in entrepreneurship, this unique book will prove invaluable to academics and practitioners who seek to implement and facilitate changes for 3GU status. It will also appeal to students and researchers with an interest in business and management, education, entrepreneurship and public policy on education.

The Personal MBA

Winner of the AEJMC-Knudson Latin America Prize 2017 Social movements throughout contemporary Latin America are successfully influencing and shaping media policy. In this highly original, detailed, and in-depth study, Silvio Waisbord and María Soledad Segura scrutinize the goals, tactics, and impact of civic media movements across the region, demonstrating the full extent of media activism on domestic policy and politics. Media Movements goes beyond simple conceptions of 'the national' versus 'the global' to reveal the complicated process of media policy-making, and to evaluate the significance of local political elites and citizens, global actors, and legal frameworks. With success rates varying across the region, the authors offer an assessment of the impact of citizens' mobilization on policy-making, as well as the effects of legislation on ownership, funding, community media, non-profit media, and public media.

THE INSPIRATION FOR THE HULU ORIGINAL FILM Rediscover the true meaning of fear in this collection of horror stories from Clive Barker, New York Times bestselling author and creator of the Hellraiser series. Everybody is a book of blood; wherever we're opened, we're red. In this tour de force collection of brilliantly disturbing tales, Clive Barker combines the extraordinary with the ordinary, bringing to life our darkest nightmares with stories that both seduce and devour. As beautiful as they are terrible, the pages of this volume are stained with unsettling imagery, macabre humor, and visceral dread. Here then are the stories written on the Book of Blood. Read, if it pleases you, and learn.... This Volume includes: "The Book of Blood" • "The Midnight Meat Train" • "The Yattering and Jack" • "Pig Blood Blues" • "Sex, Death and Starshine" • "In the Hills, the Cities"

Towards the Third Generation University

This collection of essays explores two traditions of interpreting and manipulating nature in the early-modern and nineteenth-century Iberian world: one instrumental and imperial, the other patriotic and national. Imperial representations laid the ground for the epistemological transformations of the so-called Scientific Revolutions. The patriotic narratives lie at the core of the first modern representations of the racialized body, Humboldtian theories of biodistribution, and views of the landscape as a historical text representing different layers of historical memory.

Media Movements

Adina Carina trades her healthy school lunches for sugary treats, and discovers some of the negative effects it can have on her body. This story book is filled with colorful illustrations and includes activity pages to help children personalize the lesson.

Julia Wertz is the anti-Bridget Jones; her diary comics are filled with life's real and often really hilarious moments.

Clive Barker's Books of Blood: Volume One (Movie Tie-In)

Harold and George's crazy creation is back — in an adventure that's WEDGIER than ever! He defeated Dr Nappy. He terminated the talking toilets. But is Captain Underpants ready for three massive, tentacled space aliens (in disguise)? Has he met his match in the Giant Man-Eating Dandelion of Doom...?

The Art of the Start

From Mike Michalowicz, bestselling author of Profit First, Clockwork, and Fix This Next, a practical and proven guide to standing out in a crowded market. Many business owners are frustrated because they feel invisible in a crowded marketplace. They know they are better than their competitors, but when they focus on that fact, they get little in return. That's because, to customers, better is not actually better. Different is better. And those who market differently, win. In his new marketing book, Mike Michalowicz offers a proven, no-bullsh*t method to position your business, service, or brand to get noticed, attract the best prospects, and convert those opportunities into sales. Told with the same humor and straight-talk that's gained Michalowicz an army of ardent followers, with actionable insights drawn from stories of real life entrepreneurs, this book lays out a simple, doable system based on three critical questions every entrepreneur and business owner must ask about their marketing: 1. Does it differentiate? 2. Does it attract? 3. Does it direct? Get Different is a game-changer for everyone who struggles to grow because their brand, message, product or service doesn't stand out and connect with customers--the long-anticipated answer to the defining business challenge of our time.

Comment Devenir Auto-Entrepreneur ? Micro-entrepreneur 2019-20. .

Tu penses à ça, si vous devez choisir entre deux douleurs : la douleur vous volontiers entrez et la douleur que quelqu'un vous apporte, que choisiriez-vous ? C'est la raison pour laquelle je pense que l'entrepreneuriat est plus facile, bien que les entrepreneurs éprouvent beaucoup de peine lors du démarrage d'une entreprise, la plupart des entrepreneurs volontairement choisi ces douleurs, il est donc beaucoup plus facile à supporter. Pour les employés, presque toutes les douleurs qui se présentaient à vous n'étaient jamais attendues, j'irai plutôt volontairement dans une guerre difficile que d'être pris dans une bataille inattendue. La liberté financière c'est un truc d'escroc ! C'est ce que beaucoup trop de personnes disent. Mais la liberté financière c'est avant tout une nouvelle manière de voir les choses.

Le Guide de Poche de L'auto-Entrepreneur

Tandis que se profilent des changements majeurs pour réformer le régime, le nombre de nouveaux auto-entrepreneurs varie entre 20000 et 30000 créations mensuelles. Autant de français qui rêvaient d'indépendance et qui ont su tenter l'aventure. L'auto-entreprise est une entreprise individuelle dont la création et la gestion ont été simplifiées. Ce cadre encore jeune reflète cependant des situations et des envies différentes qu'il était nécessaire d'expliquer pour vous donner les clés vous permettant de devenir indépendant en connaissance de cause.

Les Multiplicateurs

Nous avons tous besoin de plus de multiplicateurs autour de nous. Dans le monde du travail, il existe deux types de leader et deux styles de management radicalement différents. Certains leaders drainent les capacités et l'intelligence de leurs équipes alors que d'autres les amplifient pour produire de meilleurs résultats. Vous avez sûrement déjà croisé ces deux styles de management au travail. Le premier draine l'intelligence, l'énergie et les capacités des personnes qui l'entourent et doit toujours être au centre de l'attention. De l'autre côté se trouvent les leaders qui utilisent leur intelligence pour amplifier l'intelligence et les capacités des personnes qui les entourent. Ce sont les leaders qui incitent les employés à se dépasser pour obtenir des résultats qui dépassent les attentes. Ce sont les multiplicateurs. Augmentez les performances de votre entreprise. Ayant analysé les données de plus de 150 dirigeants, l'experte en leadership Liz Wiseman a identifié cinq disciplines qui distinguent les Multiplicateurs des Diminueurs. Ces cinq disciplines sont des compétences relationnelles, organisationnelles et managériales à portée de tous et peuvent avoir un réel impact sur la rentabilité de l'entreprise. Devenez un Multiplicateur. Apprenez à développer vos compétences afin de devenir un Team Leader inspirant. Attirez les talents, engagez vos collaborateurs et stimulez l'innovation. Ce livre fournit tous les outils vous permettant : • D'identifier concrètement ces deux styles de management et de leadership • De découvrir les cinq compétences à mettre en pratique afin de devenir un leader bienveillant et inspirant • De mettre en place un environnement de travail stimulant et innovant Si vous êtes à la recherche d'un livre sur le leadership ou le développement des compétences tels que L'intelligence émotionnelle de Viola Di Russo ou la série Pourquoi de Simon Sinek, alors Multiplicateurs sera le choix idéal pour votre prochaine lecture.

Collection de documents pour servir à l'histoire des hôpitaux de Paris

Heidegger avait porté son attention sur la détermination de l'être de l'étant comme volonté. F. Fischbach explore et met à jour d'autres possibles recelés par l'ontologie de l'agir : il étudie ce qui se tient derrière les conceptions les plus diverses de l'être de l'étant, l'actus.

Collection de documents pour servir à l'histoire des hôpitaux de Paris

Cet ouvrage, méthodologique et théorique, aborde le concept d'accompagnement au-delà des dispositifs, des publics, des secteurs professionnels ou des formes de l'accompagnement. Il a été conçu par, pour et avec des professionnels de l'accompagnement. [Source : site de l'éditeur]

L'être et l'acte

Un guide méthodologique qui donne des repères pour penser la mise en oeuvre de l'accompagnement au-delà de la multiplicité des formes (tutorat, mentoring, coaching, counseling, consulting), des publics, des contextes professionnels. L'originalité de ce livre est d'aborder le concept d'accompagnement au-delà des conditionnements des dispositifs, des publics, des secteurs professionnels ou des formes spécifiques de l'accompagnement. Le « matériel » proposé ici, méthodologique et théorique, détient son opérationnalité d'avoir été recueilli et travaillé auprès des professionnels de l'accompagnement. Il a été conçu pour eux, par eux et avec eux. L'ouvrage est structuré autour de l'identification des fondamentaux de toute pratique d'accompagnement. Rassemblés en repères, ils fournissent en quelque sorte une table d'orientation à partir de laquelle chaque lecteur, praticien ou chercheur, individuellement autant que collectivement, peut mener une réflexion sur ce qu'accompagner veut dire, pour lui, dans son contexte professionnel. Cette réflexion s'est donné pour fil conducteur l'exigence, pour tout accompagnement, de répondre à la triple identité d'un être humain : son identité singulière, celle que lui confère sa culture d'appartenance et celle qui lui revient dans l'ordre de l'humain. Comprendre le concept d'accompagnement n'est pas le définir, mais se doter de repères partagés pour une construction collective de ce qu'il engage et des enjeux sociopolitiques qu'il représente.

La démarche d'accompagnement

Futur créateur ou repreneur d'entreprise, entrepreneur désireux d'étendre votre activité touristique ou hôtelière, étudiant spécialisé dans les domaines élargis du tourisme et de l'hôtellerie, ou tout simplement curieux de mieux comprendre un secteur clé de l'économie, cet ouvrage a été rédigé à votre intention... Contrairement aux idées reçues, il n'y a pas de modèle type à imiter, de processus opérationnel unique pour créer ou reprendre une entreprise touristique ou hôtelière. La seule stratégie véritablement adaptée est celle que vous allez vous-même bâtir, en fonction de vos propres paramètres ainsi que des spécificités de votre environnement et du marché que vous allez cibler. Afin de vous accompagner et de vous faire acquérir les « méthodes et outils pour réussir » votre création ou votre reprise d'entreprise, trois universitaires, à la fois chercheurs et praticiens du monde du tourisme, ont allié leurs compétences et expertises. Tout au long des étapes proposées, vous serez guidés et impliqués dans une démarche logique, rationnelle, efficiente et personnalisée : - les pages paires de l'ouvrage vous présenteront les acquis nécessaires pour maîtriser le contenu des étapes successives à accomplir ; - les pages impaires vous mettront en prise directe avec les réalités du terrain touristique et hôtelier entrepreneurial. Vous n'êtes déjà plus un simple lecteur : vous voilà devenu l'acteur de votre devenir et de votre succès !

La démarche d'accompagnement

Les trois monothéismes et leurs défenseurs répètent à qui veut l'entendre que la Bible est sans erreur, sans contradiction et sans incohérence puisqu'elle est la révélation de Dieu, et Dieu ne peut faire d'erreurs. Or, ce livre prétend tout le contraire et fait la démonstration que la Bible est bourrée d'erreurs, de contradictions et d'incohérences ce qui signifie qu'elle n'est précisément pas la révélation de Dieu. Ce livre aborde d'abord quelques notions de base : en quoi consiste l'argument historico-culturel ; quelle était l'identité du peuple hébreu ; quel est le principe de la double morale ; et Dieu a-t-il pris soin de sa révélation ? Ces erreurs, ces contradictions et ces incohérences ne sont pas mineures, au contraire : elles frappent les plus grandes notions et principes de la Bible comme le monothéisme, le péché originel, la peine de mort, l'homophobie, la xénophobie, les fausses prophéties, l'au-delà, les commandements de Moïse et le pardon de Yahvé. Mais ce livre aborde des sujets encore plus délicats : Jésus était-il schizophrène ? Jésus était-il vraiment dieu ? Peut-on dresser un parallèle entre Mein Kampf, la bible du nazisme, et la Bible hébraïque ? Y a-t-il une rupture entre l'Ancien et le Nouveau Testament ? Il répond surtout à la grande question : « Est-ce que la Bible nous révèle quelque chose ? » Finalement, l'auteur fait un bilan sombre en exposant les crimes de la Bible qui, sur une période de 3 000 ans, a fait des millions de victimes. Le style de ce livre surprendra le lecteur. Étant donné que la Bible est un fouillis de contradictions, d'erreurs, d'incohérences, l'auteur a adopté un style désinvolte, familier et humoristique. L'auteur interpelle directement le lecteur. Ce livre est le complément de La Bible immorale qui soulignait la profonde immoralité des soi-disant saintes Écritures. Il relate tout le

côté humain de ce livre qui est malheureusement la base de notre civilisation occidentale et chrétienne, mais un livre qui doit être dénoncé comme responsable de toute la violence, de tous les crimes commis au nom du christianisme à travers les siècles.

Best of 2006-2010

Hervé Novelli, secrétaire d'État chargé du Commerce de l'Artisanat, des PME, du Tourisme, des Services et de la Consommation, est l'inventeur de l'auto-entreprise, qui a révolutionné la création d'entreprises en France. Grâce à ce nouveau régime, en place depuis janvier 2009, près de 300 000 auto-entrepreneurs auront " créé leur boîte " d'ici la fin de l'année. Plus que le nombre d'entreprises " classiques " ! Et ce n'est qu'un début... Le secret de ce succès : son hypersimplicité. Simplicité de création (dix minutes sur Internet), simplicité de gestion (pas besoin de comptable), simplicité d'imposition (un forfait unique sur le chiffre d'affaires). Et rien à payer tant qu'on n'a pas gagné d'argent... Grâce à l'auto-entreprise, l'esprit d'entreprise, qui est aussi l'esprit d'aventure, souffle de nouveau en France. Malgré la crise. Chômeurs, étudiants, salariés, retraités, hommes et femmes, jeunes ou moins jeunes, une nouvelle génération est née : la " génération auto-entrepreneurs ". " Un phénomène de société \

The conviction that the development and promotion of the arts, humanities and culture through the study of literature and the aesthetic are the fundamental constituents of any progress in society is at the heart of this volume. The essays gathered here explore the role of the imagination and aesthetic awareness in an age when the corporatization of knowledge is in the process of transforming literary studies, and political commitment is in danger of disappearing behind a supposedly post-ideological late-capitalist consensus. The main focus of the volume is the mutual implication of aesthetics and ideology and the status and value of different types of art within the political arena. Challenging issues in contemporary aesthetics are examined within the wider framework of current debates on the disappearance of the real, the crisis in representation, and the use of new media. The wide range of examples collected here, stretching from experimental poetry in post-war Germany, political commitment in twentieth-century French theatre, and countercultural Rumanian theatre under Ceau escu, to Neo-Victorian fiction, Verbatim theatre in the UK, and political theatre for the masses in Estonia, vouchsafe unique insights into the intersection of aesthetics and ideology and the practical consequences thereof. As such, the volume opens up a space for a meaningful engagement with authentic forms of art from inside and outside the Anglosphere, and, ultimately, uses these examples as a platform from which to imagine some form of "aesthetics", representing an ideal union of aesthetics and ideology. This concept, first coined by the French philosopher Philippe Lacoue-Labarthe, will prove

to be relevant both within the parameters of the examples discussed here, but also beyond, for the contributors to this volume are unanimous in refusing to believe that aesthetics and ideology can exist one without the other, and in recognizing the centrality of ethics in any discussion of these notions.

Cas cliniques en médecine générale (2e ed.)

Lorsqu'elle est pratiquée par de grandes entreprises, l'innovation ouverte avec les start-up suppose de nombreuses interactions. Il s'agit en quelque sorte de « marier » des dirigeants de start-up avec des salariés de grands groupes afin de développer leurs relations. L'objectif de cet ouvrage est de décrire explicitement les interactions quotidiennes qui doivent être mises en oeuvre pour transformer ces interactions one to one ou one to many en valeurs tangibles (partenariats commerciaux) et intangibles (satisfaction de la relation). Il présente et analyse des paroles, des comportements et des témoignages de professionnels issus de ces deux mondes, mais ne se cantonne pas au seul domaine professionnel. En effet, les interactions humaines pour générer de la valeur sont aussi une nécessité dans le domaine personnel. La place de l'Humain dans tout système est essentielle ; il doit la trouver pour aller de l'avant.
