[#biology mcqs class 12](#) [#class 12 biology quizzes](#) [#12th grade biology practice tests](#) [#CBSE biology mcqs grade 12](#) [#multiple choice questions biology class 12](#)

Master your Class 12 Biology concepts with our extensive collection of expertly crafted MCQs. Ideal for quick revision, exam preparation, and boosting your understanding of key topics.

Our digital textbook collection offers comprehensive resources for students and educators, available for free download and reference.

We appreciate your visit to our website.

The document Biology Mcqs Class 12 is available for download right away.

There are no fees, as we want to share it freely.

Authenticity is our top priority.

Every document is reviewed to ensure it is original.

This guarantees that you receive trusted resources.

We hope this document supports your work or study.

We look forward to welcoming you back again.

Thank you for using our service.

This is among the most frequently sought-after documents on the internet.

You are lucky to have discovered the right source.

We give you access to the full and authentic version Biology Mcqs Class 12 free of charge.

Chapter 11 Gene Expression - Chapter 11 Gene Expression by Dr. Julie Wells 2,810 views 3 years ago 2 hours, 11 minutes - This video covers regulation of gene expression for General **Biology**, (**Biology**, 100) for Orange Coast College (Costa Mesa, CA).

Chapter 11 Overview

How do you go from zygote to mature individual?

Modes of Regulation

A. Inducible Genes

E. coli can metabolize lactose

The lac Operon regulates lactose metabolism

Allolactose inactivates lac repressor

Question

A. Induction

B. Repressible Genes

Feedback Inhibition vs. Feedback Repression

Gene expression in eukaryotic cells

Regulation of gene expression

Regulation of chromatin structure

Regulation of transcription

Post-transcriptional regulation Alternative splicing can generate different proteins from the same gene

3. Post-transcriptional regulation Lifespan of mRNA

Post-translational regulation

Cell Signaling SIGNALING CELL

Intro

The spread of particles from an area of high concentration to an area of low concentration is called...

Which of the following is not found in a bacterial cell?

Which of these features make the alveoli efficient at gas exchange?

Before mitosis what happens inside the cell?

What is a cell called when it has differentiated?

A sperm cell and muscle cell do a lot of movement. Which substructures would these types of cell contain many of?

To calculate magnification, which of the following equations would you use?

Active transport is when a cell absorbs minerals against the concentration gradient. True or false?

Which of these specialised cells is hollow, forms tubes and is involved in the transport of water?

The movement of water molecules across a partially permeable membrane from a region of high water concentration to a region of lower water concentration is known as...

Which of these is not an adaptation of exchange surfaces that increase the efficiency of diffusion?

Sperm cells contain an acrosome in the tip of its head. This helps the sperm to penetrate the egg. What does the acrosome contain?

What colour does iodine solution change to in the presence of starch?

What is the name of the cells that are responsible for controlling the opening and closing of stomata?

Which of the following is responsible for emulsifying fats and neutralising stomach acid?

Which of these blood vessels has valves to prevent the backflow of blood?

Which substance is broken down by amylase?

Which of the following chemicals would you use to test for the presence of protein?

This organ is where digested food is absorbed into the blood..

Amino acids are formed from the digestion of which food group? a Protein

The name of the drug used to reduce the amount of bad LDL cholesterol in the blood is...

The movement of dissolved food molecules through the phloem tissue is...

Palisade cells are found in the leaf. Which of these characteristics help them to carry out photosynthesis?

What device can be fitted in a narrowed artery to allow blood to flow more freely?

A microorganism that causes disease is known as...

Painkillers are used to kill pathogens. True or false?

Which of these diseases is not spread by sexual contact?

Malaria is caused by a protist. The protist get carried by mosquitos when they feed on an infected animal What term best describes the mosquito?
 Which of the folowing is not a method that white blood cels use to defend against pathogens?
 Which drug is used to treat an irregular heartbeat?
 Clinical testing involves a blind and double bind trials. Which of the folowing best describes a double blind trial?
 Rose black spot causes purple or black spots to develop on leaves. This usually makes the leaves turn yellow and drop early. What type of pathogen causes rose black spot?
 Which drug originates from wilow bark and leaves?
 How does the stomach hep defend against pathogens?
 Which of the folowing woud be a treatment for gonorrhoea?
 A drug's effectiveness at treating an iness is known as its...
 Which of the folowing is not a limiting factor of photosynthesis?
 Pondweed is useful for providing an easy way to determine how different factors affect the rate of photosynthesis. How would you use pondweed to measure the rate of photosynthesis?
 Other than carbon dioxide what other product is produced during fermentation in yeast?
 During anaerobic respiration lactic acid can build up in the muscles. What is needed to react with the lactic acid to remove it from the cels?
 A product of photosynthesis is glucose. Which of the folowing is not a use of glucose in plants?
 What type of molecule is formed from combining gucose molecules with nitrate ions?
 When there are high levels of lactic acid which organ converts lactic acid back into glucose?
 The sum of al the reactions that happen in a cel or body is known as...
 Which type of respiration transfers the most energy?
