Failure of Justice

"A chilling piece of journalism" from the bestselling author of *Wrecking Crew: Demolishing the Case Against Steven Avery* (Ron Franscell, author of *Alice & Gerald*). In this thrilling true crime book, bestselling and award-winning author John Ferak explores the murder, investigation, trial, conviction and eventual exoneration—the largest such ever in the United States—of the Beatrice 6. On February 5, 1985, one of the coldest nights on record, Beatrice, Nebraska widow Helen Wilson was murdered inside her second-floor apartment. The news of six arrests was absolutely stunning to the locals in this easy-going, blue-collar community of 12,000 residents. But why were six loosely connected misfits who lived as far away as Alabama, Colorado and North Carolina being linked to the rape and murder of a beloved small-town widow? After all six of the condemned were convicted of murder and sent away to prison for the ghastly crime, the town moved on, convinced that justice was served. For more than twenty-five years, the Beatrice 6 rotted in prison, until the unthinkable occurred in 2008 . . . In *Failure of Justice*, John Ferak delivers a "riveting account . . . [of] an overzealous police investigation that generated false confessions and false evidence. The unbelievable story of the Beatrice 6 provides a wake-up call at a time when serious wrongful convictions continue to come to light with disturbing frequency" (Brandon L. Garrett, Justice Thurgood Marshall Distinguished Professor of Law, University of Virginia School of Law). "One of the most bizarre stories I've ever heard of."—Burl Barer, Edgar Award-winning true-crime author, host of Outlaw radio's True Crime Uncensored

Wrecking Crew

Updated 5th Anniversary Edition Including Exclusive Interview with Steve Avery In 2016-17, while working for the USA TODAY NETWORK's Wisconsin Investigative Team, author John Ferak wrote dozens of articles examining the murder case against Steven Avery, who had already beaten one wrongful conviction only to be charged again with the murder of Teresa Halbach in 2005. This case captured global attention through the Netflix documentary "Making A Murderer." In this anniversary edition of *WRECKING CREW: Demolishing the Case Against Steven Avery*, Ferak not only lays out in

meticulous detail the post-conviction strategy of Kathleen Zellner, the high-profile, high-octane lawyer fighting to free Avery but also includes a new "Five Years Later" section. This update provides fresh insights and developments in Avery's ongoing legal battle. Additionally, this special edition features an exclusive epilogue: a November 2023 interview with Steven Avery. For this book, Zellner, arguably America's most successful wrongful conviction attorney, granted Ferak unprecedented access to the exhaustive pro bono efforts she and her small suburban Chicago law firm have invested in a man she believes to be wrongfully ensnared by Manitowoc County's unscrupulous justice system. This anniversary edition offers new revelations and a comprehensive look at a case that continues to stir public debate and demand justice.

Held Hostage

This "riveting true life account" goes inside the life-or-death world of a Las Vegas police crisis negotiator: "a must read" (Gary W. Noesner, Chief, FBI Crisis Negotiation Unit, author of *Stalling For Time*). What do you say to prevent someone from committing "suicide-by-cop"? How do you talk someone down when he's pointing a gun at a hostage? What tactics do you use when lives depend on your words? Veteran police negotiator Lieutenant Dennis Flynn spent nearly two decades responding to more than a thousand high-intensity incidents with the Crisis Negotiations Team in Las Vegas, Nevada. He approached every scenario with the same goal: bring everyone out alive. This vivid memoir offers a rare, behind-the-scenes view of the life-and-death situations that police negotiators face on a daily basis. Taking readers through both exhilarating successes and tragic failures, Flynn offers a guided tour of the extreme and potentially deadly side of Sin City.

The Korean Crisis

An in-depth portrait of the two Koreas and their turbulent relationship—from the author of *Eisenhower: A 20th Century Hero in War and Peace*. After nearly 70 years of division between North and South Korea, the two nations have not yet achieved a peaceful settlement. Professor Emeritus Jack Van Der Slik's book provides a first person account of the incredible differences between the nations. The Korean Crisis: One People, Two Nations, an Uncertain Future follows the fate of the two Koreas. The first is a story of hard-earned success by the South Korean people. Although democracy did not come easily, it did accompany flourishing through market capitalism. The second, the fall of the Democratic People's Republic of Korea, began with early economic success then sank into a socialist dictatorship, stratifying the country's people into a small privileged elite supported by a poor and cheerless mass of disadvantaged workers. Despite the poverty and food insecurity suffered by the North Korean underclass, the ruling elite has formidably armed itself with nuclear weapons and a massive standing army. The Korean Crisis draws upon deep studies of democratization in South Korea and Van Der Slik's own travels throughout the Republic of Korea and Panmunjom—the heavily armed 38th parallel and the site of peace negotiations. Intensely researched, highly informative, and poignantly told, The Korean Crisis will educate the public about Korea and the dangers that exist there while shedding light on a possible catastrophic nuclear conflict between the two rival countries whose combatants are, in fact, one people.

The Politics of Murder

This true crime investigation of a Boston teenager's murder trial is "a chilling story about corruption, political power and a stacked judicial system" (John Ferak, author of *Failure of Justice*). On a hot night in July 1995, Janet Downing was stabbed ninety-eight times in her Somerville home, two miles northwest of Boston. Within hours, fifteen-year-old Eddie O'Brien was identified as the prime suspect. The best friend of one of Janet's sons, Eddie was a peculiar choice. He had no criminal record or symptoms of mental illness. He had neither motive nor opportunity to commit the crime—while others had both. And yet, powers far beyond Somerville decided that Eddie was guilty. Perhaps it was politics. At the time, a movement targeting the supposed scourge of young "superpredators" was sweeping the nation. Dubbed the alter boy murder case by Court TV, Eddie's trial garnered national publicity and changed juvenile law in Massachusetts. But, as attorney Margo Nash demonstrates in this explosive expose, the justice system failed Eddie. Appointed Eddie's guardian ad litem, Nash attended every court session and gained access to his files. Examining the investigation, trial transcripts, and forensic evidence, Nash demonstrates that Eddie could not have committed the crime and that other viable suspects were never properly considered. Now readers can decide if politics sent an innocent boy to adult prison for the rest of his life.

Understanding Police Interrogation

Uses techniques from psychological science and legal theory to explore police interrogation in the United States. *Understanding Police Interrogation* provides a single comprehensive source for understanding issues relating to police interrogation and confession. It sheds light on the range of factors that may influence the outcome of the interrogation of a suspect, which ones make it more likely that a person will confess, and which may also inadvertently lead to false confessions. There is a significant psychological component to police interrogations, as interrogators may try to build rapport with the suspect, or trick them into thinking there is evidence against them that does not exist. Also important is the extent to which the interrogator is convinced of the suspect's guilt, a factor that has clear ramifications for today's debates over treatment of black suspects and other people of color in the criminal justice system. The volume employs a totality of the circumstances approach, arguing that a number of integrated factors, such as the characteristics of the suspect, the characteristics of the interrogators, interrogation techniques and location, community perceptions of law enforcement, and expectations for jurors and judges, all contribute to the nature of interrogations and the outcomes and perceptions of the criminal justice system. The authors argue that by drawing on this approach we can better explain the likelihood of interrogation outcomes, including true and false confessions, and provide both scholars and practitioners with a greater understanding of best practices going forward.

Dixie's Last Stand

The true crime author of *Body of Proof* investigates the case of an Iowa woman charged with murder for killing her abusive husband. Scott and Dixie Shanahan lived in a gray ranch along Third Avenue in the sleepy Midwestern town of Defiance, Iowa. With a population of less than 400, everyone in Defiance knew the home for its recurring episodes of screaming, mayhem, and horrific domestic violence. Then one day, Scott Shanahan was gone. Some thought the abusive husband had packed his bags and left

town. After months went by with still no sign of the volatile wife beater, people began to ask questions. But what really happened to him was so shocking that even long-time law enforcement officials were aghast by the sight and awful smell. When Dixie was arrested for Scott's murder, she made a credible claim of self-defense. But how did she manage to live with her husband's rotting body inside her master bedroom for fourteen months? In *Dixie's Last Stand*, investigative journalist John Ferak explores a tragic tale of marital abuse to ask: did Dixie Shanahan deserve to be convicted of murder?

Justice in the Age of Judgment

From Amanda Knox to O.J., Casey Anthony to Kyle Rittenhouse, our justice system faces scrutiny and pressure from the media and public like never before. Can the bedrock of "innocent until proven guilty" survive in what acclaimed Seattle attorney and legal analyst Anne Bremner calls the age of judgement? When unscrupulous Italian prosecutors waged an all-out war in the media and courtroom to wrongly convict American exchange student Amanda Knox for a murder she didn't commit, family and friends turned to renowned Seattle attorney and media legal analyst Anne Bremner to help win her freedom. The case was dubbed the "trial of the decade" and would coincide with the explosion of social media and a new era of trying cases in public as much as the courtroom. While Italian prosecutors, the press, and online lynch mobs convicted Knox in the court of public opinion, Bremner would draw upon her decades in the courtroom and in front of the camera to turn the tide with a new kind of defense in pursuit of justice. In *Justice in the Age of Judgement*, Anne Bremner and Doug Bremner take us inside some of the biggest cases of recent times and offer their expert, thought-provoking insights and analysis as our legal system faces unprecedented forces fighting to tip the scales of justice their way. Why couldn't prosecutors convict O.J. Simpson despite all of the evidence seemingly proving he killed his wife Nicole? Could a jury remain unbiased in the face of overwhelming public pressure in the trial of Minneapolis police officer Derek Chauvin for the murder of George Floyd? Why was Kyle Rittenhouse exonerated after shooting three people (killing two) with an assault rifle at a violent rally despite widespread media reports seemingly proving his guilt, and national calls for his conviction? *Justice in the Age of Judgement* is an unparalleled and unflinching look at the captivating cases tried on Twitter and TV, where the burden of proof and fundamental legal tenet of "innocent until proven guilty" is under assault from the court of public opinion.

Murderers' Row Volume Three

"Whatever you thought you believed about this infamous case, get ready to change your mind or be more convinced than ever . . . Fascinating." —Steve Jackson, *New York Times* bestselling author *My Brother's Keeper*: The moment he found out his brother Gary was missing and presumed dead, Ted Kergan launched a relentless effort to bring two suspected killers to justice and find Gary's body. Little did he know his quest would consume a fortune and take thirty years to reach its dramatic conclusion. An International Book Awards Finalist! "A thirty-year search for the truth . . . a story of persistence, determination, and deep brotherly love." —Denise Wallace, author of *Daddy's Little Secret* *Summary Execution*: On June 1, 1981, two young activists, Silme Domingo and Gene Viernes, were murdered in Seattle in what was made to appear like a gang slaying. But the victims' families and friends suspected they were considered a threat to Philippines dictator Ferdinand Marcos and his regime's relationship to the United States. "Remarkable . . . The story has so many twists—as well as amazing turns—that prove the point that conspiracy theories aren't necessarily fiction." —Eric Nalder, Pulitzer Prize-winning investigative journalist

Indefensible

An insider exposes the shocking facts left out of the hit Netflix series *Making a Murderer*—proving that Avery was guilty of murder—in this true crime book. After serving eighteen years for a crime he didn't commit, Steven Avery was freed—and filed a multi-million-dollar lawsuit against Manitowoc County, Wisconsin. But before the suit could be settled, Avery was arrested again—this time for the murder of Teresa Halbach. In that now-famous trial, he was convicted once more. When *Making a Murderer* became a runaway hit, prosecutor Michael Griesbach was targeted on social media—and plagued by doubt. Now he re-examines all the evidence, offering the most complete account of the case available. Griesbach reviews allegations of tampering and planted evidence, the confession by Avery's nephew, and statements by his former girlfriend. He also examines previously sealed documents deemed inadmissible at the trial—as well as a plausible alternate suspect. Through it all, Griesbach shows how

the filmmakers' agenda, the accused man's dramatic backstory, and sensational media coverage have clouded the truth about Steven Avery. Includes sixteen pages of photos

Bloody Lies

The remote farming community of Murdock, Nebraska, seemed to be the least likely setting for one of the heartland's most ruthless and bloody double murders in decades. In fact, the little town had gone more than a century without a single homicide. But on the night of Easter 2006, Wayne and Sharmon Stock were brutally murdered in their home. The murders garnered sensational frontpage headlines and drew immediate statewide attention. Practically everybody around Murdock was filled with fear, panic, and outrage. Who killed Wayne and Sharmon Stock? What was the motive? The Stocks were the essence of Nebraska's all-American farm family, self-made, God-fearing, and of high moral character. Barely a week into this double murder investigation, two arrests brought a sense of relief to the victims' family and to local residents. The case appeared to fall neatly into place when a tiny speck of murder victim Wayne Stock's blood appeared in the alleged getaway car. Then, an obscure clue left at the crime scene took the investigation down a totally different path, stretching into Iowa, Louisiana, New York, Texas, and Wisconsin. By the time this investigation was over, the charges against the original suspects were dismissed and two new individuals emerged from the shadows. Author John Ferak covered the Stock murders from the very beginning, including all of the trial proceedings. When the criminal prosecution finally ended in 2007, he remained puzzled by one nagging question: Why was the blood of victim Wayne Stock in a car that was ultimately proven to have no connection to the murders? Over the next few years, the astonishing "bloody lies" were revealed, culminating in a law enforcement scandal that turned the case on its head and destroyed the career of Nebraska's celebrated CSI director, David Kofoed.

Murder in the Graveyard: A Brutal Murder. A Wrongful Conviction. A 27-Year Fight for Justice.

A gripping true crime investigation into the longest miscarriage of justice in British legal history.

Crime, Shame and Reintegration

Crime, Shame and Reintegration is a contribution to general criminological theory. Its approach is as relevant to professional burglary as to episodic delinquency or white collar crime. Braithwaite argues that some societies have higher crime rates than others because of their different processes of shaming wrongdoing. Shaming can be counterproductive, making crime problems worse. But when shaming is done within a cultural context of respect for the offender, it can be an extraordinarily powerful, efficient and just form of social control. Braithwaite identifies the social conditions for such successful shaming. If his theory is right, radically different criminal justice policies are needed - a shift away from punitive social control toward greater emphasis on moralizing social control. This book will be of interest not only to criminologists and sociologists, but to those in law, public administration and politics who are concerned with social policy and social issues.

Our Enemies in Blue

Let's begin with the basics: violence is an inherent part of policing. The police represent the most direct means by which the state imposes its will on the citizenry. They are armed, trained, and authorized to use force. Like the possibility of arrest, the threat of violence is implicit in every police encounter. Violence, as well as the law, is what they represent. Using media reports alone, the Cato Institute's last annual study listed nearly seven thousand victims of police "misconduct" in the United States. But such stories of police brutality only scratch the surface of a national epidemic. Every year, tens of thousands are framed, blackmailed, beaten, sexually assaulted, or killed by cops. Hundreds of millions of dollars are spent on civil judgments and settlements annually. Individual lives, families, and communities are destroyed. In this extensively revised and updated edition of his seminal study of policing in the United States, Kristian Williams shows that police brutality isn't an anomaly, but is built into the very meaning of law enforcement in the United States. From antebellum slave patrols to today's unarmed youth being gunned down in the streets, "peace keepers" have always used force to shape behavior, repress dissent, and defend the powerful. Our Enemies in Blue is a well-researched page-turner that both makes historical sense of this legalized social pathology and maps out possible alternatives.

A Wilderness of Error

Soon to be an FX Docuseries from Emmy® Award-Winning Producer Marc Smerling (The Jinx) featuring the author Errol Morris! Academy Award-winning filmmaker Errol Morris examines one of the most notorious and mysterious murder trials of the twentieth century In this profoundly original meditation on truth and the justice system, Errol Morris—a former private detective and director of The Thin Blue Line—delves deeply into the infamous Jeffrey MacDonald murder case. MacDonald, whose pregnant wife and two young daughters were brutally murdered in 1970, was convicted of the killings in 1979 and remains in prison today. The culmination of an investigation spanning over twenty years and a masterly reinvention of the true-crime thriller, *A Wilderness of Error* is a shocking book because it shows that everything we have been told about the case is deeply unreliable and that crucial elements of case against MacDonald are simply not true.

Infinite Hope

Written by a wrongfully convicted man who spent 16 years in solitary confinement and 12 years on death row, a powerful memoir about fighting for—and winning—exoneration. In the summer of 1992, a grandmother, a teenage girl, and four children under the age of ten were beaten and stabbed to death in Somerville, Texas. The perpetrator set the house on fire to cover his tracks, deepening the heinousness of the crime and rocking the tiny community to its core. Authorities were eager to make an arrest. Five days later, Anthony Graves was in custody. Graves, then twenty-six years old and without an attorney, was certain that his innocence was obvious. He did not know the victims, he had no knowledge about the crime, and he had an airtight alibi with witnesses. There was also no physical evidence linking him to the scene. Yet Graves was indicted, convicted of capital murder, sentenced to death, and, over the course of twelve years on death row, given two execution dates. He was not freed for eighteen years, two months, four days. Through years of suffering the whims of rogue prosecutors, vote-hungry district attorneys, and Texas State Rangers who played by their own rules, Graves was frequently exposed to the dire realities of being poor and black in the criminal justice system. He witnessed fellow inmates who became his friends and confidants be taken away, one by one, to their deaths. And he missed out on seeing his three young sons mature into men. Graves's only solace was his infinite hope that the state would not execute him for a crime he did not commit. To maintain his dignity and sanity, Graves made sure as many people as possible knew about his case. He wrote letters to whomever he thought would listen. Pen pals in countries all over the world became allies, and he attracted the attention of a savvy legal team that overcame setback after setback, chiseling away at the state's faulty case against him. Everyone's efforts eventually worked. After Graves's exoneration, the original prosecutor on his case was disbarred. Graves is one of a growing number of innocent people exonerated from death row. The moving account of his saga—of his ultimate fight for freedom from inside a prison cell—is as haunting as it is poignant, and as shameful to the legal system as it is inspiring to those on the losing end of it.

A Murder in Music City

A private citizen discovers compelling evidence that a decades-old murder in Nashville was not committed by the man who went to prison for the crime but was the result of a conspiracy involving elite members of Nashville society. Nashville 1964. Eighteen-year-old babysitter Paula Herring is murdered in her home while her six-year-old brother apparently sleeps through the grisly event. A few months later a judge's son is convicted of the crime. Talking to Strangers

THE INTERNATIONAL BESTSELLER 'Compelling, haunting, tragic stories . . . resonate long after you put the book down' James McConnachie, Sunday Times Book of the Year The routine traffic stop that ends in tragedy. The spy who spends years undetected at the highest levels of the Pentagon. The false conviction of Amanda Knox. Why do we so often get other people wrong? Why is it so hard to detect a lie, read a face or judge a stranger's motives? Terror Town, USA

The veteran true crime author chronicles the terrifying murders, surprising arrest and dramatic trial of Illinois serial killer Milton Johnson. In the summer of 1983, an elusive serial killer stalked the blue-collar industrial city of Joliet, Illinois. One overnight killing spree took five victims, including members of the Will County Sheriff's Office. The following month brought a quadruple murder inside a shop known for its pottery classes. The plague of violence sparked the controversial New York City-based Guardian Angels to descend on Joliet, generating more unwanted media attention for the community. The National Enquirer labeled Joliet "Terror Town, U.S.A." With an arrest that seemed to come out of nowhere, authorities linked their suspect to a chilling fourteen homicides, plus three women who miraculously survived their agonizing encounters. But with multiple murder trials on the horizon, it remained anyone's guess whether Milton Johnson was guilty of mass murder and if so, would he die by means of lethal injection at the Illinois Department of Corrections?

Two Steps Forward, One Step Back

This anthology offers case studies on the deterrent effect of international criminal tribunals in ten situations, six of which are International Criminal Court situations. The case studies cover four different international tribunals. This gives a new comparative perspective on the impact of international criminal law since the early 1990s. The book seeks to contribute to an important discourse on deterrence: on how international criminal tribunals can assist in a global, co-operative effort to prevent core international crimes. Thirteen authors draw on both quantitative and qualitative factors to assess the rise and fall of criminality and perceptions of deterrence amongst a wide variety of respondents. The studies are based on first-hand information where feasible. They are multi-disciplinary and holistic. Apart from the two editors, the book has contributions by Evelyne Owiye Asaala, Olivia Bueno, Dafi na Bucaj, Seydou Doumbia, Mackline Ingabire, Kasande Sarah Kihika, Sladjana Lazic, Sharanjeet Parmar, Kounkin Augustin Som and Eleanor D. Hunger For Death

A mother is willing to sacrifice it all to save her unborn child... A pair of fishermen reel in a catch they'll soon regret.. A mysterious puzzle holds an ancient secret... ...and ten more wicked tales of the macabre from the remarkably disturbed mind of Joshua Marsella.

The Ancient Economy

"The Ancient Economy holds pride of place among the handful of genuinely influential works of ancient history. This is Finley at the height of his remarkable powers and in his finest role as historical iconoclast and intellectual provocateur. It should be required reading for every student of pre-modern modes of production, exchange, and consumption."--Josiah Ober, author of *Political Dissent in Democratic Athens*

Above Suspicion

The "uncommonly trenchant account of the only known FBI agent to confess to murder" (Kirkus Reviews). When rookie FBI agent Mark Putnam received his first assignment in 1987, it was the culmination of a lifelong dream, if not the most desirable location. Pikeville, Kentucky, is high in Appalachian coal country, an outpost rife with lawlessness dating back to the Hatfields and McCoys. As a rising star in the bureau, however, Putnam soon was cultivating paid informants and busting drug rings and bank robbers. But when one informant fell in love with him, passion and duty would collide with tragic results. A coal miner's daughter, Susan Smith was a young, attractive, struggling single mother. She was also a drug user sometimes described as a con artist, thief, and professional liar. Ultimately, Putnam gave in to Smith's relentless pursuit. But when he ended the affair, she waged a campaign of vengeance that threatened to destroy him. When at last she confronted him with a shocking announcement, a violent scuffle ensued, and Putnam, in a burst of uncontrolled rage, fatally strangled her. Though he had everything necessary to get away with murder—a spotless reputation, a victim with multiple enemies, and the protection of the bureau's impenetrable shield—his conscience wouldn't allow it. Tormented by a year of guilt and deception, Putnam finally led authorities to Smith's remains. This is the story of what happened before, during, and after his startling confession—an account that "should take its place on the dark shelf of the best American true crime" (Newsday). Revised and updated, this ebook also includes photos and a new epilogue by the author.

Practical Ethics

For thirty years, Peter Singer's *Practical Ethics* has been the classic introduction to applied ethics. For this third edition, the author has revised and updated all the chapters and added a new chapter addressing climate change, one of the most important ethical challenges of our generation. Some of the questions discussed in this book concern our daily lives. Is it ethical to buy luxuries when others do not have enough to eat? Should we buy meat from intensively reared animals? Am I doing something wrong if my carbon footprint is above the global average? Other questions confront us as concerned citizens: equality and discrimination on the grounds of race or sex; abortion, the use of embryos for research and euthanasia; political violence and terrorism; and the preservation of our planet's environment. This book's lucid style and provocative arguments make it an ideal text for university courses and for anyone willing to think about how she or he ought to live.

Criminology Goes to the Movies

James Holmes killed or wounded seventy people in a movie theater in Aurora, Colorado. Only one man was allowed to record extensive interviews with the shooter. This is what he found. On July 20, 2012 in Aurora, Colorado, a man in dark body armor and a gas mask entered a midnight premiere of *The Dark Knight Rises* with a tactical shotgun, a high-capacity assault rifle, and a sidearm. He threw a canister of tear gas into the crowd and began firing. Soon twelve were dead and fifty-eight were wounded; young children and pregnant women were among them. The man was found calmly waiting at his car. He was detained without resistance. Unlike the Columbine, Newtown, San Bernadino, and Las Vegas shootings, James Holmes is unique among mass shooters in his willingness to be taken into custody alive. In the court case that followed, only Dr. William H. Reid, a distinguished forensic psychiatrist, would be allowed to record interviews with the defendant. Reid would read Holmes' diary, investigate his phone calls and text messages, interview his family and acquaintances, speak to his victims, and review tens of thousands of pages of evidence and court testimony in an attempt to understand how

a happy, seemingly normal child could become a killer. A Dark Night in Aurora uses the twenty-three hours of unredacted interview transcripts never seen by the public and Reid's research to bring the reader inside the mind of a mass murderer. The result is chilling, gripping study of abnormal psychology and how a lovely boy named Jimmy became a killer.

The Trail of Ted Bundy

A lively, up-to-date overview of the newest research in biosocial criminology What is the relationship between criminality and biology? Nineteenth-century phrenologists insisted that criminality was innate, inherent in the offender's brain matter. While they were eventually repudiated as pseudo-scientists, today the pendulum has swung back. Both criminologists and biologists have begun to speak of a tantalizing but disturbing possibility: that criminality may be inherited as a set of genetic deficits that place one at risk to commit theft, violence, or acts of sexual deviance. But what do these new theories really assert? Are they as dangerous as their forerunners, which the Nazis and other eugenicists used to sterilize, incarcerate, and even execute thousands of supposed "born" criminals? How can we prepare for a future in which leaders may propose crime-control programs based on biology? In this second edition of The Criminal Brain, Nicole Rafter, Chad Posick, and Michael Rocque describe early biological theories of crime and provide a lively, up-to-date overview of the newest research in biosocial criminology. New chapters introduce the theories of the latter part of the 20th century; apply and critically assess current biosocial and evolutionary theories, the developments in neuro-imaging, and recent progressions in fields such as epigenetics; and finally, provide a vision for the future of criminology and crime policy from a biosocial perspective. The book is a careful, critical examination of each research approach and conclusion. Both compiling and analyzing the body of scholarship devoted to understanding the criminal brain, this volume serves as a condensed, accessible, and contemporary exploration of biological theories of crime and their everyday relevance.

The Criminal Brain, Second Edition

Baltimore, 2015. Riots were erupting across the city. Drug and violent crime were surging, with homicides reaching their highest level in over two decades. Because who would believe the dealers, the smugglers or the people who had simply been going about their daily business over the word of the city's elite task force?

We Own This City

In July of 1995, Eddie O'Brien, a 15-year-old boy, was charged with the first-degree murder of his best friend's mother. His case went to trial and he was convicted. The Politics Of Murder

In this clear-eyed, gritty, and enthralling narrative, Dr. Vincent DiMaio and veteran crime writer Ron Franscell guide us behind the morgue doors to tell a fascinating life story through the cases that have made DiMaio famous-from the exhumation of assassin Lee Harvey Oswald to the complex issues in the shooting of Florida teenager Trayvon Martin. Beginning with his street-smart Italian origins in Brooklyn, the book spans 40 years of work and more than 9,000 autopsies, and DiMaio's eventual rise into the pantheon of forensic scientists. One of the country's most methodical and intuitive criminal pathologists will dissect himself, maintaining a nearly continuous flow of suspenseful stories, revealing anecdotes, and enough macabre insider details to rivet the most fervent crime fans.

Blood and Pity

This collection by a New York Times journalist gathers three horrifying true accounts of crimes of passion, ambition, and fear. Author Joe Sharkey delivers three gripping accounts of betrayal and murder in this compelling American true crime collection. Above Suspicion: Soon to be a major motion picture starring Emilia Clarke and Jack Huston, this true account tells the story of the only FBI agent to confess to murder. Assigned to Pikeville, Kentucky, rookie Mike Putnam cultivated paid informants and busted drug rings and bank robbers. But when one informant fell in love with the bureau's rising star, their passionate affair ended with murder. Deadly Greed: On October 23, 1989, Charles Stuart reported that he and his seven-months-pregnant wife, Carol, had been robbed and shot by a black male. By the time police arrived, Carol was dead, and soon the baby was lost as well. Stuart then identified a suspect: Willie Bennett. The attack incited a furor during a time of heightened racial tension in the community. But even more appalling, Stuart's story was a hoax—he was the true killer. Death Sentence: John List was working as the vice president of a Jersey City bank and had moved his mother, wife, and three teenage children into a nineteen-room mansion in Westfield, New Jersey when he lost his job and everything changed. Fearing financial ruin and the corruption of his children's souls by the free-spirited 1970s, he came up with a terrifying solution: He would shoot his entire family and vanish, taking on a new life and a new identity.

A Pretty Deceit

Jonathan Ward's brother, Arthur, has been murdered. The murderer has escaped out the back door, but the bloody murder weapon is in Jonathan's hand. Con-man that he is, and given the argument he had had with Arthur an hour earlier, he knows he will be the prime suspect in his brother's death. He cannot afford to come under the close scrutiny of the law. He just may have to perpetrate the greatest, and most challenging con of his life, but is he up to it? To pull off the most daring stunt of his life, Jonathan will not only have to convince Arthur's friends, the police, and the public, but- worst of all-the beautiful Angela Milford by his monumental deception. Having rejected his brother's faith, however, and his godly

life-style, the changes he will have to make, may just be more than he is willing to endure. With the murderer still lurking in the shadows, he may not just be risking his own life, but also that of the woman who has captured his heart. Born in South Africa in 1943, Christopher Shennan really began to live on the 29th of August 1967, when he was born again through the power of Jesus Christ. Since then, only one passion has consumed him; to communicate the love of Christ through any and every means at his disposal. Christopher and his family served as missionaries in Zimbabwe where he established a church amongst the Shona tribe before moving to Canada in 1984. With fourteen published books behind him, his passion is to pass on all God has taught him to the next generation. Five new novels and numerous non-fiction projects he expects to take him the rest of his life. *DOUBLE DECEIT*, represents one of the greatest challenges of his writing life. Begun almost twenty years ago, it was abandoned when barely seven chapters had been written. Its classical theme and spiritual dynamic seemed to him beyond his ability at the time. Urged by friends and students he at last took up the challenge again. Only constant prayer and the conviction God wanted him to write this book enabled him at last to cross the finish line. He sends it forth now with the earnest prayer God will use it to impact the lives of his readers."

Her once prosperous aunt has fallen on difficult times and is considering selling their estate. But there are strange goings-on at the manor, including missing servants, possible heirloom forgeries, and suspicious rumours - all leading to the discovery of a dead body on the grounds. While Verity and her husband, Sidney, investigate this new mystery, they are also on the trail of an old adversary - the shadowy and lethal Lord Ardmore. At every turn, the suspected traitor seems to be one step ahead of them. And even when their dear friend Max, the Earl of Ryde, stumbles upon a code hidden among his late father's effects that may reveal the truth about Ardmore, Verity wonders if they are really the hunters - or the hunted.

Gathering of Saints

John Giordano is the former associate US attorney who has already prosecuted five New York crime families in the trial of the century when he is recruited by the president to run for the Senate. But just as he thinks life is going according to plan, Giordano receives a visit from his former lover, Paula Fasano, the granddaughter of a Mafia Don with whom he had a secret love affair thirty-five years earlier. Paula is accused of murdering her husband and wants Giordano to defend her. Despite receiving discouragement from the powers behind his candidacy, John takes the case, believing Paula is innocent. After alienating his two most ardent supporters, Giordano is pitted against the DA in a riveting courtroom confrontation that determines Paulas fate and his quest for the Senate seat. As Giordano fears Paula will be found guilty, he must question the legal and political system he has spent his life believing in and defending. Now only time will tell if love will be strong enough to bind two people destined to be together, despite the seemingly insurmountable obstacles standing in their way. *The Litigators Wife* is a tale of murder, deceit, betrayal, and revenge as an attorney risks everything to defend the woman he loves.

Shadows of Deceit: A Murder Mystery Unveiled

Josiah Reynolds and her girlfriend had just seen a movie and were going home when they discover a dead body. Why does this always happen to Josiah? She learns the dead man was a reporter and a stranger to the Bluegrass. The police believe his death is due to a botched robbery, but Josiah thinks otherwise and begins snooping around. When Detective Drake tells Josiah to back off, Josiah's forensic psychiatrist boyfriend, Hunter, comes to the rescue and hires her to help investigate the case. Now Josiah has carte blanche to all the reports concerning the case, and they bear out her theory of what really happened to the dead reporter, but no one will listen. Josiah makes it her mission to unearth evidence that will prove her theory. She begins the dangerous game of finding out the truth in a world that hides its secrets among antebellum mansions, oak-cured bourbon, and million dollar horses grazing in emerald pastures. A Pretty Deceit

Named One of the Best Nonfiction Books of 2022 by the Los Angeles Times A premier historian penetrates the fog of corruption and cover-up still surrounding the murder of a Stanford University founder to establish who did it, how, and why. In 1885 Jane and Leland Stanford cofounded a university to honor their recently deceased young son. After her husband's death in 1893, Jane Stanford, a devoted spiritualist who expected the university to inculcate her values, steered Stanford into eccentricity and public controversy for more than a decade. In 1905 she was murdered in Hawaii, a victim, according to the Honolulu coroner's jury, of strychnine poisoning. With her vast fortune the university's lifeline, the Stanford president and his allies quickly sought to foreclose challenges to her bequests by constructing a story of death by natural causes. The cover-up gained traction in the murky labyrinths of power, wealth, and corruption of Gilded Age San Francisco. The murderer walked. Deftly sifting the scattered evidence and conflicting stories of suspects and witnesses, Richard White gives us the first full account of Jane Stanford's murder and its cover-up. Against a backdrop of the city's machine politics, rogue policing, tong wars, and heated newspaper rivalries, White's search for the murderer draws us into Jane Stanford's imperious household and the academic enmities of the university. Although Stanford officials claimed that no one could have wanted to murder Jane, we meet several people who had the motives and the opportunity to do so. One of these, we discover, also had the means.
