The Campaign of Adowa and the Rise of Menelik - Primary Source Edition

The battle of Adowa was a crucial turning point in the history of African colonialism. By the time it was fought, in March 1896, the ancient Empire of Abyssinia (today's Ethiopia) in the horn of Africa was the last African state to have retained its independence and escaped the 'scramble for Africa' that had seen the rest of the continent fall under the rule of rival European powers. As a latecomer to the colonial feast, Italy viewed Abyssinia, under its Emperor Menelik II, with greedy eyes. The Italians attacked

Abyssinia but struggled in a hostile terrain. Urged on by Rome, however, the Italian Governor, General Baratieri, resolved on a full-frontal attack against the Ethiopian army, led by the Emperor himself. He ordered three separate columns totalling almost 20,000 men to advance on three mountain peaks. The Ethiopians, outnumbering the Italians by some five to one, were warned of the advance, ambushed the confused Italians and completely routed them. Adowa was the worst defeat ever inflicted on a European army by an African army. The Italians took a belated revenge in 1935 when Mussolini invaded and briefly conquered the country. This book is the only available account in English of an important and much-neglected campaign.

The Campaign of Adowa and the Rise of Menelik

In 1896 a massive Ethiopian army routed an invading Italian force and brought Italy's conquest of Africa to an end. In defending its independence, Ethiopia cast doubt on the assumption that all Africans would fall under the rule of Europeans, and opened a breach that would lead to the continent's painful struggle for freedom from colonial rule.

The Campaign of Adowa and the Rise of Menelik

In the late 19th century, the new nation-state of Italy was eager to join her European neighbours in creating an international empire, and her eyes turned toward Africa as a source of potential colonies. Securing a foothold in Eritrea on the Red Sea coast, the Italians quickly became embroiled in a shooting war with the Ethiopians. The war proved a disaster for the Italians, who suffered three major defeats against the forces of Emperor Menelik's army, including a horrendous massacre at Adowa, the largest defeat of a colonial army prior to World War I. This book looks at the campaign with an emphasis on the colourful uniforms worn by both sides.

Who's Who in Modern History is a unique reference book which examines those individuals who have shaped the political world since 1860. Coverage is truly global, including the most important figures in Europe, Asia, North America, Latin America, Africa and Australasia. It provides: * an easy-to-use A-Z layout * authoritative, detailed biographies of the most important figures since 1860, from Clemenceau and Chief Buthelezi to King Fahd and Benazir Bhutto * bibliographical references for each entry, to aid further research * extensive cross-referencing * an essential guide for students, researchers and the general reader alike.

The Battle of Adwa

Ethiopia trounced the Italians in 1896 in the greatest African victory over Europe since Hannibal, but failed to prevent the loss of Eritrea. The event was a powerful constitutive force in the rise of modern Africa and pan-Africanism and resounds in the shared memory of Africans and Black Americans even today.

Who's Who in Modern History

With the publication of this book, the definitive work on the diplomatic history of Ethiopia in the last quarter of the nineteenth century could be said to have seen the light of day. The book deals with a crucial period when the destiny of Ethiopia hang in the balance. The question - as indeed it was the case for the rest of Africa - was whether the country was to remain independent or become colonized. Menilek, combining diplomatic and military initiatives, not only ensured that Ethiopia remained independent but also expanded its territory to unprecedented limits. The book is based on a critical reading of the secondary literature as well as an exhaustive and analytical use of all the pertinent archival sources, the memoirs and biographies of the principal European characters, and Ethiopian chronicles, biographies and other primary sources. It can serve as the standard text for teaching courses on Ethiopia and the Horn at the university level. At the same time, it provides a useful background to those interested in the formation of the modern Ethiopian state as well as its troubled relations with what eventually became Eritrea.

The Battle of Adwa

Reframes the story of modern Ethiopia around the contributions of the Oromo people and the culturally fluid union of communities that shaped the nation's politics and society.

The Other Abyssinians

First published in 1967, *Italy from Liberalism to Fascism* is essentially the political history of Italy, concerned with both domestic and foreign policy and their interaction. Designed in chronological order, the book is divided into four parts: the consolidation of Italy after its unification; the stresses and strains the country went through; the expansion of liberalism; and the onset and development of fascism. This seminal book on the history of Italy will be of interest to students of history and political science.

The Statesman's Year-Book

Scoop, Evelyn Waugh's bestselling comedy of England's newspaper business of the 1930s is the closest thing foreign correspondents have to a bible -- they swear by it. But few readers are acquainted with Waugh's memoir of his stint as a London Daily Mail correspondent in Abyssinia (now Ethiopia) during the Italian invasion in the 1930s. *Waugh in Abyssinia* is an entertaining account by a cantankerous and unenthusiastic war reporter that "provides a fascinating short history of Mussolini's imperial adventure as well as a wickedly witty preview of the characters and follies that figure into Waugh's famous satire." In the forward, veteran foreign correspondent John Maxwell Hamilton explores in how Waugh ended up in Abyssinia, which real-life events were fictionalized in *Scoop*, and how this memoir fits into Waugh's overall literary career, which includes the classic *Brideshead Revisited*. As Hamilton explains, Waugh was the right man (a misfit), in the right place (a largely unknown country that lent itself to farcical imagination), at the right time (when the correspondents themselves were more interesting than the scraps of news they could get.) The result, *Waugh in Abyssinia*, is a memoir like no other.

Waugh in Abyssinia

This second volume of Robert A. Hill's monumental ten-volume survey of Marcus Mosiah Garvey's extraordinary mass movement of black social protest covers a period of rapid growth. The Universal Negro Improvement Association, with its "Africa for the Africans" program of racial nationalism, rapidly gained in strength in the aftermath of Garvey's successful meeting in Carnegie Hall in August 1919, and culminated in its spectacular First International Convention of the Negro Peoples of the World in 1920. Hill has compiled a wealth of archival documents and original manuscripts, with descriptive source notes and explanatory footnotes. He provides a fascinating account of the spread of Garvey's movement, which was seen-and feared-by officials in America, Europe, and colonial governments in Africa and the Caribbean as the major ideological force promoting radical consciousness among blacks. Hill continues the comprehensive outline begun in Volume I of Garvey's Black Star Line, the all-black merchant marine, and documents the beginnings of Garvey's proposals for massive loans to the Liberian government. These controversial financial schemes led to Garvey's reputation as a swindler, and Volume II details the first charges of fraud. The federal investigation of Garvey broadened and deepened during 1919--1920, with J. Edgar Hoover--then an assistant to the attorney general--continuing to search for grounds to deport Garvey. Included here are numerous reports from government agents and informers, which provide a valuable portrait of day-to-day UNIA operations. Volume II ends with the UNIA's 1920 convention, presented by Garvey as a turning point in the history of black-white relations. The legislation and the elective offices produced by that convention were intended to form a virtual government in exile for Africa, fulfilling Garvey's ambition to practice statecraft and create the symbols of black nationhood and sovereignty. This volume is the second of six that focus on America; the seventh and eighth focus on Africa, and the last two on the Caribbean. Hill has brought together far more than a portrait of a single intriguing historical figure. Garvey's movement was a mass social phenomenon, an Afro-American protest movement with strong links to African and Caribbean nationalism in the first decades of the twentieth century.

A Good Dusting

Conquest on the margins of the international state system cannot be adequately explained by military or technological superiority alone, this book claims, examining British conquest in Southern Africa, the Niger delta, and India in the 19th century as examples.

Three Finding Lists Issued by the War Department Library

The history of the often-overlooked Chewa Ethiopian warriors and their crucial role in defending their homeland against invasion, as well as their strong influence on political identity and the social infrastructure.

Three Finding Lists Issued by the War Department Library. 1. Serial Publications. 2. Principal Reference Works. 3. Important Accessions. 1898-1903

The first book to be published on the Ethiopian constitution which was established in 1994, it deals with the intricacies of federalism and the unfolding of democracy in a country that since pre-Christian times was run as a feudal state.

The Marcus Garvey and Universal Negro Improvement Association Papers, Vol. II

Volume VI covers the period 1870-1905, when the European powers divided the continent of Africa into colonial territories.

Networks of Domination

Richard Bosworth's overview of Italy's role in European and world politics from 1860 to 1960 is lively and iconoclastic. Based on a combination of primary research and secondary material he examines Italian diplomacy, military power, commerce, culture, tourism and ideology. His account challenges many aspects of current Italian historiography and offers an original vision of the place of Italy in modern history.

Ethiopian Warriorhood

A socio-cultural reconstruction of modern Ethiopia's social history, that will have far-reaching repercussions in Ethiopianist discourse.

Journal of the United Service Institution of India

A collection of military history essays examining the philosophical side of war and the meaning of "victory." What does it mean to win a war? How does this differ from a simple military victory? How have different cultures and societies answered these questions through history, and how can we apply these lessons? When considering how a war might be "won," there are three big ideas that underpin how success can be measured: ownership, intervention for effect, and fighting for ideas. These three main themes also contain a series of sub-themes: internal and external, short-term and long-term, military success versus political success, and tactical outcomes versus campaign effects versus strategic success. This book examines the constituent parts of what may comprise "victory" or "winning" in war and then travels, chronologically, through a wide variety of historical case studies, further exploring these philosophical components and weaving them into a factual discussion. The authors of each chapter will explore the three big ideas within the context of their individual case studies, offering pointers as to where, within that framework, their case study may sit. The message of this book is not just an academic exploration for its own sake, but a vital aspect (both morally and practically) of the political and military business of the application of force. In short, know in advance how you wish to end before you start. "Comprising sixteen excellent and thought-provoking essays by eighteen noted military historians and former warriors, the book comprehensively examines the realities of war and the wide-ranging concepts of victory. At the same time, it offers a very good general history of warfare." —Baird Maritime "[This book] can provide useful insights to anyone; students and subject matter experts alike can find something to gain from this book. Most importantly, its emphasis on contemporary warfare can provide consequential information for our current military and civilian leadership, if they are willing to hear it." —Air & Space Power Journal

First published in 1954, a time when few books on African history were written from an African perspective. An intimate history of Africa and its ancient civilizations, the book opposed the stereotyped and often racist histories of Africa. Today, a half century after its initial publication, African Glory still provides a vivid and dynamic connection to the African past.

Italy and the Wider World

This thesis traces aspects of the political, economic and religious history of Addis Ababa from 1886 to 1910. It is based largely on documentary material, both Ethiopian and European, but also depends on oral information. As a city it was unique in Africa because of the absence of an imposed European direction of its development and as a result it grew ad hoc, influenced by both Ethiopian and foreign concepts of an urban community. From the beginnings Emperor Menilek completely dominated the political and administrative machinery of the capital, but during his illnesses many of his responsibilities were, perforce, delegated to his closest associates who exercised their powers largely through the organisation of the Imperial Palace. The bureaucracy became increasingly civilian in its personnel, rather than military, especially after the Battle of Adwa. Furthermore, since Addis Ababa was also the capital of the empire, the city and its administrators played not only a local but also an imperial role. The economic influence of the capital was even more pronounced, where again the Emperor was more important than any other individual in the land and under his watchful eye foreigners dominated the import and export trade, while Christians wrested the overall control of trade in the Empire from the Muslims. Yet evangelically, the church was rarely very energetic in the capital although its influence was pervasive. While many historians have seen Menilek's reign as a period of significant innovation and modernisation, this thesis regards that as an exaggerated claim. For, when closely examined, the

modernisation of even the capital was never very impressive, although it was the acknowledged centre of foreign influence. Nonetheless, the capital did show itself to be the main point for the diffusion of the few modernisations that were introduced into the country from the 1880s to 1910.

The Making of Modern Ethiopia

The study focuses in particular on the Nile Basin, which has 10 riparian states sharing the waters of the Nile. As water scarcity and population is the #1 problem of the 21st century, a fair and equitable distribution of the available waters among the riparian states is a must. The book is divided into 4 parts: Diplomatic, History, Legal Analysis and developmental analysis.

Historical Dictionary of Ethiopia

The new, fully-updated edition of the acclaimed textbook covering 200 years of African history A History of Modern Africa explores two centuries of the continent's political, economic, and social history. This thorough yet accessible text help readers to understand key concepts, recognize significant themes, and identify the processes that shaped the modern history of Africa. Emphasis is placed on the consequences of colonial rule, and the links between the precolonial and postcolonial eras. Author Richard Reid, a prominent scholar and historian on the subject, argues that Africa's struggle for economic and political stability in the nineteenth century escalated and intensified through the twentieth century, the effects of which are still felt in the present day. The new third edition offers substantial updates and revisions that consider recent events and historiography. Greater emphasis is placed on African agency, particularly during the colonial period, and the importance of the long-term militarization of African political culture. Discussions of the postcolonial period have been updated to reflect recent developments, including those in North Africa. Adopting a long-term approach to current African issues, this text: Explores the legacies of the nineteenth century and the colonial period in the context of the contemporary era Highlights the role of nineteenth century and long-term internal dynamics in Africa's modern challenges Combines recent scholarship with concise and effective narrative Features maps, illustrations, expanded references, and comprehensive endnotes A History of Modern Africa: 1800 to the Present, 3rd Edition is an excellent introduction to the subject for undergraduate students in relevant courses, and for general readers with interest in modern African history and current affairs.

The Ambiguous Legacy

This book provides a narrative history of Italian colonialism from Italian unification in the 1860s to the first decade of the twentieth century; that is, it details Italy's imperialism in the years of the Scramble for Africa. It deals with the factors that drove Italy to search for territory in Africa in the 1870s and 1880s and describes the reasoning behind the trajectories adopted and objectives pursued. The events that brought Italy to open conflict with the Ethiopian Empire culminating in the Italian defeat at Adowa in March 1896 are central to the book. However its scope is much broader, as it considers the establishment of Italian power in Eritrea as well as Somalia before and after the defeat. By telling its history, it explains why Italy emerged irresolute and humiliated in this, its first thrust into Africa, yet nonetheless determined to pursue expansion in the future. The seeds for the conquest of Libya in 1911 and Ethiopia in 1935 had been sown.

Winning Wars

Translated into English by Richard Seltzer, this is a compilation of two books originally published in Russian. The first, *From Entotto to the River Baro*, was first published in 1897 and consists of two short journals of expeditions in Ethiopia from 1896-1897, plus a series of essays which cover history, culture, beliefs, languages, government, the military and commerce. The second, *With the Armies of Menelik II*, is a journal of Bulatovich's second trip to Ethiopia from 1887 to 1898, during which time he served as an advisor to the army of Ras Wolde Giyorgis.'
