Imaginal Memory and the Place of Hiroshima

Hiroshima claims a crucial yet neglected place in the psychic terrain of our individual and collective memories. Drawing on recent work in depth psychology and Jungian thought, this study explores the ancient art of remembering by envisioning "places" and "images" that are impressed upon the memory. Enthusiastically used by ancient, medieval, and Renaissance explorers of soul and spirit, the

art of memory became a profound expression of striving for cultural reform and an end to religious cruelty. *Imaginal Memory and the Place of Hiroshima* shows that images arising from the place of Hiroshima reveal, with stark exactitude, the psychic situation of our world. Specific images are explored that embody unsuspected psychological values beyond their role as reminders of the concrete horror of nuclear war. The process of remembering these images deepens into a commemoration of the fundamental powers at work in the psyche--powers that are critical to the development of a sustained cultural commitment to peace and to the deepening and revitalizing of contemporary psychological life.

Ian McEwan

Ian McEwan is one of the most significant, and controversial, British novelists working today. His books are both critically - and academically - acclaimed and embraced by readers across the world. Although primarily a novelist, he has also written short stories, television plays, a libretto, a children's book and a film adaptation. Across these many forms his work retains a distinctive character that explores questions of morality, place and history, nationhood, sexuality and gender. Now fully updated for its second edition, this guide brings together a collection of new critical perspectives on McEwan's oeuvre, not only covering the early works and his writing for the screen but also incorporating detailed and original analyses of the later work, including new readings of his latest books, *Solar* and *Sweet Tooth*. With an updated and extended guide to further critical reading on McEwan, the book also includes an interview with the author himself, a chronology of his life, work and times and the full text of a lost early McEwan short story.

Transcending the Absurd

This is the first monographic study devoted to Sławomir Mrożek, the most prominent contemporary Polish dramatist. It centers on Mrożek's development as a playwright, shown through the analysis of his complete dramas. Also discussed is Mrożek's experience as a journalist and theatre critic, satirist and short story writer, author of cartoons and movie scenarios. The monograph spans Mrożek's beginnings as the Eastern European representative of the Theatre of the Absurd and his expatriate existence during which he transcends the absurdist model. Mrożek's return to Poland in 1996 reestablishes him as a major literary figure on the contemporary Polish scene. His continuous presence in Western and Eastern European theatres testifies to the broad appeal of his plays. The presentation of Mrożek's entire artistic profile is supplemented by information on the reception of his writings in Poland and abroad, including the most important performances of his plays. The volume also provides a chronology of Mrożek's life and works, a complete listing of primary texts in Polish, English and German, a list of theatrical premieres, and a bibliography of secondary sources.

Knights of Faith and Resignation brings out the richness of Kierkegaard's creative invention, the contemporary relevance of his contrasts between resignation and faith, and his probing conceptual analysis of aesthetic, moral, and religious psychology and life-perspectives. And in tracing Kierkegaard's analysis of objectivity, subjectivity, virtue ethics, passion, dilemmas, commitment, and self-reflection, Mooney brings out a striking convergence between Kierkegaard and analytic philosophy — the tradition of Socrates, Kant, and Wittgenstein, and its more contemporary practitioners, writers like Charles Taylor, Thomas Nagel, Stanley Cavell, Bernard Williams, and Harry Frankfurt.

The Law of Freedom: Justice and Mercy in the Practice of Law examines the legal and theological roots of the concept of equity, and the implications that the diminishment of equity as a legal concept has for the moral dilemmas faced by the practicing lawyer. Meditating on the book of Micah, the book argues that the Christian duty asks for both strict justice and gracious mercy, with the prophet's third value—humility—essential for both the individual lawyer and the legal system as a whole to balance strict justice and mercy.

Seiji Utsumi was satisfied with just gazing at his beloved Shou-sempai from afar. But when his classmate, Yuki Kurokawa, finds out about his crush, she pushes him to take action, and his one-sided love starts moving rapidly! After randomly running into Kurokawa on Christmas, Utsumi is able to view the light display with her as he'd hoped, and neither of them realizes that Kurokawa's ex-boyfriend, Toru, was there as well. However, Utsumi quickly becomes depressed as the reality sets in that Kurokawa doesn't seem to share his feelings anymore. As he's spending New Year's on his own, his first crush, Shou-sempai, appears to fill the hole in his heart once again...

Excerpt from The Gospel According to St. Mark: The Greek d104 With Introduction Notes and Indices
The earliest of extant commentators on St Mark urges as his apology for undertaking so serious a task the neglect which that Evangelist appeared to have suffered at the hands of the great teachers of the Church. While each of the other Gospels had received separate treatment, the Gospel according to St Mark, so far as he could discover, had been passed by, as if it needed no elucidation or none which could not be gathered from expositions of St Matthew and St Luke.
