Taking Wing

After the wholesale assassination of the Romulan senate in the feature film *Star Trek: Nemesis*, the Romulan Empire is in disarray, with rival factions fighting to pick up the pieces and seize the reins of power. After several factions separately contact the Federation Council - each laying claim to legitimate political power - Starfleet Command sends Captain William Riker and the USS *Titan* to Romulus to set up a forum for power-sharing talks. But even as the factions take their first faltering steps towards building a new Romulus, civil war looms. Meanwhile the remnants of the Romulan intelligence service, the dreaded Tal Shiar, are regrouping behind the scenes, taking advantage of the political vacuum to mobilize ships and soldiers, threatening to touch off a conflict that would tear Romulus apart. With no other help available, Riker and the *Titan* crew are all that stands between the shattered Star Empire and a bloodbath.

Titan #1: Taking Wing

William Riker, former first officer of the USS *Enterprise* in *Star Trek: The Next Generation*, takes command of the new USS *Titan* in this white-knuckled adventure perfect for longtime and new *Star Trek* fans. After almost a decade of strife against foes such as the Borg, the Cardassians, the Klingons, and the Dominion, the United Federation of Planets is at the dawn of a new era. Starfleet is renewing its mission of peaceful exploration, diplomacy, and the expansion of knowledge. Among the starships spearheading that endeavor is the USS *Titan*, commanded by Captain William T. Riker and manned by the most biologically varied and culturally diverse crew in Starfleet history. But their mission does not begin according to plan. In the wake of *Star Trek: Nemesis*, Praetor Shinzon, slayer of the Romulan Senate, is dead. The power vacuum created by his demise has put the Romulan Star Empire, longtime adversary of the Federation, at the brink of civil war. Competing factions now vie for control of their fragmenting civilization, and if the empire should fall, that entire area of the galaxy may destabilize. To restore order to the region, *Titan*'s long-anticipated mission of exploration is delayed as Starfleet assigns Riker to set up power-sharing talks among the Romulan factions. But even as the first tentative steps are taken toward building a new Romulus, the remnants of the Tal Shiar, the dreaded Romulan intelligence service, are regrouping behind the scenes for a power play of their own. With no other help available, Riker and the *Titan* crew become the last hope to prevent the quadrant from falling into chaos.

Fallen Gods

Though the United Federation of Planets still reels from Andor's political decision that will forever affect the coalition, Captain William T. Riker and the crew of the U.S.S. *Titan* are carrying out Starfleet's renewed commitment to deep space exploration. While continuing to search the Beta Quadrant's unknown expanses for an ancient civilization's long-lost quick-terraforming technology—a potential boon to many Borg-ravaged worlds across the Federation and beyond—*Titan*'s science specialists encounter the planet Ta'ith, home to the remnant of a once-great society that may hold the very secrets they seek. But this quest also takes *Titan* perilously close to the deadly Vela Pulsar, the galaxy's most prolific source of lethal radiation, potentially jeopardizing both the ship and what remains of the Ta'ithan civilization. Meanwhile, Will Riker finds himself on a collision course with the Federation Council and the Andorian government, both of which intend to deprive *Titan* of its Andorian crew members. And

one of those Andorians—Lieutenant Pava Ek'Noor sh'Aqaba—has just uncovered a terrible danger, which has been hiding in plain sight for more than two centuries. . . .

Star Trek: Enterprise: The Romulan War: To Brave the Storm

"Based upon Star Trek created by Gene Roddenberry and Star Trek: Enterprise created by Rick Berman & Brannon Braga."

Star Trek Online: The Needs of the Many

Prior to the terror-filled times of the Long War—the seemingly endless struggle against the Undine, a paranoid, shape-shifting race once known only as Species 8472—enemy sleeper agents quietly penetrated every echelon of Federation society, as well as other starfaring civilizations throughout the Alpha and Beta quadrants. The ensuing conflict shook humanity to its very core, often placing its highest ideals against a pure survival instinct. All too frequently, the Undine War demanded the harshest of sacrifices and exacted the steepest of personal costs from the countless millions whose lives the great interdimensional clash forever altered. Drawn from his exhaustive research and interviews, *The Needs of the Many* delivers a glimpse of Betar Prize-winning author Jake Sisko's comprehensive "living history" of this tumultuous era. With collaborator Michael A. Martin, Sisko illuminates an often-poorly-understood time, an age marked indelibly by both fear and courage—not to mention the willingness of multitudes of unsung heroes who became the living embodiment of the ancient Vulcan philosopher Surak's famous axiom, "The needs of the many outweigh the needs of the few."

The Romulan War: Beneath the Raptor's Wing

With nothing left to lose, the Romulan Star Empire engages in all-out war against humanity, determined once and for all to stop the human menace from spreading across the galaxy. At the start of the twenty-first century, unconditional war swept across the Earth. A war that engulfed the great and the small, the rich and the poor, giving no quarter. Each side strove for unconditional victory, and as battle built upon battle, the living began to envy the dead. Chastised by the cataclysm that they had unleashed, the governments of Earth came together. Humanity vowed to put an end to war and to strive for the betterment of every living creature. A united Earth created Starfleet, an interstellar agency whose mission was to explore the cosmos, to come in peace for all mankind. It was a naïve wish that was battered by interstellar realities, yet man persists in the belief that peace is the way. Banding together with other powers to form a Coalition of Planets, humanity hopes that the strength each can offer the other will allow for peaceful exploration. However, the rise of the Coalition strikes dread within the Romulan Star Empire. They feel its growing reach will cut them off from what is rightfully theirs. The Romulans know that the alliance is fragile, that the correct strategy could turn allies into foes. Perfecting a way of remotely controlling Coalition ships and using them as weapons against one another, the Romulans hope to drive a wedge of suspicion and mistrust between these new allies. One Starfleet captain uncovers this insidious plot: Jonathan Archer of the *Enterprise*. Determined not to lose what they have gained, outmanned and outgunned, the captains of Starfleet stand tall, vowing to defend every inch of Coalition space until the tide begins to turn.

Kobayashi Maru

To protect the cargo ships essential to the continuing existence of the fledgling Coalition of Planets, the captains of the United Earth's Starfleet are ordered to interstellar picket duty, with little more to do than ask "Who goes there?" into the darkness of space. Captain Jonathan Archer of the *Enterprise*™ seethes with frustration, wondering if anyone else can see what he sees. A secret, closed, militaristic society, convinced that their survival hangs by a thread, who view their neighbors as a threat to their very existence -- the Spartans of ancient Greece, the Russians of the old Soviet Union, the Koreans under Kim Il-sung -- with only one goal: attain ultimate power, no matter the cost. The little-known, never-seen Romulans seem to live by these same principles. The captain realizes that the bond between the signers of the Coalition charter is fragile and likely to snap if pushed. But he knows that the Romulans are hostile, and he believes they are the force behind the cargo ship attacks. If asked, Archer can offer no proof without endangering his friend's life. To whom does he owe his loyalty: his friend, his world, the Coalition? And by choosing one, does he not risk losing all of them? What is the solution to a no-win scenario?

Typhon Pact #2: Seize the Fire

The next novel in the Typhon Pact adventure in the universe of Star Trek: The Next Generation. Shortly after revealing its union with the Federation's newest adversary—a coalition of galactic powers known as the Typhon Pact—the Gorn Hegemony suffers an ecological disaster that destroys the hatchery world of their critically important warrior caste. Fortunately, the Gorn had already been investigating traces of an ancient but powerful “quick terraforming” technology left behind by a long-vanished civilization. This technology, should it prove controllable, promises to restore their delicate biological and social status quo. But when a Gorn soldier prepares to use the technology to reshape the planet Hranrar into a new warrior-caste spawning ground, threatening to extinguish the native Hranrarii, he draws the unwanted attention of a mad Gorn trooper determined to bring the military caste into dominance. Meanwhile, as the U.S.S. Titan embarks upon a search for this potent technology in the hope of using it to heal the wounds the Federation sustained during the recent Borg crisis, Captain Riker must balance his responsibility for his crew's safety against the welfare of the Hranrarii and his duty to the Prime Directive. With a menacing Typhon Pact fleet nipping at his heels, Riker must not only stop the Gorn warriors but also plumb the secrets of an ancient terraforming artifact. But of everyone serving aboard Titan, Commander Tuvok may be the only one who understands how dangerous such planet-altering technology can be, even when used with the best of intentions...

Or so it seemed for many years. But with the passage of time, and the declassification of certain crucial files, the truth about that fateful day -- the day that Commander Charles "Trip" Tucker III didn't die -- could finally be revealed. Star Trek

Few films have been so keenly awaited or the subject of so much internet debate as the twelfth Star Trek movie -- the first since 2002 -- which is scheduled to be released in May 2009. Directed by J.J. Abrams, creator of cutting-edge cult television shows *Lost* and *Alias*, the film is expected to launch the Star Trek franchise into a new stellar era. Going back to the very beginnings of the classic Star Trek, the film tells how James T. Kirk, the half-Vulcan Spock, Dr McCoy, engineer Montgomery Scott and crew members Chekov, Sulu and Uhura first came together as rookie Starfleet recruits, and how they embraced the destiny that would later send them out across the galaxy accompanied by the immortal words: 'These are the voyages of the Starship Enterprise...' A largely brand new cast including Chris Pine as Kirk, Zachary Quinto (*Heroes*) as Spock, Simon Pegg as Scotty, Karl Urban as McCoy alongside Eric Bana, Winona Ryder and Leonard Nimoy will bring Star Trek to a whole new audience, while at the same time Alan Dean Foster's novelization will enthrall both existing fans and a new generation of readers.

The Red King

Following their harrowing mission in the first Titan novel, *TAKING WING*, in which they were thrust into the heart of the war-torn Romulan Empire, Captain Riker and the crew of the starship Titan join forces with a task force of former foes. Together they investigate an eighty-year-old mystery involving a strange offshoot of humanity known as the Neyel, introduced in the authors' best-selling *Lost Era* novel, *THE SUNDERED*. Catapulted to a distant neighbouring galaxy, the task force of Klingons and Romulans is devastated by forces that have apparently already brought about the destruction of the Neyel civilization. Titan's intrepid crew must learn what really became of the Neyel before the force that felled them sets its sights on the Federation.

To Boldly Go

In 2016, Star Trek--arguably the most popular science fiction franchise of all time--turned 50. During that time the original series and its various offshoots have created some of the genre's most iconic characters and reiterated a vision of an egalitarian future where humans no longer discriminate against race, gender or sexuality. This collection of new essays provides a timely study of how well Star Trek has lived up to its own ideals of inclusivity and equality, and how well prepared it is to boldly go with everyone into the next half century.

Most Trek books revel in trivia that would puzzle Spock himself. How can a latecomer to Star Trek ever catch up? Here, in a funny and easy-to-read format, is everything that those unfamiliar with the Star Trek universe need to know to be brought up to warp speed with their significant Trekking other. *Coping With Your Trekker* discusses the history of Star Trek, important episodes from all the different series, weird aliens and memorable characters, as well as the movies, the technology...plus "Really Cool Things to Say to Impress a Trekker".

Department of Temporal Investigations: Watching the Clock

There's likely no more of a thankless job in the Federation than temporal investigation. While starship explorers get to live the human adventure of traveling to other times and realities, it's up to the dedicated agents of the Federation Department of Temporal Investigations to deal with the consequences to the timestream that the rest of the Galaxy has to live with day by day. But when history as we know it could be wiped out at any moment by time warriors from the future, misused relics of ancient races, or accident-prone starships, only the most disciplined, obsessive, and unimaginative government employees have what it takes to face the existential uncertainty of it all on a daily basis . . . and still stay sane enough to complete their assignments. That's where Agents Lucsly and Dulmur come in—stalwart and unflappable, these men are the Federation's unsung anchors in a chaotic universe. Together with their colleagues in the DTI—and with the help and sometimes hindrance of Starfleet's finest—they do what they can to keep the timestream, or at least the paperwork, as neat and orderly as they are. But when a series of escalating temporal incursions threatens to open a new front of the history-spanning Temporal Cold War in the twenty-fourth century, Agents Lucsly and Dulmur will need all their investigative skill and unbending determination to stop those who wish to rewrite the past for their own advantage, and to keep the present and the future from devolving into the kind of chaos they really, really hate.

A Night to Remember

Much more than just a tale of sailing against mountainous seas, but a book with every aspect of sailing and motor boating, in many parts of the world. It illustrates how times have changed to the extent the stories are never to be repeated. Providing a more permanent record, it tells how in post-war Britain, we developed a system of teaching and testing recreational users of marine craft of every description. This has now been copied in almost every country with recreational waterborne sports, including a UK approved sailing school in the USA. If all that sounds a mighty bit boring, be assured it has ten most unusual stories with excitement, including projects in China and Nigeria. There are tales of law-breaking

villains afloat, and you won't want to put the book down. Looking for a present for a sea-loving friend? Look no further.
