Billy Elliot

From the time when we started collaborating as a team in the 1960s, we envisaged not a grammar but a series of grammars. In 1972, there appeared the first volume in this series, A Grammar of Contemporary English (GCE). This was followed soon afterwards by two shorter works, A Communicative Grammar of English (CGE) and A University Grammar of English (UGE), published in the United States with the title A Concise Grammar of Contemporary English. With A Comprehensive Grammar of the English Language, we attempt something much more ambitious: a culmination of our joint work, which results in a grammar that is considerably larger and richer than GCE and hence superordinate to it. Yet, as with our other volumes since GCE, it is also a grammar that incorporates our own further research on grammatical structure as well as the research of scholars worldwide who have contributed to the description of English and to developments in linguistic theory. - Preface.

Drifters in search of work, George and his childlike friend Lennie, have nothing in the world except the clothes on their back - and a dream that one day they will have some land of their own. Eventually they find work on a ranch in California's Salinas Valley, but their hopes are dashed as Lennie - struggling against extreme cruelty, misunderstanding and feelings of jealousy - becomes a victim of his own strength. Tackling universal themes of friendship and shared vision, and giving a voice to America's lonely and dispossessed, *Of Mice and Men* remains Steinbeck's most popular work, achieving success as a novel, Broadway play and three acclaimed films.

To those familiar with the field of linguistics and second-language acquisition, Stephen Krashen needs no introduction. He has published well over 300 books and articles and has been invited to deliver more than 300 lectures at universities throughout the United States and abroad. His widely known theory of second-language acquisition has had a huge impact on all areas of second-language research and teaching since the 1970s. This book amounts to a summary and assessment by Krashen of much of his work thus far, as well as a compilation of his thoughts about the future. Here, readers can follow Krashen as he reviews the fundamentals of second-language acquisition theory presents some of the original research supporting the theory and more recent studies offers counterarguments to criticisms explores new areas that have promise for progress in both theory and application. An invaluable resource on the results of Krashen's many years of research and application, this book covers a wide range of topics: from the role of the input/comprehension hypothesis (and its current rival-the comprehensible output hypothesis), the still-very-good idea of free voluntary reading, and current issues and controversies about teaching grammar, to considerations of how it is we grow intellectually, or how we "get smart."

The Amsterdam Connection

Jean-Luc Godard, like many of his European contemporaries, came to filmmaking through film criticism. This collection of essays and interviews, ranging from his early efforts for La Gazette du Cinéma to his later writings for Cahiers du Cinéma, reflects his dazzling intelligence, biting wit, maddening judgments, and complete unpredictability. In writing about Hitchcock, Welles, Bergman, Truffaut, Bresson, and Renoir, Godard is also writing about himself-his own experiments, obsessions, discoveries. This book offers evidence that he may be even more original as a thinker about film than as a director. Covering the period of 1950-1967, the years of Breathless, A Woman Is a Woman, My Life to Live, Alphaville, La Chinoise, and Weekend, this book of writings is an important document and a fascinating study of a vital stage in Godard's career. With commentary by Tom Milne and Richard Roud, and an extensive new foreword by Annette Michelson that reassesses Godard in light of his later films, here is an outrageous self-portrait by a director who, even now, continues to amaze and bedevil, and to chart new directions for cinema and for critical thought about its history.
