The Pope's Rhinoceros

In February 1516, a Portugese ship sank with the loss of all hands a mile off the coast of Italy. The Nostra Senora da Adjuda had sailed 14000 miles from the Indian kingdom Gujarat: her mission, to deliver a rhinoceros to the Pope. The Pope's Rhinoceros tells the stories which culminate in this bizarre incident. Ranging from the Baltic Sea to a flyblown colony in India, from a tribe hidden in the African rain forest to atrocities committed in an obscure town in Tuscany, Norfolk's brilliant novel holds up the true history of the rhinoceros as a mirror to the fantasies and obsessions of the Renaissance.

Fables Respecting the Popes in the Middle Ages

The illegitimate daughter of Pope Julius II, Felice della Rovere became one of the most powerful and accomplished women of the Italian Renaissance. Now, Caroline Murphy vividly captures the untold story of a rare woman who moved with confidence through a world of popes and princes. Using a wide variety of sources, including Felice's personal correspondence, as well as diaries, account

books, and chronicles of Renaissance Rome, Murphy skillfully weaves a compelling portrait of this remarkable woman. Felice della Rovere was to witness Michelangelo paint the Sistine Chapel, watch her father Pope Julius II lay the foundation stone for the new Saint Peter's, and see herself immortalized by Raphael in his Vatican frescos. With her marriage to Gian Giordano Orsini--arranged, though not attended, by her father the Pope--she came to possess great wealth and power, assets which she turned to her advantage. While her father lived, Felice exercised much influence in the affairs of Rome--even negotiating for peace with the Queen of France--and after his death, Felice persevered, making allies of the cardinals and clerics of St. Peter's and maintaining her control of the Orsini land through tenacity, ingenuity, and carefully cultivated political savvy. She survived the Sack of Rome in 1527, but her greatest enemy proved to be her own stepson Napoleone. The rivalry between him and her son Girolamo had a sudden and violent end, and brought her perilously close to losing everything she had spent her life acquiring. With a marvelous cast of characters, this is a spellbinding biography set against the brilliant backdrop of Renaissance Rome.

Fables Respecting the Popes of the Middle Ages, a Contribution to Ecclesiastical History

The traditions associated with a pope's death have changed from when they were buried in the catacombs of Rome. Various ceremonies, rites and rituals developed over time, but a formal procedure was not initiated until the early 1300s and even then was not always strictly followed. This comprehensive reference book provides information on the deaths, funerals and burial places of each pope and antipope from St. Peter (Apostle) to John Paul I. (Innocent X was almost gnawed by rats because no one would bury him; Alexander VI was stuffed into a carpet and pummeled into his coffin; and the corpse of Formosus was physically put on trial...) The Introduction presents a brief history of papal funerals and tombs, and also covers modern burials. A unique feature of the book is its presentation of all papal epitaphs, in their original language and in English—many translated for the first time.

The Deaths of the Popes

John Julius Norwich has now turned his attention to the oldest continuing institution in the world, tracing the papal line down the centuries from St Peter himself u traditionally (though by no means historically) the first pope u to the present Benedict XVI.

Fables of the Popes in the Middle Ages

Mestoph and Leviticus are the oddest pair of friends in the Afterlife. One is a Demon, the other is an Angel, and wherever they go chaos isn't far behind. Follow the duo as they become embroiled in a conspiracy to kill the Pope in 13th century Italy at the behest of the enigmatic Hermes Trismegistus and his influential cult. Live or die, history won't be the same.

History of the Popes

The first decade of the sixteenth century was a violent time in Italy. The pope and his lackeys were preoccupied less with spiritual salvation than with the accumulation of wealth. But even as they destroyed the church and set a course that would lead to the Reformation, the most powerful men in Rome were generous patrons of the arts. At the apogee of the High Renaissance, a disgruntled Michelangelo, offended by the brusque treatment he has received at the hands of the pope, decides to flee the Eternal City. But the mercurial Julius II has great plans for the rebuilding of St. Peter's and the beautification of the Sistine Chapel. He sends his most trusted legate, the Franciscan friar Francesco della Rovere, to retrieve Michelangelo. Though only twenty-nine years of age, the devoted Rovere has traveled the Christian world to serve the papacy, but he has never encountered anyone quite like Michelangelo. Michelangelo, whose reputation rests on his skill as a sculptor and not a painter, returns to Rome and reluctantly begins to fresco the ceiling of the Sistine Chapel. Only a stone's throw away, the elegant and urbane Raphael Santi starts to decorate the four walls of Julius's private library. And Julius's daughter, Felice, a high-spirited girl who has been carefully guarded by her protective father, suddenly finds freedom when the pope entrusts her care, along with the oversight of his magnificent project, to Rovere. The Pope's Man, part mystery, part thriller, and part a primer on the glory of Renaissance art, unfolds in the sumptuous rooms of the Vatican and the subterranean passageways of mysterious origin that lie beneath. Rovere, caught between feuding families and his duties to the pope, will only survive if he is resourceful enough to outsmart his enemies.

The Broad Stone of Honour; Or, the True Sense and Practice of Chivalry: Orlandus

Pataphysica 4 present the strange "conclusion" to Alfred Jarry's 1907 Symbolist novel The She-Dragon, Part 1 having appeared in Pataphysica 2 (iUniverse, 2004). It also holds the central, pivotal chapter of the novel, which describes a battle that, while entirely modern, reads like ancient myth, conjuring such texts as the Bhagavad-Gita and Homer's Iliad. Annotations highlight Jarry's alchemical symbolism (among other things), alchemy being the ancient "art and science" studied in secret by such modern scientist/philosophers as Gottfried Leibniz and Isaac Newton. Pataphysics is the science of imaginary solutions, and for Jarry, although there is no other imagination than the scientific, modern science has simply failed to keep up with the scientific imagination. Rounding out this otherwise rectangular issue are the works of several returning authors as well as some new ones. They provide additional musings on such themes as Jarry's alchemical/cosmological play The Pope's Mustardmaker, an amorous veteran of an internal war, microcosm and macrocosm, a fugitive writer apparently obsessed with conspiracy theories and baseball, a peculiar Grimoire on a new set of "Glorious Mysteries," and a terrifying invocation of the Thelemic Law of Rabelais (Jarry's literary "master") as adapted by Crowley. Strap on suitable eye protection and enjoy!

A History of the Papacy during the Period of the Reformation

How pontiffs, architects, painters and sculptors created the Vatican.

A History of the Papacy During the Period of the Reformation

"Adventure/thriller about Maggie Pietra, a young Italian archaeologist who discovers a claystone testament written in code proving that Simon of Cyrene took Jesus' place on the Cross, causing the long-prophesied Crucifixion and Resurrection to misfire on its first attempt. Riddles and half-leads take Maggie on a dangerous journey from the USA to Libya, through Mauritania to Italy, while the Pope and a renegade Cardinal inadvertently start the clock ticking for the final piece of a 2000-year-long prophecy cycle to fall into place. The Resurrection is then poised for its second attempt, awaiting only Maggie to play her vital but unsuspected role."--Provided by publisher.

The Bible is the word of God. In *Rightly Dividing the Word of Truth*, author C.L. Chapman helps Christians understand and embrace the life messages and lessons contained in the Bible. Delivering timely information, this guide is divided into two books. The first book, "On Defense," discusses how to discern the difference between sound Biblical information and erroneous misinformation. It illustrates both the errors and the intended misinformation about the Bible and its contents and demonstrates how to deal with both the misinformation and those who spread it. The second book, "Reaching Forth," explains how to glean the basic information needed to grow, mature, and profit spiritually from the Bible and its message in order to become both victorious and fruitful in the Lord. Chapman teaches that the Bible does not need decoding; it only needs to be understood and its message embraced. It is the word of God that produces life, health, peace, victory, prosperity, deliverance, and abundant blessings for believers even in these tumultuous end-times.

Dr. J. J. I. Von Döllinger's Fables Respecting the Popes in the Middle Ages

Irving Stone's powerful and passionate biographical novel of Michelangelo. His time: the turbulent Renaissance, the years of poisoning princes, warring popes, the all-powerful Medici family, the fanatic monk Savonarola. His loves: the frail and lovely daughter of Lorenzo de Medici; the ardent mistress of Marco Aldovrandi; and his last love - his greatest love - the beautiful, unhappy Vittoria Colonna. His genius: a God-driven fury from which he wrested the greatest art the world has ever known. Michelangelo Buonarroti, creator of David, painter of the Sistine ceiling, architect of the dome of St Peter's, lives once more in the tempestuous, powerful pages of Irving Stone's marvellous book.
