A great religious teacher of the 18th century, Shah Waliullah of Delhi distinguished himself as a major thinker from the age of 15. He helped to revive the Islamic consciousness by "channeling the streams of the Sufi spiritual heritage into traditional Islam" (Professor Aziz Ahmed, Toronto) and returned to the essentials of Sufi experience in order to show that, essentially, Sufism is one discipline. He showed, for instance, that the long-standing assumption that Sufi doctrine was divided between Apparentism and Unity of Being was a difference of expression alone, the latter doctrine (of Ibn Arabi) being seen as merely a less-advanced stage of projection. Many of the subjects dealt with by him in these two treatises are closely studied today. These include stages of being, the perceptive faculty, the relation of the abstract with the universe, the universal soul and the souls of man, after death, essence, miracles, the scope of man, the soul of the perfect, universal order, source of manifestation, and the transformation of mystics from quality to quality.

Recognizing Sufism

Sufism is all too often associated just with 'mysticism' in the West. The author of this new textbook, a former pupil of Annemarie Schimmel, suggests that conflating Sufism and mysticism is only partially valid. He shows that the vast majority of Sufi practice, both historically and in the contemporary world, has little or nothing to do with a esoteric transcendence but is rather focused on contemplative activity. Such practice might involve art, music, devotional shrine visitation - even politics and psychology. Placing Sufism in a wider Islamic contemplative context enables Arthur F Buehler to examine Sufi history, as well as current application, against a backdrop that is richer and more inclusive than that portrayed in many competing introductory surveys. Discussing the origins of Sufism; the development of Sufi lineages (via three founder figures); Sufi lodges and the role of Sufism in colonial resistance; Sufi poetry; Sufi shrines, and Sufism in the West, the author rescues his topic from the idea that it means only union with the divine. In this original new treatment, Sufism emerges as complex and multi-layered.

Sufism

The Sufis are as diverse as the countries in which they've flourished—from Morocco to India to China—and as varied as their distinctive forms of art, music, poetry, and dance. They are said to represent the mystical heart of Islam, yet the term Sufism is notoriously difficult to define, as it means different things to different people both within and outside the tradition. With that fact in mind, Carl Ernst explores the broadest range of Sufi philosophies and practices to provide one of the most complete and comprehensive introductions to Sufism available in English. He traces the history of the movement from the earliest days of Islam to the present day, along the way examining its relationship to the larger world of Islam and its encounters with both fundamentalism and secularism in the modern world.

The Garden of Truth

The headlines are filled with the politics of Islam, but there is another side to the world's fastest-growing religion. Sufism is the poetry and mysticism of Islam. This mystical movement from the early ninth century rejects worship motivated by the desire for heavenly reward or the fear of punishment, insisting rather on the love of God as the only valid form of adoration. Sufism has made significant contributions to Islamic civilization in music and philosophy, dance and literature. The Sufi poet Rumi is the bestselling poet in America. But in recent centuries Sufism has been a target for some extremist Islamic movements as well as many modernists. The Garden of Truth presents the beliefs and vision of the mystical heart of Islam, along with a history of Sufi saints and schools of thought. In a world threatened by religious wars, depleting natural resources, a crumbling ecosystem, and alienation and isolation, what has happened to our humanity? Who are we and what are we doing here? The Sufi path offers a journey toward truth, to a knowledge that transcends our mundane concerns, selfish desires, and fears. In Sufism we find a wisdom that brings peace and a relationship with God that nurtures the best in us and in others. Noted scholar Seyyed Hossein Nasr helps you learn the secret wisdom tradition of Islam and enter what the ancient mystics call the "garden of truth." Here, liberate your mind, experience peace, discover your purpose, fall in love with the Divine, and find your true, best self.

Contemporary Sufism

What is Sufism? Contemporary views vary tremendously, even among Sufis themselves. Contemporary Sufism: Piety, Politics, and Popular Culture brings to light the religious frameworks that shape the views of Sufism's friends, adversaries, admirers, and detractors and, in the process, helps readers better understand the diversity of contemporary Sufism, the pressures and cultural openings to which

it responds, and the many divergent opinions about contemporary Sufism's relationship to Islam. The three main themes: piety, politics, and popular culture are explored in relation to the Islamic and Western contexts that shape them, as well as to the historical conditions that frame contemporary debates. This book is split into three parts: • Sufism and anti-Sufism in contemporary contexts; • Contemporary Sufism in the West: Poetic influences and popular manifestations; • Gendering Sufism: Tradition and transformation. This book will fascinate anyone interested in the challenges of contemporary Sufism as well as its relationship to Islam, gender, and the West. It offers an ideal starting point from which undergraduate and postgraduate students, teachers and lecturers can explore Sufism today.

Sufism

Sufism is one of the most ancient and widespread Islamic movements. A broad term, it is used to refer to a mystical and inward approach to faith. However, some Sufi groups have also had a significant impact on political or social developments in the Islamic world. This book discusses Sufism in virtually all regions of the Islamic world. Notable Sufi orders throughout history are described with a focus on their history, leaders, and distinguishing features. The relationship between Sufism and pre-Islamic traditions as well as other religions is also explored. This book is part of a series of translations from the Encyclopaedia of the World of Islam (EWI) which was originally compiled in Persian. Other entries from this encyclopaedia which are available in English include Hadith, Hawza-yi 'Ilmiyya, History and Historiography, Muslim Organisations, Political Parties, Qur'anic Exegeses, and Education in the Islamic Civilisation.

Mystical Dimensions of Islam

Mystical Dimensions of Islam presents, for the first time, a balanced historical treatment of the transnational phenomenon of Sufism Islamic mysticism from its beginnings through the nineteenth century. Through her sensitivity and deep understanding of the subject, Annemarie Schimmel, an eminent scholar of Eastern religions, draws the reader into the mood, the vision, the way of the Sufi in a manner that adds an essential ingredient to her analysis of the history of Sufism. After exploring the origins of the mystical movement in the meditations of orthodox Muslims on the Koran and the prophetic tradition, the author then discusses the development of its different stages, including classical voluntarism and postclassical theosophical mystical trends. Particular emphasis is placed on spiritual education, the different ways of leading the mystic toward the existential realization of the profound mystery of the profession of faith that "there is no deity but God." Sufi psychology and Sufi orders and fraternities are comprehensively explored. Through an examination of mystical anthropology, which culminates in the veneration of the prophet and the saints, the questions of free will and predestination, of good and evil, are implied. The main burden of the text, however, is Sufism as reflected in Islamic poetry, and Professor Schimmel examines the various aspects of mystical poetry in Arabic, Persian, Turkish, Sindhi, Panjabi, and Pashto. The author skillfully demonstrates how Sufi ideals permeated the whole fabric of Muslim life, providing the average Muslim villager or intellectual with the virtues of perfect trust in God and the loving surrender to God's will. Professor Schimmel's long acquaintance with Turkey, Iran, and the Indo-Pakistan subcontinent provides a unique emphasis to the study, and the author's personal knowledge of Sufi practice in these regions lends a contemporary relevance to her work.

Islamic Spirituality

Originally published 1987. The first part of the volume is concerned with "The Roots of the Islamic Tradition and Spirituality". These are seen to include the Qu'ran as the central theophany of Islam, the Prophet who received the word of God and made it known to mankind and the rites of Islam. The second part examines the divisions of the Islamic community with their distinctive pieties and emphases: Sunnism and Shi'ism and female spirituality. Part III is devoted to Sufism – its nature and origin, its early development, its various spiritual practices and its science of the soul.

Living Sufism in North America

Offers an overview of Sufism in North America. In this book, William Rory Dickson explores Sufism as a developing tradition in North America, one that exists in diverse and beguiling forms. Sufism's broad-minded traditions of philosophy, poetry, and spiritual practice infused Islamic civilization for centuries and drew the attention of interested Westerners. By the early twentieth century, Sufism was being practiced in North America. Today's North American Sufism can appear either explicitly Islamic

or seemingly devoid of Islamic religiosity. Dickson provides indispensable background on Sufism's relation to Islamic orthodoxy and to Western esoteric traditions, and its historical development in North America. The book goes on to chart the directions that North American Sufism is currently taking, directions largely chosen by Sufi leaders. The views of ten North American Sufi leaders are explored in depth and their perspectives on Islam, authority, gender, and tradition are put in conversation with one another. A more detailed picture of North American Sufism emerges, challenging previous scholarly classifications of Sufi groups, and highlighting Sufism's fluidity, diversity, and dynamism. William Rory Dickson is Assistant Professor of Islamic Religion and Culture at the University of Winnipeg.

Sufism and Islamic Reform in Egypt

One of the most important sects in the Islamic world, Sufism has had a long and active history. Yet it has been no stranger to controversy. This has been particularly pronounced in modern times, as radical Islamic groups and modernist reformers have sought to identify Sufism as a source of either unwelcome innovation or reactionary superstition. This book focuses on the efforts of the Sufis of Egypt, expressed in the writings of one of the order's sheikhs, to meet the critical challenge. The sheikh offers a vigorous defence of Sufism in the context of controversial issues such as festivals, processions, congregational invocation, and the principle of guidance by the sheikh. He also touches on broader issues such as the metaphysical status of the Prophet and the question of miracles, considering these in a characteristically Sufi light. However, he also downplays or reworks certain key elements of Sufi belief and practice in an attempt to forestall hostile criticism. In this book Dr Johansen discusses these ideas and places them in a broader context, basing his analysis on material recorded at Sufi gatherings in Cairo between 1988-90, as well as published and unpublished texts.

The Nature of Sufism

This book explores how Sufis approach their faith as Muslims, upholding an Islamic worldview, but going about making sense of their religion through the world in which they exist, often in unexpected ways. Using a phenomenological approach, the book examines Sufism as lived experience within the Muslim lifeworld, focusing on the Muslim experience of Islamic history. It draws on selected case studies ranging from classic Sufism to Sufism in the contemporary era mainly taken from biographical and hagiographical data, manuscript texts, and treatises. In this way, it provides a revisionist approach to theories and methods on Sufism, and, more broadly, the category of mysticism.

Sufism in Central Asia

The studies in this volume mark a new phase in the development of scholarship on Sufi traditions of Central Asia, expanding and deepening the source base, reconceptualizing basic frameworks for understanding Sufi history, and challenging received assumptions and narratives.

Recognizing Sufism

A leading exponent of Muslim thought focuses on the inner spiritual meaning of the religion of Islam and its ramifications for the modern world, namely, the problems the tradition faces in our contemporary world, including Islam's inner tensions between traditionalists and those who want to bring change-conservatives and modernists. Written for the serious general reader, this volume provides an accessible yet profound initiation into the fundamental spiritual experiences, beliefs, rituals, and historic figures of Islam. The late Professor Victor Danner (1926-1990) taught Arabic, Arabic Literature, Islam, Sufism, Eastern Religions, and Comparative Mysticism in both the Departments of Near Eastern Languages and Cultures and Religious Studies at Indiana University. He published many articles, and his previous books include *The Book of Wisdom* and *Sufi Aphorisms*. Dr. Danner's worldwide travels and involvement in inter-religious dialogue made him an exceptional communicator of the deep spiritual message of Islam to those of other religious faiths.

The Islamic Tradition

This book is a social anthropological analysis (based on ethnographic fieldwork) of the discourse and social practice of an Islamic-mystic community in London, namely, the branch of Naqshbandi Sufi order led by Sheikh Nazim of Cyprus. The Naqshbandi order is a well-known mystical institution having a widespread historical and contemporary influence on the life of many Muslims all over the world, including the West. The book focuses particularly on the definitions and reflections of the

members of this branch upon themselves and the wider modern ('western') society outside their close-knit community. It reveals that the Islamic discourse of the community encompasses a multitude of expressions by which the members' perceptions of their social and spiritual universe are shaped and communicated to a wider audience. And it concludes that a thorough analysis of an Islamic community should pay particular attention to three closely related discursive processes: (a) the reflections of such a community on the wider (modern) society of which it is a part; (b) the ways in which it defines itself as 'Islamic' and contests with other Muslim groups or movements for the representation of the 'correct model' of Islamic tradition; (c) the discourses of conflict and power within such a community. Tayfun Atay holds an MA in Area Studies (Near & Middle East) and a PhD in Social Anthropology from School of Oriental and African Studies, University of London. He has done ethnographic fieldworks in London and many parts of Turkey, and published five monographs in Turkish. Currently, he is Professor of Ethnology in the Department of Folklore and Ethnology at the University of Ankara.

A Muslim Mystic Community in Britain

Insight into Life is the real religion, which alone can help man to understand Life.' Hazrat Inayat Khan The Sufis have been using carefully constructed stories for teaching purposes for thousands of years. Though on the surface these often appear to be little more than fairy or folk tales, the Sufis hold that they enshrine - in their characters, plots and imagery - patterns and relationships that nurture a part of the mind not reachable in more conventional ways, thus increasing our understanding, flexibility and breadth of vision. Familiarization with this body of material can eventually provide answers to questions about our origins and our destiny. In this book John Baldock explores the rich body of literature the Sufis have produced to guide spiritual travellers. While explaining the significant teachings and emphasizing their significance for us, he sheds a timely light on the Sufis' fascinating perception of life, revealing it to be a process of the heart and not of the head, and offers intriguing pathways to further study and reflection.

The Essence of Sufism

This book combines scholarly research into certain aspect of Sufi doctrines and history with a penetrating account of the spiritual and metaphysical message and significance of Sufism as a living spiritual tradition. In an original discussion, unlike anything that has appeared before in studies of Sufism, the author places special accent on the pertinence of Sufi teachings to the most acute contemporary problems. The book addresses itself to both the ever-increasing Western public interested in Sufism and to the Western-educated Muslim interested in his own spiritual heritage. Dr. Nasr draws on his intimate knowledge of the Sufi literature in Arabic and Persian as well as his first-hand knowledge of Sufi tradition itself to produce this further volume in his numerous studies on the different facets of Islam.

Sufi Essays

The Naqshbandi Sufi Tradition is one of the most distinguished and respected schools of Islamic spirituality. Its long and glorious history stretches back to the earliest days of Islam and it has always played a central, pivotal role in the life of the Muslim world. Led by the shaykhs of the Golden Chain inheritors of the secret knowledge of the prophets and saints the Naqshbandi Order survived the turmoil and tribulations of the past century and remains one of the few authentic mystical traditions that still maintains a living link with its ancient past. Now, for the first time, the history and teachings of the Naqshbandi Way are being made available to the public. Classical Islam and the Naqshbandi Sufi Tradition is the most detailed and authentic book ever written about a Sufi order in English. Providing a comprehensive history of the Naqshbandi Tradition, the author Shaykh Muhammad Hisham Kabbani, one of the most respected teachers of Islamic spirituality in the world today, traces the lives of its foremost teachers from Prophet Muhammad, upon whom be peace, to the present. Their life stories are intimately woven with landmark events of history, from the time of the Companions to the fall of the Ottoman Empire and the reemergence of Islam in the former Soviet Union. However, this book also contains much more. It details the fundamental principles of the Sufi path and the primary teachings of the Naqshbandi Order, exploring the doctrines and philosophy behind this important current in spiritual thinking.

Classical Islam and the Naqshbandi Sufi Tradition

Sufism is Islam's principal mystical tradition. To its followers it provides the inner, esoteric or purely spiritual dimension of the faith. It is a centuries-old path to spirituality with devotees throughout the Islamic world, fundamentally influencing Muslim belief. To non-Muslim observers it remains exotic, mysterious and little-understood. Mystical Islam is an accessible introduction that encompasses the history of the Sufi spiritual tradition, ranging from the great Mughal and Safavid empires of India and Persia to the Whirling Dervishes of Ottoman Turkey. Julian Baldick reveals the continuing relevance of the Sufi spiritual experience and introduces some of the great figures of Sufism: al-Ghazali, Ibn Arabi, Hafiz of Shiraz and Rumi. It is the writings of such masters that reveal the inner beauty of Sufism, while offering followers the most profound insights in their quest for delivery from the narrow confines of the material world. At the same time, the author's reflections on recent Sufi scholarship, and his fresh perspectives on this tradition of belief and devotion, will prove essential for students and highly stimulating for general readers.

Mystical Islam

This book is a study of the major works of Sufi historiography, which takes the form of collections of biographies. It provides a literary context in which one can appreciate fully the theological significance and historical value of Sufi biographies.

The Biographical Tradition in Sufism

Examines the fierce controversy over the legacy of Ibn 'Arabi, the great Islamic mystic.

Ibn 'Arabi in the Later Islamic Tradition

For more than a millennium, Sufism has been the core of the spiritual experience of countless Muslims. As the chief mystical tradition of Islam, it has helped to shape the history of Islamic societies. Although it is the Sufi face of Islam that has often appealed to Westerners, Sufis and Sufism remain mysterious to many in the West, and are still widely misunderstood. In this new, redesigned paperback edition of this bestselling book, a scholar with long experience of Sufism in the Middle East, Southeast Asia, and Europe succinctly presents the essentials of Sufism and shows how Sufis live and worship, and why. As well as what Sufism is and where it comes from, the book discusses Sufi orders not only in the Islamic world but also in the West. The political, social, and economic significance of Sufism is outlined, and the question of how and why Sufism has become one of the more controversial aspects of contemporary Islamic religious life is addressed. This book assumes no prior knowledge of the subject. It is a penetrating and concise introduction for everyone interested in Islam and Islamic societies.

Sufism

A pathbreaking history of Sufism, from the earliest centuries of Islam to the present. After centuries as the most important ascetic-mystical strand of Islam, Sufism saw a sharp decline in the twentieth century, only to experience a stunning revival in recent decades. In this comprehensive new history of Sufism from the earliest centuries of Islam to today, Alexander Knysh, a leading expert on the subject, reveals the tradition in all its richness. Knysh explores how Sufism has been viewed by both insiders and outsiders since its inception. He examines the key aspects of Sufism, from definitions and discourses to leadership, institutions, and practices. He devotes special attention to Sufi approaches to the Qur'an, drawing parallels with similar uses of scripture in Judaism and Christianity. He traces how Sufism grew from a set of simple moral-ethical precepts into a sophisticated tradition with professional Sufi masters (shaykhs) who became powerful players in Muslim public life but whose authority was challenged by those advocating the equality of all Muslims before God. Knysh also examines the roots of the ongoing conflict between the Sufis and their fundamentalist critics, the Salafis—a major fact of Muslim life today. Based on a wealth of primary and secondary sources, Sufism is an indispensable account of a vital aspect of Islam.

Sufism

This book offers the first sustained treatment of Sufism in the context of modern Muslim communities. It is also innovative, in that it broadens the purview of the study of Sufism to look at the subject right across international boundaries, from Canada to Brazil, and from Denmark to the UK and USA. Subjects discussed include: the politics of Sufism, the remaking of Turkish Sufism, tradition and cultural creativity among Syrian Sufi communities, the globalization of Sufi networks, and their transplantation

in America, Iranian Sufism in London, and Naqshbandi Sufism in Sweden. In its thorough examination of how Sufi rituals, traditions and theologies have been adapted by late-modern religiosity, this volume will make indispensable reading for all scholars and students of modern Islam.

Sufism Today

Sufism is generally perceived as being spiritually focused and about the development of the self. However, Sufi orders have been involved historically as important civic and political actors in the Muslim world, having participated extensively in inter-faith dialogue and political challenges to religious orthodoxy. This book presents a comprehensive overview of the Sufi political tradition, both historically and in its present form. It outlines how Sufi thought has developed, examines how Sufism has been presented both by scholars and by Sufis themselves, and considers Sufis' active political roles. It argues that Sufis – frequently well educated, well travelled and imaginative – have been well placed to engage with other faiths and absorb their ideas into Islam; but that they have also been, because they understand other faiths, well placed to understand the distinctiveness of Islam, and thereby act as the guardians of Islam's core ideas and values.

Sufi Political Thought

This stunning collection showcases the love poetry and mystical teachings at the heart of the Islamic tradition in accurate and poetic original translations. At a time when the association of Islam with violence dominates headlines, this beautiful collection offers us a chance to see a radically different face of the Islamic tradition. It traces a soaring, poetic, popular tradition that celebrates love for both humanity and the Divine as the ultimate path leading humanity back to God. Safi brings together for the first time the passages of the Qur'an sought by the Muslim sages, the mystical sayings of the Prophet, and the teachings of the path of "Divine love." Accurately and sensitively translated by leading scholar of Islam Omid Safi, the writings of Jalal al Din Rumi can now be read alongside passages by Kharaqani, 'Attar, Hafez of Shiraz, Abu Sa'id e Abi 'l Khayr, and other key Muslim mystics. For the millions of readers whose lives have been touched by Rumi's poetry, here is a chance to see the Arabic and Persian traditions that produced him.

Radical Love

Sufism is often described as 'the mystical branch of Islam'. Giving some more attention to this underexposed spiritual side, it is often proposed, could help us to ease certain contemporary societal tensions. One finger then points toward the rigorous religious aggression of fundamentalism as 'the problem', while another points toward the soft beauty of mysticism as 'the solution'. Yet, no matter how well-intended the contemporary focus on Sufism might often be, in the end, it repeatedly portrays a lack of comprehension when it comes to Islamic mysticism. The typical descriptions are full of mistakes, and the conclusions they lead to need much nuance. Those misunderstandings do not simply stem from innocent ignorance. They are misunderstandings with more profound origins and implications. They're closely tied to enormous blind spots in the contemporary view of religion and deeply entwined with pressing political issues. In fact, the way we deal with mysticism in general and with Sufism in particular actually kindles many contemporary conflicts. This book thus seeks to add the necessary nuances, correct the misunderstandings and unveil the contemporary 'politics of mysticism'. It seeks to clarify how the growing interest in what is called 'Sufism' is connected to both the contemporary demonization of Islam and the modern destruction of profound spirituality in the East as well as the West.

Re-visioning Sufism

Islam once gave birth to a great civilization that respected religious diversity, freedom of conscience, and scientific thought, and Islamic knowledge contributed to the birth of humanism in the Renaissance. Today's world is desperately in need of a spirituality that is free of dogma, based in experiences not beliefs, one that can reconcile the human and spiritual realms. In his new book, renowned spiritual teacher and Sufi sheikh Kabir Helminski, gives us a compelling interpretation of spiritual or holistic Islam that will hearten contemporary Muslims looking for a faith suited for our times, and providing non-Muslims a brilliant introduction to this rich spiritual tradition. Helminski's holistic Islam is an emerging force in the world. It is reflected in the rise of the popularity of the writings of Jalal ad-Din Rumi who is loved by followers of all faiths and none. Helminski shows how it is the great Sufi teachers of the Islamic tradition who show the way to this universal wisdom. Holistic Islam is an expression of the

primordial religion of humanity that recognizes a journey through levels of consciousness leading to the transformation of self and the mature human being. While all religions have a tendency to decline into sectarianism, legalism, fundamentalism, and superstition, humanity is never without the presence of realized human beings who have shared the knowledge and practice of communion with Ultimate Reality. Holistic Islam is a spiritual antidote to extremism and fundamentalism, established on a clear Quranic basis. Holistic Islam uses Quranic arguments to establish a spiritually progressive Islam.

Traditional Islam in the Modern World

This is a general survey of the rise and development of Islamic mysticism (Sufism) up to the modern period, which takes into account the latest achievements of scholarship on the subject. Sufism is examined from a variety of perspectives: as a vibrant social institution, a specific form of artistic expression, an ascetic and contemplative practice, and a distinctive intellectual tradition. *Islamic Mysticism* by Knysh is a comprehensive survey of the interesting and fascinating world of Islamic Mysticism.

Holistic Islam

This is the first book in the English language to deal with the spiritual significance of Islamic art including not only the plastic arts, but also literature and music. Rather than only dealing with the history of the various arts of Islam or their description, the author relates the form, content, symbolic language, meaning, and presence of these arts to the very sources of the Islamic revelation. Relying upon his extensive knowledge of the Islamic religion in both its exoteric and esoteric dimensions as well as the various Islamic sciences, the author relates Islamic art to the inner dimensions of the Islamic revelation and the spirituality which has issued from it. He brings out the spiritual significance of the Islamic arts ranging from architecture to music as seen, heard, and experienced by one living within the universe of the Islamic tradition. In this work the reader is made to understand the meaning of Islamic art for those living within the civilization which created it.

Islamic Mysticism

Sufism, the mystical or aesthetic doctrine in Islam, has occupied a very specific place in the Islamic tradition, with its own history, literature and devotional practices. Its development began in the seventh century and spread throughout the Islamic world. *The Cambridge Companion to Sufism* traces its evolution from the formative period to the present, addressing specific themes along the way within the context of the times. In a section discussing the early period, the devotional practices of the earliest Sufis are considered. The section on the medieval period, when Sufism was at its height, examines Sufi doctrines, different forms of mysticism and the antinomian expressions of Sufism. The section on the modern period explains the controversies that surrounded Sufism, the changes that took place in the colonial period and how Sufism transformed into a transnational movement in the twentieth century. This inimitable volume sheds light on a multifaceted and alternative aspect of Islamic history and religion.

Islamic Art and Spirituality

The Quran says, "Wherever you turn, there is the face of God," and, it tells us, "He is with you wherever you are." Muhammad remarked that spiritual virtue is to be found in serving God as if you see him, for, even if you do not see him, he sees you. The understanding that God is always present has animated the personal piety of Muslims from earliest times. These essays by well-known scholars and Sufi teachers as well as excerpts from classical Islamic literature suggest the great variety of routes that Muslims have followed to reach the vision of the Divine in all that exists. Book jacket.

A Forgotten Vision

This rare and important contribution to the field of Islamic studies, philosophy, and comparative religion achieves a twofold objective. First, it draws from a broad and authoritative well of sources, especially in the domain of Sufism, or Islamic mysticism. The scholarship is impeccable. Second, it is an in-depth meditation on the relationship between love and knowledge, multiplicity and unity, the example of the Prophet Muhammed viewed as Universal Man, spiritual union, heart and intellect, and other related themes--conveyed in fresh, contemporary language. The book is as much a work of Sufism as it is a book about Sufism. Many of these themes have a universal appeal for students of mysticism;

consequently, there are distinct resonances with other traditions, especially within certain schools of Christian mysticism dominated by the language of love. In our day, when the divisions between many Muslims and many Christians have broadened into chasms of suspicion and fear, books such as this one are especially important for the help they can offer in bridging these rifts. The capacity of scholars to understand these two religions, which stem from the same Abrahamic source, is of the utmost significance, and the best approach to better understanding may be through the mystical traditions, which tend to reflect more tolerance and to recognize a potential for seeing unity in a multiplicity of perspectives. This work conveys the beauty at the heart of the Islamic tradition in a language devoid of technical terminology.

The Cambridge Companion to Sufism

Islam is often described as abstract, ascetic, and uniquely disengaged from the human body. Scott Kugle refutes this assertion in the first full study of Islamic mysticism as it relates to the human body. Examining Sufi conceptions of the body in religious writings from the late fifteenth through the nineteenth century, Kugle demonstrates that literature from this era often treated saints' physical bodies as sites of sacred power. *Sufis and Saints' Bodies* focuses on six important saints from Sufi communities in North Africa and South Asia. Kugle singles out a specific part of the body to which each saint is frequently associated in religious literature. The saints' bodies, Kugle argues, are treated as symbolic resources for generating religious meaning, communal solidarity, and the experience of sacred power. In each chapter, Kugle also features a particular theoretical problem, drawing methodologically from religious studies, anthropology, studies of gender and sexuality, theology, feminism, and philosophy. Bringing a new perspective to Islamic studies, Kugle shows how an important Islamic tradition integrated myriad understandings of the body in its nurturing role in the material, social, and spiritual realms.

The Inner Journey

This volume provides an objective analysis of current trends and developments in the beliefs and practices of Sufis in Britain. Sufism is a dynamic and substantial presence within British Muslim communities and is influencing both religious and political discourses concerning the formation of Islam in Britain. In the 21st century Sufis have re-positioned themselves to represent the views of a 'Traditional Islam', a non-violent 'other Islam', able to combat the discourses of radical movements. Major transformations have taken place in Sufism that illuminate debates over authenticity, legitimacy, and authority within Islam, and religion more generally. Through examining the theory and history involved, as well as a series of case studies, *Sufism in Britain* charts the processes of change and offers a significant contribution to the political and religious re-organisation of the Muslim presence in Britain, and the West.

On Love

Since their beginnings in the ninth century, the shrines, brotherhoods and doctrines of the Sufis held vast influence in almost every corner of the Muslim world. Offering the first truly global account of the history of Sufism, this illuminating book traces the gradual spread and influence of Sufi Islam through the Middle East, Asia, Africa, and ultimately into Europe and the United States. An ideal introduction to Sufism, requiring no background knowledge of Islamic history or thought. Offers the first history of Sufism as a global phenomenon, exploring its movement and adaptation from the Middle East, through Asia and Africa, to Europe and the United States of America. Covers the entire historical period of Sufism, from its ninth century origins to the end of the twentieth century. Devotes equal coverage to the political, cultural, and social dimensions of Sufism as it does to its theology and ritual. Dismantles the stereotypes of Sufis as otherworldly 'mystics', by anchoring Sufi Muslims in the real lives of their communities. Features the most up-to-date research on Sufism available.

Sufis and Saints' Bodies

"Behind the clamorous headlines of militant and political Islam lies the more serene and cultivated form that is traditional Islam, which now is increasingly under threat from both fundamentalists and modern secularists. Author Jean-Louis Michon unveils this lesser-known dimension of Islam while capturing the essence and beauty of this often misinterpreted religion, which has over 1.5 billion adherents (about a quarter of the world's population)." "Illustrated with over 270 color photographs, *Introduction to Traditional Islam* is divided into four parts: 1: the foundations of Islam, which highlights the pillars of the faith as well as the traditional Islamic city and its holistic vision of life; 2: the message of Islamic art;

3: music and spirituality; and 4: the way of Sufism, the inward or mystical dimension of Islam."--BOOK JACKET.

Sufism in Britain

It has been argued that the mystical Sufi form of Islam is the most sensitive to other cultures, being accommodative to other traditions and generally tolerant to peoples of other faiths. It readily becomes integrated into local cultures and they are similarly often infused into Sufism. Examples of this reciprocity are commonly reflected in Sufi poetry, music, hagiographic genres, memoirs, and in the ritualistic practices of Sufi traditions. This volume shows how this often-side-lined tradition functions in the societies in which it is found, and demonstrates how it relates to mainstream Islam. The focus of this book ranges from reflecting Sufi themes in the Qur'anic calligraphy to movies, from ideals to everyday practices, from legends to actual history, from gender segregation to gender transgression, and from legalism to spiritualism. Consequently, the international panel of contributors to this volume are trained in a range of disciplines that include religious studies, history, comparative literature, anthropology, and ethnography. Covering Southeast Asia to West Africa as well as South Asia and the West, they address both historical and contemporary issues, shedding light on Sufism's adaptability. This book sets aside conventional methods of understanding Islam, such as theological, juridical, and philosophical, in favour of analysing its cultural impact. As such, it will be of great interest to all scholars of Islamic Studies, the Sociology of Religion, Religion and Media, as well as Religious Studies and Area Studies more generally.

The Masnavi of Rumi, Book Two

Jalaloddin Rumi's Masnavi-ye Ma'navi, or 'Spiritual Couplets', composed in the 13th Century, is a monumental work of poetry in the Sufi tradition of Islamic mysticism. For centuries before his love poetry became a literary phenomenon in the West, Rumi's Masnavi had been revered in the Islamic world

as its greatest mystical text. Drawing upon a vast array of characters, stories and fables, and deeply versed in spiritual teaching, it takes us on a profound and playful journey of discovery along the path of divine love, toward its ultimate goal of union with the source of all Truth. In Book Two of the Masnavi, the second of six volumes, we travel with Rumi toward an understanding of the deeper truth and reality, beyond the limits of the self. Alan Williams's authoritative new translation is rendered in highly readable blank verse and includes the original Persian text for reference. True to the spirit of Rumi's poem, this new translation establishes the Masnavi as one of the world's great literary achievements for a global readership. Translated with an introduction, notes and analysis by Alan Williams and including the Persian text edited by Mohammad Este'lami.

The Mathnawi Ma'navi of Rumi, Book-2

One of the Greatest Persian Classic Book **THE MATHNAWI MA'NAVI OF RUMI** (of yours); as for the rest (of you), you are (only) bone and fibre. If your thought is a rose, you are a rose-garden; and if it is a thorn, you are fuel for the bath-stove. Mathnawi Ma'navi (also known as Masnavi or "Spiritual Couplets of Maulana") is one of the most influential works of both Sufism and Persian literature. The Masnavi, written by Jalal al-Din Muhammad, Rumi is a series of six books of poetry containing more than 25,000 verses. This spiritual writing teaches Sufis how to reach their goal of being in true love with God. Rumi is one of the best Persian poets and the Mathnawi is his masterpiece. Rumi used Persian and Arabic in his poetry. By the end of the 20th century, Rumi's popularity had become a global phenomenon, with his poetry achieving a wide circulation in the United States and western Europe. His poems have been translated into many different languages including Turkish, Urdu, French, Turkmen, Spanish, English, Arabic, German, Italian, Albanian, Swedish, etc. Reynold Alleyne Nicholson's translation of Mathnawi is based on the oldest known manuscripts. The prose translation, similarly, is intended to be an exact and faithful guide to the Persian. In Book, the second of six volumes, we travel with Rumi toward an understanding of the deeper truth and reality, beyond the limits of the self. We are very happy that the Mathnawi Ma'navi of Rumi has found its way to you! Published By: Persian Learning Center www.persianbell.com

The Masnavi Book 2

The story displays an integral part of the cultural heritage of human societies and, like a mirror reflects the values of a nation as well. Furthermore, through research in stories, we can realize the cultural relations of the people. According to Prof. Dr. Ulrich Marzolph, Iran, from the earliest times, as a vital connecting link between the ancient Indian culture and, Mediterranean valuable cultures, was known to the science's world and, universally recognized and appreciated in academic communities. Iran is an excellent source of the story, telling literature. Mawlana Jalal ad-Din Muhammad Rumi (30 September 1207 - 17 December 1273) depicts in his valuable work, Mathnawi, from the beginning of the first volume to the end of the sixth volume, throughout creates stories and allegories. Although Rumi believes that story is like a bowl and, the meaning of the story is like grains in that. The Mathnawi has many short stories and, except the apparent meaning, they also contain secret and hidden meanings.

MATHNAWI - SEXTA PARTE

'The pen would smoothly write the things it knew But when it came to love it split in two, A donkey stuck in mud is logic's fate - Love's nature only love can demonstrate.' Rumi's Masnavi is widely recognized as the greatest Sufi poem ever written, and has been called 'the Koran in Persian'. The thirteenth-century Muslim mystic Rumi composed his work for the benefit of his disciples in the Sufi order named after him, better known as the whirling dervishes. In order to convey his message of divine love and unity he threaded together entertaining stories and penetrating homilies. Drawing from folk tales as well as sacred history, Rumi's poem is often funny as well as spiritually profound. Jawid Mojaddedi's sparkling new verse translation of Book One is consistent with the aims of the original work in presenting Rumi's most mature mystical teachings in simple and attractive rhyming couplets. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

MASNAVI

In Persian-speaking Sufi circles it is almost as famous as the Mathnawi itself. Surprisingly enough, it has never been published in the West. But now it is available to students of mysticism and the many lovers of Rumi's work.

MATHNAWI - TERCERA PARTE

As Dr Needham's immense undertaking gathers momentum it has been found necessary to subdivide volumes into parts, each to be bound and published separately. The first part of Volume 4, already published, deals with the physical sciences; the second with the diverse applications of physics in the many branches of mechanical engineering; and the third will deal with civil and hydraulic engineering and nautical technology. With this part of Volume 4, then, we come to the application by the Chinese of physical principles in the control of forces and in the use of power; we cross the frontier separating tools from the machine. We have already noticed that the ancient Chinese concept of *chhi* (somewhat similar to the *pneuma* of the Greeks) asserted itself prominently in acoustics; but we discover here that the Chinese tendency to think pneumatically was also responsible for a whole range of brilliant technological achievements, for example, the double-acting piston-bellows, the rotary winnowing-fan, and the water-powered metallurgical blowing-machine (ancestor of the steam-engine); as well as for some extraordinary insights and predictions in aeronautics.

Top 20 Tales from Mathnawi RUMI

Begun in 1262 AD, *Masnavi-ye Ma'yanavi*, or 'spiritual couplets', is thought to be the longest single-authored mystical poem ever written. As the spiritual masterpiece of the Persian Sufi tradition, it teaches how to progress to the ultimate goal of the Sufi path - union with God. Jalaloddin Rumi was a poet and a mystic, but he was first a teacher; in these verses he draws the reader into the complexities of human love and separation and explains the path to divine love through the elimination of self-regard and worldly desires. Drawing on diverse sources from bawdy tales and fables to stories of the prophet Mohammed, these verses are brief in expression yet copious in meaning.

The Masnavi, Book One

"Rumi, known in Iran and Central Asia as Mowlana Jalaloddin Balkhi, was born in 1207 in the province of Balkh, now the border region between Afghanistan and Tajikistan. Rumi expressed a new vision of reality in volumes of mystical poetry. His enormous collection of lyrical poetry is considered one of the best that has ever been produced, while his poem in rhyming couplets, the *Masnavi*, is so revered as the most consummate expression of Sufi mysticism that it is commonly referred to as 'the Koran in Persian'."--BOOK JACKET.

The Heart of Hearts of Rumi's Mathnawi - Vol 2

The *Masnavi*, written by Mawlana Jalal Al-Din Muhammad Rumi at age 54 in 1258 until his death in 1273, is one of the most famous and best-loved Sufi texts ever written. Comprised of six books and over 25,000 verses, The *Masnavi* is a collection of poems and stories that teaches Sufis how to reach their Union with God. Rumi described the book as "the roots of the roots of the roots of the Faith." Filled to the brim with stories, anecdotes, lessons, and beautiful poetry, this version of The *Masnavi* contains the six books abridged, and was translated by E.H. Whinfield in 1898. JALAL AD-DIN MUHAMMAD RUMI (1207-1273) was a Persian Muslim theologian, poet, jurist, and Sufi mystic who taught peace between all religions, promoting tolerance and harmony. Born in the village of Wakhsh in greater Balkh (now Tajikistan), Rumi lived out most of his life in the Anatolian city of Konya. After his father's death, Rumi became the head of a madrasa, or religious school, and continued to learn and preach his father's mystical doctrines. Rumi taught that man had been separated from God, but his greatest desire was to reach God once more through music, dance, poetry and art, all of which is reflected in his many writings. His most famous work is the *Matanwiye Manawi*, or *Spiritual Couplets*, regarded by many as the Persian Qu'ran. Rumi's grave is still a place of pilgrimage in present-day Turkey.

The Masnavi may be called the Divina Commedia or the Paradise Lost of Islam – a summary of religious thought, a “Théodicée,” justifying the way of Allah to man, and a standard of religious feeling... E. H. Whinfield From the Introduction

Spiritual Verses

The Masnavi of Jalal al-Din Rumi (1207-1273), a massive poem of some 25,000 rhyming couplets, by common consent ranks among the world's greatest masterpieces of religious literature. The material which makes up the Masnavi is divisible into two different categories: theoretical discussion of the principal themes of Sufi mystical life and doctrine, and stories of fables intended to illustrate those themes as they arise. This selection of tales is the most accessible introduction to this giant epic for the non-Persian reader.

The Masnavi

'If something else can capture your attention Then it's not love, but just a trivial passion - Love is that flame which, once it blazes up, Burns everything but the Beloved up.' This is the first ever translation of the entirety of Book Five of Rumi's magnum opus, The Masnavi, into English. Prior to this verse translation in heroic couplets, translations were either of selected passages or in lineated prose with passages deemed too salacious rendered into Latin, as was the convention in Britain of the early twentieth century. This fifth book of Rumi's The Masnavi is well-known to contain much sexually explicit content within teaching stories about the path of annihilation of the self in a total and uncompromising way.

Rumi's Mystical Design

Book Two of Rumi's Masnavi is concerned with the challenges facing the follower of Sufi enlightenment. It interweaves stories and homilies in order to instruct followers of Rumi, the great thirteenth-century Muslim mystic. Jawid Mojaddedi's sparkling new verse translation follows his prize-winning edition of Book One. - 'You don't seek guidance from those drunken men, So why insist they mend their rags again? God's lovers stand beyond all faiths, as they Are shown by God Himself a higher way.' Book Two of Rumi's Masnavi is concerned with the challenges facing the seeker of Sufi enlightenment. In particular it focuses on the struggle against the self, and how to choose the right companions in order to progress along the mystical path. By interweaving amusing stories and profound homilies, Rumi instructs his followers in a style that still speaks directly to us. In this volume, stories such as 'Moses and the Shepherd', 'The Foolhardy Man who Trusted a Bear's Good Intentions' and 'Mo'awiya and Satan' are among the most popular in the entire Masnavi. The most influential Sufi poem ever written, the six books of the Masnavi are often called 'the Qur'an in Persian'. Self-contained, as well as continuing the journey along the spiritual path, Book Two is here translated into rhyming couplets in the style of Jawid Mojaddedi's prize-winning translation of Book One. -

Publisher description

Masnavi I Ma'navi

HEARKEN to the reed-flute, how it complains, Lamenting its banishment from its home: "Ever since they tore me from my osier bed, My plaintive notes have moved men and women to tears. I burst my breast, striving to give vent to sighs, And to express the pangs of my yearning for my home. He who abides far away from his home Is ever longing for the day he shall return. My wailing is heard in every throng, In concert with them that rejoice and them that weep. Each interprets my notes in harmony with his own feelings, But not one fathoms the secrets of my heart. My secrets are not alien from my plaintive notes, Yet they are not manifest to the sensual eye and ear. Body is not veiled from soul, neither soul from body, Yet no man hath ever seen a soul." This plaint of the flute is fire, not mere air. Let him who

lacks this fire be accounted dead! 'Tis the fire of love that inspires the flute, 'Tis the ferment of love that possesses the wine. The flute is the confidant of all unhappy lovers; Yea, its strains lay bare my inmost secrets. Who hath seen a poison and an antidote like the flute? Who hath seen a sympathetic consoler like the flute? The flute tells the tale of love's bloodstained path, It recounts the story of Majnun's love toils. None is privy to these feelings save one distracted, As ear inclines to the whispers of the tongue. Through grief my days are as labor and sorrow, My days move on, hand in hand with anguish. Yet, though my days vanish thus, 'tis no matter, Do thou abide, O Incomparable Pure One! But all who are not fishes are soon tired of water; And they who lack daily bread find the day very long; So the "Raw" comprehend not the state of the "Ripe;" Therefore it behoves me to shorten my discourse. Arise, O son! burst thy bonds and be free! How long wilt thou be captive to silver and gold? Though thou pour the ocean into thy pitcher, It can hold no more than one day's store. The pitcher of the desire of the covetous never fills, The oyster-shell fills not with pearls till it is content; Only he whose garment is rent by the violence of love Is wholly pure from covetousness and sin. Hail to thee, then, O LOVE, sweet madness! Thou who healest all our infirmities! Who art the physician of our pride and self-conceit! Who art our Plato and our Galen! Love exalts our earthly bodies to heaven, And makes the very hills to dance with joy! O lover, 'twas love that gave life to Mount Sinai, When "it quaked, and Moses fell down in a swoon." Did my Beloved only touch me with his lips, I too, like the flute, would burst out in melody. But he who is parted from them that speak his tongue, Though he possess a hundred voices, is perforce dumb. When the rose has faded and the garden is withered, The song of the nightingale is no longer to be heard.

Masnavi

Traditional literature, or 'the deed of the reed pen' as it was called by its creators, is not only the most valuable part of the cultural heritage of the Malay people, but also a shared legacy of Malaysia, Indonesia, Singapore and Brunei. Malay culture during its heyday saw the entire Universe as a piece of literature written by the Creator with the Sublime Pen on the Guarded Tablet. Literature was not just the creation of a scribe, but a scribe himself, imprinting words on the 'sheet of memory' and thus shaping human personality. This book, the first comprehensive survey of traditional Malay literature in English since 1939, embraces more than a millennium of Malay letters from the vague data of the seventh century up to the early beginnings of the modern literatures in the late nineteenth century. The long path trodden by traditional Malay literature is viewed in historical and theoretical perspectives as a development of integral system, caused by cultural and religious changes, primarily by gradual Islamization. This changing system considered in the entirety of its genres and works, is seen both externally and internally: from the point of view of modern scholarship and through the examination of indigenous concepts of literary creativity, poetics and aesthetics. The book not only represents an original study based on a specific historico-theoretical approach, but it is also a complete reference-work and an indispensable manual for students.

The Masnavi, Book Five

Practical Mysticism in Islam and Christianity offers a comparative study of the works of the Sufi-poet Jalal al-Din Rumi (1207-1273) and the practical teachings of the German Dominican, Meister Eckhart (c1260-1327/8). Rumi has remained an influential figure in Islamic mystical discourse since the thirteenth century, while also extending his impact to the Western spiritual arena. However, his ideas have frequently been interpreted within the framework of other mystical, philosophical, or religious systems. Through its novel approach, this book aims to reformulate Rumi's practical mysticism by employing four methodological principles: a) mysticism is a coherent structure with mutual interconnection between its parts; b) the imposition of alien structures to interpret any particular mysticism damages its inward coherency; c) practical mysticism consists of two main parts, namely practices and stages; and d) the proper use of comparative methodology enables a deeper understanding of each juxtaposed system. Eckhart's speculative mysticism, which differs from and enjoys similarities with the love-based mysticism of Rumi, provides a "mirror" that highlights the special features of Rumi's practical mysticism. Such comparison also allows a deeper comprehension of Eckhart's practical thought. Offering a critical examination of practical mysticism, this book is a valuable resource for students and scholars of Islamic studies, comparative mysticism, and the intellectual history of Islam.

The Masnavi

This book is the first full-length analysis of the theory and practice of Persian singing, demonstrating the centrality of Persian elements in the music of the Islamic Middle Ages, their relevance to both contemporary and traditional Iranian music and their interaction with classical Persian poetry and metrics.

The Masnavi, Book Two

This book explores the theology and philosophy of the distinguished modern Muslim scholar and theologian Bediuzzaman Said Nursi [d.1960]. Nursi wrote in both Ottoman Turkish and Arabic and his life and thought reflected the transition of modern Turkey from an empire to a secular republic. The contributors to this volume shed new light on two major dimensions of Nursi's thought: theodicy and justice. Classical Muslim theologians debated these two important issues; however, we must consider the modern debate of these issues in the context of the radical political and social transformations of modern Turkey. Nursi explored these matters as they related to the development of state and society and the crisis of Islam in the modern secular nation-state. Nursi is the founder of a 'faith movement' in contemporary Turkey with millions of followers worldwide. In this book, distinguished scholars in Islamic, Middle Eastern, and Turkish Studies explore Nursi's thought on theodicy and justice in comparison with a number of western philosophers, theologians, and men of letters, such as Dante, Merton, Kant, and Moltman. This book presents an invaluable resource for studies in comparative religion, philosophy, and Islamic and Middle Eastern Studies.

Mathanawi

A detailed overview of the life and teachings of one of the great Ottoman Sufi masters, Mehmed Muhyiddin Uftade, is accompanied by an English translation of a collection of his religious poetry in this tribute to the Turkish and Persian spiritual traditions. Uftade's prominent role in the founding of the Jelvetiyye, one of the main dervish orders, his influence on Sultan Suleyman the Magnificent, and his instruction of renowned disciple 'Aziz Mahmud Hudayi, are carefully described alongside the faithfully rendered tenets of his spiritual teachings, augmented by firsthand accounts of his views translated from the journal of a disciple. Uftade's poetry employs simple, direct, and wonderfully human language to express the human yearning for the divine and the ups and downs of the spiritual path.

The Masnavi, Book One

Sheds light on one of the most important religious thinkers in the modern Muslim world.

The Masnavi I Ma'navi

It would not be an overstatement to say that Cemal Kafadar has transformed the field of Ottoman history. As a result of his pathbreaking books and articles, the field is experiencing a turn within itself as well as recasting its relationship with world history. This volume acts as a tribute to Kafadar and the important interdisciplinary work he has both done and inspired in the field. In line with the intellectual pluralism that Kafadar has cultivated over his career, readers will find a number of articles engaging with a wide

range of questions, approaches, perspectives, and sources across Ottoman history. Kafadar's students and friends, individually or in pairs, researched and crafted contributions to this volume with a variety of conceptual premises, theoretical approaches, and interpretive tools to celebrate his thirty years of teaching, research, and mentorship, in addition to the overwhelming generosity of his intellectual and personal engagement.

The Blackwell Companion to the Qur'an

This work focuses on translators and readers as participants in the communicative process, where the use of allusions is one type of problem to be solved. Reader-response tests and interviews with professional translators highlight the difficulty in conveying the function and meaning of allusive passages to readers in another culture. The many examples discussed also provide materials for translation teachers wanting to address the translation of allusions in their courses.

General Principles in the Risale-i Nur Collection for a True Understanding of Islam

The metrical translation of the Psalms into the Punjabi language, set to indigenous music in the late nineteenth century in India, plays a vital role in the personal and communal worship of the global Punjabi Christian community. This book is a pioneer work that comprehensively encompasses the cultural, socio-historical, missional, and sociolinguistic aspects of the Punjabi Psalter. It investigates the unique and fascinating story of the contextualizing of Psalms in an exclusive South Asian Punjabi context and engages in an in-depth study on the life and work of Rev. Dr. Imam-ud-Din Shahbaz. This work determines to bring a deeper appreciation for the Punjabi Psalter by encouraging the Punjabi Christians to not only pass the Psalms on to the next generations but also to grow in loving and valuing their mother-tongue, the Punjabi language. The thrust of this book is to esteem the shared heritage of the global Punjabi Christian community—the Psalms in Punjabi, commonly known as the Punjabi Zabur.

The Heritage of Traditional Malay Literature

A vibrant selection of poems by the great Persian mystic with groundbreaking translations by an American poet of Persian descent. Rumi's poems were meant to induce a sense of ecstatic illumination and liberation in his audience, bringing its members to a condition of serenity, compassion, and oneness with the divine. They remain masterpieces of world literature to which readers in many languages continually return for inspiration and succor, as well as aesthetic delight. This new translation by Haleh Liza Gafari preserves the intelligence and the drama of the poems, which are as full of individual character as they are of visionary wisdom. Marilyn Hacker praises Gafari's new translations of Rumi as "the work of someone who is at once an acute and enamored reader of the original Farsi text, a dedicated miner of context and backstory, and, best of all, a marvelous poet in English."
