Public Examinations Examined

High-stakes public examinations exert a dominant influence in most education systems. They affect both teacher and student behavior, especially at the middle and upper levels of secondary education. The content of past examinations tends to dictate what is taught and how it is taught and, more important, what is learned and how it is learned. By changing aspects of these examinations, especially their content and format, education systems can have a strong positive impact on teacher behavior and student learning, help raise student achievement levels, and better prepare students for tertiary-level education and for employment. Examination agencies, many of which have followed the same procedures over decades, can learn from the successes and failures of other systems. This book addresses current issues related to the development, administration, scoring, and usage of these high-stakes public examinations, identifying key issues and problems related to examinations in many emerging market economies as well as in advanced economies. The book's primary audience consists of public examination officials on national, regional, and state examination boards, but the book should also be of interest to senior education policy makers concerned with certification and learning achievement standards, to academics and researchers interested in educational assessment, to governmental and education agencies responsible for student selection, and to professionals at development organizations. "This extremely well-written and comprehensive book offers a timely review of the diversity of public examination practices worldwide; of the tensions between examinations and learning; and of the technical expertise involved in the creation of valid, reliable, and fair assessments. It reminds us that as "the diploma disease" takes hold with an ever-greater intensity at every stage of education worldwide, and the commercial business of testing flourishes, those concerned with educational quality and meaningful learning must be on guard to prevent the assessment tail wagging the educational dog." Angela W. Little, Professor Emerita, Institute of Education, University College London "This book is very well structured and written and draws on the authors' remarkable global knowledge across countries and histories. It will be a great asset both to administrators responsible for examinations and to academics and other professionals who seek to understand the nature and impact of examinations of different types and in different settings." Mark Bray, UNESCO Chair Professor of Comparative Education, University of Hong Kong; and former Director, UNESCO International Institute for Educational Planning "I am sure that *Public Examinations Examined*, which thoroughly analyzes the practice of public examinations in different countries and makes profound and well-grounded conclusions, will arouse very great interest and will serve to further improve public examinations." Victor Bolotov, Distinguished Professor, Higher School of Economics, National Research University, Moscow; member, Russian Academy of Education; and former Deputy Minister of Education, Russian Federation

Things Fall Apart

A classic novel about the confrontation of African tribal life with colonial rule tells the tragic story of a warrior whose manly, fearless exterior conceals bewilderment, fear, and anger at the breakdown of his society.

Tsotsi

Set amid the sprawling Johannesburg township of Soweto, where survival is the primary objective, this novel traces six days in the life of a ruthless young gang leader who begins to rediscover his own humanity, dignity, and capacity to love.

Dreaming of Light

Regile is a zama-zama working illegally in an abandoned mine near Barberton. He has moved up the ranks and is now paid a salary to keep the other child workers in line. Towards the end of a three-month stint underground, a fourteen-year-old boy from Mozambique, Taiba, starts asking questions about their rescue. Taiba constantly reaffirms his belief that they will be saved: by the police, by the private

security firms that guard the mines, or maybe even by the mythical Spike Maphosa. Regile knows that such hope is dangerous.

The Gift of the Magi (Illustrated)

"The Gift of the Magi" is a short story by O. Henry first published in 1905. The story tells of a young husband and wife and how they deal with the challenge of buying secret Christmas gifts for each other with very little money. The main idea of "The Gift of the Magi" is that the value of a gift is in the giver, rather than the gift itself. Jim and Della, out of their love for each other, purchased a gift that required them to sacrifice something that was precious to them.

The Chimney Sweeper

The search for a means to an end to apartheid erupts into conflict between a black township youth and his "old-fashioned" black teacher.

Cry the Beloved Country

As a teenager in today's crazy online world, you may think you've got it all sussed out. But even you don't know about all the legal pitfalls, hidden dangers and future implications of what you do, see and post online. *Selfies, Sexts and Smartphones* is the book every teenager (and their parents) should read. It covers all of the major issues teenagers face in the digital age, including cyberbullying, sexting, addiction, internet safety, porn, anxiety, depression, privacy and reputation, and does so within a South African context. Accessible, informative and even fun, this book will help guide you to a happy, rewarding and, most importantly, safe online life. Upon reading *Selfies, Sexts and Smartphones*, one 17-year-old remarked: 'I feel I need to say thank you for this. It talks about the stuff I deal with every single day.'

My Children! My Africa! (TCG Edition)

Sindiwe Magona's novel *Mother to Mother* explores the South African legacy of apartheid through the lens of a woman who remembers a life marked by oppression and injustice. Magona decided to write this novel when she discovered that Fulbright Scholar Amy Biehl, who had been killed while working to organize the nation's first ever democratic elections in 1993, died just a few yards away from her own permanent residence in Guguletu, Capetown. She then learned that one of the boys held responsible for the killing was in fact her neighbor's son. Magona began to imagine how easily it might have been her own son caught up in the wave of violence that day. The book is based on this real-life incident, and takes the form of an epistle to Amy Biehl's mother. The murderer's mother, Mandisi, writes about her life, the life of her child, and the colonized society that not only allowed, but perpetuated violence against women and impoverished black South Africans under the reign of apartheid. The result is not an apology for the murder, but a beautifully written exploration of the society that bred such violence.

Selfies, Sexts and Smartphones

Mother to Mother

Dreams are the currency of Okri's writing, particularly in this first book of poems, *An African Elegy*, but also in his books of short stories and prize-winning novel *The Famished Road*. Okri's dreams are made on the stuff of Africa's colossal economic and political problems, and reading the poems is to experience a constant succession of metaphors of resolution in both senses of the word. Virtually every poem contains an exhortation to climb out of the African miasma, and virtually every poem harvests the dream of itself with an upbeat restorative ending' - Giles Foden, *Times Literary Supplement*

Ignatius Critical Editions (ICE) Study Guides are constructed to aid the reader of ICE classics to achieve a level of critical and literary appreciation befitting the works themselves. They give introductions and summaries, followed up with in-depth considerations of key critical moments and themes, plus lists of points to ponder while reading. Finally, they include questions to test the students' knowledge of the text and ability to go from that knowledge to wider or higher conclusions about the works and their relation to reality. Ideally suited for students themselves and as a guide for teachers, the ICE Study Guides serve as a complement to the treasures of critical appreciation already included in ICE titles.

POEMS - EVERY IRISHMAN'S LIBRARY Aedh Wishes for the Cloths of Heaven

"Emerging from the pioneering work of the African Association for History Education (AHE-Afrika), *Teaching African History in Schools* offers an original Africa-centred contribution to international history education research. Edited by AHE-Afrika's founders and directors, the volume thus addresses a notable gap in this field by showcasing otherwise marginalised scholarship from and about Africa. *Teaching African History in Schools* constitutes a unique collection of nine empirical studies, interrogating curriculum and textbook contents, and teachers' and learners' voices and experiences as they relate to teaching and learning African history across the continent and beyond. Case studies include South Africa, Kenya, Rwanda, Zimbabwe, Malawi, Cameroon and Tanzania, as well as the UK and Canada. Contributors are: Denise Bentreovato, Carol Bertram, Jean-Leonard Buhigiro, Annie Fatsereni Chiponda, Raymond Nkwenti Fru, Marshall Tamuka Maposa, Abdul Mohamud, Sabrina Moisan, Reville Nussey, Nancy Rushohora, Johan Wassermann, and Robin Whitburn"--

The Landlady (A Roald Dahl Short Story)

He was a son of Africa who became father to a nation and, for billions of people around the world, a beacon of hope, courage, and perseverance in the face of opposition. Now, acclaimed poet Maya Angelou honors the life and remarkable soul of Nelson Mandela, former president of South Africa and Nobel laureate. In *His Day Is Done*, Angelou delivers an authentically heartfelt and elegant tribute to Mandela, who stood as David to the mighty Goliath of Apartheid and who, after twenty-seven years of unjust imprisonment on the notorious Robben Island, emerged with “His stupendous heart intact / His gargantuan will / Hale and hearty” to lead his people into a new era. This poignant work of gratitude and remembrance offers condolences to the resilient people of South Africa on the loss of their beloved “Madiba” and celebrates a man like no other, whose life and work changed the world. Praise for *His Day Is Done* “Moving and heartfelt.”—The Washington Post “A powerful, gripping tribute.”—NewsOne “[His Day Is Done captures] how many were feeling.”—BBC News
