Literature

Literature: An Introduction to Fiction, Poetry, Drama, and Writing, Compact, 8th Edition is a book to lead readers beyond the boundaries of self to see the world through the eyes of others. Built on the assumption that great literature can enrich and enlarge the lives it touches, this text was developed with two primary goals: to introduce individuals to the appreciation and experience of literature in its major forms and to develop individuals' abilities to think critically and communicate effectively about and through writing.--AMAZON.

Literature

NOTE: This edition features the same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value; this format costs significantly less than a new textbook. Before purchasing, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a Course ID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. For introductory courses in Literature. This version of Literature: An Introduction to Fiction, Poetry, Drama, and Writing has been updated to reflect the 8th edition of the MLA Handbook (April 2016). The 8th edition introduces sweeping changes to the philosophy and details of MLA works cited entries. Responding to the "increasing mobility of texts," MLA now encourages writers to focus on the process of crafting the citation, beginning with the same questions for any source. These changes, then, align with current best practices in the teaching of writing which privilege inquiry and critical thinking over rote recall and rule-following. Cultivate a Love of Literature... X.J. Kennedy & Dana Gioia developed Literature: An Introduction to Fiction, Poetry, Drama, and Writing with two major goals in mind: to introduce college students to the appreciation and experience of literature in its major forms and to develop the student's ability to think critically and communicate effectively through writing. The book is built on the assumption that great literature can enrich and enlarge the lives it touches. Both editors, literary writers themselves, believe that textbooks should be not only informative and accurate but also lively, accessible, and engaging.
