A Scholar's Deep Dive Into UFOs & Religion | Diana Pasulka - A Scholar's Deep Dive Into UFOs & Religion | Diana Pasulka by Theories of Everything with Curt Jaimungal 209,067 views 1 year ago 3 hours, 13 minutes - Professor of **Religion**, Diana Pasulka discusses Jung, Heidegger, the Dark Night of the Soul, and the recent UFO hearings.

Introduction

Diana's journey from "atheist" Ò "agnostic" (with respect to the phenomenon)

Nuns who saw orbs, every night, then prayed...

What are "beliefs"?

Atheists who believe in God

Spiritual vs Religious (and the Secularization thesis)

UFOs (or the belief in) are like a religion

Psychedelics and religion

Getting flack because of covering the phenomenon

To the skeptics: it's rational to believe in UFOs

Atheism is NOT like a religion, though it can be dogmatic

It's false to say "religions tell you what to think"

The case for dogma

Heidegger on technology not being just another tool

Heidegger and Jacques Vallée

Why do those who study the phenomenon tend to be Catholic?
How the Vatican views UFOs
Are religious stories interpreting UFOs, or are we interpreting UFOs materialistically?
Near Death Experiences, UFOs, and Dean Radin
How the CIA / DOD / etc. work (the nefarious strategies)
Graham Hancock
What Diana uncovered, that she shouldn't have
Roswell and the Promethean myth
The dangers (and reality) of CE5
Bob Lazar is considered credible by many, behind the scenes
Protecting yourself against disinformation
Academic Openness vs. Governmental Closedness
SpaceX (does Musk know?) / Writing in Latin for "them"
Images of the "patches" and Latin
The president is a "short timer" (this is why he / she isn't told the truth)
Who is Tyler? Why is he significant?
Does the gov't believe they understand what's behind UFOs?
We're dealing with MULTIPLE phenomenon, not just one
Biblically accurate angels
Physical evidence pertaining to purgatory
What's the point in collocating UFOs with religion?
Who is the modern Heidegger?
Jung and UFOs
Plato's Cave and the view that certain people have shackled us
Sangha as The Answer to deception
Proposition vs Participatory knowledge
Rediscovering meaning, Heidegger, Weinstein, and the TOE project
Experiential vs Analytical approach to understanding God
Lovecraft, and the perils of an "open mind"
Epistemic Shock vs Ontological Shock
The importance of Sangha
[Juliano Vargas] Reconciling religion with ET (and does ET believe in a Supreme Creator?)
[Numb Her Two] How has Diana's faith been affected?
Why does the Hitchhiker effect occur?
Angels... Demons... What is the THIRD (religiously interpreted) option?
Rosicrucianism and Gnosticism
Kurzweil's Singularity / Omega Point / UAPs
Jung and the UFO archetype (continued)
UFO hearings (May 2022)
[Tupacabra] Catholic Church, Remote Viewing, Thomas Campbell, and Jacques Vallée

The Humanistic Tradition Book 2: Medieval Europe And The World Beyond

This text is part of a six-volume work which offers an overview of art, music, literature, history and philosophy. Book 3 explores the European Renaissance, the reformation and the global encounter. It looks at the 14th-century transitions, classical humanism, Renaissance artists, reforms and cross-cultural encounters in Africa and the Americas. The text focuses on the Western tradition, but also includes strong coverage of other cultures, setting the arts of the West in the larger arena of world cultures including India, the East, Africa and Native America. Throughout the chronological narrative there is a focus on universal themes, integrating ideas and issues that relate to the human condition. The coverage of literature, art, music and architecture is integrated into discussions of cultural and political influences, aiming to create a logical presentation of broad subject matter.

Looseleaf for The Humanistic Tradition, Book 6: Modernism, Postmodernism, and the Global Perspective

This book presents an intellectual history and theoretical exploration of black humanism since the civil rights era. Humanism is a human-centered approach to life that considers human beings to be responsible for the world and its course of history. Both the heavily theistic climate in the United States as well as the dominance of the Black Church are responsible for black humanism's existence in virtual oblivion. For those who believe the world to be one without supernatural interventions, human action matters greatly and is the only possible mode for change. Humanists are thus committed to promoting the public good through human effort rather than through faith. Black humanism originates from the lived experiences of African Americans in a white hegemonic society. Viewed from this perspective, black humanist cultural expressions are a continuous push to imagine and make room for alternative life options in a racist society. Alexandra Hartmann counters religion's hegemonic grasp and uncovers black humanism as a small yet significant tradition in recent African American culture and cultural politics by studying its impact on African American literature and the ensuing anti-racist potentials. The book demonstrates that black humanism regards subjectivity as embodied and is thus a worldview that is characterized by a fragile hope regarding the possibility of progress – racial and otherwise – in the country.

The European Renaissance, the Reformation, and Global Encounter

This text is part of a six-volume work which offers an overview of art, music, literature, history and philosophy. Book 6 explores the global village of the 20th century. It looks at the Freudian revolution, total war, the postmodern turn and the arts in the information age. The text focuses on the Western tradition, but also includes strong coverage of other cultures, setting the arts of the West in the larger arena of world cultures including India, the East, Africa and Native America. Throughout the chronological narrative there is a focus on universal themes, integrating ideas and issues that relate to the human condition. The coverage of literature, art, music and architecture is integrated into discussions of cultural and political influences, aiming to create a logical presentation of broad subject matter.

The Black Humanist Tradition in Anti-Racist Literature

Comparative Criticism addresses itself to the questions of literary theory and criticism. This new volume looks at the Humanist Tradition in the Twentieth Century and articles will include: The Book in the Totalitarian Context; Lorenzo Valla and Changing Perceptions of Renaissance Humanism; Hitler's Berlin; Civilisation and barbarism: an anthropological approach; Walter Pater to Adrian Stokes: psychoanalysis and humanism; Art History and Humanist Tradition in the Stefan George Circle. The winning entries in the 1999-2000 BCLA/BCLT translation competition are also published.

The Humanistic Tradition

Beginning with the birth of Christianity and of Buddhism, the second book of The Humanistic Tradition offers a wide-ranging look at the period from 0-1300 C.E. The book addresses the interaction between religion and culture in emerging Islamic societies while also drawing on art, music, literature, and architecture to draw a vivid portrait of life in Medieval Europe. It concludes with a discussion of the art and culture of medieval Asia - India, China, and Japan.

While humanist sensibilities have played a formative role in the advancement of our species, critical attention to humanism as a field of study is a more recent development. As a system of thought that values human needs and experiences over supernatural concerns, humanism has gained greater attention amid the rapidly shifting demographics of religious communities, especially in Europe and North America. This outlook on the world has taken on global dimensions as well, with activists, artists, and thinkers forming a humanistic response not only to traditional religion, but to the pressing social and political issues of the 21st century. With in-depth, scholarly chapters, *The Oxford Handbook of Humanism* aims to cover the subject by analyzing its history, its philosophical development, its influence on culture, and its engagement with social and political issues. In order to expand the field beyond more Western-focused works, the Handbook discusses humanism as a worldwide phenomenon, with regional surveys that explore how the concept has developed in particular contexts. The Handbook also approaches humanism as both an opponent to traditional religion as well as a philosophy that some religions have explicitly adopted. By both synthesizing the field, and discussing how it continues to grow and develop, the Handbook promises to be a landmark volume, relevant to both humanism and the rapidly changing religious landscape.

The Humanistic Tradition, Books 4, 5, & 6 with Connect Plus Humanities Access Card Vol. 2

Book Two of this six-book volume looks at Medieval Europe and the world beyond. The text examines the shaping of the Middle Ages, exploring the flowering of Christianity and Buddhism, the Islamic world, philosophy and the arts.

A path-breaking work at last available in paper, *History, Medicine, and the Traditions of Renaissance Learning* is Nancy G. Siraisi's examination of the intersections of medically trained authors and history from 1450 to 1650. Rather than studying medicine and history as separate traditions, Siraisi calls attention to their mutual interaction in the rapidly changing world of Renaissance erudition. With remarkably detailed scholarship, Siraisi investigates doctors' efforts to explore the legacies handed down to them from ancient medical and anatomical writings.

Humanistic Tradition

Dominic Baker-Smith has been a leading international authority on humanism for more than four decades, specializing in the works of Erasmus and Thomas More. The present collection of essays by colleagues throughout Europe, Canada, and the United States examines humanism in both its historic sixteenth-century meanings and applications and the humanist tradition in our own time, drawing on his work and that of scholars who have followed him. Contributors include Andrew Weiner, Elizabeth McCutcheon, and Germaine Warkentin. Arthur F. Kinney is Thomas W. Copeland Professor of Literary History at the University of Massachusetts, Amherst. Ton Hoenselaars is Associate Professor of English at the University of Utrecht.

History, Medicine, and the Traditions of Renaissance Learning

Cuts through traditional debates to argue that religious phenomena are cocreated by human cognition and a generative spiritual power.

Looseleaf for The Humanistic Tradition, Book 3: European Renaissance Reformation Global Encounter

This book poses an eloquent challenge to the common conception of the hermeneutical tradition as a purely modern German specialty. Kathy Eden traces a continuous tradition of interpretation from Republican Rome to Reformation Europe, arguing that the historical grounding of modern hermeneutics is in the ancient tradition of rhetoric.

Challenging Humanism

The T.S. Eliot of the 1920s was a European humanist who was part of an international network of like-minded intellectuals. Their ideas about literature, education and European culture in general remain highly relevant to the cultural debates of our day.

The Participatory Turn

Founded in 1943, Negro Digest (later "Black World") was the publication that launched Johnson Publishing. During the most turbulent years of the civil rights movement, Negro Digest/Black World served as a critical vehicle for political thought for supporters of the movement.

Hermeneutics and the Rhetorical Tradition

Kant, Goethe, Schiller and other eighteenth-century German intellectuals loom large in the history of the humanities—both in terms of their individual achievements and their collective embodiment of the values that inform modern humanistic inquiry. Taking full account of the manifold challenges that the humanities face today, this volume recasts the question of their viability by tracing their long-disputed premises in German literature and philosophy. Through insightful analyses of key texts, Alexander Mathäs mounts a broad defense of the humanistic tradition, emphasizing its pursuit of a universal ethics and ability to render human experiences comprehensible through literary imagination.

The Human Tradition

"The Humanistic Tradition is quite simply the finest book of its type. Fiero manages to integrate the political, cultural, and social history of the world into one coherent and fascinating whole. It is a masterpiece of scholarship . . . balanced, interesting, easy to read, and consummately beautiful. Our professors praise its accuracy and scope and our students unanimously say it is their favorite textbook." — Sonia Sorrell, Pepperdine University The Humanistic Tradition features a flexible, topical approach that helps students understand humankind's creative legacy as a continuum rather than as a series of isolated events. This widely acclaimed interdisciplinary survey offers a global perspective, countless illustrations, and more than 150 literary sources. Available in multiple formats, The Humanistic Tradition explores the political, economic, and social contexts of human culture, providing a global and multicultural perspective which helps students better understand the relationship between the West and other world cultures.

Guardians of the Humanist Legacy: The Classicism of T.S. Eliot's Criterion Network and Its Relevance to Our Postmodern World

The Handbook of Humanistic Psychology promises to be a landmark in the resurgent field of humanistic psychology and psychotherapy. Their range of topics is far-reaching--from the historical, theoretical, and methodological, to the spiritual, psychotherapeutic, and multicultural. Students and professionals are looking for the fuller, deeper, and more personal psychological orientation that this Handbook promotes.

Black World/Negro Digest

This collection of articles presents cutting-edge scholarship in Hippocratic studies in English from an international range of experts. It pays special attention to the commentary tradition, notably in Syriac and Arabic, and its relevance to the constitution and interpretation of works in the Hippocratic Corpus.

Beyond Posthumanism

Cultures and moral expectations differ around the globe, and so the management of corporate responsibilities has become increasingly complex. Is there, however, a humanistic consensus that can bridge cultural and ethnic divides and reconcile the diverse and contrary interests of stakeholders world-wide? This book seeks to answer that question.

The Humanistic Tradition

The essays gathered in this volume are devoted to different aspects of the reception of Humanism and the Renaissance in Slavic countries. They mark the beginning of a dialogue among scholars of different Slavic languages and literatures, in search of the ways in which the entire Slavic world – albeit to varying degrees – has participated from the very beginning in European cultural transformations, and not simply by sharing some characteristics of the new currents, but by building a new identity in harmony with the changes of the time. By overcoming the dominant paradigm, which sees all cultural manifestations as part of a separate 'national' linguistic, literary and artistic canon, this volume is intended to be the first step in outlining some ideas and suggestions in view of the creation, in the future, of an atlas that maps the relevance of Humanism and the Renaissance in the Slavic world.

The Handbook of Humanistic Psychology

Humanistic Values from Academic Community Perspective is authored by a range of international experts with a diversity of backgrounds and perspectives and provides a collection of ideas, examples and solutions on Humanistic Values in Academia, implementation and problems that occur in this area of consideration. This volume is a result of numerous discussions within the academic members to incorporate humanistic values like dignity, integrity, care, human rights etc. into our conduct composed of all the academic levels, beginning with students through staff, faculty and administration. Authors and contributors of this book assume the importance and crucial role of values in managing contemporary organizations emphasizing the fact that the oldest organizations managed by core values are not the globally known and acknowledged business corporation but the institutions like churches, armies and the universities. Numerous institutions of higher education are proud of their core values and present them to their employees, students, and stakeholders. The book is divided into four parts: I Introduction, II Humanistic values from academic perspective, III Humanistic values from student / faculty perspective and part IV Humanistic values from educational administrative perspective. We sincerely hope that the chapters presented in this volume will open new horizons for the understanding of humanistic values in academia and simultaneously it will provide inspiration and encouragement for further research in this area of study.

Foundations of Financial Management

The purpose of this book – "THE HUMANISTIC APPROACH IN PSYCHOLOGY & PSYCHOTHERAPY, SOCIOLOGY & SOCIAL WORK, PEDAGOGY & EDUCATION, MANAGEMENT AND ART: PERSONAL DEVELOPMENT AND COMMUNITY DEVELOPMENT" (Second Edition) – is to achieve an investigation as exhaustive and comprehensive as possible on the presence of the humanistic approach, with an emphasis on the dual-humanistic valences, in a wide range of social and human fields, thus bringing before the reader – as an alternative to the modular, strictly monodisciplinary approaches – a multidisciplinary and complex approach, thus putting almost all the most important social & human disciplines and practices under a single humanistic/ dual-humanistic "umbrella", and presented in a single book. The Chapter 1 highlights the diversity of approaches in the social and human domains, focusing on three great approaches: mystical-spiritual and religious, strictly scientific, and humanistic. In Chapter 2, the sources and models of the humanistic orientation are explored, identifying in this sense, with priority, Humanism and philosophical influences such as criticism, ontology, humanistic philosophy, and same oriental-spiritual practices. This chapter highlights also the contribution of phenomenology, existentialism, personalism, gestaltism, neo-Marxism, the Frankfurt School, secular humanism, the human rights movement, postmodernism, feminism, and complex and emergent systems theories. Chapter 3 focuses on the humanistic/ dual-humanistic approach in psychology and psychotherapy.. The basic principles of the humanistic approach to the human psyche were highlighted, as well as the dual-humanistic approach to personality and behavior. Chapter 4 discusses the humanistic/ dual-humanistic orientation in sociology and social work, highlighting the characteristics of social

humanism and their different postures in the field of sociology and social work. Chapter 5 brings to the reader's attention the humanistic approach to pedagogy and education, emphasizing the specificity of child/student center education and the characteristics of the dual-humanistic approach in pedagogy/ education. Chapter 6 addresses the issue of humanistic management, emphasizing how this approach generated a significant change in work organizations, focusing on people, employee development and their well-being. Chapter 7 discusses the humanist approach in art, theater and film, highlighting the characteristics of humanistic aesthetics and humanistic teatrology/ filmology. Chapter 8 brings other disciplines into the discourse, such as medicine, politics, religion, technology & science, ecology and economy, highlighting how the humanistic approach influences these fields and brings a dual perspective between person-centeredness and human/ social solidarity. Chapter 9 presents some of the characteristics of the humanistic/dual-humanistic approach to personal development, focusing on the formation of a strong, humane and complete personality. Chapter 10 discusses the humanistic approach, especially through its dual-humanist valence, in community development, emphasizing how it, as philosophy, culture and politics, can contribute to the formation of a strong and humane/ solidary community, with the inclusion of the goals and values of personal development/fulfillment and the happiness of their members. Regarding the usefulness and addressability of this edition, of this book, the design, content and bibliography are made in such a way as to be useful both to the academic community, to students and to teachers, and to the professional community, to psychotherapists, educators, managers, social workers, artists, medical practitioners, politicians, etc. The work being unique in its way because it brings together under the "umbrella" of a humanistic approach the most important social & human sciences and practices, it is, of course, also addressed to readers interested in such a perspective.

Humanism and Platonism in the Italian Renaissance

The vast majority of intellectual, religious, and national developments in modern Judaism revolve around the central idea of "Jewish culture." This book is the first synoptic view of these developments that organizes and relates them from this vantage point. The first Jewish modernization movements perceived culture as the defining trait of the outside alien social environment to which Jewry had to adapt. To be "cultured" was to be modern-European, as opposed to medieval-ghetto-Jewish. In short order, however, the Jewish religious legacy was redefined retrospectively as a historical "culture," with fateful consequences for the conception of Judaism as a human and not only a divinely mandated regime. The conception of Judaism-as-culture took two main forms: an integrative, vernacular Jewish culture that developed in tandem with the integration of Jews into the various nations of western-central Europe and America, and a national Hebrew culture which, though open to the inputs of modern European society, sought to develop a revitalized Jewish national identity that ultimately found expression in the revival of the Jewish homeland and the State of Israel. This is a large, complex story in which the author describes the contributions of Mendelssohn, Wessely, Krochmal, Zunz, the mainstream Zionist thinkers (especially Ahad Ha-Am, Bialik, and A.D. Gordon), Kook, Kaplan, and Dubnow to the formulation of the various versions of the modern Jewish cultural ideal.
