The Feedback Loop

Quantum Hughes' life is stuck on repeat. While trapped in The LOOP, he struggles to free himself from a glitch that forces him to re-live the same day over and over.

Reapers and Repercussions

The fantasy-driven fourth installment in The Feedback Loop series! Things heat up in Tritania as Quantum Hughes and the Dream Team continue their search for Strata Godsick's son both in the real world and the Proxima Galaxy. An attack in the real world throws a wrench into their plans, as does an event and a key decision that may change the team forever. Expect giants, expect dragons, expect Quantum being as maverick as ever, expect a few twists and surprises as the Dream Team's membership grows by one and Quantum is finally able to use his favorite Loop weapons in Tritania. LitRPG action, cyberpunk, humor, science fantasy -- *Reapers and Repercussions* turns the Feedback Loop Series up a notch, delivering the most epic book thus far.

Feedback Loop

Inmate Stan Robinson is serving a life sentence without parole when he is approached by two government agents. They offer him his freedom in exchange for traveling back in time. The only problem is that the process has not been perfected. If successful, Stan would be trapped in the 1920s and required to carry out an assassination. Stan must decide if he is willing to risk his life on an unproven technology.

Life Is a Beautiful Thing

Hallucinatory cyberpunk. Meta sci-fi satire. The future is futile. 2083. A pollute-addicted therapist named Meme battles his way through his mind and LA at the seat of his pants alongside a beautiful android escort with a surprising secret. With the Federal Corporate Government hunting him, will he make it to safety in time? The hunt is on. Part techno thriller, part literary science fiction, *Life is a Beautiful Thing* is a series that questions what it means to be human, a book that offers a shocking glimpse into a dystopian future fueled by corporate deceit, bawdy sex and high-end intoxicants.

The Land of the Undying

Max finds himself in a time loop. Any kind of death annuls everything except his present knowledge and returns him to the past. This is a good way to test all sorts of things. That is, it would be, if not for one little thing... This loop has real lords and it's unlikely that they'll be happy to hear about an uninvited guest. And that isn't his only problem -- all of his memories of the last year have simply disappeared, but the world around him has changed in the meantime. Earth has been seized by the Velly clan and is now part of their Star Empire. Max has also discovered his gift. He's a psychic. However, his power isn't that big of a deal. Everyone can be a level one "battery." To do anything else, however, you need to have some talent, money, and connections, which only complicates things further. A whole new world, great opportunities, and lots of chances to get into trouble... Welcome to the Last Time Loop!

The Last Time Loop: Max of the Rebellion (Volume 1)

Sterling Monedero is not your typical necromancer. Even with the game system and mancer class forced onto him by the alien monoliths known as Godwalkers, Sterling just wants to farm his peppers in peace and live out the rest of his troubled existence in quiet. He did that whole 'trying to get revenge on the Godwalkers' thing five years ago, and failed miserably. But when the Godwalkers show back up for their own bit of revenge - and Killbilly bandits appear trying to impose a pepper tax - the tough-as-bones loner decides enough is enough. It's time to reassemble the team, kick some much needed ass, and put an end to the alien threat once and for all. Or die trying. Set in a richly imagined post-apocalyptic

New Mexico, this gritty LitRPG western features superpowered mancercs, terrifying animal-skeletal hybrids, an intricate game system, and a big dose of Southwestern mysticism. Inspired by *The Dark Tower*, *Old Man Logan*, and *Red Dead Redemption*, best-selling author Harmon Cooper takes you on a high-octane thrill ride through desolate landscapes and dystopian urban decay, on an adventure that doesn't know how to back down from a challenge.

Cowboy Necromancer

Luka Kane has been inside hi-tech prison the Loop for over two years. A death sentence is hanging over his head but his day-to-day routine is mind-numbingly repetitive. Then everything changes. Soon, Luka has to face a new reality: breaking out of the Loop might be his only chance to save himself - and the world ...

The Loop

The action-packed third book in the Feedback Loop Series. Quantum Hughes and the Dream Team dive to Tritania, an MMORPG fantasy Proxima World filled with dragons, orcs, floating continents, and magic. With the clock ticking, and his problems in the real world growing, including his legal troubles and his blossoming relationship with Frances Euphoria, Quantum is forced to make a decision that could change his life forever. The stakes are higher than they've ever been. Steam, The Loop, Tritania and the real world - four worlds collide in the third installment of The Feedback Loop Series.

High Fantasy

Zorian Kazinski has all the time in the world to get stronger, and he plans on taking full advantage of it. A teenage mage of humble birth and slightly above-average skill, Zorian is attending his third year of education at Cyoria's magical academy. A driven and quiet young man, he is consumed by a desire to ensure his own future and free himself of the influence of his family, resenting the Kazinskis for favoring his brothers over him. Consequently, Zorian has no time for pointless distractions, much less other people's problems. As it happens, though, time is something he is about to get plenty of. On the eve of Cyoria's annual summer festival, Zorian is murdered, then abruptly brought back to the beginning of the month, just before he was about to take the train to school. Finding himself trapped in a time loop with no clear end or exit, he will have to look both within and without to unravel the mystery set before him. He does have to unravel it, too, because the loop clearly wasn't made for his sake, and in a world of magic even a time traveler isn't safe from those who wish him ill. Fortunately for Zorian, repetition is the mother of learning...

Mother of Learning: ARC 1

The basis for the new Amazon Prime Original Series! Perfect for fans of *E.T.* and *Stranger Things*—the first narrative artbook from acclaimed author and artist Simon Stålenhag about a fictionalized suburban town in the 1980s inhabited by fantastic machines and strange, imaginative beasts. In 1954, the Swedish government ordered the construction of the world's largest particle accelerator. The facility was complete in 1969, located deep below the pastoral countryside of Mäläröarna. The local population called this marvel of technology The Loop. These are its strange tales. From the same author who wrote the imaginative artbook *The Electric State*, this “haunting,” (The Verge) “sophisticated sci-fi” (The Nerdist) follows the bizarre stories from otherworldly creatures and is a page-turner you won't be able to put down.

Tales From the Loop

The Light strives to purify the kingdom of Starevos from evil... and only Dungeon Lord Edward Wright stands in their way. The Heroes of the Militant Church, led by Inquisitor Gallio, scour the forest in search of the Haunt, while Ed desperately attempts to uncover the secret behind the Heroes' origin. Can Ed and his friends defeat the Inquisition and secure their own place in the world, or are they destined to become the monsters of their own tale? All over Ivalis, the portents announce blood and fire as the ancient traditions return and abominable creatures long thought forgotten stir in their tombs. Both the Dark and the Light loom hungrily over the Haunt, and only one thing is certain... If pushed, Dungeon Lord Edward Wright will fight against them all.

Dungeon Lord

Secret of the Old Ones is a deep dive VR game, the likes of which the world had never seen. Trent Noguero, a hardcore gamer, has been playing for a year and is about to get his big break. He is about to catapult himself into the ranks of the most powerful players in the world. However, power comes with a price, and celebrity creates enemies. Trent has the keys to massive success, but he also accidentally painted a target on his back... both in, and out of the game.

Luck Stat Strategy

What would you give to be a dragon rider? Before being conscripted to fight in the Total War, Private Hector Park had a shattered family, a collection of old videogames, and a promising career as a motorcycle stuntman. Now, he is dying from a virus threatening humankind with extinction. He has three days to live. When Hector's brother contacts him after years of hostile silence, Hector goes to try and make peace. But his brother has an offer even more unbelievable than reconciliation: the chance to cheat death by joining him in Archemi, a full-immersion fantasy VR-RPG videogame. Determined to forge a life worth living, Hector undergoes the experimental upload process and chooses the difficult path of the Dragon Knight. To achieve his dream, he must prove himself worthy of imprinting a dragon, a being with whom he will share a telepathic bond more intimate than any human relationship. But at what cost? Join Hector on his first steps towards mastering the skies in Dragon Seed, the first book in the Archemi Online LitRPG series!

Dragon Seed

After being betrayed and cursed by an extremely rare spell, Oren, a powerful and influential player, finds himself as a 1st level Goblin! Without even a fraction of his previous power, he vows to pull through and have revenge on those who betrayed him. His thorough knowledge of the game's world and his unique ability to immerse himself entirely are his only advantages. But first, he must figure out how to survive long enough playing what is basically a low-level fodder monster!

Life Reset

Two powerful mages. One steeped in privilege, the other bound by a moral code. Their world is thrown into chaos by the end of magic. Rosheen Katell is a wandering mage and, with Anzu her griffin, she's worked hard to build a reputation as a trustworthy truth seer. She never lies, never kills. Sander Bree is a royal mage. He lives an easy life advising the king on matters of court and politics, but dreams of an apocalypse are giving him massive anxiety attacks. Very soon, their magic will be gone. A cataclysmic event will change their lives and world forever. Sander must keep a promise to save the life of a young girl that would have been difficult enough with magic, but is a suicide mission without it. Rosheen is forced to side with a murderous warlord, and her once-solid principles are tested and found wanting. Both will be set against one another in a war unlike anything the world has seen before, in this sweeping fantasy of magic's ending. A stand alone fantasy novel for readers of Joe Abercrombie and Scott Lynch

** "The sort of book you give to people who say "prove to me why I should read fantasy"... A simply terrific read." – James Barclay, author of the Legends of the Raven series "Mark Stay paints his world and characters with deft, confident and dark strokes." – RJ Barker, author of the Wounded Kingdom Trilogy "The sort of book you give to people who say "prove to me why I should read fantasy"... A simply terrific read." – James Barclay, author of the Legends of the Raven series "Takes the tropes of high fantasy and uses them to wield an original, compelling and intricately plotted story... exactly the kind of fantasy that we need more of." – Gavin G. Smith, author of the Veteran series "Stay does for George RR Martin what Pratchett did for Tolkien." - Julian Barr, author of The Way Home "The End of Magic has one of the most compelling narratives as well as a strong authorial voice." Amazon UK Reviewer "Like Game of Thrones without the boobs!" - Amazon UK Reviewer "This was a blast, hints of Joe Abercrombie's books and his dark humour, but presented in a world in chaos." - Amazon UK Reviewer "The most fun I've had reading a fantasy novel since Red Country by Joe Abercrombie." - Amazon UK Reviewer "This book grabbed me in the first couple of pages... Couldn't stop. Really want more!" - Amazon UK Reviewer "I may never forgive the author for that (spoiler) death scene... *When you read it you'll understand* Rarely have I shed tears so early on in a book." - Amazon UK Reviewer "A fun and intense read." - Amazon UK Reviewer "A fresh take on the perennial story of the golden catastrophe/age. The author has created a completely authentic fantasy world." - Amazon UK Reviewer "Normal fantasy conventions are distorted, magic is not dependable and there are evil, bloodthirsty villains at work." - Amazon UK Reviewer "The humour in the writing offset the blood and gore that featured throughout." - Amazon UK Reviewer "The author effortlessly creates a world that

is both wonderfully fantastical and at the same time strangely real." - Amazon UK Reviewer "Gripping and entertaining." - Amazon UK Reviewer

The Greystone Chronicles

An ancient kingdom falls to tyranny. A dark empire rises in its place, while the old gods stir... After kicking an unholy amount of undead ass, Hector and his dragon have new goal: to revive the war-torn province of Myzsno, preferably before their nemesis arrives with his army and a legion of Drachan, demonic dragons that would make even H.P Lovecraft scream in terror. If Hector is to triumph against enemies like these, he needs more than an army. He needs the Warsingers, god-like constructs built to fight and kill the Drachan. But first, he must break his girlfriend out of prison: a woman who could be the key to the Warsingers' 5000-year old mystery.

The End of Magic

There were things lurking in the streets of New York City that your average citizen had no idea about. Shifters, giants, hungry beasts, the undead, creatures of legend, flying terrors - you name it, New York City had it. Through the Monster Hunt App, I became the Alpha of two powerful Huntresses: one a half-dragon female fond of combat and banter, the other a cute warrior fond of reading spell books and wielding two blades. Our goal? Hunt these mythological creatures in the parks, rooftops, and back alleys of New York City; build a fighting party to compete in brawls and tournaments in the city and beyond; earn money; and try our damndest not to get arrested.

Warsinger

Having survived the first wave of invading players, Oren now seeks to strengthen his clan. With the Breeder's Den destroyed and most of Goblin's Gorge's resources devoted to rebuilding, his best hope lies in creating an army of golems. But for that, he needs Viridium, a rare metal that can only be obtained from hobgoblin towns, where Oren and his clan of goblins are viewed as nothing more than potential slaves. To make his way in the game, and to defeat his former guild, Oren's ingenuity alone will not be enough. He will need to conquer his deepest fears and tap into his inner monster.

Monster Hunt NYC

The Onlivik Spores have been defeated, the dungeon tamed but at great cost. John and his friends are reeling from the losses, but the countdown to full integration to the System continues. Threatened by System-integrated races and new, more powerful monsters, John will need to get creative if he and the city are to survive. The Cost of Survival is Book 3 of the System Apocalypse, a LitRPG / GameLit Apocalypse book that combines modern day life, science fiction and fantasy elements along with game mechanics.

Life Reset: Hobnobbing

Despite his youth, Declan Idrys knows of the evils of the world. He knows of the bastards and brigands who plague the King's lands, of the monsters skulking in the wooded depths of the realm. Together with his companion, Ryn - a beast of rather peculiar talent - he has spent the last decade of his life beneath the bloody banners of a half-dozen mercenary guilds, hunting precisely such festering wickedness within the borders of Viridian. Unfortunately, fate is quick to pull on the leash of its favorite children. When one particularly troubling contract goes sideways, Declan and Ryn find themselves thrust into a war thought legend and long-ended, a conflict so old it is synonymous with a time in which dragons still ruled the western skies. Now, as dead men rise from their graves and the terrible beasts of the northern ranges descend into the kingdom with an appetite for savagery and flesh, Declan is faced with a profane choice. He can turn, can flee an ancient rising horror that would see the realms of man left as shattered death and wind-blown ash. Or, Declan can face this mounting threat, can come to terms with the fact that his oldest friend might just be more than he appears, and learn to wield an ageless power all his own. Centuries pass, after all, but the Blood of Kings does not fade...

Cost of Survival

Perfect for fans of James Dashner's The Maze Runner, Feedback is the heart-stopping sequel to Variant—which Pittacus Lore, author of I Am Number Four, praised as "an intense journey with some of the most shocking twists and turns I've ever read." Benson Fisher escaped from Maxfield Academy's

deadly rules and brutal gangs. He thought that the worst was over. But now Benson is trapped in a different kind of prison—a town filled with familiar faces. Classmates from Maxfield who Benson had seen die. Friends he was afraid he had killed. They are all pawns in the school's twisted experiment, held captive and controlled by an unseen force. And while Benson struggles to figure out who, if anyone, can be trusted, he discovers that Maxfield Academy's plans are darker than anything he imagined—and they may be impossible to stop.
