Trapped in a world where magic is powerful and dreams are real, Cole continues his quest in book three of this New York Times bestselling "fanciful, action-packed adventure" series (Publishers Weekly, starred review), from the author of the *Fablehaven* and *Beyonders* series. Cole Randolph still can't believe the way his life has been turned inside out. Stuck in a strange land far from home, he found his friend Dalton and has survived the first two kingdoms of the Outskirts. But none of that has prepared him for the magnetic highways and robotic bounty hunters of Zeropolis. Ruled by Abram Trench, the one Grand Shaper who stayed loyal to the evil High King, the government of Zeropolis uses advanced technologies to keep tight control. Luckily, the resistance in Zeropolis is anchored by the Crystal Keepers—a group of young rebels with unique weapons. On the run from the High King's secret police, Cole and Dalton venture to find more of their lost friends—and help their new friend, Mira, locate her sister Constance. But as their enemies ruthlessly dismantle the resistance, time is running out for Cole to uncover the secrets behind the Zeropolitan government and unravel the mystery of who helped the High King steal his daughters' powers. Will Cole be able to fix what has gone awry with the magic in *The Outskirts*, or will he be stranded forever in a world between reality and imagination?

#### Fablehaven. *I cavalieri dell'alba*

Un nouveau malheur s'est abattu sur Fablehaven, incroyable refuge d'animaux fantastiques. Les brins-de-lutins, de minuscules créatures pacifiques, se montrent soudainement belliqueux et hostiles. Voilà qui semble bien impossible pour Stan Sorenson, le gardien, pour ce peuple sans problème jusqu'ici. Et puis, ce sont les fées qui se transforment en êtres maléfiques. Pas en mutards, ces fées déchues, elles restent les mêmes, mais sont empreintes d'ombre. Le pire, c'est que le fléau semble s'étendre à tout le sanctuaire, n'épargnant pas les humains. Stan ignore la provenance de cette nouvelle menace ni comment l'éradiquer. Fablehaven plonge de plus en plus dans le chaos, jamais l'équilibre du sanctuaire n'a été si menacé. Pendant ce temps, Kendra, 14 ans, est à Atlanta pour être intronisée Chevalier de l'Aube. Elle accepte de participer à une mission périlleuse, à la recherche d'un nouvel artefact dans la réserve secrète de Mesa Perdue en Arizona. Elle espère découvrir les traîtres au service de la Société de l'Étoile du Soir. Quant à son frère Seth, 12 ans, désobéissant impénitent qui s'assagit un tant soit peu, c'est une nouvelle aventure qui commence. Il mène l'enquête à sa façon instinctive, lui qui se sait désormais immunisé contre la peur magique.

Edgier than other plague Wars novels, Skull's Shadows is a post-apocalyptic thriller meant for mature readers due to language, violence and adult situations. It provides another view of the period following Infection Day and fills in more of Skull's story before he becomes a key player in the future salvation of humanity.
