### Sexuality, Eroticism, and Gender in French and Francophone Literature

This study explores the diverse representations of sexuality, eroticism, and gender as expressed in French and Francophone literary thought – both past and present. From Françoise de Graffigny's epistolary "refusal" of eroticism – to the challenge of nineteenth-century notions of rape in the novels of Emile Zola, Victor Hugo, and Eugène Sue – to desire and eroticism as social taboo in the surrealist works of Georges Bataille and Luis Buñuel – its historical focus demonstrates that issues of sexuality, eroticism, and gender existed at the heart of France's literary tradition long before they became a staple in its universities. Taking a more contemporary view, it examines the notion of *écriture féminine* in such authors as Monique Wittig, Anne F. Garréta, Nina Bouraoui, Assia Djebar, and Luce Irigaray, and also challenges accusations of misogyny in the works of Michel Houellebecq. While glimpsing the evolution of, challenges to, and conceptions regarding sexuality, eroticism, and gender, each chapter's author focuses on language as both the obstacle and catalyst for change. For example, feminist strategies to avoid linguistic gender markers that subvert the phallogocentric paradigm, literary portrayals of rape as a means to affect French penal code, and use of the female body as language demonstrate that these notions are not only shaped by language but that language represents the key to deconstructing and redefining them. Whether picking this up to read about familiar authors such as Hugo and Djebar or discovering Graffigny and Houellebecq for the first time, each chapter promises to shed new light on its subject matter in regards to sexuality, eroticism, and/or gender.

### On Spoken French

This scholarly edition invites us to reconsider our assumptions about the French language, by showcasing the oeuvre of one of the pioneers of diachronic Spoken French corpus linguistics, William J. Ashby, and the ground-breaking findings to come out of his influential Tours corpora (1976 & 1995), including two real-time studies appearing for the first time in English translation. To help readers visualize just how radically different the morphosyntax, morphophonology, and semantics of Spoken French are from French-on-the-page, the editor has developed a glossing framework, designed to capture the systemic, radically-prefixal morphology of Spoken French and the variability of change-in-progress. The model, presented here and used to gloss the examples from the Tours corpus, is also suitable for

corpus-tagging. The volume is organized into sections preceded by an Editor's note and followed by suggestions for further reading, and closes with an appendix of French corpora. This scholarly edition was written for advanced undergraduates, graduate students, and scholars in the field.

#### Gender, Space and Illicit Economies in Eighteenth-Century Europe

This book seeks to contribute a multi-dimensional, multi-layered and gendered approach to the illicit economy in the historiography of early modern Europe. Using original source material from several countries, this volume concentrates on a border and transnational area—approximately the Lyon-Geneva-Turin triangle—located at the heart of European trade. It focuses on three products—salt, cotton and silk—all of which fuelled the black market between the last decades of the seventeenth century and the French Revolution. This volume offers an original contribution to wider studies of smuggling, illicit markets and women's economic roles by taking into account the economic life of remote mountain communities and industrious cities. Showing that irregular practices were a structural characteristic of early modern economies, it provides insight into the opportunities offered to women in a highly flexible economy where licit and illicit activities were intermingled in a very complex way. This research monograph is aimed at a historical audience and constitutes a useful resource for students and scholars interested in gender history, social and economic history, urban history and French studies.

Gender politics exist inevitably in all Islamist movements that expect women to assume the burden of a largely male-defined tradition. Even in secular political movements in the Muslim world - notably those anti-colonial national liberation movements where women were actively involved- women have experiences since independence a general reversal of the gains made. This collection, written by women from the countries concerned, explores the gender dynamics of a variety of political movements with very different trajectories to reveal how nationalism, revolution and Islamization are all gendered processes. The authors explore women's experiences in the Algerian national liberation movement and more recently the fundamentalist FIS; similarly their involvement in the struggle to construct a Bengali national identity and independent Bangladeshi state; the events leading to the overthrow of the Shah and subsequent Islamization of Iran; revolution and civil war in Afghanistan; and the Palestinian Intifada. This book argues that in periods of rapid political change, women in Muslim societies are in reality central to efforts to construct a national identity.

#### Gender and National Identity

This study explores the complex interrelationships that exist between translation, gender and race. It focuses on anti-slavery writing by French women during the revolutionary period, when a number of them spoke out against the oppression of slaves and women."

#### Power and Gender in Renaissance Spain

France and Women, 1789-1914 is the first book to offer an authoritative account of women's history throughout the nineteenth century. James McMillan, author of the seminal work *Housewife or Harlot*, offers a major reinterpretation of the French past in relation to gender throughout these tumultuous decades of revolution and war. This book provides a challenging discussion of the factors which made French political culture so profoundly sexist and in particular, it shows that many of the myths about progress and emancipation associated with modernisation and the coming of mass politics do not stand up to close scrutiny. It also reveals the conservative nature of the republican left and of the ingrained belief throughout french society that women should remain within the domestic sphere. James McMillan

considers the role played by French men and women in the politics, culture and society of their country throughout the 1800s.

### Translating Slavery

This is a study of the Maquis in southern France, the Resisters who took to the woods and hills in the struggle against the German Occupation in the Second World War. H. R. Kedward's detailed and perceptive account explores what participation in the Maquis meant for those involved both at the time and subsequently. He examines the motivations of the maquisards and how the circumstances of occupation and resistance affected the ways of life of rural communities in the south of France. This is a rich and original book, which achieves a fruitful integration of extensive archival research and oral history. Professor Kedward's scholarly and readable history allows the voices of individuals to be heard, and offers us important insights into the nature of community and regional tradition. From the many fascinating case-studies, fully supplemented by detailed maps, emerge a sense of place, a clearer understanding of the maquisard, and an unsentimental assessment of the place of the Maquis in French history. -

### Le dictionnaire royal

A major new history of how democracy became the dominant political force in Europe in the second half of the twentieth century What happened in the years following World War II to create a democratic revolution in the western half of Europe? In *Western Europe's Democratic Age*, Martin Conway provides an innovative new account of how a stable, durable, and remarkably uniform model of parliamentary democracy emerged in Western Europe—and how this democratic ascendancy held fast until the latter decades of the twentieth century. Drawing on a wide range of sources, Conway describes how Western Europe's postwar democratic order was built by elite, intellectual, and popular forces. Much more than the consequence of the defeat of fascism and the rejection of Communism, this democratic order rested on universal male and female suffrage, but also on new forms of state authority and new political forces—primarily Christian and social democratic—that espoused democratic values. Above all, it gained the support of the people, for whom democracy provided a new model of citizenship that reflected the aspirations of a more prosperous society. This democratic order did not, however, endure. Its hierarchies of class, gender, and race, which initially gave it its strength, as well as the strains of decolonization and social change, led to an explosion of demands for greater democratic freedoms in the 1960s, and to the much more contested democratic politics of Europe in the late twentieth century. *Western Europe's Democratic Age* is a compelling history that sheds new light not only on the past of European democracy but also on the unresolved question of its future.

### France and Women, 1789-1914

Within the framework of organizational behavior and organizational psychology, organizational climate and culture conceptualize how employees experience their work settings. Thus, organizational climate refers to the shared perceptions and meaning attributed to policies, practices, and procedures experienced by employees and the behaviors they observe that are rewarded, supported, and expected. On the other hand, organizational culture may be defined as the collection of values, expectations, and practices that guide and inform the actions of all team members. Climate offers an approach to the tangibles on which managers can focus to generate the behaviors they require for effectiveness, and culture offers the intangibles that likely accrue to produce the deeper psychology of people in a setting. These two concepts complement each other and can be mutually useful in practice.

## In Search of the Maquis : Rural Resistance in Southern France 1942-1944

In the wake of new interest in alchemy as more significant than a bizarre aberration in rational Western European culture, this collection examines both alchemical and medical discourses in the larger context of early modern Europe. How do early scientific discourses infiltrate other cultural domains such as literature, philosophy, court life, and the conduct of households? How do these new contexts deflect scientific pursuits into new directions, and allow a larger participation in the elaboration of scientific methods and perspectives? Might there have been a scientific subculture, particularly surrounding alchemy, which allowed women to participate in scientific pursuits long before they were admitted in an investigative capacity into official academic settings? This volume poses those questions, as a starting point for a broader discussion of scientific subcultures and their relationship to the restructuring and questioning of gender roles.

## Western Europe's Democratic Age

In today's globalised world, it is increasingly important to understand the otherness of different societies and their beliefs, histories and practices. This book focuses on a burning cultural issue: how concepts and constructions of gender and sexuality impact upon health, medicine and healthcare. Starting from the premise that health is neither a universal nor a unitary concept, it offers a series of interdisciplinary analyses of what sickness and well-being have been, are and can be. The originality of this book is its cross-cultural and trans-historical approach. Bringing together specially commissioned work by both major critical voices and young scholars in fields ranging from anthropology and art history to philosophy, political science and sociology, this volume challenges many traditional assumptions about gender, medicine and health-care. Issues addressed include: the politics and realities of female genital mutilation; sex-work and migration; the portrayal of mothering in contemporary African writing; the representation of AIDS in literature, photography and the media; the place of gender in ancient Egyptian health papyri; the dramatisation of morality and sexual over-indulgence in Thai literature; the relationship between myths of menstruation and power in early modern England; the role of anger in traditional Chinese medicine; and the ways in which both disease and sexual identities were redefined by cholera in the nineteenth century. The wide-ranging Introduction provides a historical and theoretical framework for what is defined here as Cultural Medicine, whilst fifteen original essays demonstrate from different perspectives that health is not merely a physiological and medical issue, but also a cultural and ethical one. An invaluable research and study resource, this book is written in a clear and accessible style and will be of interest to the general reader as well as to students of all levels, to teachers of a wide range of disciplines, and to specialist researchers of cultural studies and of medicine.

## Organizational Culture and Climate: New Perspectives and Challenges

Cross-dressing author, envoy, soldier and spy Charles d'Eon de Beaumont's unusual career fascinated his contemporaries and continues to attract historians, novelists, playwrights, filmmakers, image makers, cultural theorists and those concerned with manifestations of the extraordinary. D'Eon's significance as a historical figure was already being debated more than 45 years before his death. Not surprisingly, such sensational material has attracted the attention of enthusiasts, scholars and literateurs to 'the strange case of the chevalier d'Eon'. He has also attracted the attention of psychologists and sexologists, and for most of the last century his gender transformation has been viewed through a Freudian lens. His cross-dressing, it was usually assumed, must have a psychosexual explanation. Until the second half of the twentieth century the terms 'Eonist' and 'Eonism' were the standard English words for transvestites and transvestism respectively, but 'Eonism' was also, thanks to Havelock Ellis, widely regarded as a psychological condition or compulsion. However, in the mid-twentieth century, new ideas about gender-identity disorders led to d'Eon being redefined not as a transvestite, but a transsexual - a person who considers their sex to have been 'misassigned'. The essays in this collection contribute to d'Eon's rehabilitation as a figure worthy of scholarly attention and display a variety of disciplinary approaches. Drawing on new research into d'Eon's life, this volume offers original and nuanced readings of how a gender identity could come to be negotiated over time.

## The First Proofs of the Universal Catalogue of Books on Art

Based on encyclopedias, medical journals, historical, and literary sources, this collection of interdisciplinary essays focuses on the intersection of women, gender, and disease in England and France. Diverse critical perspectives highlight contributions women made to the scientific and medical

communities of the eighteenth century. In spite of obstacles encountered in spaces dominated by men, women became midwives, and wrote self-help manuals on women's health, hygiene, and domestic economy. Excluded from universities, they nevertheless contributed significantly to such fields as anatomy, botany, medicine, and public health. Enlightenment perspectives on the nature of the female body, childbirth, diseases specific to women, "gender," sex, "masculinity" and "femininity," adolescence, and sexual differentiation inform close readings of English and French literary texts. Treatises by Montpellier vitalists influenced intellectuals and physicians such as Nicolas Chambon, Pierre Cabanis, Jacques-Louis Moreau de la Sarthe, Jules-Joseph Virey, and Théophile de Bordeu. They impacted the exchange of letters and production of literary works by Julie de Lespinasse, Françoise de Graffigny, Nicolas Chamfort, Mary Astell, Frances Burney, Lawrence Sterne, Eliza Haywood, and Daniel Defoe. In our post-modern era, these essays raise important questions regarding women as subjects, objects, and readers of the philosophical, medical, and historical discourses that framed the project of enlightenment.

This detailed and authoritative volume changes our conceptions of 'imperial' and 'African' history. Frederick Cooper gathers a vast range of archival sources in French and English to achieve a truly comparative study of colonial policy toward the recruitment, control, and institutionalization of African labor forces from the mid 1930s, when the labor question was first posed, to the late 1950s, when decolonization was well under way. Professor Cooper explores colonial conceptions of the African worker and shows how African trade union and political leaders used the new language of social change to claim equality and a share of power. This helped to persuade European officials that the 'modern' Africa they imagined was unaffordable. Britain and France could not reshape African society. As they left the continent, the question was how they had affected the ways in which Africans could reorganize society themselves.

Little attention has been paid to Merce Rodoreda (1908-1983) as a modernist writer. This study addresses the relationship of her production with Catalan, Spanish, and European modernism. Foregrounded is Rodoreda's negotiation of the overlapping subjects of gender, class, modes of

representation, and national identities. In the first three chapters her pre-Civil War novels *Soc una dona honrada?*, *Un dia de la vida d'un home*, and *Del que hom no pot fugir* are read against key Catalan texts, particularly Eugeni d'Ors', to emphasize debates surrounding modernist aesthetics and models of Catalan national identity. The modernist preoccupation with high versus low literature is developed in *Aloma*, while *El carrer de les Camelies* reconfigures the flaneur vis-a-vis the female writer's positioning in the modernist enterprise. The modernist debt to realism and the revindication of early Catalan modernism in the 1970s are examined in *Mirall trencat*. Christine Arkinstall is a Senior Lecturer in Spanish at The University of Auckland.

In *Genius Envy*, Adrianna M. Paliyenko uncovers a forgotten history: the multiplicity and diversity of nineteenth-century French women's poetic voices. Conservative critics of the time attributed the phenomenon of genius to masculinity and dismissed the work of female authors as "feminine literature." Despite the efforts of leading thinkers, critics, and literary historians to erase women from the pages of literary history, Paliyenko shows how these female poets invigorated the debate about the origins of genius and garnered considerable recognition in their time for their creativity and bold aesthetic ideas. This fresh account of French women poets' contributions to literature probes the history of their critical reception. The result is an encounter with the texts of celebrated writers such as Marceline Desbordes-Valmore, Anaïs Ségalas, Malvina Blanchecotte, Louisa Siefert, and Louise Ackermann. Glimpses at the different stages of each poet's career show that these women explicitly challenged the notion of genius as gender specific, thus advocating for their rightful place in the canon. A prodigious contribution to studies of nineteenth-century French poetry, Paliyenko's book reexamines the reception of poetry by women within and beyond its original context. This balanced and comprehensive treatment of their work uncovers the multiple ways in which women poets sought to define their place in history.

#### Katie and Kenny Tour the Railroad

Katie and Kenny Tour the Railroad By Keith N. Corman Katie and Kenny, along with their father, are taken on a tour of the local railroad yard by an engineer with the railroad. The basis of the book is to introduce children to the role railroads play in our lives, their importance, and to stress safety around railroads and their equipment: "NO PLAYGROUND!" In today's world, the role of railroads has hardly been more important. Keith N. Corman feels it is a MUST to introduce to people why they are there, what they do, and, most importantly, how to be safety conscious around them.

#### Scalded to Death by the Steam

Scourged Souls by Keith N. Corman Scourged Souls takes place during the American Civil War; however, it is not about the war itself. Instead, it takes the reader into the lives and settings of the characters whose lives cross, for a brief few days during a horrific battle, whether directly or indirectly through relationships. It reflects on the innocence of the characters and daily life. It also enters into personal reflections and the beliefs and plans of those involved. Author Keith N. Corman's work will leave readers with a sense that personal lives in previous eras were much like our own now, and that war is harsh and leaves scars on those left behind, whether in the area of conflict or those back out of harm's way on the home front.

'I'm a HUGE fan of Alison Green's "Ask a Manager" column. This book is even better' Robert Sutton, author of *The No Asshole Rule* and *The Asshole Survival Guide* 'Ask A Manager is the book I wish I'd had in my desk drawer when I was starting out (or even, let's be honest, fifteen years in)' - Sarah Knight, New York Times bestselling author of *The Life-Changing Magic of Not Giving a F\*ck* A witty, practical guide to navigating 200 difficult professional conversations Ten years as a workplace advice columnist has taught Alison Green that people avoid awkward conversations in the office because they don't know what to say. Thankfully, Alison does. In this incredibly helpful book, she takes on the tough discussions you may need to have during your career. You'll learn what to say when: · colleagues push their work on you - then take credit for it · you accidentally trash-talk someone in an email and hit 'reply all' · you're being micromanaged - or not being managed at all · your boss seems unhappy with your work · you got too drunk at the Christmas party With sharp, sage advice and candid letters from real-life readers, *Ask a Manager* will help you successfully navigate the stormy seas of office life.

About the Book History of Kanelly, Roache, Pike, Baskas, Barry chronicles the history of Richard Baskas' paternal mother's side of the family, who were Irish, including as many family members as possible. This book started from scratch, as Richard had no idea how to get started in genealogy. He and his brother grew up in another family, and they had always wondered who was in their family and who they were related to. He has spent many years trying to find what information he could to connect all the dots. This particular version of this history is composed of many newspaper articles that were never included in other versions. Learn all about this family tree and how Richard and his family are all connected! About the Author Richard S. Baskas, Ed.D., is an Air Force partially disabled veteran who served as a firefighter and 911 dispatcher. He spent many of those years volunteering in the community and helping primary schools with their students. His only hobby is genealogy, as he has a few books published. He learned this craft from scratch but is not certified. Richard has an undergraduate degree in Biology, an MA in Teaching Science, and an Ed.D. in Adult Education. He has spent many years teaching, from military airmen to prison inmates.

With the new millennium on the horizon, Mike Mallon is a senator in Washington DC, while Nevada Jennings is looking forward to a life and family with Marion Howe. In this book, Katie and Steve Kendricks lead the Double M into the twentieth century. After Katie's death Steve is left alone to watch as their children grow to adulthood to face World War I and the consequences that tragic battle brings about. When their son, Mallon, refuses to return to the Double M after the war, the ranch becomes the responsibility of Suzanna and her husband, Clay, along with Nevada's son, Ralph, and his British war bride, Barbara. Together they work to bring prosperity to the ranch and peace between the children who grow up together in the same way as Suzanna and Ralph did a generation earlier.

"From 1850 to 1930 America witnessed a unique emigration and resettlement of at least 200,000 children and several thousand adults, primarily from the East Coast to the West. This 'placing out,' an attempt to find homes for the urban poor, was best known by the 'orphan trains' that carried the children. Holt carefully analyzes the system, initially instituted by the New York Children's Aid Society in 1853, tracking its imitators as well as the reasons for its creation and demise. She captures the children's perspective with the judicious use of oral histories, institutional records, and newspaper accounts. This well-written volume sheds new light on the multifaceted experience of children's immigration, changing concepts of welfare, and Western expansion. It is good, scholarly social history."—Library Journal

*In Search of Western Movie Sites* is a compilation of 64 articles written for the bi-monthly newsletter *Western Clippings* by Carlo Gaberscek and Kenny Stier. They are profoundly convinced of the fundamental importance of landscapes and natural exteriors in westerns. These articles are listed regionally,

starting with the Southwestern states (Arizona, New Mexico, Colorado, Utah, and Nevada), progressing to California, the Northwest, Midwest, and Southern states, followed by Canada, and finishing with Mexico. They focus on the making of both A and B-westerns in a single state or a specific area of a state, and contain selected filmographies and detailed information on the locations. They envision a vast atlas of western cinema, a map of both real and imagined places constructed by Hollywood. This book, which includes over 200 stills and photos taken on location, is a guide to thousands of western film locations.

What does it mean to design democratic cities and democratic citizens in a time of mass urbanization and volatile political transformation? *Citizen Designs: City-Making and Democracy in Northeastern Thailand* addresses this question by exploring the ways that democratic urban planning projects intersect with emerging political aspirations among squatters living in the northeastern Thai city of Khon Kaen. Based on ethnographic and historical research conducted since 2007, *Citizen Designs* describes how residents of Khon Kaen's railway squatter communities used Thailand's experiment in participatory urban planning as a means of reimagining their citizenship, remaking their communities, and acting upon their aspirations for political equality and the good life. It also shows how the Thai state used participatory planning and design to manage both situated political claims and emerging politics. Through ethnographic analysis of contentious collaborations between residents, urban activists, state planners, participatory architects, and city officials, Eli Elinoff's analysis reveals how the Khon Kaen's railway settlements became sites of contestation over political inclusion and the meaning and value of democracy as a political form in the first decades of the twenty-first century. Elinoff examines how residents embraced politics as a means of enacting their equality. This embrace inspired new debates about the meaning of good citizenship and how democracy might look and feel. The disagreements over citizenship, like those Elinoff describes in Khon Kaen, reflect the kinds of aspirations for political equality that have been fundamental to Thailand's political transformation over the last two decades, which has seen new political actors asserting themselves at the ballot box and in the streets alongside the retrenchment of military authoritarianism. *Citizen Designs* offers new conceptual and empirical insights into the lived effects of Thailand's political volatility and into the current moment of democratic ambivalence, mass urbanization, and authoritarian resurgence.

A NATIONAL BESTSELLER At the World of Wonders, Europe's most magnificent travelling circus, every moment is full of magic, and nothing is as it seems—especially for the people who put on the show. Lena Papadopoulos has never quite found her place within the circus, even as the daughter of the extraordinary headlining illusionist, Theo. Brilliant and curious, Lena yearns for the real-world magic of science and medicine, despite her father's overprotectiveness and the limitations of her wheelchair. Lena's unconventional life takes an exciting turn when she rescues Alexandre, an orphan with his own secrets and a mysterious past. Over several years, as their friendship flourishes and Alexandre trains as the illusionist's apprentice, World War II escalates around them. When Theo and Alexandre are contracted to work and perform in a model town for Jews set up by the Nazis, Lena becomes separated from everything she knows. Forced to make her own way, she must confront her doubts and dare to believe in the impossible—herself. A must-read for fans of *The Night Circus* and *Water for Elephants*, *The Circus Train* will take readers on a heart-rending and spectacular two-decade journey across Europe. When all is lost, how do you find the courage to keep moving forward?

## Double M: The Kendricks

A window into a child's experience of the Great Migration from the award-winning creators of *Before She Was Harriet* and *Finding Langston*. As she climbs aboard the New York bound Silver Meteor train, Ruth Ellen embarks upon a journey toward a new life up North-- one she can't begin to imagine. Stop by stop, the perceptive young narrator tells her journey in poems, leaving behind the cotton fields and distant Blue Ridge mountains. Each leg of the trip brings new revelations as scenes out the window of folks working in fields give way to the Delaware River, the curtain that separates the colored car is removed, and glimpses of the freedom and opportunity the family hopes to find come into view. As they travel, Ruth Ellen reads from *Narrative of the Life of Frederick Douglass*, reflecting on how her journey mirrors her own-- until finally the train arrives at its last stop, New York's Penn Station, and the family heads out into a night filled with bright lights, glimmering stars, and new possibility. James Ransome's mixed-media illustrations are full of bold color and texture, bringing Ruth Ellen's journey to life, from sprawling cotton fields to cramped train cars, the wary glances of other passengers and the dark forest through which Frederick Douglass traveled towards freedom. *Overground Railroad* is, as Lesa notes, a story "of people who were running from and running to at the same time," and it's a story that will stay with readers long after the final pages. A Junior Library Guild Selection Praise for Lesa Cline-Ransome and James Ransome's *Before She Was Harriet*, a Coretta Scott King Honor Book and winner of the Christopher Award \* "Ransome's lavishly detailed and expansive double-page spreads situate young readers in each time and place as the text takes them further into the past."--Kirkus Reviews, Starred Review \* "a powerful reminder of how all children carry within them the potential for greatness."--Publishers Weekly, Starred Review

## Orphan Trains

Filling a gap in the sound recordings of traditional Anglo-American folk music this volume covers both vocal and instrumental material from the 1920s to the 1990s. The listings have also been limited to performers native to the tradition rather than "revival" performers. The album selection is grouped into field recordings and commercial (pre-1942) recordings, with subdivisions into individual recordings or anthologies. The discography not only reflects its author's in-depth knowledge of Anglo-American folk music's historical development but charts a valuable step forward in the evaluation, as well as select listing, of available sound recordings.
