Migrating Objects

Peggy Guggenheim (1898 - 1979) challenged boundaries as a patron and collector. She is celebrated for her groundbreaking collection of European and American modern art. The volume will focus on a lesser-known but crucial episode in Guggenheim's own migratory path: her turn to the arts of Africa, Oceania, and the Americas in the 1950s and '60s. In these years, Guggenheim acquired works created by artists from cultures worldwide, including early twentieth-century sculpture from Mali, Côte d'Ivoire, and New Guinea, and ancient examples from Mexico and Peru. 'Migrating Objects' emerges from an extended period of research and discussion on this largely ignored area of Guggenheim's collection by a curatorial advisory committee, which has led to exciting findings, including the reattribution of individual works, among them the Nigerian headdress (Ago Egungun) produced by the workshop of Oniyide Adugbologe (ca. 1875-1949), which is illustrated in the catalogue.

Deliver Us

Originally published in 1963, and today considered a landmark in twentieth century Italian literature, Luigi Meneghello's *Deliver Us* is the memoir, not of an extraordinary childhood, but of the very ordinary one the author shared with most of his generation, when Italy was a rural country under the twin authorities of Church and Fascism. His boyhood begins in 1922, the year of Mussolini's March on Rome, and ends when Meneghello, 21, goes up into the hills to join the partisans. Called a romanzo—a story, although not a novel, as that term usually suggests—the book is a genre all of its own that mixes personal and collective memory, amateur ethnography, and reflections on language. Meneghello's sharp insights and narrative skill come together in an original meditation on how words, people, places, and things shape thought itself. Only loosely chronological, *Deliver Us* proceeds by themes—childhood games, Fascist symbols, religious precepts, and the rites of poverty, of death, of eros, and of love. Meneghello's ironic musings and profoundly honest recollections make an utterly unsentimental human comedy of that was the whole world to his dawning consciousness.

The Imagined Immigrant

Using original sources--such as newspaper articles, silent movies, letters, autobiographies, and interviews--Ilaria Serra depicts a large tapestry of images that accompanied mass Italian migration to the U.S. at the turn of the twentieth century. She chooses to translate the Italian concept of *immaginario* with the Latin *imago* that felicitously blends the double English translation of the word as "imagery" and "imaginary." *Imago* is a complex knot of collective representations of the immigrant subject, a

mental production that finds concrete expression; impalpable, yet real. The "imagined immigrant" walks alongside the real one in flesh and rags.

The multiplicity of the self and the inaccessibility of truth are commonplaces of contemporary thought. But in *Seeing Things Hidden* they become key features of a philosophy of history that reunites emancipatory political theory with the apocalyptic tradition. Apocalyptic is the revelation of things hidden. But what does it mean to be hidden? And why are things hidden in the first place? By gently teasing out the meanings of hiddenness, this book develops a new theory of apocalyptic and explores its relation to the writings of Kant, Hegel, Benjamin and Derrida. Exploiting affinities between the work of Lukács and recent American philosophers like Rorty and Cavell, Bull argues that the central dynamic of late modernity is the coming into hiding of the contradictory identities generated through political and social emancipation. Drawing on analytic and Continental philosophy he articulates the most ambitious philosophy of history since Francis Fukuyama's *The End of History*, presenting fresh interpretations of such icons of modernity as Hegel's master-slave dialectic, Benjamin's angel of history, Du Bois's concept of double consciousness, and Rawls's veil of ignorance.

Seeing Things Hidden

The work of Giorgio Agamben, one of the world's most important living philosophers, has been the object of much scrutiny. Yet, there is one dimension of his thought that remains unexamined by scholars: the presence of the ancient science of astrology in his writings. This book, the first of its kind, identifies the astrological elements and explains the implications of their usage by Agamben. In so doing, this study challenges us to imagine Agamben's thought in a radically new light. A critical account of the presence of astrology and related themes in Agamben's writings, ranging from the earlier works to the more recent publications, illustrates that the astrological signature constitutes a mode of philosophical archaeology that allows for an enhanced understanding of concepts that are central to his works, such as potentiality, the signature, bare life and biopolitics.

Agamben and the Signature of Astrology

A delightfully Italian mystery, with undercurrent of satire, which keeps the reader guessing. Every Thursday for three years, Signora Giulia takes the train to Milan to visit her daughter. But one Thursday she simply disappears. And the case is left in your hands. You're a born detective, but you have so many unanswered questions - how can a young, beautiful high society woman just vanish into thin air? Why does her husband - a prominent criminal lawyer and much older man - know nothing about it? And who was she really visiting during those trips to Milan? For Detective Sciancalepre, the mystery is darker and more tangled than he imagined. Shadows are lurking in the grounds behind Giulia's house. Incriminating letters are exchanging hands. And no one is who they seem. Every twist and turn takes us closer to Giulia - and further from the truth.... Piero Chiara (born in 1913) worked as a court employee until the outbreak of World War Two. When the Fascist authorities issued a warrant for his arrest in 1944 he fled to Switzerland, where his first work of literature, a collection of poetry entitled *Incantavi*, was published in 1945. After the war he returned to Italy, and became one of the most celebrated writers of the post-war period. The winner of more than a dozen literary prizes - including the 1964 Campiello and the 1979 Bancarello - he is widely read and studied in his home country, and his stories and novels have been adapted for both television and film. Piero Chiara died in 1986. *The Disappearance of Signora Giulia* is his first book to be translated into English.

Using the literary work of Filippo Tommaso Marinetti, the founder of the Italian Futurist movement and an early associate of Mussolini, the author explores the point of contact between a "progressive" aesthetic practice and a "reactionary" political ideology.

The Monody

Intellectual debates surrounding modernity, modernism and fascism continue to be active and hotly contested. In this ambitious book, renowned expert on fascism Roger Griffin analyzes Western modernity and the regimes of Mussolini and Hitler and offers a pioneering new interpretation of the links between these apparently contradictory phenomena.

The masterwork by Gentile fills a broad gap in the understanding of the origins of a major political movement of the 20th Century: fascism. This is the first detailed and definitive study of the development and initial success of fascism as it originated in Italy right after the First World War. The author traces each major influence and gives us a complete understanding of the birth of the doctrine that changed the face of Europe and found imitators of Mussolini around the world for decades.

Modernism and Fascism

This important new book considers many of the ways in which national identity was imagined, implemented and contested within Italian culture before, during and after the period of Italian unification in the mid-nineteenth century. Taking a fresh approach towards national icons cherished by both Left and Right, the collection's authors examine the complex interaction between a perceived need for national identity and the fragmented nature of the Italian peninsula. In so doing, they draw on examples from a wide range of artistic and cultural media. The book opens with an introduction which defines the case of the Italian 'Risorgimento' and places it within a large context of European and global nation-building and nationalism. Authors discuss how episodes from the distant past were used by nineteenth- and twentieth-century artists, musicians, and writers to recreate narratives of nationhood, as well as how the problem of Italian identity was before and during the Risorgimento. The question of who belonged in the new Italy, who remained outsiders, and how social and sexual differences entered into defining these groups is also addressed. The book concludes with an analysis of twentieth-century attempts to appropriate and reforge the 'spirit' of the Risorgimento, under Fascism and in our own time.

The Origins of Fascist Ideology 1918-1925

This summer's highlight from *Serpent's Tail*: the book that scandalised a nation. *One Hundred Strokes* has sold over 700 000 copies in Italy. One very hot Italian summer, a schoolgirl sits alone in her bedroom, staring at posters of Marlene Dietrich and listening to classical music. She strips before her mirror, examining her adolescent body pleasurably, yet without desire. She writes: 'I want love, diary. I want to feel my heart melt, to see the stalactites of my ice shatter and sink in the river of passion, of beauty.' The narrator searches for love but the men she meets only want sex. With the pain of unrequited love comes the excitement caused by her discovery of the sexual power she has over men (and other women). This diary of a teenage girl's sex life is a work of deceptive innocence. Influenced by Nabokov and Anais Nin, it is both erotic and literary. When the book was first published, it was assumed that this could not be the work of a teenager. In fact it is the first novel of a young writer of great literary talent. 'Remarkably self-assured... the shock waves of this schoolgirl's confession are still reverberating.' *The Times* 'This book is remarkable. With any luck it will utterly scandalize the people who still think of teenage girls as half-formed dolls in pretty boxes. A warm and sexy read.' *BelleDeJour.com* 'A wisp of a book with a wallop of an impact.' *New York Times* 'Catherine Millet can go put her clothes on. Seventeen years old, Melissa P. has become a literary phenomenon in Italy... a real literary talent in the Sicilian fabular tradition of Giovanni Verga.' *Les Echos*

Making and Remaking Italy

Published with the exhibition at the Galleria Nazionale d'Arte Moderna e Contemporanea in Rome, this book brings together history, art, and industry in a single object: the vase. The vase has been the

subject and object of a narrative in which artists and designers have portrayed, photographed, and reinvented it. It has filled roles as both an art object, with its intrinsic value, and an industrial object with the same functions and no less artistic value. Curated by Spanish designer Martí Guixé, the exhibition offers an opportunity to reflect on the relationship between artisanship, design, and contemporary art, and compare visual languages that are more similar than we may think. 00Exhibition: Galleria Nazionale d'Arte Moderna e Contemporanea, Rome, Italy (16.07.-29.09.2019).

One Hundred Strokes of the Brush Before Bed

The word conservation, when used in the context of the preservation of built heritage, implies an intrinsically complex concept that evolved over time, since it has been influenced by the perception of history throughout time. This volume emphasises why an understanding of the cultural evolution of the conservation approach must be considered a prerequisite for architects and engineers if they are to cooperate in full harmony with historic-artistic culture for the preservation of global built heritage. In particular, the volume highlights how, during the second half of the last century, the preservation process also involved engineering – the science of making practical applications of knowledge – which, for a long time, made an uncritical use of techniques and materials and devised interventions on historical heritage that were heavily invasive. The volume also devotes special attention to the problems related to seismic risk, to which Italy, Greece and Portugal are particularly prone. Problems that emerge during the crisis and reconstruction phases are dealt with in detail, as is scheduled maintenance, as this latter approach always constitutes an improvement in the performance of the monument and is the most appropriate tool for the conservation of the built heritage. Finally, the volume collects examples of building restoration with case studies of many outstanding monuments. The work will appeal to professionals and academics in the broader fields of civil engineering (both geotechnical and structural engineering), architecture, art history, the history of architecture, restoration and cultural heritage management. This book will: Provide a critical reading of the history of conservation; Discuss materials and techniques of ancient architecture; Cover seismic vulnerability and preservation of the historic integrity of the monument; Advocate an approach based on programmed maintenance; Feature numerous case histories, including St Mark's Basilica in Venice and the complex restoration of the cathedral of Notre-Dame in Paris.

This book explores the role of technology in ecological urban design and regeneration. Part I provides theoretical and methodological insights into technological approaches that offer optimum respect to existing cultural and natural environments, while offering minimum impact and carbon footprint. Parts II and III provide contextualised examples that demonstrate the use, or proposal of, sustainable technologies and solutions for regenerating parts of the urban and peri-urban. The case studies offer insights from the Mediterranean and the Middle East in a diverse range of spaces, from central urban squares, oblique cities, urban waterfronts, decaying suburbs, to peri-urban areas such as touristic waterfronts, former industrial areas, hyper-commercial areas, humid zones and parks.

Conservation and Restoration of Built Heritage

The five novels of Manuel Scorza's *La guerra silenciosa* are self-contained, yet reading them in the order of their appearance enhances an appreciation of the saga's underlying thematic development. In this final volume, the Indian struggle, which began in the first book as a single-handed revolt against the despotism of Judge Montenegro, has evolved into a fully organized insurrection against the oppression by ruthless landowners and the powerful mining company of Cerro de Pasco. This novel also depicts the culmination of the gradual shift in the Indians' psyche from a mythical interpretation of events to a more realistic worldview.

Editing as an academic mode of work has had a variable 'press' - it is often seen as just plumbing. But without editions no historian of whatever critical persuasion could operate. Texts that are not edited are effectively invisible. The advent of electronic means of text production has also raised new possibilities and new problems that need to be openly considered rather than ignored. The papers in this volume reflect those concerns, and explore the ways forward. How do the best editorial procedures of the past get transmitted to the future? A distinguished line-up of experienced editors and younger scholars actively grappling with these issues reflect on their engagement with the challenges of textual theory and editorial practice. No single solution emerges as applicable to all texts and for all editions; the individual characteristics of each text and its transmission, together with the intended audience of each edition, emerge as primary areas for consideration.

On 16 March 1978, Aldo Moro, former Italian Prime Minister, was ambushed in Rome. Within three minutes the gang killed all five members of his escort and bundled Moro into one of three getaway cars. An hour later the Red Brigades announced that Moro was in their hands; on 18 March they said he would be tried in a 'people's court of justice'. Seven weeks later Moro's body was discovered in the boot of a Renault parked in the crowded centre of Rome. In this book, Leonardo Sciasica, a master of detective fiction, untangles the real-life events of these crucial weeks and provides a unique insight into the dangerous world of Italian politics in the 1970s.

At the time of his death, Stanislavsky considered Nikolai Demidov to be 'his only student, who understands the System'. Demidov's incredibly forward-thinking processes not only continued his teacher's pioneering work, but also solved the problems of an actor's creativity that Stanislavsky never conquered. This book brings together Demidov's five volumes on actor training. Supplementary materials, including transcriptions of Demidov's classes, and notes and correspondence from the author make this the definitive collection on one of Russian theatre's most important figures.

Ceramics of the World

They envisioned a brave new world, and what they got was fascism. As vibrant as its counterparts in Paris, Munich, and Milan, the avant-garde of Florence rose on a wave of artistic, political, and social idealism that swept the world with the arrival of the twentieth century. How the movement flourished in its first heady years, only to flounder in the bloody wake of World War I, is a fascinating story, told here for the first time. It is the history of a whole generation's extraordinary promise--and equally extraordinary failure. The "decadentism" of D'Annunzio, the philosophical ideals of Croce and Gentile, the politics of Italian socialism: all these strains flowed together to buoy the emerging avant-garde in Florence. Walter Adamson shows us the young artists and writers caught up in the intellectual ferment of their time, among them the poet Giovanni Papini, the painter Ardengo Soffici, and the cultural critic Giuseppe Prezzolini. He depicts a generation rejecting provincialism, seeking spiritual freedom in Paris, and ultimately blending the modernist style found there with their own sense of toscanità

or "being Tuscan." In their journals--Leonardo, La Voce, Lacerba, and l'Italia futurista--and in their cafe life at the Giubbe Rosse, we see the avant-garde of Florence as citizens of an intellectual world peopled by the likes of Picasso, Bergson, Sorel, Unamuno, Pareto, Weininger, and William James. We witness their mounting commitment to the ideals of regenerative violence and watch their existence become increasingly frenzied as war approaches. Finally, Adamson shows us the ultimate betrayal of the movement's aspirations as its cultural politics help catapult Italy into war and prepare the way for Mussolini's rise to power.

A breathless criminal investigation against the bloody canvas of the French Revolution The Paris Commune's "bloody week" sees the climax of the savagery of the clashes between the Communards and the French Armed Forces loyal to Versailles. Amid the shrapnel and the chaos, while the entire west side of Paris is a field of ruins, a photographer fascinated by the suffering of young women takes "suggestive" photos to sell to a particular clientele. Young women begin disappearing, and when Caroline, a seamstress who volunteers at a first aid station, is counted among the missing, her fiancé Nicolas, a member of the Commune's National Guard, and Communal security officer Antoine, sets off independently in search of her. Their race against the clock to find her takes them through the shell-shocked streets of Paris, and introduces them to a cast of fascinating characters.

Assembled by Audrey Hepburn's son Luca Dotti, *Audrey in Rome* is an intimate collection of almost two hundred candid photographs of the beloved actress and much-imitated style icon during the twenty-year period she made Rome her home. A private album of rare snapshots—many never published before—of Audrey Hepburn in her everyday life as a citizen of the Eternal City, *Audrey in Rome* is a treasure for every fan of her films and her impeccable, timeless style. With an introduction by Dotti that reveals Audrey's private side and three photo-filled chapters organized by decade, the book captures the actress as she strolls around the city alone and with family and friends, walks her Yorkie, Mr. Famous, has breakfast in Piazza Navona, visits the local florist, and more. The book also contains set photographs of the films she made during her Rome years (*Roman Holiday*, *War and Peace*, *The Nun's Story*, *Breakfast at Tiffany's*) and of the famous clothes and accessories that helped create her iconic look. Irresistible as the actress herself, *Audrey in Rome* opens the door to Hepburn's personal world.
