The Outing Magazine, Vol. XLIX, No. 4, January 1907

This work provides a compelling explanation of something that has bedeviled a number of feminist scholars: Why did popular authors like Edna Ferber continue to write conventional fiction while living lives that were far from conventional? Amanda J. Zink argues that white writers like Ferber and Willa Cather avoided the subject of their own domestic labor by writing about the performance of domestic labor by "others," showing that American print culture, both in novels and through advertisements, moved away from portraying women as angels in the house and instead sought to persuade other women to be angels in their houses. Zink further explores lesser-known works such as Mexican American cookbooks and essays in Indian boarding school magazines to show how women writers "dialoging domesticity" exemplify the cross-cultural encounters between "colonial domesticity" and "sovereign domesticity." By situating these interpretations of literature within their historical contexts, Zink shows how these writers championed and challenged the ideology of domesticity.

Robert M. Keating's story is America's story. Born in Springfield, Massachusetts, in 1862 to poor Irish immigrants, he was just 13 when his father died suddenly. A precocious boy with a knack for mechanics, Keating filed his first patent at 22, started his own bicycle company at 28, and at 32 was producing one of the most innovative bicycle lines in the world in a state-of-the-art factory. Along the way he flirted with baseball, briefly playing in the major leagues and patenting the game's rubberized home plate. In early 1901 Keating developed and marketed a ground-breaking motorcycle before either Indian or Harley-Davidson, and later successfully sued both companies for patent infringement. His company also manufactured automobiles beginning in 1898, producing both electric and gasoline powered vehicles. At the time of his death at 59, Keating held 49 patents--everything from bicycle and motorcycle designs to lunch-chairs to a modern flushing device for toilets. This book tells the story of Keating and his Keating Wheel Company, a Gilded Age story of unbridled inventiveness that encapsulates America's transformation into a society that would forever move on wheels.

General Information Regarding Mount Rainier National Park

Recipient of the Banff Mountain Book Festival's Canadian Rockies Award A book to be read and digested, then sampled, then read and dipped into often...a fine achievement for this dedicated author... Bruce Fairley, Canadian Alpine Journal HOLY SHIT WAAAAAAT A FABBBBULOUS TOME. Tami Knight, Illustrator/Mountaineer This important new book tells the story of Canada's 200-year mountaineering history. Through the use of stories and pictures, Chic Scott documents the evolution of climbing in Canada. He introduces us to the early mountain pioneers and the modern day climbing athletes; he takes us to the crags and the gyms, from the west coast to Quebec, and from the Yukon to the Rockies. But most importantly, Scott showcases Canadian climbers--the routes that challenged them, the peaks that inspired them, their insatiable desire to climb harder, to push the limits. Begin the trek through Canada's climbing history... Learn about Swiss guides hired by CPR hotels who ushered in the glory years of first ascents. Continue through to the turn of the twentieth century when British and American climbers of leisure found themselves hampered by the difficulties of travel through the Canadian wilderness. Learn about the European immigrants of the 1950s who pushed the limits on the rock walls, and the American superstars who led the search for frightening new routes on the big north faces. Be there when British expatriates pioneer an exciting new trend in world mountaineering--waterfall ice climbing. Witness the popular growth of sport climbing, both on the crags and in the gyms. Finally, enjoy the story of home-grown climbers. Initially slow to take up the challenge, both at home and overseas, they are now leaders in the climbing world.

Magazine Articles on National Parks, Reservations and Monuments

The first volume of this work, covering the period from 1741-1850, was issued in 1931 by another publisher, and is reissued now without change, under our imprint. The second volume covers the period from 1850 to 1865; the third volume, the period from 1865 to 1885. For each chronological period, Mr. Mott has provided a running history which notes the occurrence of the chief general

magazines and the developments in the field of class periodicals, as well as publishing conditions during that period, the development of circulations, advertising, payments to contributors, reader attitudes, changing formats, styles and processes of illustration, and the like. Then in a supplement to that running history, he offers historical sketches of the chief magazines which flourished in the period. These sketches extend far beyond the chronological limitations of the period. The second and third volumes present, altogether, separate sketches of seventy-six magazines, including The North American Review, The Youth's Companion, The Liberator, The Independent, Harper's Monthly, Leslie's Weekly, Harper's Weekly, The Atlantic Monthly, St. Nicholas, and Puck. The whole is an unusual mirror of American civilization.

The American Lutheran Church

This book provides a comprehensive history of the American Lutheran Church, from its origins in the early 18th century to its growth and development in the 19th and 20th centuries. The author, Samuel Simon Schmucker, was one of the most influential figures in the history of American Lutheranism, and his insights and perspectives continue to resonate today. Excerpt from The American Lutheran Church, Historically, Doctrinally, and Practically Delineated: In Several Occasional Discourses In offering this work to the public, it is proper that some of the considerations which have actuated the publishers, should be stated. The title itself is significant of the subject on which it treats. The true history, real character, present position, and distinctive features of the Lutheran Church in the world, are little known, often misunderstood, and sometimes grossly misrepresented in this country. Among the causes which may be assigned for this, we mention the want of a proper knowledge of Church History in general, and of Protestantism in particular;

non-acquaintance with the German language, and it is to be feared, denominational bigotry. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. The American Lutheran Church

The story of Lutherans in America is one of mutual influence. From the first small groups of Lutherans to arrive in the colonies, to the large immigrations to the rich heartland of a growing nation, Lutherans have influenced, and been influenced by, America. In this lively and engaging new history, Granquist brings to light not only the varied and fascinating institutions that Lutherans founded and sustained but the people that lived within them. The result is a generous, human history that tells a complete story—not only about politics and policies but also the piety and the practical experiences of the Lutheran men and women who lived and worked in the American context. Bringing the story all the way to the present day and complemented with new charts, maps, images, and sidebars, Granquist ably covers the full range of Lutheran expressions, bringing order and clarity to a complex and vibrant tradition.

This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1846 edition. Excerpt: ... CHAPTER V. The history of the Lutheran church in America from the commencement of the 19th century to the establishment of the General Synod, from 1801--1821. The occurrences related in the preceding chapter, give the friends of the church much to deplore, and also much to hope for, at the commencement of the 19th century. Among the causes of grief we consider the indifference to vital religion, prevailing in many portions of our church as the principal. Inquiring into its causes, we discover the corruption of the human heart at the bottom of all others, a heart, which, instead of seeking first the kingdom of God and its righteousness, and of believing, that then all other things shall be added unto us, seeks most selfishly first the things of this world, wealth, honor, fame, and the pleasures of life, considering those, that make for our eternal peace, objects of secondary consideration. As a subordinate cause, or as one springing from the former, we may mention the peculiar situation of the German emigrants. They chiefly consisted of the poorer classes of people. In their native country, the oppression of the wealthy and powerful on the one hand, and an overstocked population on the other, had suffered them to reap no reward of their industry and economy. Arriving in this country, and at once comprehending the advantages, which industry and economy held out to them, they would naturally bend all the energies of mind and body to the acquirement of what they supposed would place them on an equal footing with the wealthiest, and would afford them that enjoyment, which they, erroneously enough, imagined to have been in the possession of the rich, whom they had envied. Success having crowned their efforts, in which they had persevered to...

Excerpt from History of the American Lutheran Church: From Its Commencement in the Year of Our Lord 1685, to the Year 1842 When a historical work is offered to the public, the inquiry is just and equitable, are the sources, from which the information is drawn, which is given, authentic or not? And it is the duty of every author to satisfy the reader, that he is not perusing a fictitious story, but authentic facts. We therefore deem it like wise our duty, to say in a few words, from what Sources we have drawn our information. Reports and Actions of the General Convention

"Lutheranism in America is a comprehensive history of the Lutheran church and the Lutheran people in the United States. This volume ... presents the historical facts and interprets the general course of events in such a way as to prevent the reader from losing the main thread in a mass of details. At the same time this work points the way toward advanced study. Beginning with the early Lutheran church in New Netherlands, the author shows the relationship between American culture and the Lutheran Church. He carefully presents the development of this church in the light of historical perspective, showing how the church and the nation were born in America at the same time, grew up side by side and developed by similar stages of progress. Dr. Wentz also shows how the Lutheran church in America is an integral and potent part of American Christianity, and its members a typical element of the American nation."--Jacket.

The American Lutheran Church

Stepping Up to the Cold War Challenge: The Norwegian-American Lutheran Experience in 1950s Japan describes the events that led to the Evangelical Lutheran Church (ELC), an American Christian denomination, to respond to General MacArthur's call for missionaries. This Church did not initially respond, but did so in 1949 only after their missionaries had been expelled from China due to the victory of communist forces on the mainland. Because they feared Japan would also succumb to communism in less than ten years, the missionaries evaded ecumenical cooperation and social welfare projects to focus on evangelism and establishing congregations. Many of the ELC missionaries were children and grandchildren of Norwegian immigrants who had settled as farmers on the North American Great Plains. Based on interview transcripts and other primary sources, this book intimately describes the personal struggles of individuals responding to the call to be a missionary, adjusting to life in Japan, learning Japanese, raising a family, and engaging in mission work. As the Cold War threat diminished and independence movements elsewhere were ending colonialism, missionaries were compelled to change methods and attitudes. The 1950s was a time when missionaries went out much in the same manner that they did in the nineteenth century. Through the voices of the missionaries and their Japanese coworkers, the book documents how many of the traditional missionary assumptions begin to be questioned.
