Tandis que Carmélito pêche avec ses copains, Coquenpâte attrape un vieux sac de toile dans lequel se trouve un petit chat noir. Il leur raconte qu'il est né au moulin et que le meunier, superstitieux, l'a arraché à sa mère pour le jeter à la rivière. Les parents de Carmen et Carmélito proposent de l'accueillir. On a Magical Do-Nothing Day

Private Peaceful relives the life of Private Tommo Peaceful, a young First World War soldier awaiting the firing squad at dawn. During the night he looks back at his short but joyful past growing up in rural Devon: his exciting first days at school; the accident in the forest that killed his father; his adventures with Molly, the love of his life; and the battles and injustices of war that brought him to the front line. Winner of the Blue Peter Book of the Year, Private Peaceful is by the third Children's Laureate, Michael Morpurgo, award-winning author of War Horse. His inspiration came from a visit to Ypres where he was shocked to discover how many young soldiers were court-martialled and shot for cowardice during the First World War. This edition also includes introductory essays by Michael Morpurgo, Associate Director of Private Peaceful production Mark Leipacher, as well as an essay from Simon Reade, adaptor & director of this stage adaptation of Private Peaceful.

Told with humour and warmth by Giles Andreae, the author of much-loved family favourite Giraffes Can't Dance. 'A great book for sharing with your first born while your second is still in the 'tummy house' - The Times A note from the author: 'When my wife became pregnant for

the second time, I was talking to Flinn, our 2-year old son, about what was going to take place and how exciting it would be for him to have a brother or sister. I started to think about it as though I were a young child myself ... 'There's a house inside my mummy' was a phrase that just popped into my head, and from then on the book was a joy to write.'

The Tiny Book of Hugs

"A Rule Is To Break says: Go ahead and throw your best self a party! So glad it exists."—Kristin Hersh, *Throwing Muses* "After encountering the lively little anarchist in John and Jana's delightful *A Rule is To Break*, I will always remember the playful little devil with a mind of her own. A children's book on anarchy seems somehow just right: an instinctive, intuitive sense of fairness, community, and interdependence sits naturally enough with a desire for participatory democracy, self-determination, and peace and global justice."—Bill Ayers, author of *To Teach: The Journey in Comics and Fugitive Days* Simply celebrating childhood: the joy, the wonder of discovery, the spontaneity, and strong emotions. . . . Wild Child is free to do as she pleases. *A Rule Is To Break: A Child's Guide to Anarchy* follows Wild Child as she learns about just being herself and how that translates into kid autonomy. It presents the ideas of challenging societal expectations and tradition and expressing yourself freely in kid-terms that are both funny and thought provoking—it even functions as a guidebook for adults to understand what it is to be a critically thinking, creative individual. Wild Child is the role model for disobedience that is sometimes civil. John Seven and Jana Christy's previous collaboration *The Ocean Story* won *Creative Child* magazine's 2011 Creative Child Award Seal of Excellence and was shortlisted for the 2012 Green Earth Book Award.

So begins Danny and the dinosaur's wonderful adventure together! But a dinosaur is no ordinary playmate. Even the most everyday activities become extraordinary, like finding a big-enough place to hide a dinosaur in a game of hide-and-seek, and keeping him from knocking over houses with his long tail. But Danny can teach a old dinosaur new tricks. It's the most fun this dinosaur has had in a hundred million years! Originally published as An I Can Read Book over 40 years ago, this classic story is perfect for reading together. Danny's out on the town with a real live dinosaur. And whether they're eating ice cream or playing hide-and-seek, these two are having one hundred million years of fun--all in one day. Outstanding Children's Books of 1958 (NYT)

Globalization and its relation to poverty reduction and development is not well understood. The book identifies the ways in which globalization can overcome poverty or make it worse. The book defines the big historical trends, identifies main global flows - trade, finance, aid, migration, and ideas - and examines how each can contribute to undermine economic development. By considering what helps and what does not, the book presents policy recommendations to make globalization more effective as a vehicle for shared growth and prosperity. It will be of interest to students, researchers and anyone interested in the effects of globalization in today's economy and in international development issues.

THE IMPORTANT THINGS is the tale of Christopher, who lives with his mother. Christopher's mother does everything, as his father has faded from their lives. When they give away a box of his father's old things, a series of events takes place that reveal the different ways in which Christopher and his mother deal with the absent father. Peter Carnavas always been fascinated by the stories behind things, the reasons particular things are important to us. An old typewriter might not work anymore but it may have once belonged to a favourite author, or was passed down through generations in the family. The importance of things, and why they are important, is what led me to write this story. It's about remembering. It's about parents. It's about absence. It's about the joy of understanding between a mother and a son. And, most importantly, it's about slippers.

The Seduction of Modern Spain

This book, first published in 1945, is a fascinating personal account of the late U.S. Ambassador to Spain Carlton J. H. Hayes' diplomatic mission in Spain during World War II, from May 1942 to January 1945. Whilst briefly touching on Spain's internal affairs, the principal focus is firmly on American policy toward Spain during those three wartime years, and Spain's response thereto. Hayes provides the reader with a candid and factual record of this period, gleaned from firsthand eyewitness accounts and sensitive information he was privy to during his tenure. He draws in detail on excerpts from his personal diary kept for those three years, as well as various conversations, documents and correspondence from and with President Roosevelt and others. A fantastic historical record.

The Children Who Loved Books

Winner of the Independent Foreign Fiction Prize 2011 *Red April* evokes Holy Week during a cruel, bloody, and terrifying time in Peru's history, shocking for its corrosive mix of assassination, bribery, intrigue, torture, and enforced disappearance - a war between grim, ideologically driven terrorism and morally bankrupt government counterinsurgency. Mother-haunted, wife-abandoned, literature-loving, quietly eccentric Felix Chacaltana Saldivar is a hapless, by-the-book, unambitious prosecutor living in Lima. Until now he has lived a life in which nothing exceptionally good or bad has ever happened to him. But, inexplicably, he has been put in charge of a bizarre and horrible murder investigation. As it unfolds by propulsive twists and turns - full of paradoxes and surprises - Saldivar is compelled to confront what happens to a man and society when death becomes the only certainty. Remarkable for its self-assured and nimble clarity of style, *Red April* is at once riveting and profound.

Celebration in the Northwest

In this groundbreaking work, Carlo Sini, one of Italy's leading contemporary philosophers, brings American pragmatism to the Milan school of phenomenology. Appearing in English for the first time, this book explores the constitutive role of alphabetic writing in the emergence of dominant forms of knowledge in the Western world (philosophy, mathematics, science, and historiography). Taking stock of the contingent nature of what are held as logical truths, he offers an ethical framework for considering different ways of thinking about writing, focusing on possibilities involving "practice" as a basis for a renewal of theoretical philosophy. Such a framework, Sini argues, opens the door for more productive and ethical communication with non-Western cultures, and indeed for a reconsideration of forms of knowledge beyond mere writing.
