The books give advice on purchasing and otherwise acquiring a pet, feeding it nutritiously, keeping it in good health, and where applicable, grooming and training it. Each book in this large series is individually written by a specialist, and though the information is authoritative, the text is clear and straightforward, easy for every pet owner to understand.

Bengal Cats

Published in association with the RSPCA, the UK's leading animal welfare charity, this practical family guide is full of expert advice on how to choose a kitten and how best to look after it. If you already own or are planning to buy a kitten this easy-to-use introductory guide is a must. Clearly illustrated with colour photographs throughout, it covers all aspects of daily care including housing, feeding, handling, hygiene, grooming, health and first aid. Published in association with the experts at the RSPCA, this book will help you ensure that you are giving your kitten the best possible start in life.

Care for Your Kitten

Everything about purchase, care, nutrition, breeding, behavior, and training.

Siberian Huskies

Written by a qualified veterinarian, this is a complete and comprehensive guide to health care for cats and dogs, providing invaluable advice on essential aspects of care, such as diet and vaccinations, as well as a guide to holistic treatments. The first part of the book describes the main lifestyle choices every dog and cat owner makes, whether or not they are aware of them: settling in a new puppy or kitten, vaccination, neutering, diet, finding the right veterinarian, and caring for the ageing animal. The second part describes the main holistic modalities and their relevance when animals become sick. What they are, how they work, when they are useful, and how to find a practitioner. Also includes chapters on osteopathy, homeopathy, acupuncture, Bach's flower remedies, and herbal medicine. The third part of the book discusses a range of common health problems in dogs and cats, both from a conventional veterinary point of view and from an holistic perspective, and aims to help the owner understand the condition they are facing, as well as providing tips on how to supplement their veterinarian's advice and treatment.

The Complete Book of Cat and Dog Health

As a holistic veterinarian and scientist, Dr. Gary Richter helps dog and cat owners to navigate the thicket of treatment options and separate the fact from the fiction. He wants us to use what actually works, not just what Western science or alternative medicine say "should" work. This multifaceted approach to health is known as integrative medicine. Dr. Richter examines traditional medicine from many

cultures alongside modern medical techniques, describing the best of complementary care and the best of conventional veterinary medicine. Every treatment he recommends has the backing of scientific research or years of successful outcomes in his clinical practice. After explaining the treatment, he offers specific recommendations for an integrative approach to common diseases, including allergies, skin conditions, diabetes, heart disease, and cancer. A holistic approach to health includes nutrition, as it sets up the foundation for your pet's health. Dr. Richter cuts through the hype in the pet-food world and explains how to choose the best commercial foods and supplements, and even includes both raw and cooked dog- and cat-food recipes for general diet as well as to treat specific needs. He also explains how we can use the right foods and supplements to "hack" the body's processes, including the immune system.

The Ultimate Pet Health Guide

An illustrated guide to selecting and caring for a kitten, including discussions on understanding its personality, feelings and reactions to new situations."

Accident De Chasse (S03E16): En 1983 en Virginie, David Wilkey, 18 ans est tué lors d'un tragique accident de chasse. Malgré l'absence de preuves, l'enquêteur d'une compagnie d'assurance est persuadé qu'il s'agit d'un meurtre. Deux ans plus tard, un homme rencontre des agents du FBI en Caroline du nord pour leur raconter une complexe histoire de complot et de meurtre. Il déclare avoir été engagé pour tuer le meurtrier de Wilkey. Le FBI devra trouver d'autres témoins pour arrêter un homme qui n'hésite pas à tuer ses amis pour en tirer profit.

Sans Remords (S03E17): Au Minnesota en 1990, on découvre un corps dans une ruelle. Les policiers identifient la victime quelques semaines plus tard. Il s'agit d'un présumé passeur de drogues originaire de Californie. Le FBI travaille de concert avec la police locale et met au jour une organisation criminelle qui s'étend sur plusieurs États, dirigée par un narcotrafiquant sans scrupule qui contraint ses complices à garder le silence par la force et l'intimidation. Les agents devront infiltrer le groupe et le démanteler avant qu'il n'y ait d'autres victimes.

Escouade C-11 (S03E18): Au début des années 1990, des gangs terrorisent Harlem. Un garçon de 10 ans est tué lors d'une fusillade. Les inspecteurs du service de police de New York et les agents du FBI doivent cesser cette violence au plus vite. Ils forment l'escouade tactique C-11 pour démanteler les gangs, mais il leur sera difficile d'identifier, d'arrêter et de condamner les auteurs de ce meurtre.
