There is an SME operating as a supplier in the automotive industry (3,500 employees). It is desperately looking for software developers. Relying on job ads only doesn't seem to lead to expected results anymore. Engaging an executive search consultancy turns out to be too expensive. What to do?

In recent years a company had to deal with an increasing turnover among its most talented and most motivated people. Further research and discussions made clear that there is a lack of career prospects among most talented employees. At the same time key positions mainly have been filled with external candidates. What to do?
