Merchants of Death

I watch for a moment, my heart explodes. This little girl, dressed in white, her face bright as she swirls and twirls, dancing in the sunshine. 'Mummy!' she says, running towards me. I catch her, no question. 'Mummy, you're here,' she says.' And I hold her tight. Imagine you get home one day... and waiting for you on your doorstep is a gift. It is wrapped beautifully, and inside is a notebook, its pages empty. There is no message. But its sender has a story to tell. About a secret. About the little girl you once were. About everything you know about your family. The gifts keep arriving. But when tragedy strikes – leaving your beloved only daughter fighting for her life – the person who has been sending the gifts will have no choice but to come forward. And to finally tell the truth. Even if it's the very thing that will tear your family apart... A heartbreakingly beautiful novel about motherhood, loss and family secrets, for fans of Kerry Fisher, Susan Lewis and Jodi Picoult. Readers are loving What We Leave Behind: 'I am completely at a loss for words! This book is incredible from start to finish!... "Every photo, every 'ONCE' in time is also the beginning of a story starting 'once upon a time.' Every photo is the first frame of a movie."--Wim Wenders. Wim Wenders ranks among the great artistic minds of contemporary film. Over the past 30 years his films, such as Paris, Texas, and Faraway, So Close have displayed such wisdom, creativity, and sensitivity that they have transcended boundaries of nationality and language. Wenders brings the same deft touch for storytelling and the same cinematic feel to this collection of photographic essays. Once consists of short, autobiographical sketches by Wenders

paired with the photographs he has taken on his trips around the world. At once a travel diary, photo album, and series of short stories and films, *Once* gives us a unique look at the universe Wenders has created out of the hidden pieces of everyday life.
