The Entrepreneur in Youth

'This readable and modestly priced text will appeal to academics researching and teaching entrepreneurship, policy-makers, and students studying entrepreneurship at all levels in higher education, especially those studying final year specialist electives or at Master's level.' - David W. Taylor, International Journal of Entrepreneurial Behaviour and Research

Social Entrepreneurship

This contributed volume features state-of-the-art research from ten different countries on implementation, institutionalization and the future prospects of social entrepreneurship. This volume aims at bringing together research that considers the context of economy, politics and cultural issues combining with the needs of social and human development. By conceptualizing the notion of social entrepreneurship and societal entrepreneurship, this volume aims to disseminate the numerous streams of research and theory of social entrepreneurship to educators, libraries, scholars, non-profit researchers, public policy makers, practitioners, undergraduate and graduate students, and any organization or person interested in staying abreast of advances in this area. It is also an important reference book for teachers, students and faculty interested in conducting research or teaching social entrepreneurship.

Social Entrepreneurship in the Age of Atrocities

How can anyone make a difference in a world marked by genocide, civil war, refugee crises, disease epidemics? With conscience, hope, and sweat equity, Dr. Zachary Kaufman and the other contributors

to this book have offered aid, created organizations serving victims of human rights violations, and learned from set-backs and failures. Their insight into challenges of sustainable fund-raising, organizational design and management, and skepticism about young Western volunteers can inspire and instruct others who hope to address suffering and injustice through initiative, analysis, and commitment. — Martha Minow, Dean of the Faculty of Law and Jeremiah Smith, Jr. Professor of Law, Harvard Law School; Author, *Between Vengeance and Forgiveness: Facing History After Genocide and Mass Violence* "This book makes an all too rare and important point: One of the distinguishing characteristics of social entrepreneurs is the way their actions and their example pave the way for peace. Kaufman gives us multiple examples here to demonstrate that the kind of empathetic leadership exhibited by these social entrepreneurs builds an alternative to conflict and contributes to the stability and security of societies. — Dr. Diana Wells, President, Ashoka "Under the able editorship of Dr. Zachary Kaufman, an upstander in his own right, this pathbreaking book demystifies social entrepreneurship, namely, citizen-inspired initiatives that may have as much potential to overcome the challenges burdening victims of atrocities and other assaults on humankind as social media has demonstrated in revolutionizing how people communicate in the 21st Century. — The Honorable David J. Scheffer, Mayer Brown / Robert A. Helman Professor of Law and Director, Center for International Human Rights, Northwestern University School of Law; former U.S. Ambassador at Large for War Crimes Issues; Author, *All the Missing Souls: A Personal History of the War Crimes Tribunals* "The accounts of social entrepreneurs contained in this volume could well inspire a future shortlist for the Nobel Peace Prize. Zachary Kaufman has coupled impressive narratives with compelling analysis in a collection that informs observers but that will also stimulate more young people to take up the challenges of responding to atrocities. — Dr. William A. Schabas, Professor of International Law, Middlesex University (London); Author, *Genocide in International Law: The Crime of Crimes*; Commissioner, Sierra Leone Truth and Reconciliation Commission "This splendid book is more than a primer on social entrepreneurship for human rights in the developing world. It is also a compendium of searing testimony about the immense practical challenges that idealistic changemakers can overcome by dint of their unflagging energy, incandescent visions of humanity and justice, and on-the-ground skills and resourcefulness. Zachary Kaufman has performed a great public service in orchestrating this admirable volume about how hope for the future can be vindicated even under the most unpromising conditions. — Peter H. Schuck, Simeon E. Baldwin Professor Emeritus of Law, Yale Law School "At last, a compelling narrative of the recent achievements to address pressing global issues through social entrepreneurship! This book is a tribute to the author's ethical convictions and the generation of innovators that he represents. As Chairman of UNITAID, the first laboratory of innovative financing, I've seen how a small levy on airline tickets can save thousands of lives every year through market solutions. It warms me to see how young thinkers continue to innovate and act to provide global public goods. Pay attention to them! — Philippe Douste-Blazy UN Under Secretary-General in charge of Innovative Financing for Development, Chairman of UNITAID and former French minister of foreign affairs "At a time when so many reflexively look to government action as a remedy for today's ills, this valuable book demonstrates the power of social entrepreneurs to take on some of the world's great challenges. Social entrepreneurship is grounded in real-world experience. The projects this book profiles demonstrate the impact of individuals as agents of change — taking ideas and turning them into action that can help transform entire societies. — Dr. Arthur C. Brooks, President, The American Enterprise Institute; Author, *Social Entrepreneurship: A Modern Approach to Social Value Creation* "For anyone who doubted one person could change the world or just wondered how to get started, Dr. Kaufman's book is equal parts inspiration and how-to guide. He has lived and studied social entrepreneurship, and provides a serious contribution to the emerging field of social entrepreneurship, particularly as it relates to genocide and other atrocities. — The Honorable Tom Perriello, former U.S. Congressman; former Special Advisor to the Prosecutor, Special Court for Sierra Leone; Co-Founder, DarfurGenocide.org; current President & CEO, Center for American Progress Action "Social Entrepreneurship in the Age of Atrocities is a welcome contribution to the study of one of the most promising social movements in recent time, the mobilization of engaged citizens, or Upstanders, in the face of mass atrocities around the world. Zachary Kaufman incisively investigates how social entrepreneurs are taking on tough issues including conflict prevention and transitional justice, and presents practical lessons learned from the perspective of activists on the ground. — John Prendergast, Co-Founder, Enough Project, Center for American Progress; former Director for African Affairs, U.S. National Security Council; Co-Author, *Unlikely Brothers: Our Story of Adventure, Loss, and Redemption*; Co-Author, *Not on Our Watch: The Mission to End Genocide in Darfur and Beyond* "Social Entrepreneurship in the Age of Atrocities interweaves two critical movements: social entrepreneurship and human rights. Kaufman is one of the first to explore these intersections in a powerfully informative way. He and his fellow social entrepreneurs provide concrete examples of, and offer practical advice

about, the power of ordinary people to confront one of the most intractable problems: mass atrocities. Kaufman demonstrates how we can all be ñupstandersî in the face of such conflicts.Í _ Mark Hanis, Co-Founder & Board member of United to End Genocide (formerly Save Darfur / Genocide Intervention Network); Ashoka Fellow; Echoing Green Fellow ÿDr. Kaufmanís book is a huge addition to the field, and his focus [on atrocities] is spot on. Looking at social entrepreneurship through the lens offered in this book will provide the field with new insights and inspiration. Bravo!Í _ Peter Brinckerhoff, author of Smart Stewardship for Nonprofits: Making the Right Decision in Good Times and Bad and Social Entrepreneurship: The Art of Mission-Based Venture Development ÿSocial Entrepreneurship in the Age of Atrocities deftly outlines how young global peace entrepreneurs are successfully fostering smart and agile solutions to some of the worldís most intractable problems. Gone are the tired images of doves and peace signs, rightfully replaced with laptops and smart phones. This is a must read for all young leaders who strive to have real impact in their careers, as well as the old guard if they care not to be left behind by the winds of change.Í _ Cameron M. Chisholm, Founder and President, International Peace & Security Institute ÿIn an age of austerity, with governments and international organizations limited in their capacity to address atrocities, Dr. Zachary Kaufmanís book is a timely reminder of the power of social entrepreneurs to effect critical change. But this is no romantic account of the ability of inspired individuals to make a difference after mass conflict. As an insidersÍ view of entrepreneurship, this book gives a warts-and-all account of the personal, political, social, and economic challenges that must be overcome and the energy, risk-taking, and good fortune required to achieve even modest results. Highlighting the crucial work of social entrepreneurs, this collection also provides a necessary critique of the failures of governments and international bodies such as the UN to respond coherently to the challenges of post-conflict societies.Í _ Dr. Phil Clark, Lecturer in Comparative and International Politics, School of Oriental and African Studies, University of London; Co-Founder, Oxford Transitional Justice Research, University of Oxford; Author, The Gacaca Courts, Post-Genocide Justice and Reconciliation in Rwanda: Justice Without Lawyers; Co-Editor, After Genocide: Transitional Justice, Post-Conflict Reconstruction, and Reconciliation in Rwanda and Beyond ÿSocial Entrepreneurship in the Age of Atrocities is a bold work of definition and analyses. It presents both concepts and histories _ focused on individuals and groups _ in response to mass violence and atrocities. This significant study, edited by Zachary Kaufman, is a work of clarification and inspiration.Í _ Dr. Judith S. Goldstein, Founder and Executive Director, Humanity in Action ÿThis book is nothing less than an antidote against despondency. In and of itself an innovation, Dr. Zachary Kaufmanís collection of personal narratives by change agents reveals a pattern of how people are bringing light to areas where there seems to be nothing but darkness. The remarkably simple recipe of these social entrepreneurs is to take a good dose of caring, add an innovative solution, and finally knead the project through the phases of iterative testing and growth until impact is achieved. Finally we have in this book an addition to the ever-growing library of literature on human rights and atrocities that is not a call to arms or a cry of accusatory indignation, but a cheerful invitation to roll up oneís sleeves.Í _ Dr. Fernande Raine, Social Innovation Leader, Innosight; former Senior Team Member, Ashoka; former management consultant, McKinsey & Company; former Executive Director, Carr Center for Human Rights Policy, John F. Kennedy School of Government, Harvard University ÿDr. Zachary Kaufman provides powerful lessons for anyone committed to preventing atrocities, ending conflicts, building peace, and fostering systematic and sustainable positive social change. The compelling and honest first-hand accounts by leading social entrepreneurs working in diverse sectoral areas help ground the field by providing unique insight into the many opportunities, successes, and challenges encountered through the difficult task of change making. This powerful text will inspire many young people and others to take action and work hard in pursuing innovative ways to address some of the most complex, seemingly intractable problems facing the world today. This book should be required reading for anyone seeking to positively impact the world, one step at a time.Í _ Dr. Craig Zelizer, Associate Director, Conflict Resolution Program, Georgetown University; Founder, Peace and Collaborative Development Network ÿZachary Kaufmanís new book expands the term social entrepreneur to include human rights advocates _ in this instance, young people from the Global North, who have chosen to speak out, stand up, and intervene in the complex contexts of war, atrocity, and civil conflict. Kaufmanís provocative book includes case studies that will help challenge prevailing definitions of this emerging field as it explores how, where, and why social entrepreneurs are engaging with the intersection of geo-politics, international law, and social change.Í _ Kavita N. Ramdas, Executive Director, Program on Social Entrepreneurship, Stanford University; former President & CEO, Global Fund for Women Social Entrepreneurship in the Age of Atrocities provides crucial insight into social entrepreneurship from visionaries in the field as well as other experienced practitioners and renowned theorists. While this book focuses on social entrepreneurship as it relates to genocide and other atrocities, the experiences and lessons learned also apply to additional critical

social, economic, legal and political problems such as healthcare, development, education and literacy. The authors in this book address the clear need for further examination of social entrepreneurship. They discuss the challenges, obstacles and opportunities of the field and lend new insight to the concept, history and methodologies of social entrepreneurship. The book profiles case studies based on some of the most innovative and effective social enterprises addressing atrocities, including the National Vision for Sierra Leone, Asylum Access, the Kigali Public Library, Indego Africa, Generation Rwanda, Orphans Against AIDS, Americans for Informed Democracy, and Children of Abraham. *Social Entrepreneurship in the Age of Atrocities* will inform, instruct and build the community of social entrepreneurs. This unique, essential collection of first-hand accounts is an inspiring and informative addition to the evolving social entrepreneurship literature. It will be of particular interest to social entrepreneurs; students, scholars and practitioners of business, management, public policy, social policy and development studies; anyone with a philanthropic mindset; and all those who are invested in creating and maintaining a socially responsible, accountable world.

Entrepreneurship in Nebraska

Nebraska's entrepreneurs play a vital role in the state's economy. This book investigates that role and analyzes the business and economic conditions that affect start-ups in both the short and long run. Using Gallup's extensive survey findings, it reveals the attitudes of small business owners and the general public about topics such as starting a business, entrepreneurship education, economic development, and business transition and succession. Research into business conditions and attitudes in different regions of Nebraska provides an in-depth understanding of the climate for entrepreneurship. In its final chapter, the book describes what actions can be taken to maintain the state's dynamic economy to foster further growth, additional job creation, and expanded wealth and philanthropy. Through its scope and comprehensive analysis, *Entrepreneurship in Nebraska* provides a model that any state can use to advance its own economic climate.

Emerging Trends in Global Management and Information Technology

This book is a compendium of papers presented in the International Conference on Emerging Global Economic Situation: Impact on Trade and Agribusiness in India. The book covers thirty four papers covering the emerging trends in global management and information technology. This book will be very useful for all those are interested in issues related to global management and information technology.

Promoting Motivation and Learning in Contexts

The body of literature has pointed to the benefits of educational interventions in facilitating improvement in school motivation and, by implication, learning and achievement. However, it is now recognized that most extant motivation and learning enhancing intervention programs are grounded in Western motivational and learning perspectives, such as attribution, expectancy-value, implicit theories of intelligence, self-determination, and self-regulated learning theories. Further, empirical evidence for the positive impacts of these interventions seems to have primarily emerged from North American settings. The cross-cultural transferability and translatability of such educational interventions, however, are often assumed rather than critically assessed and adapted before their implementation in other cultures. In this volume, the editors invited scholars to re-assess their intervention work from a sociocultural lens. Regardless of the different theoretical perspectives and strategies they adopt in their interventions, these scholars are in unison on the importance of taking into account sociodemographic backgrounds of the students and sociocultural contexts of the interventions to optimize the benefits of such interventions. Indeed, placing culture at the heart of designing, implementing, and evaluating educational interventions could be a key not only to strengthen the effectiveness and efficacy of educational interventions, but also to ensure that students of a wider and more diverse range of educational and cultural backgrounds reap the benefits from such interventions. This volume constitutes the foundation

towards a deeper and more systematic understanding of culturally relevant and responsive educational interventions.

Senior Entrepreneurship and Aging in Modern Business

With the current upsurge of Industry 4.0, the way manufacturers assemble their products to sell in a competitive market has changed, guided by the SMART strategy. Only the most adaptable and suitable firms will be able to survive in this new business and economic world, and in this sense, the combination of (formal and informal) formation and working experience exerted by senior entrepreneurs will generate competitive advantages in the firms they work. Senior Entrepreneurship and Aging in Modern Business is an essential reference source that discusses senior entrepreneurship, its benefits to companies due to its combination of practical experience and training, and the impact technology has on it. Featuring research on topics such as human capital, value creation, and organizational success, this book is ideally designed for entrepreneurs, executives, managers, policymakers, professionals, researchers, business administrators, academicians, and students.

Progress in Entrepreneurship Education and Training

The education of future entrepreneurs shapes how we will live in the future, and proper entrepreneurship education is thus of utmost importance. Entrepreneurship educators and researchers constantly renew tools, interventions, and training programs for entrepreneurship education and adapt them to the specific needs of entrepreneurs and developments in the entrepreneurship ecosystem. This open-access book is based on this background and offers expert insights that highlight context-specificity and discuss training methods and tools that are impact-oriented. The authors represent multiple institutional and cultural backgrounds, to provide a useful resource with new ideas for the community of entrepreneurship educators, facilitators, and scholars. Based on the chapters, the editors of the volume also offer several propositions and critical insights important for the current state of entrepreneurship education and its future development. This book will be a valuable resource for entrepreneurship educators and education policymakers alike.

Academic Entrepreneurship in Asia

This timely book examines the rising phenomenon of academic entrepreneurship and technology commercialization among leading universities in Asia, by presenting in-depth analysis of thirteen leading universities from nine Asian economies, including Tokyo University in Japan, Tsinghua in China, IIT Mumbai in India, and the National University of Singapore. Written by scholars with deep institutional knowledge of the respective universities, they provide an authoritative account of the distinctive features of academic entrepreneurship at these universities and offers insights on policy implications. The comparative findings will prove highly relevant and informative for both entrepreneurship scholars and university administrators.

Educating About Social Issues in the 20th and 21st Centuries Vol 1

Educating About Social Issues in the 20th and 21st Centuries: A Critical Annotated Bibliography, is comprised of critical essays accompanied by annotated bibliographies on a host of programs, models, strategies and concerns vis-à-vis teaching and learning about social issues facing society. The primary goal of the book is to provide undergraduate and graduate students in the field of education, professors of education, and teachers with a valuable resource as they engage in research and practice in relation to teaching about social issues. In the introductory essays, authors present an overview of their respective topics (e.g., The Hunt/Metcalf Model, Science/Technology/Science, Genocide Education). In doing so, they address, among other concerns, the following: key theories, goals, objectives, and the research base. Many also provide a set of recommendations for adapting and/or strengthening a particular model, program or the study of a specific social issue. In the annotated bibliographies accompanying the essays, authors include those works that are considered classics and foundational. They also include research- and practice-oriented articles. Due to space constraints, the annotated bibliographies generally offer a mere sampling of what is available on each approach, program, model, or concern. The book is composed of twenty two chapters and addresses an eclectic array of topics, including but not limited to the following: the history of teaching and learning about social issues; George S. Counts and social issues; propaganda analysis; Harold Rugg's textbook program; Hunt and Metcalf's Reflective Thinking and Social Understanding Model; Donald Oliver, James Shaver and Fred Newmann's Public Issues Model; Massialas and Cox' Inquiry Model; the Engle/Ochoa Decisionmaking

Model; human rights education; Holocaust education; education for sustainability; economic education; global education; multicultural education; James Beane's middle level education integrated curriculum model; Science Technology Society (STS); addressing social issues in the English classroom; genocide education; interdisciplinary approaches to incorporating social issues into the curriculum; critical pedagogy; academic freedom; and teacher education.

Entrepreneurial learning for TVET institutions

The proceedings volume focuses on halal management and science topics. Issues related to business model, management, marketing, finance, food security, lifestyle, hospitality, tourism, cosmetics, personal care, legal aspects, technologies and sciences are presented in the chapters. In addition, the book also covers comprehensive areas of halalan toyyiban chains of production from raw materials, ingredients, planning, manufacturing, packaging, logistics, delivery, warehousing, marketing to consumption. Various survey results and few cases explore practical solutions to these issues of interest to academics in university settings as well as practitioners in different industries and government agencies.

Contemporary Management and Science Issues in the Halal Industry

Identities can potentially serve as powerful elements that both drive, and are shaped by, entrepreneurial actions. Entrepreneurial identity is a complex construct with multidisciplinary roots, and therefore there is scope to more fully enrich our theoretical understanding of identity and identity formation, at both individual and organizational levels, and their relationship to entrepreneurial processes, practices and activities. This book highlights two key features of contemporary research on entrepreneurial identity. First, to see it as a dynamic rather than a (relatively) fixed and unchanging feature, shaped by different life episodes. It is increasingly fluid, multilevel and multidimensional, comprising multiple subidentities rather than a univocal (and unchanging) self. As such, it has a profound effect not only on the way we feel, think and behave, but also on what we aim to achieve. Accordingly, it is vital that its dynamics are better understood, particularly in determining how actors behave in an entrepreneurial context. The book's second focus is on identity work as the process through which entrepreneurial identities are formed and shaped, and the contributors demonstrate how the dynamics of identity formation relate to entrepreneurial outcomes in a range of individual and organizational contexts. This book was originally published as a special issue of *Entrepreneurship & Regional Development*.

Entrepreneurial Identity and Identity Work

Entrepreneurial Communities and Ecosystems: Theories in Culture, Empowerment, and Leadership examines the deep sociocultural dynamics supporting effective and emergent entrepreneurial ecosystems and communities for a new generation of ecosystem builders and researchers. The book provides current theories and discussion with relevant examples regarding culture, empowerment, and leadership in entrepreneurship to build more entrepreneurial communities anywhere, beginning with any set of local advantages. It clarifies the role of community in building an entrepreneurial ecosystem, and expands the theory on how entrepreneurial communities and ecosystems differ, and how they relate. The book also illuminates the often avoided discussion about power, with special attention to diversity with examples of Black, women, and LGBTQA+ entrepreneurship; provides a deep dive into the range of formal and informal education framed as entrepreneurship; ties the importance of entrepreneurship and entrepreneuring to resources available at the community, state, and national levels; and introduces a new concept — omnipreneurship — which puts the skills of entrepreneurship in the service of global benefit and everyday action. This research volume will be equally useful as an undergraduate or graduate text on the sociology of entrepreneurs and entrepreneurship as it is a field guide for ecosystem builders, policy makers, nonprofits, and entrepreneurship and social researchers worldwide.

Entrepreneurial Communities and Ecosystems

This book analyses the opportunities and barriers for youth entrepreneurship amid systemic change in Central and Eastern Europe. The authors cover different aspects of youth entrepreneurship and its contribution to the debate on youth unemployment in transition economies. The book discusses the wide-spread over-optimism regarding youth entrepreneurship, self-employment, and its impact on economic innovation and job creation, resulting from a disregard of critical contextual features and the characteristics of young entrepreneurs themselves. The authors give due acknowledgment

of the importance of both factors and so fully understand the impediments to youth entrepreneurship, especially in a transition context. Furthermore, they seek to assess the opportunities and constraints of promotion policies in transition economies. Most importantly, the book provides the first empirical contribution to youth entrepreneurship in Central and Eastern Europe by offering a representative number of case studies. The book will be invaluable reading for scholars and students of transition and developing countries, particularly those with an interest in entrepreneurship.

Youth Entrepreneurship and Local Development in Central and Eastern Europe

Necessity entrepreneurs are individuals in developing countries who start small enterprises out of necessity. While they range from street sellers to educated hopefuls with little access to formal employment, the one thing that unites them is the need

Necessity Entrepreneurs

Young people in sub-Saharan Africa are growing up in rapidly changing social and economic environments which produce high levels of un- and underemployment. Job creation through entrepreneurship is currently being promoted by international organizations, governments and NGOs as a key solution, despite there being a dearth of knowledge about youth entrepreneurship in an African context. This book makes an important contribution by exploring the nature of youth entrepreneurship in Ghana, Uganda and Zambia. It provides new insights into conceptual and methodological discussions of youth entrepreneurship as well as presenting original empirical data. Drawing on quantitative and qualitative research, conducted under the auspices of a collaborative, interdisciplinary and comparative research project, it highlights the opportunities and challenges young people face in setting up and running businesses. Divided into a number of clear sections, each with its own introduction and conclusion, the book considers the nature of youth entrepreneurship at the national level, in both urban and rural areas, in specific sectors - including mobile telephony, mining, handicrafts and tourism - and analyses how key factors, such as microfinance, social capital and entrepreneurship education, affect youth entrepreneurship. New light is shed on the multi-faceted nature of youth entrepreneurship and a convincing case is presented for a more nuanced understanding of the term entrepreneurship and the situation faced by many African youth today. This book will be of interest to a wide range of scholars interested in youth entrepreneurship, including in development studies, business studies, youth studies and geography, as well as to development practitioners and policy makers. The Open Access title has now been added to the Open Access page. <http://www.tandfebooks.com/page/openaccess>

Young Entrepreneurs in Sub-Saharan Africa

New small business owners are constantly pressured to play a major role in the economic growth of their respected nation. However, revitalizing how individuals think, research, teach, and implement performance strategies to improve the operations of these small businesses is critical to entrepreneurial success. *Reshaping Entrepreneurship Education With Strategy and Innovation* is an essential reference source that discusses strategies to overcome performance barriers as well as implementation of effective entrepreneurial processes based on a wide range of global issues. Featuring research on topics such as authentic leadership, business ethics, and social entrepreneurship, this book is ideally designed for entrepreneurs, business professionals, scholars, researchers, students, and practitioners seeking coverage on innovative performance operations of small businesses.

Reshaping Entrepreneurship Education With Strategy and Innovation

Presenting an updated overview of transformational entrepreneurship, this book explores how critical concepts can be contextualised for different regions and countries, underlining the fact that no one system fits all. In order for entrepreneurship to play a role in socio-economic development, a balance needs to be struck between focusing on individual entrepreneurial activities and regions, and society-wide changes. Building on the Editors' previous books, *Systemic Entrepreneurship* and *Entrepreneurship Centres*, this volume delves deeper into the importance of innovative eco-systems, providing examples of how transformational entrepreneurship can be implemented in different geographical locations. An invaluable read for policy-makers as well as scholars, the authors provide a series of detailed case studies from regions including the UK, Malaysia and Africa.

Transformational Entrepreneurship Practices

This publication aims to inspire budding entrepreneurs in Africa to consider business opportunities in agriculture and agro-industry, broadly defined. It is intended to be a promotional tool, as a sort of call to arms, particularly for women and youth. It also aims to serve as an educational tool and knowledge product in business schools and entrepreneurship incubator programmes for case study-based learning on operating an agribusiness or agro-industry enterprise in Africa. The publication offers guidance to agripreneurs on how to overcome or avoid potential pitfalls and learn from the paths set out by the 12 agripreneurs, whose stories reflect real-life experiences of agribusiness development in Africa. It should be seen as a collection of resources on agripreneurship, focused on these four topical areas: scale, women, youth, and challenging environments, while providing guiding advice for agripreneurs and policy-makers. In addition to educating entrepreneurs, it is important to highlight the fundamental role of policy-makers in shaping the enabling environment for agripreneurship. In this context, the publication aims to provide concrete policy recommendations on how to improve the enabling environment for agripreneurship, based on the advice of the 12 agripreneurs featured here. The aim is to guide policy-makers to improve these targeted areas, and inspire them to do so by providing accounts of successful agripreneurs who have built businesses with positive economic, social and environmental impacts on national development.

Agripreneurship across Africa

Though interpersonal violence is widely studied, much less has been done to understand structural violence, the often-invisible patterns of inequality that reproduce social relations of exclusion and marginalization through ideologies, policies, stigmas, and discourses attendant to gender, race, class, and other markers of social identity. Structural violence normalizes experiences like poverty, ableism, sexual harassment, racism, and colonialism, and erases their social and political origins. The legal structures that provide impunity for those who exploit youth are also part of structural violence's machinery. Working with Indigenous, queer, immigrant and homeless youth across Canada, this five-year Youth-based Participatory Action Research project used art to explore the many ways that structural violence harms youth, destroying hope, optimism, a sense of belonging and a connection to civil society. However, recognizing that youth are not merely victims, *Everyday Violence in the Lives of Youth* also examines the various ways youth respond to and resist this violence to preserve their dignity, well-being and inclusion in society.

Everyday Violence in the Lives of Youth

Microlending programs for low-income microentrepreneurs have become a global priority since the development of the Grameen Bank in 1976 and the Sustainable Development Goals of the United Nations in 2015. Inspired to create their own microlending program, the deans of the schools of social welfare and business at the University at Albany were aided by the university's Small Business Development Center and the State Employees Federal Credit Union. This led to the creation of the Small Enterprise Economic Development (SEED) program. Following this, new faculty were hired in the School of Social Welfare and the School of Business to address social entrepreneurship and lead these initiatives. The impetus for this book emerged from these developments including three forums in which national and international contributors participated in workshops, panels, and chapters for this book. These forums were co-organized by the School of Social Welfare, the School of Business, and a new Center for the Advancement & Understanding of Social Enterprises (CAUSE) at UAlbany. Building on the example set by UAlbany, *Social Entrepreneurship and Enterprises in Economic and Social Development* explains how and why we should integrate social entrepreneurship and social enterprises with economic and social development. While this global movement varies in pace and scope, the volume features snapshots from countries and regions representing nearly all continents, including Albania, Argentina, Cuba, India, Kenya, Kyrgyzstan, Russian Federation, Taiwan, Tajikistan, and Tanzania. One of the lessons is that social policies are critical for supporting social entrepreneurs since environmental, economic, and social sustainability are core goals of these initiatives. The chapters in this volume offer different contextual frames ranging from social enterprise business plans and measured entrepreneurial orientation to displacement dynamics (and how to avoid them) and the pitfalls of non-market economies. The contributing authors examine a variety of ventures and social policies to showcase how nations are supporting social enterprises as they attempt to meet human needs and achieve financial sustainability. The resulting volume provides a rationale for, and snapshots of, social enterprises and entrepreneurship in transitioning nations.

Social Entrepreneurship and Enterprises in Economic and Social Development

Given the compelling need to understand how entrepreneurship can support the Sustainable Development Goals (SDGs) and be appropriately guided, this book explores how entrepreneurial thinking and action can support social change, and investigates alternative entrepreneurship approaches by drawing together different studies.

Entrepreneurship and the Sustainable Development Goals

Research paper from the year 2008 in the subject Business economics - Business Management, Corporate Governance, Institute of Accountancy Arusha, course: Entrepreneurship, language: English, abstract: This research study evolved in response to my desire to find out more about the issues of young entrepreneurs. In particular, it discusses what triggers them to form business ideas, how they enter into business, the barriers they face and ways to overcome these barriers. The researcher used descriptive design, a sample of 385 respondents was used to select respondents; the researcher also used simple random sampling techniques to select the respondents with the help of questionnaires which were used to collect the primary data. The data collected was analyzed using content analysis, descriptive statistics, cross tabulation and hypothesis testing. Content analysis was used to analyse the in depth interviews. For the survey questionnaires, descriptive statistics and cross-tabulation were used to analyse the responses given by the prospective entrepreneurs. The data from the questionnaires was captured coded and exported to statistical programme for social science (SPSS) which was used for analysis. Based on study findings and an insight gained from theory, the study proposes some strategies for dealing with the barriers identified in the research. Since it has been found that young people in start-up or growth modes who require start-up financing or financing beyond their current capital are seriously restricted by their inability to obtain loans from financial institutions because they are unable to meet the loan conditions pertaining to security, the study proposes that private sectors dealing with entrepreneurship development and entrepreneurs' associations establish viable SACCOs. According to literature review, study objectives and study findings the researcher, recommended that the Business Council of Tanzania should lobby the policy makers to:- Formulate an immigration policy which favors the entry of entrepreneurs who would create jobs. A policy allowing Tanzanian entrepreneurs who emigrated and obtained citizenship in other countries to retain dual citizenship would be very attractive here because they now automatically forfeit their Tanzanian citizenship. It also recommends that the Business Council of Tanzania discuss with the University of Dar es Salaam Centre for Entrepreneurship Development (CED) the establishment of a program in retailing, which the council would be asked to sponsor. That would help to develop a retailing class of entrepreneurs.

Formation à l'entrepreneuriat pour les institutions d'EFTP

This report highlights how youth social entrepreneurship can support young people's employment and development while helping to accelerate the implementation of the SDGs. It presents social entrepreneurship and anchors it in the context of the 2030 Agenda. It examines how social entrepreneurship of young people can offer not only employment opportunities, but also support other elements of youth development such as their participation. It assesses challenges to young people's social entrepreneurship and examines the synergies between technologies and youth social entrepreneurship. Policy guidance is offered to enable ecosystems for young social entrepreneurs.

Encouraging entrepreneurship in Tanzania. Start-ups and growth barriers

Businesses are looking for methods to incorporate social entrepreneurship in order to generate a positive return to society. Social enterprises have the ability to improve societies through altruistic work to create sustainable work environments for future entrepreneurs and their communities. Social Entrepreneurship: Concepts, Methodologies, Tools, and Applications is a useful scholarly resource that examines the broad topic of social entrepreneurship by looking at relevant theoretical frameworks and fundamental terms. It also addresses the challenges and solutions social entrepreneurs face as they address their corporate social responsibility in an effort to redefine the goals of today's enterprises and enhance the potential for growth and change in every community. Highlighting a range of topics such as the social economy, corporate social responsibility, and competitive advantage, this multi-volume book is ideally designed for business professionals, entrepreneurs, start-up companies, academics, and graduate-level students in the fields of economics, business administration, sociology, education, politics, and international relations.

World Youth Report

The Missing Entrepreneurs 2017 is the fourth edition in a series of publications that examine how public policies at national, regional and local levels can support job creation, economic growth and social inclusion by overcoming obstacles to business start-ups and self-employment by people from disadvantaged or under-represented groups in entrepreneurship. It shows that there is substantial potential to combat unemployment and increase labour market participation by facilitating business creation in populations such as women, youth, the unemployed, and migrants. However, the specific problems they face need to be recognised and addressed with effective and efficient policy measures. This edition contains in-depth policy discussion chapters on the quality of self-employment, including new forms of self-employment such as dependent and false self-employment, and the potential of self-employment as an adjustment mechanism in major firm restructuring and job shedding. Each thematic chapter discusses current policy issues and challenges, and makes recommendations for policy makers. A data section provides a range of information on self-employment and business creation rates, barriers and key characteristics of businesses operated by social group. Finally, country profiles highlight recent trends in inclusive entrepreneurship, key policy challenges and recent policy actions in each of the 28 EU Member States.

Formación al emprendimiento para entidades de EFTP

The Missing Entrepreneurs 2014 is the second edition in a series of annual reports that provide data and policy analysis on inclusive entrepreneurship, and on its barriers, by target social groups across the European Union.

The Missing Entrepreneurs 2017

The Missing Entrepreneurs 2021 is the sixth edition in a series of biennial reports that examine how public policies at national, regional and local levels can support job creation, economic growth and social inclusion by overcoming obstacles to business start-ups and self-employment by people from disadvantaged or under-represented groups in entrepreneurship.

The Missing Entrepreneurs 2014 Policies for Inclusive Entrepreneurship in Europe

By serving as a conduit for knowledge spillovers, entrepreneurship is the missing link between investments in new knowledge and economic growth. The knowledge spillover theory of entrepreneurship provides not just an explanation of why entrepreneurship has become more prevalent as the factor of knowledge has emerged as a crucial source for comparative advantage, but also why entrepreneurship plays a vital role in generating economic growth. Entrepreneurship is an important mechanism permeating the knowledge filter to facilitate the spill over of knowledge and ultimately generate economic growth.

Southern Innovator Magazine Issue 2: Youth and Entrepreneurship

The book was published by SALTO-Youth Participation, a Resource Centre of the European Commission. It looks into the relationship between youth work (non-formal learning) and entrepreneurship. The book explores the theoretical developments in the field, the ethical dilemmas and tensions, and proposes practice-oriented information: illustrative examples, strategies for action and methods of non-formal education. Structured in 24 chapters, the book is an opportunity to open up debates and questions linking the professional communities working with young people or on their behalf.

Innovative Business Strategies

Social entrepreneurship is on the rise and social enterprises are solving some of the most critical and enduring social problems by using innovative, pragmatic and sustainable business models. Access to knowledge thanks to the Internet and rapid expansion of the knowledge economy are opening new opportunities for social ventures. With knowledge-based social entrepreneurship where knowledge is the primary resource, more pressing social problems can be addressed by using advanced technologies. This book investigates this emerging concept, possibilities that it holds, its place in today's economy, and links bridges between knowledge, innovation, and social entrepreneurship. Academics, entrepreneurs, students, and NGOs will find the theoretical and practical information presented in this book extremely valuable.

The Missing Entrepreneurs 2021 Policies for Inclusive Entrepreneurship and Self-Employment

... a reflective and scholarly work that presents exciting and challenging views to mainstream entrepreneurship. . . The four books comprising the series would certainly be a valuable addition to any entrepreneurship library. However, each book also stands alone as an individual purchase. Lorraine Warren, *International Journal of Entrepreneurial Behaviour and Research* The narrative and flow of the book is superb and very interesting to read. The book is well edited and thought provoking which makes it an interesting read. Vanessa Ratten, *Journal of Enterprising Communities: People and Places in the Global Economy* This book the third in the *Movements in Entrepreneurship* series examines entrepreneurship as a societal phenomenon. It provides an in-depth study of the social aspects of entrepreneurship, illustrating how entrepreneurship affects society. The need to move beyond economy to disclose entrepreneurship in its societal forms is demonstrated, as is the relevance of our understanding of entrepreneurship as a societal phenomenon. The contributors show that entrepreneurship is a society-creating force and as such, it evokes new questions for entrepreneurship research and attempts to engage with new theoretical formulations. They begin with discussions on early Schumpeter and a rhetorical analysis of the current academic literature on social entrepreneurship. They go on to present myriad contextual examples of how entrepreneurship can shape social change, and indicate how this is initiated through various social settings, relationships and communities. Through rich empirical work this book explores the social of social entrepreneurship and in doing so shows us how entrepreneurship is at home where society is created. As such, it will prove a fascinating read for academics, researchers and students with an interest in entrepreneurship, sociology and economic sociology.

Dhandha

Dhandha, meaning business, is a term often used in common trade parlance in India. But there is no other community that fully embodies what the term stands for than the Gujaratis. Shobha Bondre's *Dhandha* is the story of a few such Gujaratis: Jaydev Patel—the New York Life Insurance agent credited with having sold policies worth \$2.5 billion so far; Bhimjibhai Patel—one of the country's biggest diamond merchants and co-founder of the ambitious 'Diamond Nagar' in Surat; Dalpatbhai Patel—the motelier who went on to become the mayor of Mansfield County; Mohanbhai Patel—a former Sheriff of Mumbai and the leading manufacturer of aluminium collapsible tubes; and Hersha and Hasu Shah—owners of over a hundred hotels in the US. Travelling across continents—from Mumbai to the United States—in search of their story and the common values that bond them, *Dhandha* showcases the powerful ambition, incredible capacity for hard work, and the inherent business sense of the Gujaratis.

The Breakthrough Company

In The Breakthrough Company, Keith McFarland pinpoints how everyday companies become extraordinary, showing that luck is a negligible factor. Rather, breakthrough success turns out to be associated with a clearly identifiable set of strategies and skills that anyone in any business can emulate - from small startup to industry paragon. Encouraged by experts such as business legend Peter Drucker and Good to Great author Jim Collins to identify the drivers that enable a company to push past the entrepreneurial phase, McFarland spent five years building and analyzing the world's largest growth-company performance database and interviewing more than 1,500 growth-company executives on four continents. His goal was simple: to identify the secrets of breakthrough. This book is the result. Winnowing a study pool of more than 7,000 companies down to nine that have made the transition to major-player status, McFarland highlights real-world tools and myth-busting insights that can be used by anyone wanting his or her business to join this exclusive circle.

The Indian Business

Baniya—a derivative of the Sanskrit word Vanij, is a term synonymous with India's trader class. Over the decades, these capitalists spread their footprint across vast sectors of the economy from steel and mining to telecom and retail. And now even e-tail. Nikhil Inamdar's Rokda features the stories of a few pioneering men from this mercantile community—Radheshyam Agarwal and Radheshyam Goenka, founders of the cosmetic major Emami; Rohit Bansal, co-founder of Snapdeal; Neeraj Gupta, founder of Meru Cabs; and V.K. Bansal, a humble mathematics tutor whose genius spawned a massive coaching industry in Kota—amongst others. Through the triumphs and tribulations of these men in the epoch marking India's entire post independence struggle with entrepreneurship—from the License Raj to the opening up of the floodgates in 1991, and the dawn of the digital era—Rokda seeks to uncover the indomitable spirit of the Baniya.

Rokda

The Golden age of Indian industry, as it now seems in retrospect, lasted from 1951 to '62. and industrialists of the lime were not afraid to think ahead and plan big. Among the entrepreneurs who led this Industrial resurgence, four were particularly outstanding, G.D. Birla, Walchand Hirachand, Kasturbhai Lalbhai and, J.R.D. Tata. Gita Piramal, author of the acclaimed Business Maharajas, sensitively recreates the Lives and Times of these four titans of industry. She draws upon hitherto untapped sources of information to Sketch her profiles, making htis perhaps the closest Look at these legends this fair. Thought provoking and incisive. Business Legends is a compelling Account of ambition and achievement.

Business Legends

In the nineteenth century, a tiny community from the deserts of Rajasthan spread out to every corner of India. The Marwaris controlled much of the country's inland trade by the time of the First World War. They then turned their hand to industry and, by the 1970s, owned most of India's private industrial assets. Today, Marwari businessmen account for a quarter of the Indian names on the Forbes billionaires list.// What makes the Marwaris so successful? Is it their indomitable enterprise, or their incredible appetite for risk? In this new book, Thomas Timberg shows how the Marwaris rely on a centuries-old system for conserving and growing capital which has stood them in good stead, alongside a strong sense of

business ethics which has earned them respect.// Family businesses in general and the Marwaris in particular might have a vital role to play in shaping India's economic future.

How a family-run business from humble Bikaner transformed Haldiram into a global, much-loved brand. In the early twentieth century, a young man, Ganga Bhishan Agarwal, aka Haldiram, gained a reputation for making the best bhujia in town. Fast-forward a century and the Haldiram's empire has revenue much greater than that of McDonald's and Domino's combined. In *Bhujia Barons*, Pavitra Kumar tells the riveting story of the Agarwal family in its entirety—a feat never managed before. It begins in dusty, benign Bikaner and traces the rise and rise of this home-grown label, now one of the most-recognized Indian brands in the world. The Haldiram's story is not an average business story—it's chock-full of family drama, with court cases, jealousy-fuelled regional expansion, a decades-old trademark battle, and a closely guarded family secret of the famous bhujia. Fast-paced and captivating, this book provides a delicious look into family business dynamics and the Indian way of doing business.

The Portfolio Book of Great Indian Business Stories

Dhirubhai Ambani's life is a rags-to-riches story, from Bombay's crowded pavements and bazaars to the city's extravagantly wealthy social circles where business tycoons, stockmarket speculators, smugglers, politicians and Hindi film stars mingle, make money, make and break marriages and carry out prolonged feuds. This is the story of a rising capitalist group in post-independence India. Until the arrival of Ambani, and now more like him, India's big business scene was dominated by a few industrial houses from British times. Ambani's Reliance group has risen to rival these houses in just 26 years since its foundation. By 1995, the group had 2.6 million investors, one in every eight Indian sharemarket investors, and is now so large that it has to hold its annual general meetings in football stadiums. Along with expansion, however, have come the intricate political connections, a whole raft of corruption charges and a rollercoaster of booms and crashes for Ambani and his company. This study shows how capitalism emerges by fair means and foul in the new industrial countries of the Third World and explores the life of an Asian tycoon.

Bhujia Barons

A retired General is haunted by voices of dead men. Soldiers from two enemy nations manning posts in freezing Siachen form a strange connection. A young Lieutenant dying in the jungles of Arunachal is watched over by three men, one of whom would have his destiny changed forever. What is the dark secret held by a Major and his men operating incognito in Kashmir? What surprise is a train bound for Agra bringing to the all-male bastion of 13 Para? Who are the invisible people a little girl awaiting brain surgery in the Lansdowne Military Hospital talks to? From the bestselling author of *The Brave*, 1965 and *Kargil* comes a book that will take you into the olive-green world of army cantonments, through stories that will delight and disturb in equal measure.

The Polyester Prince

One of the most remarkable stories of immigration in the last half century is that of Indians to the United States. People of Indian origin make up a little over one percent of the American population now, up from barely half a percent at the turn of the millennium. Not only has its recent growth been extraordinary, but this population from a developing nation with low human capital is now the most-educated and highest-income group in the world's most advanced nation. *The Other One Percent* is a careful, data-driven, and comprehensive account of the three core processes—selection, assimilation, and entrepreneurship—that have led to this rapid rise. This unique phenomenon is driven by—and, in turn, has influenced—wide-ranging changes, especially the on-going revolution in information technology and its impact on economic globalization, immigration policies in the U.S., higher education policies in India, and foreign policies of both nations. If the overall picture is one of economic success, the details reveal the critical issues faced by Indian immigrants stemming from the social, linguistic, and class structure in India, their professional and geographic distribution in the U.S., their pan-Indian and regional identities,

their strong presence in both high-skill industries (like computers and medicine) and low-skill industries (like hospitality and retail trade), and the multi-generational challenges of a diverse group from the world's largest democracy fitting into its oldest.

Getting India Back on Track

Indians believe that you must serve your guests well, for they come to your house in the form of god. This is the exact mentality Sudha Murty's hosts have when she goes to volunteer in a small village in Odisha. Because of the heavy rain, Murty decides to take shelter in one of the villagers' hut—already low on supplies, what are the hosts ready to give up in order to serve their guest? Murty delves into the great extent hosts are willing to go to in order to please their guests. Read more to see what Sudha learns about the Indian values.

The New Evolution Diet

A sweeping account of three Gujarati Muslim trading communities, whose commercial success over nearly two centuries sheds new light on the history of capitalism, Islam, and empire in South Asia. During the nineteenth century, three Gujarati Muslim commercial castes—the Bohras, Khojas, and Memons—came to dominate Muslim business in South Asia. Although these communities constitute less than 1 percent of South Asia's Muslim population, they are still disproportionately represented among the region's leading Muslim-owned firms today. In *No Birds of Passage*, Michael O'Sullivan argues that the conditions enabling their success have never been understood, thanks to stereotypes—embraced equally by colonial administrators and Muslim commentators—that estrange them from their religious identity. Yet while long viewed as Hindus in all but name, or as “Westernized” Muslims who embraced colonial institutions, these groups in fact entwined economic prerogatives and religious belief in a distinctive form of Muslim capitalism. Following entrepreneurial firms from Gujarat to the

Hijaz, Hong Kong, Mombasa, Rangoon, and beyond, O'Sullivan reveals the importance of kinship networks, private property, and religious obligation to their business endeavors. This paradigm of Muslim capitalism found its highest expression in the jamaats, the central caste institutions of each community, which combined South Asian, Islamicate, and European traditions of corporate life. The jamaats also played an essential role in negotiating the position of all three groups in relation to British authorities and Indian Muslim nationalists, as well as the often-sharp divisions within the castes themselves. O'Sullivan's account sheds light on Gujarati Muslim economic life from the dawn of colonial hegemony in India to the crisis of the postcolonial state, and provides fascinating insights into the broader effects of capitalist enterprise on Muslim experience in modern South Asia.

The Day I Stopped Drinking Milk

In this landmark book, bestselling author, leadership coach and mythologist Devdutt Pattanaik shows how, despite its veneer of objectivity, modern management is rooted in Western beliefs and obsessed with accomplishing rigid objectives and increasing shareholder value. By contrast, the Indian way of doing business, as apparent in Indian mythology but no longer seen in practice accommodates subjectivity and diversity and offers an inclusive, more empathetic way of achieving success. Great value is placed on darshan, that is, on how we see the world and our relationship with Lakshmi, the goddess of wealth. Business Sutra uses stories, symbols and rituals drawn from Hindu, Jain and Buddhist mythology to understand a wide variety of business situations that range from running a successful tea stall to nurturing talent in a large multinational corporation. At the heart of the book is a compelling premise: if we believe that wealth needs to be chased, the workplace becomes a rana-bhoomi - a battleground of investors, regulators, employers, employees, vendors, competitors and customers, if we believe that wealth needs to be attracted, the workplace becomes a ranga-bhoomi - a playground where everyone is happy.

No Birds of Passage

If you have ever dared to dream big, this book will change your life. Through the true stories of two people – Abhishek and Abhinav Sinha, founders of the IT organization, Eko – who braved the rough road, Start-up Sutra presents entrepreneurship in its essence – not a checklist to be crossed, but a passion to be lived. Bringing to life the daily dramas, the struggles in the trenches, the battles with inner demons and impossible external odds that need to be overcome on the journey to achievement, this inspiring, multi-layered story enumerates the five qualities that every entrepreneur must possess: courage, resilience, the capacity for creative action, dispassion, and faith in the intent of the universe.

In the Afternoon of Time

Start-up Sutra

'Listen, Michael. This is serious. This is your best chance to help me ...us. If you waste this, it's all over.' 'What's all over?' 'Everything. Between us.' 'Naina?' 'Five minutes, that's all you have. I kid you not.' First-year student Naina is utterly smitten by her senior, Michael, acknowledged genius and resident rebel of the Fine Arts College, Mumbai. So when he proposes that they drop out of college and live-in, she readily agrees. But life with Michael soon turns into an emotional rollercoaster. Temperamental, opinionated and incredibly selfish, he expects Naina to run the household so that he is free to paint. Naina tries her hand at several odd jobs, but when an accident leaves Michael blind, their life together begins to come undone as she can only helplessly watch. And in trying to pull it together, Naina is driven to being what she has never been-a liar and a cheat. Will Michael forgive her when he learns the truth? Will she forgive him for what he has done to her?

The Billionaire's Apprentice

This book will prove that every organization's best chance, to survive and become better than ever, lies within itself. Against the decidedly progressive, action-oriented, and above all restless backdrop of disruption, the DNA of established business is starting to realign. It's the beginning of a groundswell that has started to make lean entrepreneurship a core competency within big business. Based on hundreds of interviews, as well as the author's consulting work within companies, *Jugaad 3.0 Hacking the Corporation* identifies the competencies these corporate hackers possess. It also offers a spectrum of carefully crafted archetypes to help people see themselves in this trend and allow organizations identify the innovators in their midst.

Metro Reads: Dreams In Prussian Blue

Entrepreneurship is not about breaking free from the 9 to 5 humdrum, not about being your own boss, and definitely not glorious. The entrepreneur shuns the comfort of a cushy corporate job and six figure salaries to set sail on uncharted waters with a single minded zeal and only an idea as an anchor. But it is this idea and passion that makes all the difference and catapults them into a world of infinite possibilities. *The Game Changers* brings to you 20 success stories of IITians who went on to live the big dream. These include: Suhas Patil, Vijay Kumar, Vinod Gupta, Sam Dalal, Sridhar Mitta, Arjun Malhotra, Kiran Seth, Prabhakant Sinha, Ranbir Singh Gupta, Bikram Dasgupta founder of Globsyn, Praful Kulkarni, Sunil Gaitonde, Anand Deshpande, Arvind Kejriwal, Harish Hande, Anuradha Acharya, Venkata Subramanian, Bikash Barai, Vikram Kumar, and Krishna Mehra. With a foreword by Dr Duvvuri Subbarao, Governor, Reserve Bank of India, and introduction by Damodar Acharya, Director, IIT Karagpur, this book marks the 60 golden years of India's finest institute. Come, be a part of their journey, get inspired to dream and make your own story.

India and Germany: Dynamic Partnership illustrates the unique relationship marked by centuries of friendship and cooperation between the two countries. The engagement across the ages has extended to intellectual, literary and economic levels, gaining momentum in modern times as a vibrant partnership. This engrossing narrative with colourful images captures different dimensions of the bilateral relationship, emphasizing the trade and commercial aspects in particular. It outlines the positive impact of German companies in India's development journey and also documents the growing interest of Indian companies in Germany as they gain maturity. The book touches upon the experiences of companies from both countries in each other's economies, which has benefitted both sides, as the two countries

have embarked on a strategic partnership. The Confederation of Indian Industry has been playing a proactive role in strengthening and deepening exchanges with German business, offering a platform for entrepreneurs from both India and Germany to expand awareness about each other and forge new partnerships. It will continue to build on its multiple initiatives, and play an integral role in further cementing Indo-German economic engagement.

The Game Changers

The residents of Pipalnagar, a dull and dusty small town, hope to one day leave behind their humdrum lives for the thrills of Delhi. Deep Chand, the barber, dreams of giving the prime minister a haircut; Pitamber wishes to ride an autorickshaw instead of pulling a cycle-rickshaw; and Aziz will be happy with a junk shop in Chandni Chowk. Sharing their dreams of escape is the narrator Arun, a struggling detective-fiction writer. As he waits for inspiration to write a blockbuster, he seeks and discovers love in unusual places—with the young prostitute Kamla, wise beyond her years, and the orphan and epileptic Suraj, surprisingly optimistic despite his difficult circumstances. In *Delhi Is Not Far*, one of his most enduring novels, Ruskin Bond sketches a moving portrait of small-town India with characteristic sympathy and quiet wisdom.

ALMANACK OF NAVAL RAVIKANT

The good news is that people today expect to live longer, healthier lives. The bad news is that many of us will not have enough money to retire comfortably. The solution to this problem is wise investment of the wealth we accumulate during our working lives, but the unfortunate truth is that when it comes to investment, many of us don't know where to start. Daniel Goldie and Gordon Murray aim to change the way we think about investing and influence the way we select financial advisors, invest our money and assess the results. In *THE INVESTMENT ANSWER* they provide readers with the necessary background to make the five key decisions that have a significant impact on the overall investment experience so that they will never again be afraid of financial markets or uncertain about what to do with their money.

The Parable of the Pipeline (Tamil)

One little two little three little Indians, four little five little six little Indians, seven little eight little nine little Indians... One million little Indian entrepreneurs. These are the stories of the little people who make up the Big Idea of Dharavi. A slum of energy, enterprise and hope. Where every hand is busy, every head held high. Where people could be miserable but choose to be happy. A choice each of us can make.

Maharashtra Maximus

WELCOME TO STORK-PUR, THE PLACE OF NO RETURN One moonlit night, when Shikar, the squirrel, asks his favourite doves, Lovey and Dovey, to tell him a story, they recount their time at Stork-pur, a mysterious bird commune. A place no bird would ever want to visit. On a secret mission, the doves are taken hostage by a villainous stork whose dark plan is to rule the bird-world. Danger lurks in every corner of the caves the doves are imprisoned in, and they wonder whom they can trust? The talkative green pigeon, the mesmerizing whistling thrush or the magnificent golden eagle? The feather-raising adventure ends finally in a story the doves dub as 'the story of all stories'—one that deeply affects Shikar and alters his notions of himself, his past and his origins. Return to the Rose Garden to read about the enthralling capers of your favourite feathered friends and bird-squirrel, as they swap stories of daring and wonder.

Delhi Is Not Far

The documents in this volume reflect the great debates that have shaped this country's economic life. Covering a wide variety of problems, they show how each was treated at a moment when it was politically urgent. Since they were efforts at persuasion, usually addressed to a wide audience, they are coherent and self-contained and avoid technical jargon. They therefore present clear and vivid evidence of what men have desired and hoped to achieve, and explain not only much that is critical about how Americans lived in the past but much also about the inheritance of the present. From the overwhelming mass of available documents, a representative group has been chosen here. Among the twenty-nine included are: Hamilton's Report on Manufactures, which helped set the American attitude on economic growth; Andrew Jackson's veto message on the bill to renew the charter of the Bank of the

United States; the first annual report of the Interstate Commerce Commission, which put the railroads under federal regulation; William Jennings Bryan's famous Cross of Gold speech, which helped him win the Democratic nomination in 1896; the conclusions of the Pujo Committee's report on the money market, which were instrumental in setting up the Federal Reserve System; and key documents on the National Recovery Administration, one of Franklin D. Roosevelt's major moves in his fight against the depression. In his introductory essay, the editor summarizes the forces and movements that helped to make American economic policy "exceedingly confused and therefore very annoying to historians and economists," But, he insists, this very confusion reduced "the extremism and disorder potentially so great in the United States . . . to remarkable moderation." William Letwin is professor emeritus at the London School of Economics. He has published many articles and reviews in learned and popular journals. He took his undergraduate work at the University of Chicago and did graduate work there and at the London School of Economics. After receiving the degree of Doctor of Philosophy from the Committee on Social Thought of the University of Chicago, he stayed on at the university as Research Associate in the Law School and Postdoctoral Fellow in the Department of Economics.

El Empresario Del Papel Higienico

Lamentablemente, no todos podemos llegar a ser grandes figuras del mundo empresarial como los creadores de Mango, Zara, Google, Apple, Microsoft, o Facebook. La mayoría estamos destinados a ser empresarios del papel higiénico: innovadores capaces de hacer

El empresario del papel higiénico

In July 1942, thirteen-year-old Anne Frank and her family, fleeing the occupation, went into hiding in an Amsterdam warehouse. Over the next two years Anne vividly describes in her diary the frustrations of living in such close quarters, and her thoughts, feelings and longings as she grows up. Her diary ends abruptly when, in August 1944, they were all betrayed. First published over sixty years ago, Anne Frank's *Diary of a Young Girl* has reached millions of young people throughout the world. BBC TV's major new dramatization brings her extraordinary writing to life in a way that will engage and inspire a whole new generation. 'One of the greatest books of the last century' - Guardian

The Diary of a Young Girl

WHAT VALUABLE COMPANY IS NOBODY BUILDING? The next Bill Gates will not build an operating system. The next Larry Page or Sergey Brin won't make a search engine. If you are copying these guys, you aren't learning from them. It's easier to copy a model than to make something new: doing what we already know how to do takes the world from 1 to n, adding more of something familiar. Every new creation goes from 0 to 1. This book is about how to get there. 'Peter Thiel has built multiple breakthrough companies, and *Zero to One* shows how.' ELON MUSK, CEO of SpaceX and Tesla 'This book delivers completely new and refreshing ideas on how to create value in the world.' MARK ZUCKERBERG, CEO of Facebook 'When a risk taker writes a book, read it. In the case of Peter Thiel, read it twice. Or, to be safe, three times. This is a classic.' NASSIM NICHOLAS TALEB, author of *The Black Swan*

Zero to One

Nobel prize winner and author of *One Hundred Years of Solitude* Gabriel Garcia Marquez tells a tale of an unrequited love that outlasts all rivals in his masterpiece *Love in the Time of Cholera*. 'It was inevitable: the scent of bitter almonds always reminded him of the fate of unrequited love' Fifty-one years, nine months and four days have passed since Fermina Daza rebuffed hopeless romantic Florentino Ariza's impassioned advances and married Dr Juvenal Urbino instead. During that half-century, Florentino has fallen into the arms of many delighted women, but has loved none but Fermina. Having sworn his eternal love to her, he lives for the day when he can court her again. When Fermina's husband is killed trying to retrieve his pet parrot from a mango tree, Florentino seizes his chance to declare his enduring love. But can young love find new life in the twilight of their lives? 'The most important writer of fiction in any language' Bill Clinton 'An exquisite writer, wise, compassionate and extremely funny' Sunday Telegraph 'An amazing celebration of the many kinds of love between men and women' The Times

Love in the Time of Cholera

'Lolita is comedy, subversive yet divine' Martin Amis, Observer Poet and pervert, Humbert Humbert becomes obsessed by twelve-year-old Lolita and seeks to possess her, first carnally and then artistically, 'to fix once for all the perilous magic of nymphets'. Is he in love or insane? A tortured soul or a monster? Humbert Humbert's fixation is one of many dimensions in Nabokov's dizzying masterpiece, which is suffused with a savage humour and rich, elaborate verbal textures. Filmed by Stanley Kubrick in 1962, and again in 1997 by Adrian Lyne, *Lolita* has lost none of its power to shock and awe. 'There's no funnier monster in literature than poor, doomed Humbert Humbert' Independent

Lolita

A happily married woman's perfect life shatters when her husband turns up dead hundreds of miles away from where he should have been, and she suddenly discovers that there was a part of him she knew nothing about. Alice Dupont's perfect marriage was a perfect lie. When her husband, Chris, dies in a car accident, far from where he should have been, Alice's life falls apart. After the police close the case, she is left with more questions than answers. While learning to cope with her loss and her new identity as a single mother of two, Alice becomes obsessed with unraveling the mystery surrounding her husband's death and decides to start her own investigation. Retracing her husband's last known whereabouts, she soon discovers clues that lead her to a small island near Nantucket. As she insinuates herself into the lives of the island's inhabitants in an effort to discover what they knew about her husband, Alice finds herself increasingly involved in their private lives and comes to a disturbing realization: she has been transformed into a person she no longer recognizes. In seeking an answer to what her husband was doing before he died, Alice discovers not only a side of him she never knew, but sides of her own character she has never explored. Part mystery, part moving family

drama, part psychological page-turner, Alice's Island is a novel whose vivid characters hold the reader rapt right up until the final page.

Alice's Island

Written by a Russian prince who renounced his title, this work promotes an anarchist market economy — a system of autonomous cooperative collectives. A century after its initial publication, it remains fresh and relevant.

The Conquest of Bread

The authors document how four forces--exponential technologies, the DIY innovator, the Technophilanthropist, and the Rising Billion--are conspiring to solve our biggest problems. "Abundance" establishes hard targets for change and lays out a strategic roadmap for governments, industry and entrepreneurs, giving us plenty of reason for optimism.

Better Spending for Better Lives

This is a practical guide for Occupational Therapists and others who provide services to people who have Duchenne muscular dystrophy. The goal of the book is to deepen the readers understanding of the support that occupational therapists can offer to families who are affected by this condition. Written by experienced occupational therapists with a special interest in Duchenne muscular dystrophy. The book will provide information and support to therapists who may be working in isolation, or who rarely work with this client group. It is for the experienced therapist as well as the student. Each chapter of this book gives a clear and comprehensive description of different aspects of occupational therapy assessments and interventions.

Abundance

What happens when the bottlenecks that stand between supply and demand in our culture go away and everything becomes available to everyone? "The Long Tail" is a powerful new force in our economy: the rise of the niche. As the cost of reaching consumers drops dramatically, our markets are shifting from a one-size-fits-all model of mass appeal to one of unlimited variety for unique tastes. From supermarket shelves to advertising agencies, the ability to offer vast choice is changing everything, and causing us to rethink where our markets lie and how to get to them. Unlimited selection is revealing truths about what consumers want and how they want to get it, from DVDs at Netflix to songs on iTunes to advertising on Google. However, this is not just a virtue of online marketplaces; it is an example of an entirely new economic model for business, one that is just beginning to show its power. After a century of obsessing over the few products at the head of the demand curve, the new economics of distribution allow us to turn our focus to the many more products in the tail, which collectively can create a new market as big as the one we already know. The Long Tail is really about the economics of abundance. New efficiencies in distribution, manufacturing, and marketing are essentially resetting the definition of what's commercially viable across the board. If the 20th century was about hits, the 21st will be equally about niches.

Occupational Therapy and Duchenne Muscular Dystrophy

One of the true classics of horror, now with a new stunning cover look. THE SHINING is regarded as one of Stephen King's masterpieces. Danny is only five years old, but in the words of old Mr Hallorann he is a 'shiner', aglow with psychic voltage. When his father becomes caretaker of the Overlook Hotel, Danny's visions grow out of control. As winter closes in and blizzards cut them off, the hotel seems to develop a life of its own. It is meant to be empty. So who is the lady in Room 217 and who are the masked guests going up and down in the elevator? And why do the hedges shaped like animals seem so alive? Somewhere, somehow, there is an evil force in the hotel - and that, too, is beginning to shine ...

The Long Tail

What if society wasn't fundamentally rational, but was motivated by insanity? This thought sets Jon Ronson on an utterly compelling adventure into the world of madness. Along the way, Jon meets psychopaths, those whose lives have been touched by madness and those whose job it is to diagnose it, including the influential psychologist who developed the Psychopath Test, from whom Jon learns

the art of psychopath-spotting. A skill which seemingly reveals that madness could indeed be at the heart of everything . . . Combining Jon Ronson's trademark humour, charm and investigative incision, *The Psychopath Test* is both entertaining and honest, unearthing dangerous truths and asking serious questions about how we define normality in a world where we are increasingly judged by our maddest edges. 'The belly laughs come thick and fast – my God, he is funny . . . provocative and interesting' – Observer

The Shining

GOOD OMENS SEASON 2 COMING 28TH JULY ON AMAZON PRIME. The book behind the Amazon Prime / BBC Series starring David Tennant, Michael Sheen, Jon Hamm and Benedict Cumberbatch. 'Ridiculously inventive and gloriously funny' Guardian What if, for once, the predictions are right, and the Apocalypse really is due to arrive next Saturday, just after tea? It's a predicament that Aziraphale, a somewhat fussy angel, and Crowley, a fast-living demon, now find themselves in. They've been living amongst Earth's mortals since The Beginning and, truth be told, have grown rather fond of the lifestyle and, in all honesty, are not actually looking forward to the coming Apocalypse. And then there's the small matter that someone appears to have misplaced the Antichrist . . . What readers are saying about Good Omens: ***** 'A superb recipe for disaster. I didn't stop grinning from beginning to end.' ***** 'Both Gaiman and Pratchett are great authors and they complement each other brilliantly.' ***** 'Superbly enjoyable read. Seamlessly co-written.'

The Psychopath Test

Trying to start a business in this economy? Struggling with little or no cash? Have no experience, no baseline to judge your progress against? Whether you're just starting out or have been at it for years, the Toilet Paper Entrepreneur's "get real"

I Will Die Free

Presents thousands of entries in American English and Latin American and Iberian Spanish, and includes grammar notes, verb lists, and guidance on word choice.

Good Omens

A NATIONAL BOOK CRITICS CIRCLE AWARD WINNER THE POSTHUMOUS MASTERWORK FROM "ONE OF THE GREATEST AND MOST INFLUENTIAL MODERN WRITERS" (JAMES WOOD, THE NEW YORK TIMES BOOK REVIEW) Composed in the last years of Roberto Bolaño's life, 2666 was greeted across Europe and Latin America as his highest achievement, surpassing even his previous work in its strangeness, beauty, and scope. Its throng of unforgettable characters includes academics and convicts, an American sportswriter, an elusive German novelist, and a teenage student and her widowed, mentally unstable father. Their lives intersect in the urban sprawl of Santa Teresa—a fictional Juárez—on the U.S.-Mexico border, where hundreds of young factory workers, in the novel as in life, have disappeared.

The Toilet Paper Entrepreneur

THE SUNDAY TIMES BESTSELLER 'Listen out for Rutger Bregman. He has a big future shaping the future' Observer 'A more politically radical Malcolm Gladwell' New York Times 'The Dutch wunderkind of new ideas' Guardian In Utopia for Realists, Rutger Bregman shows that we can construct a society with visionary ideas that are, in fact, wholly implementable. Every milestone of civilisation – from the end of slavery to the beginning of democracy – was once considered a utopian fantasy. New utopian ideas such as universal basic income and a fifteen-hour work week can become reality in our lifetime. From a Canadian city that once completely eradicated poverty, to Richard Nixon's near implementation of a basic income for millions of Americans, Bregman takes us on a journey through history, beyond the traditional left-right divides, as he introduces ideas whose time has come.

Diccionario Inglés de la Universidad de Chicago

Now, for the first time, a philosopher undertakes a systematic investigation of the moral and aesthetic issues to which cultural appropriation gives rise. Cultural appropriation is a pervasive feature of the contemporary world (the Parthenon Marbles remain in London; white musicians from Bix Beiderbeck to Eric Clapton have appropriated musical styles from African-American culture) Young offers the first

systematic philosophical investigation of the moral and aesthetic issues to which cultural appropriation gives rise Tackles head on the thorny issues arising from the clash and integration of cultures and their artifacts Questions considered include: "Can cultural appropriation result in the production of aesthetically successful works of art?" and "Is cultural appropriation in the arts morally objectionable?" "I devour every single delicious word Alexa Riley writes." —#1 New York Times and USA TODAY bestselling author Maya Banks New York Times bestselling author Alexa Riley's first full-length novel shows just what happens when a strong, possessive man finds the woman of his dreams I'll never forget the way she looked, so confident and sure of herself. I watched her from a distance. She wasn't ready for me yet. I didn't approach her and I didn't disturb her, but I never once took my eyes off her. Mallory Sullivan is ready to start her new life. After graduating at the top of her class, she's landed one of the most coveted internships in the United States. Hard work and determination have gotten her to this moment of living the life she only dreamed of growing up in foster care. From the start, I knew that she would be my greatest achievement, so the day I let her go, I set down a path for her. A path to me. She never expected Oz to be the greatest culmination of those dreams. But sometimes fate determines who you fall in love with. Who makes you lose control. Who owns your soul. And then you realize it wasn't fate at all... I've wanted to care for and protect her since the first moment I saw her. I've constructed everything in our lives so that at the perfect moment, I could have her, could give her the life she deserves. The time has come. This book is approximately 97,000 words One-click with confidence. This title is part of the Carina Press Romance Promise: all the romance you're looking for with an HEA/HFN. It's a promise!

Services Marketing

The book is very well-structured. . . [It] provides a timely contribution to a conversation with a long history, and debates over the nature and purpose of the university seem certain to figure prominently in educational discourse for many years to come. Peter Roberts, Journal of Educational Administrative and History Drawing from experience as a professor in innovation and entrepreneurship and as a consultant to universities, Wissema offers deep insights into management of the modern universities. The book is well-written and all those university administrators who wish to transform their universities into entrepreneurial universities would find the book very useful. Jandhyala B.G. Tilak, Journal of

Educational Planning and Administration In Central and Eastern Europe, universities are struggling to adapt to the new economic and institutional situations. The concept of the Third Generation University is powerful in giving direction. In addition, the book offers much practical advice, taken from the author's experience as a consultant to universities. Marjan Bojadzhiev, University American College Skopje, Macedonia Although the quality of university management makes or breaks the effectiveness and efficiency of a university, most university managers come unprepared to the job while only few books and courses in the subject are available. This book offers, amongst other things, welcome insights into the issue of university management. In Wageningen, the concept of the Third Generation University has proven to be inspiring, challenging and operational. It enabled us to develop science for Impact for a variety of new stakeholders. M. Kropff, Wageningen University and Research Centre, the Netherlands This book demonstrates that universities are subject to fundamental change, evolving from science-based, monodisciplinary institutions into transfunctional, international know-how hubs named third generation universities or 3GUs. J.G. Wissema explores the combination of forces that propel this dramatic change, tracing the historic development of universities, and exploring the technology-based enterprises, technostarters and financiers for start-ups and young enterprises that are the main partners of these 3GUs. He goes on to illustrate that universities play a new role as incubators of new science- or technology-based enterprises and take an active role in the exploitation of the knowledge they create. The book concludes with suggestions regarding the way in which changes in the university's mission should be reflected in subsequent organisational changes. Offering practical advice on the route forward for universities, and elucidating the role of education in entrepreneurship, this unique book will prove invaluable to academics and practitioners who seek to implement and facilitate changes for 3GU status. It will also appeal to students and researchers with an interest in business and management, education, entrepreneurship and public policy on education.

The Personal MBA

Winner of the AEJMC-Knudson Latin America Prize 2017 Social movements throughout contemporary Latin America are successfully influencing and shaping media policy. In this highly original, detailed, and in-depth study, Silvio Waisbord and María Soledad Segura scrutinize the goals, tactics, and impact of civic media movements across the region, demonstrating the full extent of media activism on domestic policy and politics. Media Movements goes beyond simple conceptions of 'the national' versus 'the global' to reveal the complicated process of media policy-making, and to evaluate the significance of local political elites and citizens, global actors, and legal frameworks. With success rates varying across the region, the authors offer an assessment of the impact of citizens' mobilization on policy-making, as well as the effects of legislation on ownership, funding, community media, non-profit media, and public media.

THE INSPIRATION FOR THE HULU ORIGINAL FILM Rediscover the true meaning of fear in this collection of horror stories from Clive Barker, New York Times bestselling author and creator of the Hellraiser series. Everybody is a book of blood; wherever we're opened, we're red. In this tour de force collection of brilliantly disturbing tales, Clive Barker combines the extraordinary with the ordinary, bringing to life our darkest nightmares with stories that both seduce and devour. As beautiful as they are terrible, the pages of this volume are stained with unsettling imagery, macabre humor, and visceral dread. Here then are the stories written on the Book of Blood. Read, if it pleases you, and learn.... This Volume includes: "The Book of Blood" • "The Midnight Meat Train" • "The Yattering and Jack" • "Pig Blood Blues" • "Sex, Death and Starshine" • "In the Hills, the Cities"

Towards the Third Generation University

This collection of essays explores two traditions of interpreting and manipulating nature in the early-modern and nineteenth-century Iberian world: one instrumental and imperial, the other patriotic and national. Imperial representations laid the ground for the epistemological transformations of the so-called Scientific Revolutions. The patriotic narratives lie at the core of the first modern representations of the racialized body, Humboldtian theories of biodistribution, and views of the landscape as a historical text representing different layers of historical memory.

Media Movements

Adina Carina trades her healthy school lunches for sugary treats, and discovers some of the negative effects it can have on her body. This story book is filled with colorful illustrations and includes activity pages to help children personalize the lesson.

The Art of the Start

From Mike Michalowicz, bestselling author of Profit First, Clockwork, and Fix This Next, a practical and proven guide to standing out in a crowded market. Many business owners are frustrated because they feel invisible in a crowded marketplace. They know they are better than their competitors, but when they focus on that fact, they get little in return. That's because, to customers, better is not actually better. Different is better. And those who market differently, win. In his new marketing book, Mike Michalowicz offers a proven, no-bullsh*t method to position your business, service, or brand to get noticed, attract the best prospects, and convert those opportunities into sales. Told with the same humor and straight-talk that's gained Michalowicz an army of ardent followers, with actionable insights drawn from stories of real life entrepreneurs, this book lays out a simple, doable system based on three critical questions every entrepreneur and business owner must ask about their marketing: 1. Does it differentiate? 2. Does it attract? 3. Does it direct? Get Different is a game-changer for everyone who struggles to grow because their brand, message, product or service doesn't stand out and connect with customers--the long-anticipated answer to the defining business challenge of our time.
