John Vervaeke: Psychedelics, Evil, & Buddhism - John Vervaeke: Psychedelics, Evil, & Buddhism by Theories of Everything with Curt Jaimungal 66,974 views 3 years ago 3 hours, 49 minutes - John Vervaeke is an Associate Professor at the University of Toronto focusing on the "meaning crisis" and a 3rd wave cognitive ...

Introduction

What is an "affordance" in Cognitive Science?

The different uses of the word "meaning"

Materialism vs Physical-ism

What is "truth"? Harris vs Peterson from a Cognitive Scientific perspective

Perspectival knowledge (definition and examples)

The ways we practice narrative

The two world model

Buddhism's influence on John's worldview

The definition of Harry Frankfurt's "bullshit"

Addiction

Relationship between Lucifer and Frankfurt's BS

What is the "meaning crisis"? (explicating the "meaning of life")

Poetry should be read aloud

Faith, love, and participatory knowledge

The Platonic / Aristotelian influence on Christianity

How do reverse-engineer other points of view (such as what it's like to be someone in the 1200s)

The relationship between "reason" and "love"

The skepticism toward wisdom institutions and the birth of narcissism

The way Vervaeke uses the word "God" (God as affording transcendence)

The language of myth is lost but we retain the grammar

Where are we going with the "meaning crisis"? Is it getting worse?

How does John manage his time?

What do psychedelics provide that meditation doesn't?

Modelling truth in the other domains of knowledge (procedural, participatory, perspectival)

The "interpretation crisis" vs the "meaning crisis"

"Meaning" is not present in the scientific world view

What's relevance? (technical term is: "relevance realization")

John Vervaeke's origin of recognition of others

How does John collaborate?

People will sacrifice wealth for meaning

What is "evil"? Buddhism vs Christianity

Is Nihilism negative to the psyche, or salutary?

What could "free will" mean, possibly? ("freedom" in a certain sense isn't intrinsically "good")

Trolley Problem + Sam Harris' model of "evil" being neurological and a reduction of responsibility

Jungian individuation's relationship to the Big 5 model

How do we practically use this knowledge to cultivate character?

On self-deception

Tony Robbins (and other self development gurus) operate primarily on the placebo effect

"Being in the present moment" is horrible advice

What is 3rd generation Cognitive Science?

On "wisdom is knowing the difference between what you control and what you don't."

What wisdom is (relevance realization)

Which theory of consciousness does Vervaeke think is most correct / wrong?

Are intelligent people more "consciousness" or wise? If so, are they then more valuable people?

What is "reason" vs "rationality"?

Audience question: What is objectivity / what is real?

Audience question: On evil, and a "moral dimension"

Audience question: Is the point of meditation to reduce anxiety?
