

Film Mirip Exam

[#movies like Exam](#) [#psychological thrillers](#) [#confined space movies](#) [#mystery puzzle films](#) [#suspense recommendations](#)

If you enjoyed the intense, psychological thriller Exam, you're likely looking for more films that offer similar mind-bending puzzles and high-pressure situations within a confined setting. These movies often feature characters trapped in a room, forced to solve a mystery or face extreme challenges, all while their true intentions are slowly revealed. Expect a plot full of suspense, moral dilemmas, and unexpected twists.

We ensure all dissertations are authentic and academically verified.

Thank you for choosing our website as your source of information.

The document Movies Like Exam is now available for you to access.

We provide it completely free with no restrictions.

We are committed to offering authentic materials only.

Every item has been carefully selected to ensure reliability.

This way, you can use it confidently for your purposes.

We hope this document will be of great benefit to you.

We look forward to your next visit to our website.

Wishing you continued success.

In digital libraries across the web, this document is searched intensively.

Your visit here means you found the right place.

We are offering the complete full version Movies Like Exam for free.

What happens inside your body when you exercise? - What happens inside your body when you exercise? by British Heart Foundation 1,747,249 views 6 years ago 2 minutes, 33 seconds - We all know **exercise**, is good for us, but what actually happens inside your body when you get active? Watch to find out, and learn ...

Regular physical activity can Tower your risk

Your heart starts to beat faster, pumping more blood to the muscles you are using.

Your muscles are working harder so they need more oxygen.

You start to breathe faster so your blood can

Your lungs work harder to make this happen.

it moves to the muscles you are using

giving them the extra oxygen they need.

more capillaries grow in the muscles you've been working

This is one reason why activity starts to feel easier over time.

If you have type 2 diabetes you have

Physical activity helps you use the insulin you do have.

Getting active cuts down on stress

Combine activity with a balanced diet and you'll help

Aim for 150 minutes of moderate-intensity

Try to be active every day.

Natural Running

Natural Running is the middle ground runners have been looking for. By learning to run the barefoot way, while wearing shoes, runners will become more efficient, stronger, and healthier runners. Backed by studies at MIT and Harvard, running form and injury expert Danny Abshire presents the natural running technique, form drills, and an 8-week transition plan that will put runners on the path to faster, more efficient, and healthier running. In Natural Running, Abshire explains how modern running shoes distort the efficient running technique that humans evolved over thousands of years. He reviews the history of running shoes and injuries, making the case for barefoot running but also warning about its dangers. By learning the natural running technique, runners can enjoy both worlds: comfortable feet, knees, and legs and an efficient running form that reduces impact and injuries. Natural Running teaches runners to think about injuries as symptoms of poor running form. Abshire specifies the overuse injuries that are most commonly associated with particular body alignment problems, foot types, and form flaws. Runners will learn how to analyze and identify their own characteristics so they can start down the path to natural running. Abshire explains the natural running technique, describing the posture, arm carriage, cadence, and land-lever-lift foot positioning that mimic the barefoot running style. Using Abshire's 8-week transition plan and a tool kit of strength and form drills, runners will move from heel striking to a midfoot or forefoot strike. Natural Running is the newest way to run and also the oldest. By discovering how they were meant to run, runners will become more efficient, stronger, and healthier runners.

Tread Lightly

Explains why running injuries are so common, examining running form, running shoe design, and training, and includes insights on such topics as the evolution of running, stress-related injuries, and the advantages of barefoot running.

The Run Walk Run® Method

Jeff's quest for the injury-free marathon training program led him to develop group training programs in 1978, and to author Runner's World articles which have been used by hundreds of thousands of runners of all abilities. His training schedules have inspired the second wave of marathoners who follow the Galloway RUN-WALK-RUN™, low mileage, three-day suggestions to an over 98% success rate. Jeff has worked with over 200,000 average people in training for specific goals. Jeff is an inspirational speaker to over 200 running and fitness sessions each year. His innovative ideas have opened up the possibility of running and completing a marathon to almost everyone. Philosophically, Jeff believes that we were all designed to run and walk, and he keeps finding ways to bring more people into the positive world of exercise.

Daniels' Running Formula

Get in the best shape of your running career with the help of Daniels' Running Formula, the book that Runner's World magazine calls the best training book. Premier running coach Jack Daniels provides you with his legendary VDOT formula to guide you through training at exactly the right intensity to run stronger, longer, and faster. Choose a program to get in shape, target a race program, or regain conditioning after layoff or injury. Train for competition with programs for 800 meters, 1500 meters to 2 miles, cross country races, 5K to 10K, 15K to 30K, and marathon events. Each program incorporates training intensities to help you build endurance, strength, and speed. With Daniels' Running Formula, you'll track the time you spend at each level, train more efficiently, and optimize results. Completely updated with new chapters on altitude training, seasonal programming, and treadmill training, Daniels' Running Formula, Third Edition, is the most comprehensive, accessible, and instantly applicable edition to date. Customizable to your current fitness level, competition goals, and schedule, the formula is the

ideal solution for any race, anywhere, anytime. Whether training or competing, get the results you're seeking every time you lace up with the workouts and programs detailed in Daniels' Running Formula.

Lebootcamp Diet

"After a lifetime of insane regimens, weight fluctuations, and feeling utterly demoralized, Valaerie Orsoni had enough of the diet scene. She wanted a way to shed pounds, become healthy, and keep to the great French tradition of enjoying food-- and enjoying life. The result? A groundbreaking diet plan that, to date, has more than one million members in 38 countries-and counting! Orsoni's plan, Le Bootcamp, is based on four simple tenets: Gourmet Nutrition; Easy Fitness; Motivation; and Stress and Sleep Management. Getting fit doesn't mean a lifetime of deprivation and misery. With the right tools, any food, activity, and lifestyle can be transformed into a healthy one- and Valaerie Orsoni can show you how."--

The Running Shoe Book

Every year, countless runners, endurance athletes, and outdoor enthusiasts discover the sport of trail running. Whether they run for peace of mind, appreciation of nature, or competition, they find a sport unlike any other. *Where the Road Ends: A Guide to Trail Running* captures the excitement, intensity, and appeal of the outdoors. From training and preparation to overcoming nature's obstacles, it's all here, accompanied by detailed instruction, expert insights, and stunning color photography. Inside you'll find these features: • Techniques for running over dirt, sand, roots, and rock • Equipment recommendations based on terrain, distance, and conditions • Safety guidelines for navigation, injury, and water crossings • Conditioning programs for all levels of runners • Strategies for improving race-day performance Whether you are an experienced road runner looking for new challenges or an extreme athlete pushing your physical limits, look no further than *Where the Road Ends*, the authoritative guide for conquering the trails, terrain, and conditions of the great outdoors.

Where the Road Ends

Fans of Simon Toyne's *Sanctus* and Dan Brown's *The Da Vinci Code* will be gripped by this relentless religious conspiracy thriller. The Vatican Cathedral is packed to the rafters as Pope Gregory XVII leads the congregation in mass. A cloaked stranger steps suddenly and fearlessly towards the altar and commands the wheelchair-bound Pope to stand. He does. The miracle stops the world in its tracks. Who is this stranger? More miraculous events follow and as the Vatican retreats and closes its doors to the world, journalist Alexander Trecchio and police officer Gabriella Fierro set out to find an explanation that might calm an increasingly hysterical nation. Because the question on everyone's lips is what the stranger's arrival might mean...and whether it finally heralds the End of Days.

Dominus

This book examines the manufacturing, supply chain and product-level sustainability of leather and footwear products. This book deals with the environmental and chemical sustainability aspects pertaining to the tanning supply chain and the related mitigation measures. The book also explores interesting areas of leather and footwear sustainability, such as waste & the 3R's and their certification for sustainability. At the product level, the book covers advanced topics like the circular economy and blockchain technology for leather and footwear products and addresses innovation development and eco-material use in footwear by investigating environmental sustainability and the use of bacterial cellulose, a potential sustainable alternative for footwear and leather products.

Leather and Footwear Sustainability

A science writer and recreational runner explores the science behind popularly held beliefs about shoes, injuries, nutrition, "runner's high," and more. Conventional wisdom about running is passed down like folklore (and sometimes contradicts itself): the right kind of shoe prevents injury--or running barefoot, like our prehistoric ancestors, is best; eat a high-fat diet--and also carbo load before a race; running cures depression--but it might be addictive; running can save your life--although it can also destroy your knee cartilage. Often it's hard to know what to believe. In *Running Smart*, Mariska van Sprundel, a science journalist and recreational runner who has had her fair share of injuries, sets out to explore the science behind such claims. In her quest, van Sprundel reviews the latest developments in sports science, consults with a variety of experts, and visits a sports lab to have her running technique

analyzed. She learns, among other things, that according to evolutionary biology, humans are perfectly adapted to running long distances (even if our hunter-gatherer forebears suffered plenty of injuries); that running sets off a shockwave that spreads from foot to head, which may or may not be absorbed by cushioned shoes; and that a good sports bra controls the ping pong-like movements of a female runner's breasts. She explains how the body burns fuel, the best foods to eat before and after running, and what might cause "runner's high." More than fifty million Americans are runners (and a slight majority of them are women). This engaging and enlightening book will help both novice and seasoned runners run their smartest.

Running Smart

Based on new research in exercise physiology, author and running expert Matt Fitzgerald introduces a first-of-its-kind training strategy that he's named "Brain Training." Runners of all ages, backgrounds, and skill levels can learn to maximize their performance by supplying the brain with the right feedback. Based on Fitzgerald's eight-point brain training system, this book will help runners: - Resist running fatigue - Use cross-training as brain training - Master the art of pacing - Learn to run "in the zone" - Outsmart injuries - Fuel the brain for maximum performance Packed with cutting-edge research, real-world examples, and the wisdom of the world's top distance runners, Brain Training for Runners offers easily applied advice and delivers practical results for a better overall running experience.

Brain Training For Runners

Too much exercise can kill you. The Haywire Heart is the first book to examine heart conditions in athletes. Intended for anyone who competes in endurance sports like cycling, triathlon, running races of all distances, and cross-country skiing, The Haywire Heart presents the evidence that going too hard or too long can damage your heart forever. You'll find what to watch out for, what to do about it, and how to protect your heart so you can enjoy the sports you love for years to come. The Haywire Heart shares the developing research into a group of conditions known as "athlete's heart", starting with a wide-ranging look at the warning signs, symptoms, and how to recognize your potential risk. Leading cardiac electrophysiologist and masters athlete Dr. John Mandrola explores the prevention and treatment of heart conditions in athletes like arrhythmia, atrial fibrillation and flutter, tachycardia, hypertrophy, and coronary artery disease. He reviews new research about exercise intensity and duration, recovery, inflammation and calcification, and the ways athletes inflict lasting harm. These heart problems are appearing with alarming frequency among masters athletes who are pushing their bodies harder than ever in the hope that exercise will keep them healthy and strong into their senior years. The book is complete with gripping case studies of elite and age-group athletes from journalist Chris Caselike the scary condition that nearly killed cyclist and coauthor Lennard Zinnand includes a frank discussion of exercise addiction and the mental habits that prevent athletes from seeking medical help when they need it. Dr. Mandrola explains why many doctors misdiagnose heart conditions in athletes and offers an invaluable guide on how to talk with your doctor about your condition and its proven treatments. He covers known heart irritants, training and rest modifications, effective medicines, and safe supplements that can reduce the likelihood of heart damage from exercise. Heart conditions affect hardcore athletes as well as those who take up sports seeking better health and weight loss. The Haywire Heart is a groundbreaking and critically important guide to heart care for athletes. By protecting your heart now and watching for the warning signs, you can avoid crippling heart conditions and continue to exercise and compete for years to come.

The Haywire Heart

Pat Benson has covered the NBA and sneakers for years, including writing for Forbes.com. While grieving from the loss of his hero and quarantining during a pandemic, Benson dedicated countless hours documenting anything that had to do with what Kobe Bryant wore on his feet. In Kobe Bryant's Sneaker History (1996-2020), everything from the technology to the marketing campaigns is examined and woven into the story of Bryant's incredible career. In this book, journalists, friends, trainers, and staff members give detailed accounts that paint a vivid picture of an athlete and businessman obsessed with performance footwear. Whether searching for obscure information that has been lost in time or taking a nostalgic trip down memory lane, this is the definitive historical account of Bryant's one-of-a-kind sneaker career.

Biomechanics of Sport Shoes

Now a major motion picture nominated for nine Academy Awards. Narrative of Solomon Northup, a Citizen of New-York, Kidnapped in Washington City in 1841, and Rescued in 1853. Twelve Years a Slave by Solomon Northup is a memoir of a black man who was born free in New York state but kidnapped, sold into slavery and kept in bondage for 12 years in Louisiana before the American Civil War. He provided details of slave markets in Washington, DC, as well as describing at length cotton cultivation on major plantations in Louisiana.

Kobe Bryant's Sneaker History (1996-2020)

Ready to Run an Ultramarathon? When you consider marathons, do you think, "been there, done that"? Like so many others, do you believe that humans were born to run? Do you seek a new challenge that tests your mental and physical limits? If you answered yes to any of these questions, then it's time to read "Relentless Forward Progress" and give ultramarathons a try! Veteran ultramarathoner and coach Bryon Powell shares insider know-ledge about training, racing, fueling, hydration, and much more. In this guide, you'll find: --Daily training plans for races from 50k to 100 miles --A crash course in how to trail run --Advice from some of the world's top ultrarunners --Proven strategies for race day success --Useful approaches for running uphill and downhill --What to look for in ultramarathon gear --Practical wisdom on speed work --Cross training ideas for running fitness and recovery --Tips on running barefoot --Inspiration to go farther than you've ever gone before

Twelve Years a Slave

Surrounded by lies and deceit how do you work out who is telling the truth? When highly decorated war hero, Colonel Tariq joins the intelligence agency, his rise to the top seems assured. But in his first case he discovers a CIA agent has killed a young prostitute and a diplomatic crisis erupts. As the two nations negotiate, angry mobs take to the streets and he is caught up in a national scandal. Tariq is instructed to eliminate the only witness and instigate a cover up, trapping him in a terrible moral dilemma. As his professional ambition and private life collide, he must make a life changing decision that will have far reaching consequences for the future of his family and his country.

Relentless Forward Progress

It's Aya's wedding day. Her third. Her current two husbands aren't too fussed. In a society in which there are few women, that's just what happens. But as the household prepares for the wedding feast, a stranger arrives – one who threatens to challenge everything they believe in. Against a backdrop of modern rural India, Sharmila Chauhan weaves an extraordinary tale of love and wonder. From the preparation of luxury food and the sacrifice of the lamb to the dressing of the bride and the dance to end all dances, this will be an exuberant, joyful and challenging piece of theatre. 'In parts of India, polyandry has become a necessity. Gendercide, as a consequence of the ancient preference for boys, the modern desire for smaller families and the increasing availability of ultrasound techniques to detect the gender of a baby still in the womb means that the number of females is declining. I wrote The Husbands both as a response to this but also as an exploration of the complexity of love, intimacy and trust between one woman and three men where gender differences and expectations are amplified. In a sense this play is as much a warning as an allegory for the fate of women in The West today.' - Sharmila Chauhan

The Dishonoured

We've been tantalised by the idea of eternal youth since time immemorial. We're always asking how we can live longer, and better. Or, to put it another way, why can't we all be like Madame Calment who cycled till she was 100, smoked till she was 117 and died at the wonderfully old age of 122? Join veteran reporter Bill Gifford for a rip-roaring ride along the trail to the fountain of youth. Meet the scientists who have doubled the life-expectancy of mice by knocking out a single gene, and others like Aubrey de Grey, who claims that we are on the cusp of achieving 'longevity escape velocity', and who predicts that our children could live for a thousand years. An intoxicating mixture of deep reporting, fascinating science and sound advice, Spring Chicken will reveal the extraordinary breakthroughs that may yet bring us eternal youth, while exposing the dangerous deceptions that prey on the innocent and ignorant.

The Husbands

Provides a detailed clinical introduction to the application of biomechanics to the understanding and treatment of walking disorders. Practical issues in the performance of a three-dimensional clinical gait analysis are covered, together with several clinical cases illustrating the interpretation of findings. These cases also demonstrate the use of a variety of treatment methodologies, including physical therapy, walking aids, prosthetics and orthotics, botulinum toxin and surgery.

Spring Chicken

Recommended by "Runner's World" magazine as "the best training book" by "the world's greatest coach," "Daniels' Running Formula" provides an expert training and racing blueprint for dedicated runners of all abilities.

Clinical Gait Analysis

This book critically investigates the expanding involvement of a leading emerging power, Brazil, in one of Africa's fastest growing economies, Mozambique. It focuses on the dynamics of Brazilian development assistance, its flagship engagement in Mozambique's agricultural and resource sector and the burgeoning social ties that bind them together. With elites in Brazil and Mozambique celebrating the strengths of South-South Cooperation, there is an emerging belief that the two countries are on the path to forging a new development partnership. However, despite these official discourses, there is growing evidence that the conduct of Brazilian firms and the policies promoted by Brazilian development assistance projects are generating negative fallout within local communities and among local environmental activists. Indeed, the complexities of Brazil's economic diplomacy and its private commercial interests, coupled with the involvement of everyone from Brazilian NGOs operating in the health sector to missionaries evangelising in rural towns in Mozambique, seem to affirm the unique characteristics of this growing relationship and the problems that it is facing in becoming truly sustainable.

Daniels' Running Formula

Tanika Gupta returns with a hilarious and touching story of love, attachment and what we mean by home. Bindi and Mansoor might just be the most popular couple on their street, but after 45 years of a loving marriage, Mansoor has vowed to swap the cold streets of Stratford for a sun soaked Delhi. The problem? Bindi's not convinced and has concocted a last minute plan to lure him back.

Mozambique and Brazil

A brilliantly entertaining and exhilarating riff on the structure and format of a TV hospital drama.

Love 'N Stuff

Exploring some of the most extraordinary moments from the history of endurance sports, this unique sports book shows how mental strength allows some athletes to perform at a level way beyond their physical limits – to will their body to do what was previously thought biologically impossible. Revealing habits and tactics you can use to cultivate your own mental strength, this unique book describes a new 'psychobiological' model of endurance performance connecting the mind, body and brain. Compelling accounts from triathlon, cycling, running, rowing and swimming are viewed through the lens of this model shedding new light on what science has to say about mental fortitude in sports. Drawing on cutting-edge scientific research it suggests concrete tactics for cultivating mental strength, whilst providing thrilling accounts of some of the most inspiring and astonishing feats in sporting history, such as Sammy Wanjiru who, in 2010 entered the Boston Marathon suffering from injuries to his knee and his lower back, a stomach virus that prevented him from training and a lifestyle that meant he spent more time in nightclubs than on the track. He shouldn't have even been able to finish the race, and at times he seemed as if he literally had nothing left to give, yet in an epic battle he crossed the finishing line first. How did he manage it? Find out in this sports book like no other and prepare for your own test of endurance! Featured athletes include: Sammy Wanjiru, Jenny Barringer, Greg LeMond, Willie Stewart, Cadel Evans, Joseph Sullivan, Paula Newby-Fraser, Ryan Vail, Thomas Voeckler, Ned Overend, Steve Prefontaine.

How Bad Do You Want It?

"A Wall Street Journal columnist for "Weekend Confidential" explores the hubris and ambition of Silicon Valley innovators who are changing the world, tracing the stories of three upstarts who left promising college educations in favor of developing billion-dollar ideas"--NoveList.

The Ultimate Hiker's Gear Guide

Beware, the Dead are coming back! This is a unique and fascinating collection of early mummy stories that helped to establish the chilling concept of the Dead returning to life as a potent sub-genre of horror fiction. The main feature on the mummy bill, 'The Jewel of the Seven Stars' by Bram Stoker, is generally regarded as his best work after Dracula. A weird mixture of adventure, the supernatural and science fiction is found in Jane Webb's 'The Mummy', a tale written in 1827 but set in 2126. 'Some Words with a Mummy' is by the great horror writer Edgar Allen Poe. Arthur Conan Doyle's 'The Ring of Thoth' is the classic mummy tale and was the basis for the 1932 movie 'The Mummy' starring Boris Karloff and, indeed most mummy films ever since. 'Lot 249', another Doyle chiller, completes this collection, which is guaranteed to entertain and possibly prompt a nightmare.

Valley of the Gods

How to apply an endurance athlete's gritty, perseverant, and positive mental strategies cultivate a winning mindset and achieve success in work, family, athletics, and beyond

Prison Papers

CNN correspondent Tom Foreman's remarkable journey from half-hearted couch potato to ultra-marathon runner, with four half-marathons, three marathons, and 2,000 miles of training in between; a poignant and warm-hearted tale of parenting, overcoming the challenges of age, and quiet triumph. As a journalist whose career spans three decades, CNN correspondent Tom Foreman has reported from the heart of war zones, riots, and natural disasters. He has interviewed serial killers and been in the line of fire. But the most terrifying moment of his life didn't occur on the job—it occurred at home, when his 18-year old daughter asked, "How would you feel about running a marathon with me?" At the time, Foreman was approaching 51 years old, and his last marathon was almost 30 years behind him. The race was just sixteen weeks away, but Foreman reluctantly agreed. Training with his daughter, who had just started college, would be a great bonding experience, albeit a long and painful one. My Year of Running Dangerously is Foreman's journey through four half-marathons, three marathons, and one 55-mile race. What started as an innocent request from his daughter quickly turned into a rekindled passion for long-distance running—for the training, the camaraderie, the defeats, and the victories. Told with honesty and humor, Foreman's account captures the universal fears of aging and failure alongside the hard-won moments of triumph, tenacity, and going further than you ever thought possible.

Return from the Dead

As digital transformation has accelerated, the e-commerce landscape has become increasingly dynamic. New players have emerged at the same time that established actors have taken on new roles; some barriers to e-commerce at the firm, individual and country levels have been overcome, while other barriers have emerged. Innovative business models have transformed buyer-seller relationships and pushed out the frontier of what is possible to buy and sell online.

The Ultra Mindset

Explores how the influence of fashion and sport extends from high performance textiles developed for competition, to high-end fashion and finally, through the filter of adapted advertising and magazine imagery, to the consumer, who adopts and adapts the styles to make their own unique fashion statements.

My Year of Running Dangerously

Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates.

Michigan Horticulturist

The Writing strand prepares students for academic written work by teaching them the language, content, and rhetoric needed for success in college courses. These texts build student confidence by presenting step-by-step, easy-to-learn processes for effective writing.

Fashion and Sport

The old lady on this train is looking at me, staring at me, she's been doing it since New Eltham, I can feel her eyes on the sweat on my neck. I turn to catch her out, and she flicks her head back to her book, like she's subtle, but she ain't. I wish she'd just punch me, y'know? The punch I can take, but the look . . . all these frightened half-glances they . . . they just . . . When a violent encounter leads to a whirlwind romance, young Rahul is more than willing to be caught up. But in the aftermath of 7/7, his world changes in ways he cannot control, drawing him into ever-darker places as he struggles to remain part of a British society that now distrusts him on sight. Sweeping between the paranoid London of 2005 and the euphoric city of the 2012 Olympics, HighTide Escalator writer Vinay Patel's debut play is an honest, humorous, hopeful play about wanting to love and be loved. By your crush. By your friends. By your country. True Brits received its world premiere on 31 July 2014 at the Assembly Hall, Baillie Room, Edinburgh.

The Continental Drama of To-Day

COSTUME, CLOTHES & FASHION. This one-of-a-kind, A-to-Z reference work contains over 150 fascinating entries and intriguing sidebars that look at feet and adornment of feet across the many cultures of the world throughout time. A wide range of international and multicultural topics are covered, including footbinding, fetishes, diseases, customs and beliefs, shoe construction, myths and folktales, the history of footwear, iconic brands and types of shoes, removing shoes upon entering a house, covering feet up for social customs, and the types of footwear worn around the world.

College Writing: Intermediate

'Unplug is the book I wish I had when I first started meditating. Simple, smart, and inspirational, it provides concrete tools you can use to live a more fulfilling, happier, and yes, more productive life' Arianna Huffington THE MODERN GUIDE TO MEDITATION FOR BUSY PEOPLE Unplug is the modern, minimalist guide to meditation for busy people. Whether you're a Fortune 500 CEO or someone bogged down with a never ending to-do list, Suze Yalof-Schwartz shows that you can get more done - and do it better - by consciously unplugging for just a few minutes each day. This revolutionary book

brilliantly simplifies the art of meditation and reveals the life-changing benefits you will experience, from improved memory and a more positive outlook to a reduction in anxiety and stress. Through easy techniques and tips for incorporating meditation into your daily life, Unplug shows you that everyone can meditate, even if - especially if - you believe you think too much, have no time, can't sit still or that it's just 'not you'.
