Schelling, Strategy, Industrial Organization - Schelling, Strategy, Industrial Organization by UC Berkeley Events 10,523 views 15 years ago 1 hour, 29 minutes - Thomas C. Schelling Symposium - Schelling, Strategy, **Industrial Organization**, Chair: Richard Gilbert, UC Berkeley, Economics ...

It's My Pleasure To Introduce My Friend Richard Gilbert Who's Chairing this Session Rich Is Undergraduate Engineer by Training He's Been an Expert in a Whole Variety of Fields Ranging from Industrial Organization Regulation Competition Policy and Energy Regulation He Also Has the

Misfortune of Being a Very Good Administrator and that Has Meant that He Spent the Better Part of a Decade as the Director of the University of California Energy Institute and the Only Way He Got out of that Was by Being Named Deputy Assistant Secretary of the Deputy Assistant Attorney General for Competition and Economics at the Justice Department and the Clinton Administration

And at some Level That's a Primitive Concept but at some Level Writing It Down Is Itself Already a Very Big Analytical Step and I Think the Big Step Is What Is on the Rows and Columns What Are the Moves That Determine the Jointly Determined the Payoffs so There's a Approach and Rich Alluded to this in Especially the More Mathematical Areas of Game Theory That Says Well What's on the Rows and the Columns Is the Strategies That the Players Can Play and the Way of Thinking that that Pushes You towards Is that You Start Out Knowing What the Different Strategies Are and Then the Attention Focuses on How those Strategies Determine Payoffs and on What You Therefore Will Do Since What I Love about Tom Schelling's Work Is that He Resolutely Postpones Writing Down What the Strategies Are Even When It's Rather Obvious What the Payoffs Are and What the Payoffs Depend On in Other Words What Happens in Reality Is that There's a Lot More Action in Specifying What the Strategies Might Be Then There Is in Analyzing How those Determined Payoffs and What People Will Do in Response so Stepping Back a Little Bit from that I Think There's a Very Broad Lesson about the Methodology of Science

Some of Which You Might Do in the Battle of the Sexes You Might Preempt or Commit by Moving First so You Might Delay and See if You Can At Least Achieve the Benefits of Coordination by Waiting until the Other Person Has Moved so that You Can Then Follow What They Did You'Re Going To Lose Out on Conflict that Way but You'LI Gain Whatever It Is about Coordination That You Value another One That I'Ve Worked on Is You Might Actually Talk to each Other

What Is Strategy? It's a Lot Simpler Than You Think - What Is Strategy? It's a Lot Simpler Than You Think by Harvard Business Review 879,548 views 2 years ago 9 minutes, 32 seconds - To many people, **strategy**, is a total mystery. But it's really not complicated, says Harvard **Business**, School's Felix Oberholzer-Gee, ...

To many people, strategy is a mystery.

Strategy does not start with a focus on profit.

It's about creating value.

There's a simple tool to help visualize the value you create: the value stick.

What is willingness-to-pay?

What is willingness-to-sell?

Remind me: Where does profit come in again?

How do I raise willingness-to-pay?

And how do I lower willingness-to-sell?

Real world example: Best Buy's dramatic turnaround
