Gold in the Black Hills

Does a witch's ghost haunt a park in Annapolis? Why should Baltimore really be called Charm City? What weird stories and traditions regarding witches in the Chesapeake region are true and where did the others originate? What is the real history of witchcraft in early Maryland? How were accusations of witchcraft handled by the authorities? Why did Maryland not suffer the same fate as Salem in 1692? Reviewing early Maryland records, newspaper articles, and other accounts from the 17th to the early 20th century, this book answers these questions and more, while revealing Maryland's fascinating witch-related history.

Genealogical Guide

What if we ascribe significance to aesthetic and social divergences rather than waving them aside as anomalous? What if we look closely at what does not appear central, or appears peripherally, or does not appear at all, viewing ellipses, outliers, absences, and outtakes as significant? *Eccentric Modernisms* places queer demands on art history, tracing the relational networks connecting cosmopolitan eccentrics who cultivated discrepant strains of modernism in America during the 1930s and 1940s. Building on the author's earlier studies of Gertrude Stein and other lesbians who participated in transatlantic cultural exchanges between the world wars, this book moves in a different direction, focusing primarily on the gay men who formed Stein's support network and whose careers, in turn, she helped to launch, including the neo-romantic painters Pavel Tchelitchew and writer-editor Charles Henri Ford. *Eccentric Modernisms* shows how these "eccentric modernists" bucked trends by working collectively, reveling in disciplinary promiscuity and sustaining creative affiliations across national and cultural boundaries.

Witch Trials, Legends, and Lore of Maryland

Fresh perspectives and eye-opening discussions of contemporary American fiction In *The Encyclopedia of Contemporary American Fiction: 1980-2020*, a team of distinguished scholars delivers a focused and in-depth collection of essays on some of the most significant and influential authors and literary subjects of the last four decades. Cutting-edge entries from established and new voices discuss subjects as varied as multiculturalism, contemporary regionalisms, realism after poststructuralism, indigenous narratives, globalism, and big data in the context of American fiction from the last 40 years. The Encyclopedia provides an overview of American fiction at the turn of the millennium as well as a vision of what may come. It perfectly balances analysis, summary, and critique for an illuminating treatment of the subject matter. This collection also includes: An exciting mix of established and emerging contributors from around the world discussing central and cutting-edge topics in American fiction studies Focused, critical explorations of authors and subjects of critical importance to American fiction Topics that reflect the energies and tendencies of contemporary American fiction from the forty years between 1980 and 2020 *The Encyclopedia of Contemporary American Fiction: 1980-2020* is a must-have resource for undergraduate and graduate students of American literature, English, creative writing, and fiction studies. It will also earn a place in the libraries of scholars seeking an authoritative array of contributions on both established and newer authors of contemporary fiction.

Focuses on highly integrated radio systems that can be embedded in wireless devices for various applications. The author presents the relevant information from communications theory, radio propagation, and digital/analog/radio-frequency (RF) circuits to help designers understand the complex trade-offs that must be decided when integrating digital radio systems on a chip. Individual chapters explore spread-spectrum communications, RF system design, radio system design, and digital radio

architecture. The implementation details of the RF transceiver and its associated components, and of the digital transceiver and its associated signal processing are then given. The final chapter illustrates the design principles and radio components through case studies. c. Book News Inc.

"We are not strong enough to assimilate races so alien from us in their habits ... We are afraid they will swamp our civilization as such. " -- Nanaimo Free Press, 1914 A White Man's Province examines how British Columbians changed their attitudes towards Asian immigrants from one of toleration in colonial times to vigorous hostility by the turn of the century and describes how politicians responded to popular cries to halt Asian immigration and restrict Asian activities in the province. White workingmen objected to Asian sojourning habits, to their low living standards and wages, and to their competition for jobs in specific industries. Because employers and politicians initially supported Asian immigrants, early manifestations of antipathy often appeared just as another dispute between capital and labour. But as their number increased, complaints about Asians became widespread, and racial characteristics became the nucleus of such terms as a 'white man's province' -- a 'catch phrase' which, as Roy notes, 'covered a wide variety of fears and transcended particular economic interests.' The Chinese were the chief targets of hostility in the nineteenth century; by the twentieth, the Japanese, more economically ambitious and backed by a powerful mother country, appeared more threatening. After Asian disenfranchisement in the 1870s, provincial politicians, freed from worry about the Asian vote, fueled and exploited public prejudices. The Asian question also became a rallying cry for provincial rights when Ottawa disallowed anti-Asian legislation. Although federal leaders such as John A. Macdonald and Wilfrid Laurier shared a desire to keep Canada a 'white man's country,' they followed a policy of restraint in view of imperial concerns. The belief that whites should be superior, as Roy points out, was then common throughout the Western world. Many of the arguments used in British Columbia were influenced by anti-Asian sentiments and legislation emanating from California, and from Australia and other British colonies. Drawing on almost every newspaper and magazine report published in the province before 1914, and on government records and private manuscripts, Roy has produced a revealing historical account of the complex basis of racism in British Columbia and of the contribution made to the province in these early years by its Chinese and Japanese residents.
