Speeches Against Catilina...

A commentary for students on the four speeches delivered by Cicero during the crisis of 63 BC, when, as consul, he faced a conspiracy to overthrow the Roman state launched by the frustrated consular candidate Lucius Sergius Catilina. They show him at the height of his oratorical powers and political influence.

M. Tullii Ciceronis in L. Catilinam

The Catiline Oration is a speech given to the Roman Senate in 63 BC by Marcus Tullius Cicero, accusing Lucius Sergius Catilina of treason against Rome. Oratio in Catilinam Prima in Senatu Habita Oratio in Catilinam Secunda Habita ad Populum Oratio in Catilinam Tertia ad Populum Oratio in Catilinam Quarta in Senatu Habita This edition does not contain page numbers. The text is in Latin.

Quae Fertur Oratio IV. in Catilinam

It's an essay on old age and death. Its rational and philosophical subject matter is embellished by beautiful language. This book is a luminous substantiation of Cicero's meticulous emblematic style. It is still popular as Cicero's powerful commentary over a very momentous issue of growing age with explanatory notes is astounding. Timeless!

Catilinarians

Catiline Oration

On Obligations (De officiis) was written by Cicero in late 44 BC after the assassination of Julius Caesar to provide principles of behaviour for aspiring politicians. It explores the apparent tensions between honourable conduct and expediency in public life, and the right and wrong ways of attaining

political leadership. The principles of honourable behaviour are based on the Stoic virtues of wisdom, justice, magnanimity, and propriety; in Cicero's view the intrinsically useful is always identical with the honourable. Cicero's famous treatise has played a seminal role in the formation of ethical values in western Christendom. Adopted by the fourth-century Christian humanists, it became transmuted into the moral code of the high Middle Ages. Thereafter, in the Renaissance from the time of Petrarch, and in the Age of Enlightenment that followed, it was given central prominence in discussion of the government of states. Today, when corruption and conflict in political life are the focus of so much public attention, *On Obligations* is still the foremost guide to good conduct.

The Speeches

De Officiis (On Duties) was Cicero's last philosophical work. In it he made use of Greek thought to formulate the political and ethical values of Roman Republican society as he saw them, revealing incidentally a great deal about actual practice. Writing at a time of political crisis after the assassination of Julius Caesar in 44BC, when it was not clear how much of the old Republican order would survive, Cicero here handed on the insights of an elder statesman, adept at political theory and practice, to his son, and through him, to the younger generation in general. *De Officiis* has often been treated merely as a key to the lost Greek works that Cicero used. This volume aims to render *De Officiis*, which was such an important influence on later masterpieces of Western political thought, more intelligible by explaining its relation to its own time and place. A wholly new translation is accompanied by a lucid introduction and all the standard features of Cambridge Texts in the History of Political Thought, including a chronology, select bibliography, and notes on the vocabulary and significant individuals mentioned in the text.

On Old Age

Orations were speeches given in 63 BC by Marcus Tullius Cicero, the consul of Rome to expose to the Roman Senate the plot to overthrow the Roman government, purportedly led by Lucius Sergius Catilina and his allies. There is scholarly debate about the trustworthiness of Cicero's speeches, including questions as to how factually true they are, with some ancient historians such as Sallust hinting that Catiline is a more complex and sympathetic character than Cicero's writings suggest. These accounts took place almost a hundred years or more after the orations, but portray Catiline in a more sympathetic light, even going so far as to excuse him of any involvement at all, leading to questions of whether the Catilinarians were political propaganda designed to solidify Cicero's position in the political sphere rather than a factual account of the events of 63. However, most accounts of the events come from Cicero's pen himself. This is one of, if not the most, well documented events taking place in the ancient world, and has set the stage for classic political struggles pitting homeland security against civil liberties. As political orations go, it was relatively short, some 3,400 words, and to the point. The opening remarks are still widely remembered and used after 2000 years: *Quo usque tandem abutere, Catilina, patientia nostra? Quam diu etiam furor iste tuus nos eludet? Quem ad finem sese effrenata iactabit audacia?* When, O Catiline, do you mean to cease abusing our patience? How long is that madness of yours still to mock us? When is there to be an end of that unbridled audacity of yours, swaggering about as it does now? Also remembered is the famous exasperated exclamation, *O tempora, o mores!* (Oh the times! Oh the customs!). Catiline was present when the speech was delivered. He replied to it by asking people not to trust Cicero because he is *Homo Novus* and to trust Catiline because of the history of his family.

Cicero: In Catilinam I and II

'Two things alone I long for: first, that when I die I may leave the Roman people free...and second, that each person's fate may reflect the way he has behaved towards his country.' Cicero (106-43 BC) was the greatest orator of the ancient world and a leading politician of the closing era of the Roman republic. This book presents nine speeches which reflect the development, variety, and drama of his political career, among them two speeches from his prosecution of Verres, a corrupt and cruel governor of Sicily; four speeches against the conspirator Catiline; and the Second Philippic, the famous denunciation of Mark Antony which cost Cicero his life. Also included are *On the Command of Gnaeus Pompeius*, in which he praises the military successes of Pompey, and *For Marcellus*, a panegyric in praise of the dictator Julius Caesar. These new translations preserve Cicero's rhetorical brilliance and achieve new standards of accuracy. A general introduction outlines Cicero's public career, and separate introductions explain the political significance of each of the speeches. Together with its

companion volume, *Defence Speeches*, this edition provides an unparalleled sampling of Cicero's oratorical achievements.

On Obligations

Pro Murena is a speech delivered by Cicero in defense of Lucius Licinius Murena. The speech can be dated to late November of 63 BCE. Four candidates stood for the next year's consulship. Murena was one of the victors.

Cicero: On Duties

The Republic of Cicero by Marcus Tullius Cicero. The imperfect manuscript, a translation of which is now presented to the public, was discovered in the Library of the Vatican, by Professor Angelo Mai; a person of singular ingenuity in the detection of those Palimpsests whose contents were written upon ancient writings partially erased. A fac simile of part of the MSS. accompanies this work. *The Republic* of Cicero was greatly cherished by those who lived in and near his times; of which occasional evidences are found in the writings of antiquity. But the tyranny of the emperors bridled the Romans so soon after its appearance, that Horace, Virgil, Seneca, Quintilian, Pliny, and even Tacitus, have not dared to praise it, lest they should bring down vengeance upon themselves. It is remarkable that while despotism was rapidly extinguishing philosophy and letters, and the very existence of these precious monuments of better times was scarcely thought of; the Christian religion was gradually raising up amidst the persecutions of the primitive church, new champions for truth and justice; to whose works we are indebted for many valuable fragments of the best writers of antiquity, and for almost all the passages of Cicero's *Republic* which we were acquainted with, until the late discovery of professor Mai.

Cicero

How long, Catilina, will you abuse our patience? Can you not read the signs of public excitement which show that your designs are known to all of us? Yet you dare to come here, and we hesitate to inflict upon you the death you deserve. Your predecessors in revolution were summarily dealt with; we have allowed the Senate's decree to lie idle for twenty days.

Orations

As consul in 63 BC Cicero faced a conspiracy to overthrow the Roman state launched by the frustrated consular candidate Lucius Sergius Catilina. Cicero's handling of this crisis would shape foreverafter the way he defined himself and his statesmanship. The four speeches he delivered during the crisis show him at the height of his oratorical powers and political influence. Divided between deliberative speeches given in the senate (1 and 4) and informational speeches delivered before the general public (2 and 3), the *Catilinarians* illustrate Cicero's adroit handling of several distinct types of rhetoric. Beginning in antiquity, this corpus served as a basic text for generations of students but fell into neglect during the past half-century. This edition, which is aimed primarily at advanced undergraduates and graduate students, takes account of recently discovered papyrus evidence, recent studies of Cicero's language, style and rhetorical techniques, and the relevant historical background.

Political Speeches

Benjamin Patrick Newton's translation of Cicero's *On Duties* is the most complete edition of a text that has been considered a source of moral authority throughout classical, medieval, and modern times. Marcus Tullius Cicero was a preeminent Roman statesman, orator, and philosopher who introduced philosophy into Rome, and through Rome, into Christendom and the modern world. *On Duties* was championed by important thinkers including Thomas Aquinas, Montesquieu, and Voltaire, and it was one of the earliest books printed on the Gutenberg press. The true significance of *On Duties* lies in its examination of several fundamental problems of political philosophy, the most important being the possible conflict between the honorable and the useful. The honorable encompasses the virtues of human beings, which include justice and concern for the common good. The useful refers to the needs of living beings, which includes certain necessities and concern for private good. Only by understanding the possible conflict between these two sides of human nature, Cicero declares, may we understand our duties to our community and to ourselves. This new edition of *On Duties* aims to provide readers who cannot read Latin but wish to study the book with a literal yet elegant translation. It features an

introduction, outline, footnotes, interpretative essay, glossary, and indexes, making Cicero's thought accessible to a general audience.

The Republic of Cicero

Though his name does not appear on the titlepage, any merit discoverable in the translation of *De Oratore*, Book I is largely due to my friend Mr. Charles Stuttaford, sometime of Amersham Hall School. Originally entrusted with the execution of both these volumes, he had done much preliminary work on the text and translation of Book I, when reasons of health compelled him to relinquish his task. I most gratefully acknowledge my heavy indebtedness to his labours...

Speeches against Catilina

An accessible 2001 translation of Cicero's important work on ethics.

Cicero: Catilinarians

This famous oration by the Roman statesman and philosopher Cicero is a scathing indictment of the senator Catiline, who is accused of plotting against the Roman Republic. Cicero's speech is a masterful work of rhetoric, widely regarded as one of the greatest speeches in the history of the Latin language. This edition includes the original Latin text, along with a new English translation and extensive notes on the historical and literary context of the speech. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. Speeches Against Catilina

In his youth, in preparation for a public career, Cicero devoted himself with ardour and success to the study of philosophy, and, during the whole of an exceptionally busy life, spent all his spare moments in reading and in the society of the learned. As a relaxation from public employment he produced in 55 B.C. his *De oratore*, in 54 his *De republica* and in 52 his *De legibus*. His choice of literature as his chief pursuit was due to political causes.

On Duties

Oratio in Catilinam Prima in Senatu Habita

De Officiis Or on Duties on Obligations

Marcus Tullius Cicero (106 BC-43 BC) was a Roman statesman, lawyer, political theorist, philosopher, and Roman constitutionalist. He is widely considered one of Rome's greatest orators and prose stylists. He is generally perceived to be one of the most versatile minds of ancient Rome. He introduced the Romans to the chief schools of Greek philosophy and created a Latin philosophical vocabulary, distin-

guishing himself as a linguist, translator, and philosopher. An impressive orator and successful lawyer, he probably thought his political career his most important achievement. Today, he is appreciated primarily for his humanism and philosophical and political writings. Although a great master of Latin rhetoric and composition, Cicero was not Roman in the traditional sense, and was quite self-conscious of this for his entire life. He was declared a "righteous pagan" by the early Catholic Church, and therefore many of his works were deemed worthy of preservation. Saint Augustine and others quoted liberally from his works *On the Republic* and *On the Laws*, and it is due to this that we are able to recreate much of the work from the surviving fragments.

Cicero: On Moral Ends

CICERO (Marcus Tullius, 3rd Jan. 106-7th Dec. 43 B.C.), Roman lawyer, orator and politician (and even philosopher), of whom we know more than of any other Roman, lived through the stirring era which saw the rise, dictatorship, and death of Julius Caesar in a tottering republic. In his political speeches especially and in his correspondence we see the excitement, tension and intrigue of politics and the part he played in the turmoil of the time. Of about 106 Speeches, delivered before the Roman people or the Senate if they were political, before jurors if judicial, 58 survive (a few of them incompletely). In A.D. 1345 Petrarch discovered copies of a collection of more than 900 Letters of which more than 800 were written by Cicero and nearly 100 by others to him. These afford a revelation of the man and all the more striking because they were not written for publication. Six Rhetorical works survive and another in fragments. Philosophical works include seven extant major compositions and a number of others; and some lost. There is also poetry, some original, some as translations from the Greek.
