Intro

You're often asking me about my career history, well here it is!

The #1 piece of advice to remember before you reinvent your life.

90% of the questions coming into my inbox are about this.

What does reinvention mean anyway?

This is my favorite metaphor when it comes to demystifying life's journey.

When you are stuck or you're going through hell, do this first.

What happens when life doesn't go the way you expected it to?

When sh*t happens in your life, please don't do this.

Embrace these two truths about life, you'll tap into your power.

Do this activity to start loving the most important person in your life.

What do you do when your life feels "blah" and uninspiring?

Don't miss these science-backed steps to create more excitement!

I texted this study from Laura Vanderkam to all my parent friends.

Your relationship to time is always going to be about this.

This study with university students doesn't make sense logically.

Denise was thinking about this for 20 YEARS; listen to what happened.
