Celebrating its 30th anniversary in 2024, internationally bestselling author and literary icon Julia Alvarez's *In the Time of the Butterflies* is "beautiful, heartbreaking and alive ... a lyrical work of historical fiction based on the story of the Mirabal sisters, revolutionary heroes who had opposed and fought against Trujillo." (Concepción de León, *New York Times*) Alvarez's new novel, *The Cemetery of Untold Stories*, is coming April 2, 2024. Pre-order now! It is November 25, 1960, and three beautiful sisters have been found near their wrecked Jeep at the bottom of a 150-foot cliff on the north coast of the Dominican Republic. The official state newspaper reports their deaths as accidental. It does not mention that a fourth sister lives. Nor does it explain that the sisters were among the leading opponents of Gen. Rafael Leónidas Trujillo's dictatorship. It doesn't have to. Everybody knows of Las Mariposas—the Butterflies. In this extraordinary novel, the voices of all four sisters--Minerva, Patria, María Teresa, and the survivor, Dedé--speak across the decades to tell their own stories, from secret crushes to gunrunning, and to describe the everyday horrors of life under Trujillo's rule. Through the art and magic of Julia Alvarez's imagination, the martyred Butterflies live again in this novel of courage and love, and the human costs of political oppression. "Alvarez helped blaze the trail for Latina authors to break into the literary mainstream, with novels like *In the Time of the Butterflies* and *How the García Girls Lost Their Accents* winning praise from critics and gracing best-seller lists across the Americas."—Francisco Cantú, *The New York Times Book Review* "This Julia Alvarez classic is a must-read for anyone of Latinx descent." —Popsugar.com "A gorgeous and sensitive novel . . . A compelling story of courage, patriotism and familial devotion." —People "Shimmering . . . Valuable and necessary." —Los Angeles Times "A magnificent treasure for all cultures and all time." —St. Petersburg Times "Alvarez does a remarkable job illustrating the ruinous effect the 30-year dictatorship had on the Dominican Republic and the very real human cost it entailed."—Cosmopolitan.com

The Craftsman

Why do people work hard, and take pride in what they do? This book, a philosophically-minded enquiry into practical activity of many different kinds past and present, is about what happens when people try to do a good job. It asks us to think about the true meaning of skill in the 'skills society' and argues that pure competition is a poor way to achieve quality work. Sennett suggests, instead, that there is a craftsman in every human being, which can sometimes be enormously motivating and inspiring - and can also in other circumstances make individuals obsessive and frustrated. *The Craftsman* shows how history has drawn fault-lines between craftsman and artist, maker and user, technique and expression, practice and theory, and that individuals' pride in their work, as well as modern society in general, suffers from these historical divisions. But the past lives of crafts and craftsmen show us ways of working (using tools, acquiring skills, thinking about materials) which provide rewarding alternative ways for people to utilise their talents. We need to recognise this if motivations are to be understood and lives made as fulfilling as possible.

Practical Reason

This work by Pierre Bourdieu develops the anthropological theory which has formed the basis of his scientific research. It discusses the problems posed by "structuralist" philosophers in order to solve or dissolve them.

Angela's Ashes

The author recounts his childhood in Depression-era Brooklyn as the child of Irish immigrants who decide to return to worse poverty in Ireland when his infant sister dies. 40,000 first printing. \$35,000 ad/promo. First serial, *The New Yorker*.

Latin America's Political Economy of the Possible

This, says Santiso, is "the silent arrival of the political economy of the possible," which offers hope to a region exhausted by economic reform programs entailing macroeconomic shocks and countershocks."

Value Chain Finance

Value Chain Finance is a solution to such dilemmas.

Principles of Corporate Finance

Describes the theory and practice of corporate finance. The authors show how managers use financial theory to solve practical problems and as a way of learning how to respond to change by showing not just how but why companies and management act as they do. They bring fresh expertise and ideas to this textbook and partnership.

Dancing on My Grave

In this new and expanded edition of Chossudovskys international best-seller, the author outlines the contours of a New World Order which feeds on human poverty and the destruction of the environment, generates social apartheid, encourages racism and ethnic strife and undermines the rights of women. The result as his detailed examples from all parts of the world show so convincingly, is a globalisation of poverty. This book is a skilful combination of lucid explanation and cogently argued critique of the fundamental directions in which our world is moving financially and economically. In this new enlarged edition -- which includes ten new chapters and a new introduction -- the author reviews the causes and consequences of famine in Sub-Saharan Africa, the dramatic meltdown of financial markets, the demise of State social programs and the devastation resulting from corporate downsizing and trade liberalisation. The book has been published in 11 languages. Over 100,000 copies sold world-wide.

The Globalization of Poverty and the New World Order

A highly insightful essay on the culture of dependency and its damaging effects on the moral fiber of society; from corporate welfare to affirmative action, the author takes on the culture of coping out. A book against depression, existential angst, cry-babies and whining "victims," either acting as a child in a candy store or as a martyr of one's own fears. Men against women, women against men, isn't it time to grow up and take charge of our own destiny?

The Temptation of Innocence

In this major work, Zygmunt Bauman seeks to classify the meanings of culture. He distinguishes between culture as a concept, culture as a structure and culture as praxis and analyzes the different ways in which culture has been used in each of these settings. For Bauman, culture is a living, changing aspect of human interaction which must be understood and studied as a universal of human life. At the heart of his approach is the proposition that culture is inherently ambivalent. With a major new introduction to this new edition, this classic work emerges as a crucial link in the development of Bauman's thought. By his own admission, it was the first of his books to grope towards a new kind of social theory, in contrast to the fals

Culture as Praxis

With the publication of *Pedagogy of the Oppressed*, Paulo Freire established himself as one of the most important and radical educational thinkers of his time. In *Pedagogy of Hope*, Freire revisits the themes of his masterpiece, the real world contexts that inspired them and their impact in that very world. Freire's abiding concern for social justice and education in the developing world remains as timely and as inspiring as ever, and is shaped by both his rigorous intellect and his boundless compassion. *Pedagogy of Hope* is a testimonial to the inner vitality of generations denied prosperity and to the often-silent, generous strength of millions throughout the world who refuse to let hope be extinguished. This edition includes a substantial new introduction by Henry A. Giroux, University Chair for Scholarship in the Public Interest and the Paulo Freire Distinguished Scholar in Critical Pedagogy at McMaster University, Canada. Translated by Robert R. Barr.

Pedagogy of Hope

We live in a world which no longer questions itself, which lives from one day to another managing successive crises and struggling to brace itself for new ones, without knowing where it is going and without trying to plan the itinerary. And everything important in our lives - livelihood, human bonds, partnerships, neighbourhood, goals worth pursuing and dangers to avoid - feels transient, precarious, vulnerable, insecure, uncertain, risky. Is there a connection between the shape of the world we inhabit and the way we live our lives? Exploring that connection, and finding out just how close it is, is the main concern of this book. What is at stake in this inquiry is the possibility of re-building the "private/public" space, where private troubles and public issues meet and where citizens engage in dialogue in order to govern themselves. Individual liberty can only be a product of collective work, it can only be collectively

secured and guaranteed. And yet today we are moving towards a privatization of the means to secure individual liberty. If seen as a therapy for the present ills, this is bound to produce effects of a most sinister kind. The act of translating private troubles into public issues is in danger of falling into disuse and being forgotten. The argument of this book is that making the translation possible again is an urgent and vital imperative for the renewal of politics today. This new book by Zygmunt Bauman - one of the most original and creative thinkers of our time - will be of particular interest to students of sociology, politics and social and political theory.

Twenty Thousand Leagues Under the Sea

A graded reader for learners of English (EFL) Level 2 - A1/A2 Starter (2) Word count: 4,494 City Thrillers Series Book 5 Julie is on a business trip in Marrakech, Morocco. She buys a carpet at a market, but the carpet holds a terrible secret. Julie is in danger. Men are looking for her. The police don't believe her. She has to solve the problem alone. Can she do it? This fast-paced book takes you on a dangerous journey to the heart of Marrakech.

In Search of Politics

This is an extensively re-written second edition of a well regarded and much cited text on the issue of animal protection. It remains the only text to combine an examination of the philosophy and politics of the issue. Its central argument is that the philosophical debate is central to an understanding and evaluation of the substantive issues involving animals and the nature of the movement for change. The book has been thoroughly revised to include major theoretical and empirical developments. Specifically, the "second generation" of animal ethics literature is examined in detail, and attention is paid to the campaigns and public controversy over the export of live animals and the use of animals in research, the impact of genetic engineering on the welfare of animals and the latest developments in the controversy over hunting.

NEW YORK TIMES BESTSELLER • More than 2.7 million copies sold! • "A deeply spiritual book [that] honors what is tough, smart and untamed in women."—The Washington Post Book World Book club pick for Emma Watson's Our Shared Shelf Within every woman there lives a powerful force, filled with good instincts, passionate creativity, and ageless knowing. She is the Wild Woman, who represents the instinctual nature of women. But she is an endangered species. For though the gifts of wildish nature belong to us at birth, society's attempt to "civilize" us into rigid roles has muffled the deep, life-giving messages of our own souls. In *Women Who Run with the Wolves*, Dr. Clarissa Pinkola Estés unfolds rich intercultural myths, fairy tales, folk tales, and stories, many from her own traditions, in order to help women reconnect with the fierce, healthy, visionary attributes of this instinctual nature. Through the stories and commentaries in this remarkable book, we retrieve, examine, love, and understand the Wild Woman, and hold her against our deep psyches as one who is both magic and medicine. Dr. Estés has created a new lexicon for describing the female psyche. Fertile and life-giving, it is a psychology of women in the truest sense, a knowing of the soul.

An intimate portrait of the lives and writings of the Brontë sisters, drawn from the objects they possessed. In this unique and lovingly detailed biography of a literary family that has enthralled readers for nearly two centuries, Victorian literature scholar Deborah Lutz illuminates the complex and fascinating lives of the Brontës through the things they wore, stitched, wrote on, and inscribed. By unfolding the histories of the meaningful objects in their family home in Haworth, Lutz immerses readers in a nuanced re-creation of the sisters' daily lives while moving us chronologically forward through the major biographical events: the death of their mother and two sisters, the imaginary kingdoms of their childhood writing, their time as governesses, and their determined efforts to make a mark on the literary world. From the miniature books they made as children to the blackthorn walking sticks they carried on solitary hikes on the moors, each personal possession opens a window onto the sisters' world, their beloved fiction, and the Victorian era. A description of the brass collar worn by Emily's bull mastiff, Keeper, leads to a series of entertaining anecdotes about the influence of the family's dogs on their writing and about the relationship of Victorians to their pets in general. The sisters' portable writing desks prove to have played a crucial role in their writing lives: it was Charlotte's snooping in Emily's desk that led to the sisters' first publication in print, followed later by the publication of *Jane Eyre* and *Wuthering Heights*. Charlotte's letters provide insight into her relationships, both innocent and illicit, including her relationship with the older professor to whom she wrote passionately. And the bracelet Charlotte had made of Anne and Emily's intertwined hair bears witness to her profound grief after their deaths. Lutz captivantly shows the Brontës anew by bringing us deep inside the physical world in which they lived and from which their writings took inspiration.

After a series of sex scandals rocked the film industry in 1922, movie moguls hired Will Hays to clear the image of movies. Hays tried a variety of ways to regulate movies before adopting what became known as the production code. Written in 1930 by a St Louis priest, the code stipulated that movies stress proper behaviour, respect for government, and 'Christian values'. The Catholic Church reinforced these efforts by launching its Legion of Decency in 1934. Intended to force Hays and Hollywood to censor films, the Legion of Decency engineered the appointment of Joseph Breen as head of the Production Code Administration. For the next three decades, Breen, Hays, and the Catholic Legion of Decency virtually controlled the content of all Hollywood films.

The Brontë Cabinet: Three Lives in Nine Objects

A growing interest in all things Maya brings an increasing number of visitors to prehistoric Maya ruins and contemporary Maya communities in Guatemala, Belize, El Salvador, western Honduras, the Yucatán Peninsula, and the southern areas of Chiapas and Tabasco, Mexico. For these visitors and indeed everyone with an interest in the Maya, this field guide highlights nearly 100 species of plants and animals that were significant to the ancient Maya and that continue to inhabit the Maya region today. Drawing from the disciplines of biology, ecology, and anthropology, Victoria Schlesinger describes each plant or animal's habitat and natural history, identifying characteristics (also shown in a black-and-white drawing), and cultural significance to the ancient and contemporary Maya. An introductory section explains how to use the book and offers a concise overview of the history, lifeways, and cosmology of the ancient Maya. The concluding section describes the collapse of ancient Maya society and briefly traces the history of the Maya region from colonial times to the present.

With little fanfare and profound effect, "family values" have gone global, and the influence of the Christian Right is increasingly felt internationally. This is the first comprehensive study of the Christian Right's global reach and its impact on international law and politics. Doris Buss and Didi Herman explore tensions, contradictions, victories, and defeats for the Christian Right's global project, particularly in the United Nations. The authors consult Christian Right materials, from pamphlets to novels; conduct interviews with people in the movement; and provide a firsthand account of the World Congress of Families II in 1999, a key event in formulating Christian Right global policy and strategy. The result is a detailed look at a new global player--its campaigns against women's rights, population policy, and gay and lesbian rights; its efforts to build an alliance of orthodox faiths with non-Christians; and the tensions and strains as it seeks to negotiate a role for conservative Christianity in a changing global order.

Diagnostic procedures are emblematic of medical work. Scholars in the field of social studies of medicine identify diverse dimensions of diagnosis that point to controversies, processual qualities and contested evidence. In this anthology, diagnostic fluidity is seen to permeate diagnostic work in a wide range of contexts, from medical interactions in the clinic, domestic settings and other relations of affective work, to organizational structures, and in historical developments. The contributors demonstrate, each in their own way, how different agents 'do diagnosis', highlighting the multi-faceted elements of uncertainty and mutability integral to diagnostic work. At the same time, the contributors also show how in 'doing diagnosis' enactments of subjectivities, representations of cultural imaginaries, bodily processes, and socio-cultural changes contribute to configuring diagnostic fluidity in significant ways.

Youth and Egotry

"This study uses household and individual-level data from the Demographic and Health Surveys (DHS) program to examine the prevalence and correlates of domestic violence and the health consequences of domestic violence for women and their children. Nationally representative data from nine countries - Cambodia (2000), Colombia (2000), the Dominican Republic (2002), Egypt (1995), Haiti (2000), India (1998-1999), Nicaragua (1998), Peru (2000), and Zambia (2001-2002) - are analyzed within a comparative framework to provide a multifaceted analysis of the phenomenon of domestic violence"--P. xv.

Treasure of the Castilian Or Spanish Language

The African slave trade, beginning in the fifteenth century, brought African languages into contact with Spanish and Portuguese, resulting in the Africans' gradual acquisition of these languages. In this 2004 book, John Lipski describes the major forms of Afro-Hispanic language found in the Iberian Peninsula and Latin America over the last 500 years. As well as discussing pronunciation, morphology and syntax, he separates legitimate forms of Afro-Hispanic expression from those that result from racist stereotyping, to assess how contact with the African diaspora has had a permanent impact on contemporary Spanish. A principal issue is the possibility that Spanish, in contact with speakers of African languages, may have creolized and restructured - in the Caribbean and perhaps elsewhere - permanently affecting regional and social varieties of Spanish today. The book is accompanied by

the largest known anthology of primary Afro-Hispanic texts from Iberia, Latin America, and former Afro-Hispanic contacts in Africa and Asia.

Globalizing Family Values

First published in 2004. Dans quelle mesure le corps fait-il l'identité d'un être humain ? Et pour combien de temps si quelque chose survit de lui, après sa mort, ce n'est pas tout à fait son corps ? Dans toutes les cultures, il semble que l'humanité, sous des formes diverses, ait été amenée à imaginer l'être humain comme composé de deux parties : une partie périssable et une partie qui continue d'agir bien au-delà de la mort, même si elle n'est pas immortelle. Ces deux parties ne se réduisent pas nécessairement à un corps visible et à un animal double, invisible, mais qui meurt quand l'autre meurt. Chez les Maenge de Nouvelle-Guinée, l'individu a deux âmes, même s'il n'a qu'un seul corps. De nombreuses sociétés pensent qu'il faut plus de deux êtres humains pour faire un être humain. Il faut que l'esprit d'un ancêtre, ou l'action d'un dieu vienne sinon animer ce corps, du moins le rendre complet, le compléter. Chaque personne naît donc, s'étant inscrite en soi, formant comme une sorte d'intimité impersonnelle, un ensemble d'idées, d'images, de valeurs, par lesquelles l'ordre ou les désordres qui s'impriment dans son corps, règne dans sa société. Seize anthropologues et historiens ont exploré ces réalités culturelles dispersées dans l'espace et le temps.

Profiling Domestic Violence

"Vital Souls relates in an ethnographic fashion how the Bororo Indians of central Brazil understand their lives in terms of the bope, describing how they employ shamanism and symbolic thought to deal with illness and accident, sex and marriage, birth and death, and how they relate the human life cycle to natural processes. More central to the investigation, the author reveals how shamans of the aroe have disappeared from Bororo life. This is the first volume of the series, *The Anthropology of Form and Meaning*."--

A History of Afro-Hispanic Language

Central to the research that went into the preparation of this monograph is the relationship between economic development and equality. To determine and characterize that relationship Morris Singer focuses on the various components of equality at different stages of development. The author particularly explores the behavior of income distribution, together with its bearing on the components of aggregate demand. Mexico provided an excellent case to examine in depth because of its impressive growth and the fact that it experienced Latin America's first successful twentieth-century revolution. Although the Revolution of 1910 hastened social equality and introduced other changes that stimulated Mexico's economic growth, it could not prevent a serious increase in the inequality of income distribution. By the early 1960s the government found it necessary to rectify this increasing imbalance through a program of expenditures designed to counteract widespread poverty and weak aggregate demand. To ward off inflation, this program in turn could be implemented only by tax reform. In discussing the relationship between development and equality in its various dimensions, noneconomic as well as economic, this monograph points out that, at the time of this study, government policies in Mexico were dictated by an elite concerned primarily with the country's economic advancement. Singer concludes that if programs of government expenditure and tax reform succeed in remedying the inequalities of income distribution, this could gradually make possible the development of a more genuine political as well as economic democracy. This book reflects Singer's interest in the relationship between equality and development. It is the result of five months of intensive in-residence study in Mexico, financed in part by a grant from the Social Science Research Council.

The Scream

Wars destroy, no they destroyed, memories, people & all what is created in the best calendar... When man cannot find peace, then either is he shot or dead out of hunger. When you think of seeking refugee to one of the neighboring Arabian countries, you will be surprised when you find out that the ruler is in collusion with your country's dictator. When death is more merciful because, you will be in Hands of God not man. You see many tragic scenes becoming now familiar: Mother begging bread to feed her children, you see shameful & shocking attitudes from the rich Arabs who take advantage of her. They only think of satisfying their instincts that controls them all the time then they speak by the name of God. Some of the refugees in the camps found a rotten breadcrumb, its color was Dark Green, and Hunger does not differentiate between hot fresh bread and that covered by rottenness to go down in a stomach that was not fed for days. Some people may aid her; the roads could hug her where she lays her head down on the sidewalk, holding her children tight to protect them from coldness... This is the refugee definition in the Middle East countries, although our religion is complete but the deficiency is in us. His name was Adnan a Lieutenant & Air Coach in Aleppo's Air Force University. Married, has a son & two daughters. The boy is 11 years old, the eldest daughter 15 years & the younger is one year & six month old. His folks lives in Daraa, & he lived in (Al Hajjar Al-Aswad) along with his family He got promoted one month before his marriage from Major to Lieutenant Pilot & was transferred to the Military Air Force University to work as (Day Night Air Coach) But, after his wedding his happiness did not last long. The happy occasion was disturbed a few days after his wedding by his arrest as if he was a criminal or committed a terrible political crime. His eyes were covered with black tight cloth, handcuffed his hands & lead him to a dungeon in a prison built for politicians. He can only hear the prisoners who were tearing the horizon of darkness by their screams penetrated the nightshade. The sound of screams rises with the parks of the dogs to the sky filled with the cold winter clouds. He heard screams of another type, screams of men being tortured whose fingers were taken off & whip ripped their bodies. Their screams torn the place apart. Before taking him to prison they took off his military suite... it was rankles. So, the jailor thought Adnan was a regular soldier, especially no information was ever told about his job or the reason of his arrest. He was in solitary dungeon for a long time no one knew his crime. Whenever he tries to sleep he was panicked from the weeps & the scream sounds. Beyond the iron cages the prisoners lived in incomparable horror movies. Brutal torture & no one has the authority to stop the arrogance & abuse used, they did not touch Adnan as if they brought him to discipline him from something he made.

The once-mighty house of Snow has fallen on hard times, its fate hanging on the slender chance that Coriolanus will be able to outcharm, outwit, and outmaneuver his fellow students to mentor the winning tribute. The odds are against him. He's been given the humiliating assignment of mentoring the female tribute from District 12, the lowest of the low. Their fates are now completely intertwined - every choice Coriolanus makes could lead to favor or failure, triumph or ruin. Inside the arena, it will be a fight to the death. Outside the arena,

The Ballad of Songbirds and Snakes (A Hunger Games Novel)

How our collective intelligence has helped us to evolve and prosper Humans are a puzzling species. On the one hand, we struggle to survive on our own in the wild, often failing to overcome even basic challenges, like obtaining food, building shelters, or avoiding predators. On the other hand, human groups have produced ingenious technologies, sophisticated languages, and complex institutions that have permitted us to successfully expand into a vast range of diverse environments. What has enabled us to dominate the globe, more than any other species, while remaining virtually helpless as lone individuals? This book shows that the secret of our success lies not in our innate intelligence, but in our collective brains—on the ability of human groups to socially interconnect and learn from one another over generations. Drawing insights from lost European explorers, clever chimpanzees, mobile hunter-gatherers, neuroscientific findings, ancient bones, and the human genome, Joseph Henrich demonstrates how our collective brains have propelled our species' genetic evolution and shaped our biology. Our early capacities for learning from others produced many cultural innovations, such as fire, cooking, water containers, plant knowledge, and projectile weapons, which in turn drove the expansion of our brains and altered our physiology, anatomy, and psychology in crucial ways. Later on, some collective brains generated and recombined powerful concepts, such as the lever, wheel, screw, and writing, while also creating the institutions that continue to alter our motivations and perceptions. Henrich shows how our genetics and biology are inextricably interwoven with cultural evolution, and how culture-gene interactions launched our species on an extraordinary evolutionary trajectory. Tracking clues from our ancient past to the present, *The Secret of Our Success* explores how the evolution of both our cultural and social natures produce a collective intelligence that explains both our species' immense success and the origins of human uniqueness.

From the award-winning author of *The Field Guide to the North American Teenager* comes a whip-smart and layered romantic comedy. Perfect for fans of Nicola Yoon and Jenny Han. Henri “Halti” Haltiwanger can charm just about anyone. He is a star debater and popular student at the prestigious FATE academy, the dutiful first-generation Haitian son, and the trusted dog walker for his wealthy New York City neighbors. But his easy smiles mask a burning ambition to attend his dream college, Columbia University. There is only one person who seems immune to Henri’s charms: his “intense” classmate and neighbor Corinne Troy. When she uncovers Henri’s less-than-honest dog-walking scheme, she blackmails him into helping her change her image at school. Henri agrees, seeing a potential upside for himself. Soon what started as a mutual hustle turns into something more surprising than either of them ever bargained for. . . . This is a sharply funny and insightful novel about the countless hustles we have to keep from doing the hardest thing: being ourselves.

Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, *Blindsight* Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

A REESE'S BOOK CLUB PICK * INSTANT NEW YORK TIMES BESTSELLER * BELLETRIST BOOK CLUB PICK * INDIE NEXT SELECTION * LIBRARY READS SELECTION * AMAZON EDITORS' CHOICE * WASHINGTON POST BEST OF THE YEAR The "terrifying, wise, tender, and thrilling" (R.O. Kwon) adventure story of a fugitive girl, a mysterious gang of robbers, and their dangerous mission to transform the Wild West. In the year of our Lord 1894, I became an outlaw. The day of her wedding, 17 year old Ada's life looks good; she loves her husband, and she loves working as an apprentice to her mother, a respected midwife. But after a year of marriage and no pregnancy, in a town where barren women are routinely hanged as witches, her survival depends on leaving behind everything she knows. She joins up with the notorious Hole in the Wall Gang, a band of outlaws led by a preacher-turned-robber known to all as the Kid. Charismatic, grandiose, and mercurial, the Kid is determined to create a safe haven for outcast women. But to make this dream a reality, the Gang hatches a treacherous plan that may get them all killed. And Ada must decide whether she's willing to risk her life for the possibility of a new kind of future for them all. Featuring an irresistibly no-nonsense, courageous, and determined heroine, *Outlawed* dusts off the myth of the old West and reignites the glimmering promise of the frontier with an entirely new set of feminist stakes. Anna North has crafted a pulse-racing, page-turning saga about the search for hope in the wake of death, and for truth in a climate of small-mindedness and fear.

The Spectator

First published in Germany in 1929, *The End and the Beginning* is a lively personal memoir of a vanished world and of a rebellious, high-spirited young woman's struggle to achieve independence. Born in 1883 into a distinguished and wealthy aristocratic family of the old Austro-Hungarian Empire, Hermynia Zur Muhlen spent much of her childhood travelling in Europe and North Africa with her diplomat father. After five years on her German husband's estate in czarist Russia she broke with both her family and her husband and set out on a precarious career as a professional writer committed to socialism. Besides translating many leading contemporary authors, notably Upton Sinclair, into German, she herself published an impressive number of politically engaged novels, detective stories, short stories, and children's fairy tales. Because of her outspoken opposition to National Socialism, she had to flee her native Austria in 1938 and seek refuge in England, where she died, virtually penniless, in 1951. This revised and corrected translation of Zur Muhlen's memoir - with extensive notes and an essay on the author by Lionel Gossman - will appeal especially to readers interested in women's history, the Central European aristocratic world that came to an end with the First World War, and the culture and politics of the late nineteenth and early twentieth centuries.

Bruno JasieDski was a bilingual Polish-Russian writer who died in exile in Siberia in 1939. This volume traces his literary evolution. The introductory biographical sketch is followed by a discussion of JasieDski's contribution to Polish poetry, specifically the Futurist movement which, like its parallels in Russia and Italy, revolutionized poetic language. An analysis and evaluation of JasieDski's prose work sheds light on the relationship between politics and literature in early twentieth-century Poland and Russia. Most of JasieDski's novels and short stories were written in the approved Soviet tradition of Socialist Realism. His *Man Changes His Skin* is considered one of the best Soviet industrial novels

of the 1930s. The author's comprehensive and skillful treatment of JasieDski's literary production, the first to appear in English, also makes a valuable contribution to the knowledge of Futurism in Eastern Europe and Socialist Realism in the Soviet Union. The volume contains numerous quotations from Polish and Russian literature, both in English translation (prepared by the author) and in the original. It will be of interest to students of Slavic literature, comparative literature, and the literature of ideology.

From the #1 New York Times bestselling author of *The Silent Patient* comes a spellbinding tale of psychological suspense, weaving together Greek mythology, murder, and obsession, that further cements "Michaelides as a major player in the field" (*Publishers Weekly*)--now in mass market. Edward Fosca is a murderer. Of this Mariana is certain. But Fosca is untouchable. A handsome and charismatic Greek tragedy professor at Cambridge University, Fosca is adored by staff and students alike particularly by the members of a secret society of female students known as The Maidens. Mariana Andros is a brilliant but troubled group therapist who becomes fixated on The Maidens when one member, a friend of Mariana's niece Zoe, is found murdered in Cambridge. Mariana, who was once herself a student at the university, quickly suspects that behind the idyllic beauty of the spires and turrets, and beneath the ancient traditions, lies something sinister. And she becomes convinced that, despite his alibi, Edward Fosca is guilty of the murder. But why would the professor target one of his students? And why does he keep returning to the rites of Persephone, the maiden, and her journey to the underworld? When another body is found, Mariana's obsession with proving Fosca's guilt spirals out of control, threatening to destroy her credibility as well as her closest relationships. But Mariana is determined to stop this killer, even if it costs her everything—including her own life.
