"Against High-Caste Polygamy offers a complete, annotated translation of Ishvarchandra Vidyasagar's first book arguing against the practice of high-caste Kulin marriage in Bengal. The translation is based on the text of the first edition of Bahuvivaha rahita haoya uchita ki na etadvishayaka vichara, published from the Sanskrit Press in 1871 (Samvat 1928); henceforth simply Bahuvivaha. I have relied on the version of the text as found in the second volume of Gopal Haldar's Vidyasagar-rachanasamgraha, as well as on a digitized version of the 1871 first edition available online"--

Report of the Oriental seminary and its branch schools

Contributed articles on the 1952 Bengali language movement in Bangladesh.

Annual report of the College of hadji Mohammud Moshin and its subordinate institutions

Bengal has long been one of the key centres of civilisation and culture in the Indian subcontinent. However, Bengali identity – "Bengaliness" – is complicated by its long history of evolution, the fact that Bengal is now divided between India and Bangladesh, and by virtue of a very large international diaspora from both parts of Bengal. This book explores a wide range of issues connected with Bengali identity. Amongst other subjects, it considers the special problems arising as a result of the division of Bengal, and concludes by demonstrating that there are many factors which make for the idea of a Bengali identity.

Unpublished Letters of Vidyasagar

This Volume Will Interest All Students Of English And American Studies; Colonialism And Nationalism; Culture And Gender Issues; The Complex Relation Between Literature And Society; And The Even More Complex Relationship Between Western Texts And Indian Leaders.

The Mirror of Class

An original and compelling account of the Hindu partitionist movement in Bengal.

Against High-Caste Polygamy

An iconic filmmaker and inheritor of the legendary Satyajit Ray's legacy, Rituparno Ghosh was one of the finest auteurs to emerge out of contemporary Bengal. His films, though rooted firmly in middle-class values, desires and aspirations, are highly critical of hetero-patriarchal power structures. From the very outset, Ghosh displayed a strong feminist sensibility which later evolved into radical queer politics. This volume analyses his films, his craft, his stardom and his contribution to sexual identity politics. In this first scholarly study undertaken on Rituparno Ghosh, the essays discuss the cultural import of his

work within the dynamics of a rapidly evolving film industry in Bengal and more largely the cinematic landscape of India. The anthology also contains a conversation section (interviews with the filmmaker and with industry cast and crew) drawing a critical and personal portrait of this remarkable filmmaker.

Calcutta Municipal Gazette

Social morphology of Calcutta in the nineteenth century. Some essays published previously.

The Home and Foreign Record of the Free Church of Scotland

This anthology makes accessible for the first time the entire range of poems written in English on the subcontinent from their beginnings in 1780 to the watershed moment in 1913 when Rabindranath Tagore won the Nobel Prize in Literature. It brings together poets who were in fact colleagues, competitors, and influences on each other. With accurate and reliable texts, detailed notes on vocabulary, historical and cultural references, and biographical introductions to more than thirty poets, this collection will significantly reshape the understanding of English language literary culture in India. It allows scholars to experience the diversity of poetic forms created in this period and to understand the complex religious, cultural, political, and gendered divides that shaped them.

Essays on Ekushey, the Language Movement, 1952

Masculinities in a Global Era extends the conversation of masculinity studies by analyzing global masculinities from a psychological perspective. Canvassing a broad array of psychological aspects such as the construction of identity, the negotiation of power, coping with trauma, and sexuality, this volume shows how masculinities are experienced, performed and embodied in geographically dispersed communities. Importantly, Masculinities in a Global Era fulfills a much-needed but elusive need within the study of masculinities: a forum in which the often polarized approaches of pro-feminists and men's rights advocates can begin to move beyond their entrenched historical positions towards a more fruitful and nuanced future.

Willis's Current notes

First published in 2000, Dipesh Chakrabarty's influential *Provincializing Europe* addresses the mythical figure of Europe that is often taken to be the original site of modernity in many histories of capitalist transition in non-Western countries. This imaginary Europe, Dipesh Chakrabarty argues, is built into the social sciences. The very idea of historicizing carries with it some peculiarly European assumptions about disenchanted space, secular time, and sovereignty. Measured against such mythical standards, capitalist transition in the third world has often seemed either incomplete or lacking. *Provincializing Europe* proposes that every case of transition to capitalism is a case of translation as well--a translation of existing worlds and their thought-categories into the categories and self-understandings of capitalist modernity. Now featuring a new preface in which Chakrabarty responds to his critics, this book globalizes European thought by exploring how it may be renewed both for and from the margins.

The Asiatic Journal and Monthly Register for British and Foreign India, China, and Australia

This illuminating collection of fourteen short essays on various aspects of Bengali literary and religious traditions were selected from papers written by Edward Dimock over a period of more than thirty years. Some of the essays are new, others have been revised from previous publications. Together, they represent Dimock's varied interests, including his ideas on the literature and doctrine of the Vaisnavas, Bengali literary criticism, the more modern poems of Jibanananda Das, and aspects of the sakta tradition as manifested in the Mangal-Kavyas.

The Asiatic Journal and Monthly Miscellany

Satyajit Ray is India's greatest filmmaker and his importance in the international world of cinema has long been recognised. Darius Cooper's study of Ray is the first to examine his rich and varied work from a social and historical perspective, and to situate it within Indian aesthetics. Providing analyses of selected films, including those that comprise *The Apu Trilogy*, *Chess Players*, and *Jalsaghar*, among others, Cooper outlines Western influences on Ray's work, such as the plight of women functioning within a patriarchal society, Ray's political vision of the 'doubly colonised', and his attack and critique of the Bengali/Indian middle class of today. The most comprehensive treatment of Ray's work, *The*

Cinema of Satyajit Ray makes accessible the oeuvre of one of the most prolific and creative filmmakers of the twentieth century.

The Asiatic Journal

Periodicals, Readers and the Making of a Modern Literary Culture is a study of literary periodicals and the Bengali public sphere at the turn of the twentieth century, the variety of interests and concerns that animated this domain and how literary relations were seen to constitute new social solidarities.

Asiatic Journal and Monthly Register for British and Foreign India, China and Australasia

This volume studies the ways in which modernity has been conceived, practiced, and performed in Indian literatures from the 18th to 20th century. It brings together essays on writings in Hindi, Urdu, Punjabi, Bengali, Odia, Gujarati, Marathi, Tamil, Telugu, Kannada, Malayalam, and languages from Northeast India, which form a dialogical relationship with each other in this volume. The concurrence and contradictions emerging through these studies problematize the idea of modernity afresh. The book challenges the dominance of colonial modernity through socio-historical and cultural analysis of how modernity surfaces as a multifaceted phenomenon when contextualized in the multilingual ethos of India. It further tracks the complex ways in which modernism in India is tied to the harvests of modernity. It argues for the need to shift focus on the specific conditions that gave shape to multiple modernities within literatures produced from India. A versatile collection, the book incorporates engagements with not just long prose fiction but also lesser-known essays, research works, and short stories published in popular magazines. This unique work will be of interest to students and teachers of Indian writing in English, Indian literatures, and comparative literatures. It will be indispensable to scholars of South Asian studies, literary historians, linguists, and scholars of cultural studies across the globe.

The Asiatic journal and monthly register for British and foreign India, China and Australasia

Representing Calcutta is a spatial history of the colonial city, and addresses the question of modernity that haunts our perception of Calcutta. The book responds to two inter-related concerns about the city. First is the image of Calcutta as the worst case scenario of a Third World city -- the proverbial 'city of dreadful nights.' Second is the changing nature of the city's public spaces -- the demise of certain forms of urban sociality that has been mourned in recent literature as the passing of Bengali modernity. By examining architecture, city plans, paintings, literature, and official reports through the lens of postcolonial, feminist, and spatial theory, the book explores the conditions of colonialism and anti-colonial nationalism that produced the city as a modern artefact. At the centre of this exploration resides the problem of 'representing' the city, representation understood as description and narration, as well as political representation. In doing so, Chattopadhyay questions the very idea of colonial cities as creations of the colonizers, and the model of colonial cities as dual cities, split in black and white areas, in favour of a more complicated view of the topography.

Being Bengali

Sport has become more than a simple physical expression or game- it now pervades all societies at all levels and has become bound up in nationalism, entertainment, patriotism and culture. Now a global obsession, sport has infiltrated into all areas of modern life and despite noble ideals that sport stands above politics, religion, class, gender and ideology, the reality is often very different. These essays by leading academics and rising new talent consider the phenomenon of modern sport and its massive influence over global society. Together, this collection is also a tribute to the pioneering and inspirational work of Professor J.A. Mangan on the political, religious, class and gender-based aspects of modern sport, from academics greatly influenced by him and his writing. This book was previously published as a special issue of *The International Journal of the History of Sport*.

Mastering Western Texts

The Naxalbari movement marks a significant moment in the postcolonial history of India. Beginning as an armed peasant uprising in 1967 under the leadership of radical communists, the movement was inspired by the Marxist-Leninist theory of revolution and involved a significant section of the contemporary youth from diverse social strata with a vision of people's revolution. It inspired similar radical movements in other South Asian countries such as Nepal. Arguing that the history and memory of the Naxalbari movement is fraught with varied gendered experiences of political motivation,

revolutionary activism, and violence, this book analyses the participation of women in the movement and their experiences. Based on extensive ethnographic and archival research, the author argues that women's emancipation was an integral part of their vision of revolution, and many of them identified the days of their activism as magic moments, as a period of enchanted sense of emancipation. The book places the movement into the postcolonial history of South Asia. It makes a significant contribution to the understanding of radical communist politics in South Asia, particularly in relation to issues concerning the role of women in radical politics.

Bengal Divided

Includes entries for maps and atlases.

Rituparno Ghosh

This book explores the intersection between adaptation studies and what James F. English has called the "economy of prestige," which includes formal prize culture as well as less tangible expressions such as canon formation, fandom, authorship, and performance. The chapters explore how prestige can affect many facets of the adaptation process, including selection, approach, and reception. The first section of this volume deals directly with cycles of influence involving prizes such as the Pulitzer, the Man Booker, and other major awards. The second section focuses on the juncture where adaptation, the canon, and awards culture meet, while the third considers alternative modes of locating and expressing prestige through adapted and adaptive intertexts. This book will be of interest to students and scholars of adaptation, cultural sociology, film, and literature.

Calcutta

Presenting cutting-edge scholarship dedicated to exploring the emergence and articulation of modernity in colonial South Asia, this book builds upon and extends recent insights into the constitutive and multiple projects of colonial modernity. Eschewing the fashionable binaries of resistance and collaboration, the contributors seek to re-conceptualize modernity as a local and transitive practice of cultural conjunction. Whether through a close reading of Anglo-Indian poetry, Urdu rhyming dictionaries, Persian Bible translations, Jain court records, or Bengali polemical literature, the contributors interpret South Asian modernity as emerging from localized, partial and continuously negotiated efforts among a variety of South Asian and European elites. Surveying a range of individuals, regions, and movements, this book supports reflection on the ways traditional scholars and other colonial agents actively appropriated and re-purposed elements of European knowledge, colonial administration, ruling ideology, and material technologies. The book conjures a trans-colonial and trans-national context in which ideas of history, religion, language, science, and nation are defined across disparate religious, ethnic, and linguistic boundaries. Providing new insights into the negotiation and re-interpretation of Western knowledge and modernity, this book is of interest to students and scholars of South Asian Studies, as well as of intellectual and colonial history, comparative literature, and religious studies.

Coquito Clasico (2014 Edition)

Coquito is an educational and scientific instructional book through which more than 38 million Spanish-speaking children have learned to read, write and think. Coquito is conceived and structured in 54 sequential lessons, with which the child is able to start reading and writing, opening a future of intellectual and emotional potential that raises their awareness and self-esteem. This provides great satisfaction to teachers and parents because the students reading comprehension is high. The Reading by Words Method, created with the book Coquito Clasico, is built on the children's vocabulary and on the unique feature of the Spanish language that is read as it is written and written as it is spoken, unlike other languages, whose phonetic complexity is remarkable. It is therefore not advisable to teach how to read in Spanish using methods from other languages such as English and French because it will extend the learning process up to fifteen months for what can be accomplished in three months using our method. The constant interest of the author and his team of specialists is to restructure and update the book according to the improvements and suggestions from teachers who use Coquito with remarkable success, exceeding expectations in most Spanish-speaking countries. Coquito Clasico brings graphic colored themes, illustrated with captivating visuals that engage and develop the child's imagination. This initiates the process of oral expression and reading as well as writing and mathematics. We thank the teachers and parents for using our materials, and we guarantee that they have chosen a method of proven quality and excellence that develops mental processes, taking into account the linguistic features of the Spanish language."

Snow on the Atlantic

Smuggling has been a way of life in Galicia for millennia. The Romans considered its windswept coast the edge of the world. To the Greeks it was from where Charon ferried souls to the Underworld. Since the Middle Ages, its shoreline has scuppered thousands of pirate ships. But the history of Cape Finisterre is no fiction and by the late twentieth century a new and exotic cargo flooded the cape's ports and fishing villages. In *Snow on the Atlantic*, the book the Spanish national court tried to ban, intrepid investigative journalist Nacho Carretero tells the incredible story of how a sleepy, unassuming corner of Spain became the cocaine gateway into Europe, exposing a new generation of criminals, cartels and corrupt officials, more efficient and ruthless than any who came before.

Coquito Classico (2015 Edition)

Dance improvisation, the intriguing phenomenon of the creative process alive in the moving body, exists powerfully, sublimely - lending insight, solving problems, allowing moments of transcendence, diversion, and delight. Flourishing especially since the postmodern movement of the 1960s, it has come into its own in the performing arts. While there are many books containing ideas for developing improvisations, few have tackled the difficult questions: "What is dance improvisation?" "How does it work?" or "What is its body of knowledge?" The Moment of Movement goes beyond lists of improvisations and into the heart of improvising. As in their previous book, The Intimate Act of Choreography, the authors pursue both the philosophical and the practical. They begin by examining the creative process as it applies to movement and especially the kinesthetic way in which the body knows and uses movement. They answer the often unstated and pertinent questions of the novice; investigate the particular skills and traits needed by the leader; consider ways of working with specific populations; and provide challenging material for advanced movers. They discuss the use of music, and the specific situation of improvisation in performance. For leaders who want to design their own improvisations, they trace the evolution of an idea into an actual content and structure. They also address the controversial issue of the legitimacy of improvisation in an academic curriculum. A final chapter presents hundreds of improvs and improv ideas, grouped into units and cross-referenced. The Moment of Movement is not tied to any one point of view. The authors' presentation of a broad range of material is flexible enough for use by choreographers, directors, educators, and therapists. In its perceptive investigation of the experiential and conceptual aspects of dance improvisation, this book articulates the ephemeral.

Puss in Boots has inspired designers, composers, choreographers, and just about every type of artist. It

appears in the third act of the ballet The Sleeping Beauty of Tchaikovsky. In addition, the adaptations of the story have been multiple, from theater to cinema and comics, through opera, parodies ...
