The Oxford Murders

On a balmy summer's day in Oxford an old lady who once helped decipher the Enigma Code is killed. After receiving a cryptic anonymous note containing only the address and the symbol of a circle, Arthur Seldom, a leading mathematician, arrives to find the body. Then follow more murders - an elderly man on a life-support machine is found dead with needle marks in his throat; the percussionist of an orchestra at a concert at Blenheim Palace dies before the audience's very eyes - seemingly unconnected except for notes appearing in the maths department, for the attention of Seldom. Why is he being targeted as the recipient of these coded messages? All he can conjecture is that it might relate to his latest book, an unexpected bestseller about serial killers and the parallels between investigations into their crimes and certain mathematical theorems. It is left to Seldom and a postgraduate mathematics student to work out the key to the series of symbols before the killer strikes again.

The Book Of Murder

Art imitates life. Or does it? One sleepy Sunday morning in Buenos Aires, the protagonist of Martinez's brilliant new mystery finds himself unexpectedly tangled up in the story of Luciana, a former authors' assistant whom he has not seen for at least ten years, and Kloster, a rival writer - only far more successful; bestselling, in fact. What he discovers will make him question everything he had always believed - taken for granted - about chance and calculation, cause and effect. Luciana is desperate. In the decade since she last had anything to do with either of the writers, nearly all her close family have died, in highly unusual circumstances. And Luciana or her sister could be next. Luciana is convinced that her one-time employer Kloster is behind the deaths, punishing her for her part in the break-up of his marriage in a murderous frenzy of revenge worthy of one of his own prodigiously successful crime novels. But which comes first, murder or novel? Clever and gripping, THE BOOK OF MURDER is a chilling crime story in which the line between fact and fiction suddenly seems blurred.

The Oxford Brotherhood

Mathematics student G is trying to resurrect his studies, which is proving difficult as he finds himself - and not for the first time - drawn into investigating a series of mysterious crimes. When Kristen, a researcher hired by the Lewis Carroll Brotherhood, makes a startling new discovery concerning pages torn from Carroll's diary, she hesitates to reveal to her employers a hitherto unknown chapter in his life. Oxford would be rocked to its core if the truth about Lewis Carroll's relationship with Alice Liddell - the real Alice - were brought to light. After Kristen is involved in a surreal accident and members of the Brotherhood are anonymously sent salacious photographs of Alice, G joins forces with Kristen as they begin to realise that dark powers are at work. More pictures are received, and it becomes clear that a murderer is stalking anyone who shows too much interest in Carroll's life. G must stretch his mathematical mind to its limits to solve the mystery and understand the cryptic workings of the Brotherhood. Until then, nobody, not even G, is safe. A thrilling novel from the author of The Oxford Murders, inspired by true, strange stories from Carroll's life, The Oxford Brotherhood is sure to make you curiouiser and curiouiser.

The Oxford Brotherhood

More pictures are received, and it becomes

clear that a murderer is stalking anyone who shows too much interest in Carroll's life. G must stretch his mathematical mind to its limits to solve the mystery and understand the cryptic workings of the Brotherhood. Until then, nobody, not even G, is safe. A thrilling novel from the author of *The Oxford Murders*, inspired by true, strange stories from Carroll's life, *The Oxford Brotherhood* is sure to make you curiouiser and curiouiser.

The Oxford Murders

Two mathematicians must join forces to stop a serial killer in this spellbinding international bestseller. A paperback sensation in Argentina, Spain, and the United Kingdom, "The Oxford Murders" has been hailed as "a remarkable feat" ("Time Out" London) and its author as "one of Argentina's most distinctive voices" ("The Times Literary Supplement"). It begins on a summer day in Oxford, when a young Argentine graduate student finds his landlady—an elderly woman who helped crack the Enigma Code during World War II—murdered in cold blood. Meanwhile, a renowned Oxford logician receives an anonymous note bearing a circle and the words "the first of a series." As the murders begin to pile up and more symbols are revealed, it is up to this unlikely pair to decipher the pattern before the killer strikes again.

Regarding Roderer

Roderer sacrifices his friends, family, and girlfriend in an obsessive search for ultimate truth

La serie di Oxford

La prima indagine del professor Seldom. In una tiepida serata estiva, un dottorando di matematica argentino scopre il cadavere della sua anziana padrona di casa. Ben presto, la bella cittadina universitaria di Oxford è scossa da altri «delitti impercettibili», omicidi regolarmente annunciati da messaggi contenenti simboli oscuri che vengono recapitati all'Istituto di matematica, all'indirizzo di Arthur Seldom, noto professore di logica e relatore del giovane argentino. Passo dopo passo, nella mente dei due matematici si fa strada l'ipotesi dell'esistenza di un collegamento fra quelle strane morti e il teorema più famoso al mondo, che sarà oggetto di un importante convegno previsto a Cambridge di lì a breve. Per Seldom e il suo improvvisato Watson, lo scioglimento dell'enigma legato a quei simboli incomprensibili diventa una lotta contro il tempo per impedire che lo scaltro assassino colpisca ancora.

Borges and Mathematics

Borges and Mathematics is a short book of essays that explores the scientific thinking of the Argentine writer Jorge Luis Borges (1899-1986). Around half of the book consists of two "lectures" focused on mathematics. The rest of the book reflects on the relationship between literature, artistic creation, physics, and mathematics more generally. Written in a way that will be accessible even to those "who can only count to ten," the book presents a bravura demonstration of the intricate links between the worlds of sciences and arts, and it is a thought-provoking call to dialog for readers from both traditions. The author, Guillermo Martínez, is both a recognized writer, whose murder mystery *The Oxford Murders* has been translated into thirty-five languages, and a PhD in mathematics. Contents: *Borges and Mathematics: First Lecture*; *Borges and Mathematics: Second Lecture*; *The Golem and Artificial Intelligence*; *The Short Story as Logical System*; *A Margin Too Narrow*; *Euclid, or the Aesthetics of Mathematical Reasoning*; *Solutions and Disillusions*; *The Pythagorean Twins*; *The Music of Chance (Interview with Gregory Chaikin)*; *Literature and Rationality*; *Who's Afraid of the Big Bad One?*; *A Small, Small God*; *God's Sinkhole*. This book was originally published in Spanish as *Borges y la matemática* (2003). It has been translated with generous support from the Latino Cultural Center at Purdue University.

Black Chalk

One game. Six students. Five survivors. It was only ever meant to be a game. A game of consequences, of silly forfeits, childish dares. A game to be played by six best friends in their first year at Oxford University. But then the game changed: the stakes grew higher and the dares more personal, more humiliating, finally evolving into a vicious struggle with unpredictable and tragic results. Now, fourteen years later, the remaining players must meet again for the final round.

Los crímenes de Oxford

Guión cinematográfico de Alex de la Iglesia y Jorge Guerricaechevarría, basado en la novela homónima de Guillermo Martínez. Incluye imágenes del rodaje y el blog "Blasfemando en el vórtice del universo"

Endymion Spring

Who or what is Endymion Spring? A power for good, or for evil . . . A legendary book that holds the secret to a world of knowledge . . . A young boy without a voice – whose five-hundred-year-old story is about to explode in the twenty-first century . . . Set in present-day Oxford and Germany at the dawn of printing, one magical book sets two boys' worlds alight – bringing them unimaginable danger, excitement and power . . . Skelton's brilliant literary debut. Powerfully gripping, a perfect, magical read for teenagers and adults alike.

The Beans of Egypt, Maine

A novel of a down-and-out New England family that "seizes the reader on its opening page with . . . a knock-about country humor unmistakably its own" (Newsweek). There are families like the Beans all over America. They live on the wrong side of town in mobile homes strung with Christmas lights all year round. The women are often pregnant, the men drunk and just out of jail, and the children too numerous to count. In this novel that "pulses with kinetic energy," we meet the God-fearing Earlene Pomerleau, and experience her obsession with the whole swarming Bean tribe (Newsweek). There is cousin Rubie, a boozier and a brawler; tall Aunt Roberta, the earth mother surrounded by countless clinging babies; and Beal, sensitive, often gentle, but doomed by the violence within him. In *The Beans of Egypt, Maine*, Carolyn Chute—whose jobs included waitress, chicken factory worker, and hospital floor scrubber before gaining renown as a prize-winning novelist—creates "a fictional world so vivid and compelling that one feels at a loss when it ends. The Beans belong with the Snopes clan of Faulkner's Yoknapatawpha County, with Erskine Caldwell's white Southerners, and with the rural blacks of Alice Walker's *The Color Purple*" (San Jose Mercury News).

The Nine Tailors

Bell strokes toll out the death of an unknown man, and summon Lord Wimsey to East Anglia to solve the mystery.

Trick Of The Dark

When clinical psychiatrist Charlie Flint is sent a mysterious package of press cuttings about a brutal murder, it instantly grabs her attention. The murder occurred on the grounds of her old Oxford college—a groom battered to death just hours after his wedding. As Charlie delves back into the closeted, mysterious world that is academic life at Oxford, every step she takes toward the truth is a step closer to danger.

The Semantics of Murder

Based on a true crime still unsolved by the LAPD.

The Parrot's Theorem

Mr. Ruche, a Parisian bookseller, receives a bequest from a long lost friend in the Amazon of a vast library of math books, which propels him into a great exploration of the story of mathematics. Meanwhile Max, whose family lives with Mr. Ruche, takes in a voluble parrot who will discuss math with anyone. When Mr. Ruche learns of his friend's mysterious death in a Brazilian rainforest, he decides that with the parrot's help he will use these books to teach Max and his brother and sister the mysteries of Euclid's Elements, Pythagoras's Theorem and the countless other mathematical wonders. But soon it becomes clear that Mr. Ruche has inherited the library for reasons other than enlightenment, and before he knows it the household is racing to prevent the parrot and vital, new theorems from falling into the wrong hands. An immediate bestseller when first published in France, *The Parrot's Theorem* charmingly combines a straightforward history of mathematics and a first-rate murder mystery.

The Environmentalism of the Poor

This is a wonderful book rich in empirical detail, full of theoretical insights, offering hope in a bleak world, altogether inspiring. . . a tremendous achievement of having helped to create the disciplines of ecological economics and political ecology, bringing them alive in this book, and making their insights available to the developing worldwide movement for environmental justice. Pat Devine, *Environmental Values* Any book by the ecological economist Joan Martinez-Alier is a Big Publishing Event. . . this is a book by a writer who loves his subject, knows it well, respects its history, and is driven by the desire to do justice. These are qualities enough to send you to the bookshop or the library in search of *The Environmentalism of the Poor*. Andrew Dobson, *Environment Politics* The book is a worthy and in-depth contribution to debates about political ecology and ecological economics. It should be read by all environmental and ecological economists who wish to make their analysis more relevant. Tim Forsyth, *Progress in Development Studies* A marvellous combination of insight, research and activism. . . A must-read for policymakers, practitioners and academics alike, and for anyone concerned with sustainable development, environmentalism or poverty alleviation. *Human Ecology Journal* . . . one of the most important environmental books to have been published recently. Martinez-Alier integrates two of the most significant areas of environmental theory political ecology and ecological economics. Eurig Scandrett, *Friends of the Earth Scotland* The book has three main strengths: its bibliography, which is extensive; the global perspective on the environmental movement and the relationship with poverty; and the general theme of this interdisciplinary work, which is not so much to provide new information, but to consider the existing information in a new light. Martinez-Alier is to be commended for taking such a step in the literature . . . the writing style is extremely approachable . . . Recommended. B.J. Peterson, *Choice* [Joan] Martinez-Alier combines the honest discipline of a scholar with the passionate energy of an activist. The result, *The Environmentalism of the Poor*, is highly recommended! Herman E. Daly, *University of Maryland, College Park, US* *The Environmentalism of the Poor* has the explicit intention of helping to establish two emerging fields of study political ecology and ecological economics whilst also investigating the relations between them. The book analyses several manifestations of the growing environmental justice movement , and also of popular environmentalism and the environmentalism of the poor , which will be seen in the coming decades as driving forces in the process to achieve an ecologically sustainable society. The author studies, in detail, many ecological distribution conflicts in history and at present, in urban and rural settings, showing how poor people often favour resource conservation. The environment is thus not so much a luxury of the rich as a necessity of the poor. It concludes with the fundamental questions: who has the right to impose a language of valuation and who has the power to simplify complexity? Joan Martinez-Alier combines the study of ecological conflicts and the study of environmental valuation in a totally original approach that will appeal to a wide cross-section of academics, ecologists and environmentalists.

Inspector Morimoto and the Sushi Chef

The deductive powers of Inspector Morimoto and Officer Suzuki are pressed to the limit by the intriguing events that they encounter in their fourth case. A young factory worker is placed on trial for a series of cash machine robberies, and Sergeant Yamada is the first witness called by the Public Prosecutor as he quickly builds a compelling case under the austere gaze of Judge Noda and the experienced legal eye of Mr. Bando. And when Professor Shirane from the Osaka Science University provides testimony based upon his expertise in probability theory, the odds appear to be heavily stacked against the defendant. Back at the Police Headquarters, the Chief hires a consulting company to assess the competency of his police force, and he also becomes concerned about the overzealous forensic work of Dr. Jimbo. Morimoto and Suzuki are intent upon delaying their interview with the consultants for as long as possible, and they begin to dig a little deeper into the defendant's golf games and his penchant for soaking in hot spring baths. And as the Chief lands in some hot water of his own, Morimoto and Suzuki hatch a carefully crafted plan that raises eyebrows throughout the legal establishment.

Inside Countries

Offers a groundbreaking analysis of the distinctive substantive, theoretical and methodological contributions of subnational research in the field of comparative politics.

Searching the Heavens and the Earth

Jesuits established a large number of astronomical, geophysical and meteorological observatories during the 17th and 18th centuries and again during the 19th and 20th centuries throughout the world. The history of these observatories has never been published in a complete form. Many early European

astronomical observatories were established in Jesuit colleges. During the 17th and 18th centuries Jesuits were the first western scientists to enter into contact with China and India. It was through them that western astronomy was first introduced in these countries. They made early astronomical observations in India and China and they directed for 150 years the Imperial Observatory of Beijing. In the 19th and 20th centuries a new set of observatories were established. Besides astronomy these now included meteorology and geophysics. Jesuits established some of the earliest observatories in Africa, South America and the Far East. Jesuit observatories constitute an often forgotten chapter of the history of these sciences.

Principles, Definitions and Model Rules of European Private Law

In this volume, the Study Group and the Acquis Group present the first academic Draft of a Common Frame of Reference (DCFR). The Draft is based in part on a revised version of the Principles of European Contract Law (PECL) and contains Principles, Definitions and Model Rules of European Private Law in an interim outline edition. It covers the books on contracts and other juridical acts, obligations and corresponding rights, certain specific contracts, and non-contractual obligations. One purpose of the text is to provide material for a possible "political" Common Frame of Reference (CFR) which was called for by the European Commission's Action Plan on a More Coherent European Contract Law of January 2003.

Cybernetic Revolutionaries

A historical study of Chile's twin experiments with cybernetics and socialism, and what they tell us about the relationship of technology and politics. In *Cybernetic Revolutionaries*, Eden Medina tells the history of two intersecting utopian visions, one political and one technological. The first was Chile's experiment with peaceful socialist change under Salvador Allende; the second was the simultaneous attempt to build a computer system that would manage Chile's economy. Neither vision was fully realized—Allende's government ended with a violent military coup; the system, known as Project Cybersyn, was never completely implemented—but they hold lessons for today about the relationship between technology and politics. Drawing on extensive archival material and interviews, Medina examines the cybernetic system envisioned by the Chilean government—which was to feature holistic system design, decentralized management, human-computer interaction, a national telex network, near real-time control of the growing industrial sector, and modeling the behavior of dynamic systems. She also describes, and documents with photographs, the network's Star Trek-like operations room, which featured swivel chairs with armrest control panels, a wall of screens displaying data, and flashing red lights to indicate economic emergencies. Studying project Cybersyn today helps us understand not only the technological ambitions of a government in the midst of political change but also the limitations of the Chilean revolution. This history further shows how human attempts to combine the political and the technological with the goal of creating a more just society can open new technological, intellectual, and political possibilities. Technologies, Medina writes, are historical texts; when we read them we are reading history.

Murder In The Dark

By the author of *THE HANDMAID'S TALE* and *ALIAS GRACE* A beautifully bizarre assortment of short stories and prose poems. Writing on an eclectic range of subjects from 'Bread' and 'Strawberries', to 'Fainting' and 'Women's Novels', Margaret Atwood brings her astonishing world view to the comings and goings of ordinary life. The pretentious male chef is taken down a peg, a gang of cynical five year olds concoct a poisonous brew; and knowing when to stop is of deadly importance in a game of Murder in the Dark. * Praise for Murder in the Dark: These vignettes glow with the usual Atwood magic of intelligence ... an exhilarating performance, full of sharp pleasures for the mind -BRITISH BOOK NEWS 'A brilliant and witty writer' -COSMOPOLITAN 'Direct, unpretentious, humorous' -SUNDAY TIMES

Miss Marple: the Complete Short Stories

Miss Marple: The Complete Story Collection gathers together in one magnificent volume all of Agatha Christie's short stories featuring her beloved intrepid investigator, Miss Marple. It's an unparalleled compendium of murder, mayhem, mystery, and detection that represents some of the finest short form fiction in the crime fiction field, and is an essential omnibus for Christie fans. Described by her friend Dolly Bantry as "the typical old maid of fiction," Miss Marple has lived almost her entire life in the sleepy hamlet of St. Mary Mead. Yet, by observing village life she has gained an unparalleled insight into human

nature--and used it to devastating effect. As her friend Sir Henry Clithering, the ex-Commissioner of Scotland Yard, has been heard to say: "She's just the finest detective God ever made"--and many Agatha Christie fans would agree.

Narrow But Endlessly Deep

On 11 September 1973, the Chilean Chief of the Armed Forces Augusto Pinochet overthrew the Popular Unity government of Salvador Allende and installed a military dictatorship. Yet this is a book not of parties or ideologies but public history. It focuses on the memorials and memorialisers at seven sites of torture, extermination, and disappearance in Santiago, engaging with worldwide debates about why and how deeds of violence inflicted by the state on its own citizens should be remembered, and by whom. The sites investigated — including the infamous National Stadium — are among the most iconic of more than 1,000 such sites throughout the country. The study grants a glimpse of the depth of feeling that survivors and the families of the detained-disappeared and the politically executed bring to each of the sites. The book traces their struggle to memorialise each one, and so unfolds their idealism and hope, courage and frustration, their hatred, excitement, resentment, sadness, fear, division and disillusionment. 'This is a beautifully written book, a sensitive treatment of the issues and lives of those who have faced a great deal of loss, most often as unsung heroes, in what are now recognized as Chilean sites of memory. The book is a testament to people who have not been asked to speak, until Peter Read and Marivic Wyndham ask them to tell their stories. They do not shy away from hard tensions about memorialization, the difficulties of challenging a powerful state and the long and arduous struggles to ensure less powerful voices are heard.' — Professor Katherine Hite, Frederick Ferris Thompson Chair of Political Science, Vassar College, USA.

Practical Applied Mathematics

Drawing from a wide variety of mathematical subjects, this book aims to show how mathematics is realised in practice in the everyday world. Dozens of applications are used to show that applied mathematics is much more than a series of academic calculations. Mathematical topics covered include distributions, ordinary and partial differential equations, and asymptotic methods as well as basics of modelling. The range of applications is similarly varied, from the modelling of hair to piano tuning, egg incubation and traffic flow. The style is informal but not superficial. In addition, the text is supplemented by a large number of exercises and sideline discussions, assisting the reader's grasp of the material. Used either in the classroom by upper-undergraduate students, or as extra reading for any applied mathematician, this book illustrates how the reader's knowledge can be used to describe the world around them.

The Calculus of Murder

In a sweeping review of forty truth commissions, Priscilla Hayner delivers a definitive exploration of the global experience in official truth-seeking after widespread atrocities. When *Unspeakable Truths* was first published in 2001, it quickly became a classic, helping to define the field of truth commissions and the broader arena of transitional justice. This second edition is fully updated and expanded, covering twenty new commissions formed in the last ten years, analyzing new trends, and offering detailed charts that assess the impact of truth commissions and provide comparative information not previously available. Placing the increasing number of truth commissions within the broader expansion in transitional justice, *Unspeakable Truths* surveys key developments and new thinking in reparations, international justice, healing from trauma, and other areas. The book challenges many widely-held assumptions, based on hundreds of interviews and a sweeping review of the literature. This book will help to define how these issues are addressed in the future.

Unspeakable Truths 2e

Follows the experiences of travelers who are stranded by a blizzard in a decrepit hotel where one of their number begins killing off the rest.

1222

Learning that an old adversary may have escaped Germany with a fortune in stolen gold, retired Memphis cop Buck Schatz teams up with his plugged-in, smart-alecky grandson in a vigilante investigation involving a Mississippi loan shark, a 7-foot-tall Hasidic Jewish man and a bloodthirsty maniac.

Don't Ever Get Old

"Gervase Fen, in his first case, is up to his Oxford Professorship in murder. A troupe of actors converging on the scholarly town for a brief engagement finds its leading lady shot to death. Bad and beautiful, Yseult had many enemies-- but which one had done her in? With alibis as plentiful as motives, only Gervase Fen (self-described as "the only literary critic turned detective in the whole of fiction") can wade through the witty verbiage to find the killer"--

The Case of the Gilded Fly

Now living in upstate New York, former LAPD lieutenant Peter Decker is plunged into a bizarre web involving academia, underworld crime, and calculating killers in this compulsive novel in New York Times bestselling author Faye Kellerman's beloved Decker and Lazarus series. Former LAPD lieutenant Peter Decker is relishing the quiet and slow pace of his new job with the Greenbury police department. The work is low stress and engaging, and it's been almost a year since the last murder in this sleepy upstate New York town. Then the body of a nude man is found deep within the woods, shattering Decker's peace. The death appears to be a suicide—a single shot to the head, the gun by his side. But until the coroner's ruling, the scene must be treated as a suspicious crime. Without any personal effects near the body, Decker must dig to uncover his identity, a task made difficult by the department's tight budget and limited personnel. Luckily, Decker gets some unexpected help when his friend and former Greenbury colleague Tyler McAdams calls, looking for a quiet place to study for his law finals. The investigation takes Decker and McAdams to Knead Loft College, where they must penetrate the indecipherable upper echelons of mathematics and mathematical prodigies. Beneath the school's rarified atmosphere they discover a sphere of scheming academics, hidden cyphers—and most dangerous of all—a realm of underworld crime that transforms harmless nerds into cold, calculating evil geniuses. It will take all of Decker's experience and McAdams's brains to penetrate enigmatic formulas and codes and solve a dark, twisted crime devised by some brilliant and depraved masterminds.

The Theory of Death

'A startling psychological mystery' Michael Greenberg Benjamín Chaparro is a man haunted by his past. A retired detective, he remains obsessed with the decades-old case of the rape and murder of a young woman in her own bedroom. As he revisits the details of the investigation, he is reacquainted with his similarly long, unrequited love for Irene Hornos, then just an intern, now a respected judge. Set in the Buenos Aires of the 1970s, *The Secret in Their Eyes* reveals the underpinnings of Argentina's Dirty War, and asks what justice really means. And it explores the boundaries of love in all its forms: adoration, devotion and, finally, obsession.

The Secret in Their Eyes

Nominated for the Edgar Award for Best Novel * Nominated for the ITW Thriller Award for Best Young Adult Novel A BookPage Best Book of the Year * A People Magazine Best Book of Summer * A Parade Best Book of Summer * A Crime Reads Most Anticipated Book of Summer "Powerful...a breathtaking read, with flawed and authentic characters who hit so close to home that at times it is impossible not to root for them." — San Francisco Chronicle A body burns in the high desert hills. A boy walks into a fire station, pale with the shock of discovery. A middle school teacher worries when her colleague is late for work. By day's end, when the body is identified as local math teacher Adam Merkel, a small Nevada town will be rocked to its core. Adam Merkel left a university professorship in Reno to teach middle school in Lovelock seven months before he died. A quiet, seemingly unremarkable man, he connected with just one of his students: Sal Prentiss, a lonely sixth grader who lives with his uncles on a desolate ranch in the hills. The two outcasts developed a tender, trusting friendship that brought each of them hope in the wake of tragedy. But it is Sal who finds Adam's body, charred almost beyond recognition, half a mile from his uncles' compound. Nora Wheaton, the middle school's social studies teacher, dreamed of a life far from Lovelock only to be dragged back on the eve of her college graduation to care for her disabled father, a man she loves but can't forgive. She sensed in the new math teacher a kindred spirit--another soul bound to Lovelock by guilt and duty. After Adam's death, she delves into his past for clues to who killed him and finds a dark history she understands all too well. But the truth about his murder may lie closer to home. For Sal Prentiss's grief seems heavily shaded with fear, and Nora suspects he knows more than he's telling about how his favorite teacher died. As she tries to earn the wary boy's trust, she finds he holds not only the key to Adam's murder, but an unexpected chance at the life she thought she'd lost. Weaving together the last months of Adam's life, Nora's search for answers,

and a young boy's anguished moral reckoning, this unforgettable thriller brings a small American town to vivid life, filled with complex, flawed characters wrestling with the weight of the past, the promise of the future, and the bitter freedom that forgiveness can bring.

Amerigo Vespucci: the Historical Context of His Explorations and Scientific Contribution

This book is a collection of more than thirty essays by renowned scholars, historians, journalists, and media professionals that portray the experience of Cubans exiled in the United States and other countries in the last sixty years.

The Distant Dead

Witty Italian art-history crime series featuring English dealer Jonathan Argyll, from the author of the best-selling literary masterpiece, 'An Instance of the Fingerpost'.

Cubans, an Epic Journey

A gruesome secret is about to be unearthed... 'Fascinating... spectacularly gory... fast-paced.' Mail on Sunday When a human skull is dug up in a garden near Boston, Dr Maura Isles is called in to investigate. She quickly discovers that the skeleton - that of a young woman - has been buried for over a hundred years. But who was the woman? And how did she die? It is the 1930s, and an impoverished medical student, Norris Marshall, is forced to procure corpses in order to further his studies in human anatomy. It's a gruesome livelihood that will bring him into contact with a terrifying serial killer who slips from ballrooms to graveyards and into autopsy suites. And who is far, far closer than Norris could ever imagine...

The Last Judgement

"An emerging field of study that explores the Hispanic minority in the United States, Latino Studies is enriched by an interdisciplinary perspective. Historians, sociologists, anthropologists, political scientists, demographers, linguists, as well as religion, ethnicity, and culture scholars, among others, bring a varied, multifaceted approach to the understanding of a people whose roots are all over the Americas and whose permanent home is north of the Rio Grande. Oxford Bibliographies in Latino Studies offers an authoritative, trustworthy, and up-to-date intellectual map to this ever-changing discipline."--Editorial page.

Why People Pay Taxes

Angela Cray Gets Real (An Angela Cray Mystery, Book 1)

Searching for a client's missing fiancé, Angela Cray uncovers secrets that people will kill to keep hidden.

Angela Marchmont Mysteries: Books 4-6

Anthology containing: The Riddle at Gipsy's Mile The Incident at Fives Castle The Imbroglia at the Villa Pozzi

Angela Crawford Series Books 1-6

This compilation of books are all clean Cozy Mystery short stories that do not contain any foul language, sexual situations, witches, or paranormal events. Book 1 - Forest For The Trees Angela Crawford returned to her home town of Millerston to work in the family lumber business after going through a difficult divorce. She had always considered herself to be a strong woman, but just as she was starting to get comfortable in her new surroundings her ex suddenly shows up in town. Could his visit result in murder? Book 2 - Put Your Affairs In Order After 60 years owning and operating Crawford Lumber Angela Crawford's parents have decided to take a vacation. Angela of course thinks that she will be in

charge of running the business while they're gone. Will her parents trust her to run the business in their absence or do they have another plan that could result in murder? Book 3 - A Snake In The Grass Small town USA, Millerston Oregon, is about to get its first new big box store and the protesters are already lining up. Angela Crawford is looking for a creative way to help the local protesters block the new store from ruining the small-town businesses. Will the new change in the landscape result in murder? Book 4 He Loves Me He Loves Me Not Angela Crawford just received a job offer from her former employer in California with a starting salary at twice her prior wages. Now she must decide whether to leave her family owned business, and her new boyfriend, to move back to California where her ex-husband currently resides. Could that decision result in murder? Book 5 The Proof Is In The Printing After the recent threat of a national big-box store coming to Millerston, Angela Crawford decided it's time to put her marketing skills to work. Family owned Crawford Lumber hasn't added any new products to sell for many years, and it's time change that. Will adding a new product line result in murder? Book 6 Deck The Walls Snow is falling and Christmas is just a short time away. Crawford Lumber had closed due to inclement weather and Angela Crawford decided to work on her own home remodeling project during the downtime. Could the house she inherited from her grandmother hold a secret from long ago?

Act of Murder

When one of Professor Emmeline Prather's students dies while working on the fall musical, Em has reason to suspect foul play. She teams up with fellow English professor Lenny Jenkins to comb the campus and vicinity for clues, a venture that puts their reputations, their jobs, and even their lives at risk. Book 1 of a new cozy mystery series.

Uncharted Territory

Angela Panther's ability to communicate with the dead gets her called in on the case when an unidentified fourteen-year-old boy takes a dive off an interstate overpass. Atlanta detective Aaron Banner knows she's legit, and he wants to know: was the boy's death suicide, or murder? The problem is, the spirit can't remember who he was or the night he died, and to make matters worse, he doesn't care. To complicate matters Angela's best friend Mel, newly single and on the prowl, has her sights set on the sexy Detective Banner, and Angela's mother drives her even more crazy dead than alive.

The Mystery at Underwood House

Chilling new YA, perfect for fans of Orange is the New Black and Stephen King. After three years in juvie, Angela Davis is just three months shy of release. She'll finally see her little brother again. And she'll get the hell out of the pit that is Brunefield Correctional Facility. But then Jessica arrives ... She's young, only ten years old, and she's brought to Brunefield in shackles under the highest security possible. She doesn't speak and is placed in the segregation ward. No one knows what she did to end up there. But there are plenty of rumours. Soon creepy things begin to happen to Angela and her friends that can only be traced to the new girl's arrival and it becomes clear that Jessica is more dangerous than anyone ever expected ...

Lost Girls

Everybody needs someone who gets their crazy Hank Kirby can't catch a break. He doesn't mean to screw up. It just happens. Case in point: his attempt to ask out the girl he likes literally goes up in flames when he spelled "prom" in sparklers on Amanda Carlisle's lawn...and nearly burns down her house, without ever asking her the big question. Hank just wants to pretend the incident never happened. And he might've gotten away with it-except there is a witness. Peyton Breedlove, brooding loner and budding pyromaniac, saw the whole thing, and she blackmails Hank into an unusual friendship. Sure, Hank may be headed for his biggest disaster yet, but it's only when life falls apart that you can start piecing it back together. "Funny, authentic, and, at turns, heartbreaking."-Jessi Kirby, author of Things We Know by Heart and Moonglass "I had so much fun reading this book."-Adi Alsaid, author of Never Always Sometimes and Let's Get Lost

Burning

Meet Detective Lottie Parker in this page-turning serial killer thriller, guaranteed to keep you reading late into the night that's great for fans of Rachel Abbott, Karin Slaughter and Robert Dugoni. When a woman's body is discovered in a cathedral and hours later a young man is found hanging from a tree

outside his home, Detective Lottie Parker is called in to lead the investigation. Both bodies have the same distinctive tattoo clumsily inscribed on their legs. It's clear the pair are connected, but how? The trail leads Lottie to St Angela's, a former children's home, with a dark connection to her own family history. Suddenly the case just got personal. As Lottie begins to link the current victims to unsolved murders decades old, two teenage boys go missing. She must close in on the killer before they strike again, but in doing so is she putting her own children in terrifying danger? Lottie is about to come face to face with a twisted soul who has a very warped idea of justice.

My Kind of Crazy

Winner of the British Fantasy Award, *The Scar* by China Miéville is a colossal fantasy of incredible diversity and spellbinding imagination, set in the richly visualized world of Bas-Lag. A human cargo bound for servitude in exile . . . A pirate city hauled across the oceans . . . A hidden miracle about to be revealed . . . These are the ingredients of an astonishing story. It is the story of a prisoner's journey. Of the search for the island of a forgotten people, for the most astonishing beast in the seas, and ultimately for a fabled place - a massive wound in reality, a source of unthinkable power and danger.

The Missing Ones

I'm not supposed to leave the house. But what my husband doesn't know won't kill him. I break his rules every morning on my runs. It's always been best when I have a routine. So every day I wake up, run, clean the house, wish for a better life, repeat. And every day is exactly the same. Except for Thursdays. I live and breathe for Thursdays. It's when he comes. I watch him from a distance. I can't help myself. But I was never supposed to talk to him. I know what you're thinking. But you don't know my story. You don't know the kind of monster my husband is. And trust me, you have no idea who I am.*This is a standalone thriller with an unforgettable twist.*

The Scar

Blake Moreno doesn't do relationships, ever. With more money than he knows what to do with and his pick of beautiful women, he has no plans of becoming tied down. Hadley Jacobs doesn't have time for dating. With plans to finish culinary school and to own her own bakery, she has her life all mapped out. Blake thinks Hadley is infuriating... Hadley thinks Blake is controlling... Both couldn't be more wrong. When life throws them a curve ball, they have no choice but to catch it and to prove that in the end, love wins. Every. Time.

The Truth in My Lies

Bianca will risk everything to be with Lucas. After escaping from Evernight Academy, the vampire boarding school where they met, Bianca and Lucas take refuge with Black Cross, a fanatical group of vampire hunters. Bianca must hide her supernatural heritage or risk certain death at their hands. But when Black Cross captures her friend—the vampire Balthazar—hiding is no longer an option. Soon, Bianca and Lucas are on the run again, pursued not only by Black Cross, but by the powerful leaders of Evernight. Yet no matter how far they travel, Bianca can't escape her destiny. Bianca has always believed their love could survive anything . . . but can it survive what's to come?

Gold Digger

A new novel from Angela Cervantes that uses the story of Frida Kahlo to help readers discover the true power of heritage, art, and family. A room locked for fifty years. A valuable peacock ring. A mysterious brother-sister duo. Paloma Marquez is traveling to Mexico City, birthplace of her deceased father, for the very first time. She's hoping that spending time in Mexico will help her unlock memories of the too-brief time they spent together. While in Mexico, Paloma meets Lizzie and Gael, who present her with an irresistible challenge: The siblings want her to help them find a valuable ring that once belonged to beloved Mexican artist Frida Kahlo. Finding the ring means a big reward -- and the thanks of all Mexico. What better way to honor her father than returning a priceless piece of jewelry that once belonged to his favorite artist! But the brother and sister have a secret. Do they really want to return the ring, or are they after something else entirely?

Hourglass

The impact on a 16-year-old girl when her mother abandons the family. On the one hand she is glad to be free of her mother's criticism, on the other she feels an aching emptiness. By the author of *Suspicious River*.

American Book Publishing Record

The Girl on the Train meets *Before I Go to Sleep* with a dash of *Bridget Jones* in this chilling tale of love gone horribly wrong ... Any woman who's ever been involved with a bad, bad man and been dumped will understand what it feels like to be broken, broken-hearted and bent on revenge. Taylor Bishop is hurt, angry and wants to destroy Angus Hollingsworth in the way he destroyed her: 'Insidiously. Irreparably. Like a puzzle he'd slowly dissembled ... stolen a couple of pieces from, and then discarded, knowing that nobody would ever be able to put it back together ever again.' So Taylor consults *The Art of War* and makes a plan. Then she takes the next irrevocable step – one that will change her life forever. Things start to spiral out of her control – and *The Sunday Girl* becomes impossible to put down. Praise for *The Sunday Girl* 'A gripping psychological thriller.' – *The Daily Telegraph* 'The Girls Club of psychological thrillers has a worthy new member.' – *Herald Sun* 'Exciting, irresistible, and real.' – *Good Reading* ? 'An abrasive thriller that will leave readers with a bit of a burn' – *Booklist*

Me, Frida, and the Secret of the Peacock Ring (Scholastic Gold)

Thyla is a story of Tasmania: of darkness, of convicts, of devils and tigers, and of promises that stay true through the centuries. It is the story of what happened to Cat, and what Tessa really is. My name is Tessa. I am strong. I am brave. I do not cry. These are the only things I know for certain. I was found in the bush, ragged as a wild thing. I have no memory - not even of how I got the long, striping slashes across my back. They make me frightened of what I might remember. The policewoman, Connolly, found me a place in a boarding school and told me about her daughter, Cat, who went missing in the bush. I think there is a connection between Cat, me, and the strange things going on at this school. If I can learn Cat's story, I might discover my own - and stop it happening again. A thrilling paranormal tale of shapeshifting, a centuries-old war and finding out who you really are when your memories betray you.

White Bird in a Blizzard

This is not your typical happily ever after... Lauren Brooks wants to do three things: Escape the small town she grew up in, get accepted to her dream school in Chicago, and graduate without drowning in debt. Now she's working her ass off to do just that. With a full course load and a waitressing job at one of the hottest night clubs in Chicago, she does not have time for distractions; namely ones who only want to get into her pants. She's been burned before. Only a fool goes for a second round.. With just two semesters left until graduation, everything's on track. Until she meets Cal. Enter distraction. At six-foot-two, with ebony hair, deep grey eyes, and a smile that could only hide an agenda, she knows he's trouble. And for the first time in her life, a little trouble might be just what she needs. No what she wants. It isn't like she'd ever marry the guy. Until she does. What she thinks will be her happily ever after, is only the beginning. Cal has a secret. One that makes loving him come with a price, and being his wife cost more than she bargained for.

The Sunday Girl

Does love have a cost? Brian Silver is CEO of the world's largest coffee house chain in the world, Silver Coffee. Growing up in a wealthy family, Silver had it all: money, fame, and any man he wanted, but that was never enough. Silver wants more. After a tragic health event that leaves him vulnerable in life, he realizes that business will not bring him the happiness he needs, and he'll do anything to find that happiness. Greyson Black is a coffee house barista in one of the Silver Coffee chains in downtown Manhattan. Greyson is finishing school and determined to find the best path for his life. When Brian Silver makes a "surprise" stop at the franchise, he's more than intrigued by the young, gorgeous Greyson. Silver knows there's only one thing that he must have now, and he will do whatever it takes to get him. When Silver and Greyson get together, sparks fly. Silver is perfect in Greyson's eyes, but is love blind? A mysterious stranger is out for Greyson, and the mind games have just begun. Greyson starts to question everything, including Silver's advances. When Danger is lurking around every corner, no one is safe. Greyson will have to determine if love is worth the danger and excitement. Can attraction be fatal, or will attraction be the saving grace Greyson needs? Will Silver's secrets ruin them or will

someone else have the first shot? Love is blinding, but suspicion is the real killer. Silver & Black is a gay mystery romance. 18+ for gay sexual content, language, and some violence.

Thyla

"The World's Finest Mystery and Crime Stories" returns with the second volume in this annual series collecting the very best of the year's mystery and crime fiction from all around the world.

If I Break

Lucy Angkatell Invited Hercule Poirot To Lunch. To Tease The Great Detective, Her Guests Stage A Mock Murder Beside The Swimming Pool. Unfortunately, The Victim Plays The Scene For Real. As His Blood Drips Into The Water, John Christow Gasps One Final Word: Henrietta . In The Confusion, A Gun Sinks To The Bottom Of The Pool. Poirot S Enquiries Reveal A Complex Web Of Romantic Attachments. It Seems Everyone In The Drama Is A Suspect And Each A Victim Of Love.

Silver and Black

A new town, a fresh start. A chance to escape old demons. Or meet new ones. He got on the Trailways bus in Galbraith, North Dakota, booked all the way through to Spokane. But the Help Wanted sign at the diner in Cross Creek was calling his name. Soon, he had a job working the grill and a place to stay, and a new name to go with them. But what he didn't have was peace of mind. Or a clear conscience. Or any memory at all of what he'd done the night before fleeing Galbraith. What he'd done to get the scratches on his wrists and the backs of his hands]] In this brand new novella, Mystery Writers of America Grand Master Lawrence Sanders delivers an unforgettable portrait of a troubled man trying to lay the ghosts of his past and make a new life for himself. But there are things you can't run away from, and one of them is who you really are. Subtle and painful and beautifully crafted, Resume Speed is Lawrence Sanders at the pinnacle of his storytelling powers.

Talking Book Topics

"A free-wheeling vehicle . . . an unforgettable ride!"—The New York Times Cat's Cradle is Kurt Vonnegut's satirical commentary on modern man and his madness. An apocalyptic tale of this planet's ultimate fate, it features a midget as the protagonist, a complete, original theology created by a calypso singer, and a vision of the future that is at once blackly fatalistic and hilariously funny. A book that left an indelible mark on an entire generation of readers, Cat's Cradle is one of the twentieth century's most important works—and Vonnegut at his very best. "[Vonnegut is] an unimitative and inimitable social satirist."—Harper's Magazine "Our finest black-humorist . . . We laugh in self-defense."—Atlantic Monthly

He thinks he sees a flash of emotion in her eyes. Sympathy? Then it's gone. 'Whatever you think this is going to be like,' she whispers, 'it's going to be worse.' When beautiful serial killer Gretchen Lowell captured her last victim - the man in charge of hunting her down - she quickly established who was really in control of the investigation. So why, after ten days of horrifying physical and mental torture, did she release Detective Archie Sheridan from the brink of death and hand herself in? Two years on, Archie now returns to lead the search for a new killer, whose recent attacks on teenage girls have left the city of Portland reeling. Shadowed by vulnerable young reporter Susan Ward, Archie knows that only one person can help him climb into the mind of this psychopath. But can Archie finally manage to confront the demons of his past without being consumed by them? 'Dark, distressing and disturbing . . . Just pray you never meet Gretchen' Val McDermid 'What may be the creepiest serial killer ever created. This is an addictive read!' Tess Gerritsen 'Move over Thomas Harris, there's a new kid on the block . . . Compelling, highly believable and very sexy' Daily Mirror

The British National Bibliography

Since Kate Beaton appeared on the comics scene in 2007 her cartoons have become fan favourites and gathered an enormous following, appearing in the New Yorker, Harper and the LA Times, to name but a few. Her website, Hark! A Vagrant, receives an average of 1.2 million hits a month, 500 thousand of them unique. Why? Because she's not just making silly jokes. She's making jokes about everything we learned in school, and more. Praised for their expression, intelligence and comic timing, her cartoons are best known for their wonderfully light touch on historical and literary topics. The jokes are a knowing look at history through a very modern perspective, written for every reader, and are a crusade against anyone with the idea that history is boring. It's pretty hard to argue with that when you're laughing your head off at a comic about Thucydides. They also cover whatever's on her mind that week - be it the perils of city living or the pop-cultural infiltration of Sex and the City, featuring an array of characters, from a mischievous pony, to reinvented superheroes, to a surly teen duo who could be the anti-Hardy-Boys. Perceptive, sharp and wonderfully irreverent, Hark! A Vagrant is as informative as it is hilarious, and a comic collection to treasure.
