Titre & musique introductive

Introduction : que l'on travaille beaucoup trop de par le monde

Préambule : que les gens dépensiers font plus de bien à la société que les épargnants

De la mise en place historique du labeur du grand nombre en vue du loisir du petit nombre

Que la technique moderne permettrait d'étendre le loisir à tous, mais que les préjugés hérités des conceptions morales des exploiters qui ont dominé pendant des siècles s'y opposent fermement De l'absurde subversion des moyens et des fins dans les discours qui tendent à culpabiliser les loisirs comme une forme de frivolité et à valoriser le travail comme étant à lui-même sa propre fin

Des bienfaits de l'oisiveté sur l'activité des individus, leur curiosité intellectuelle, leur créativité, leur bonheur, et sur la prospérité générale des sociétés humaines
