The Land of Living Men

This early work by William Morris was originally published in 1899 and we are now republishing it with a brand new introductory biography. William Morris was born in London, England in 1834. Arguably best known as a textile designer, he founded a design partnership which deeply influenced the decoration of churches and homes during the early 20th century. However, he is also considered an important Romantic writer and pioneer of the modern fantasy genre, being a direct influence on authors such as

J. R. R. Tolkien. As well as fiction, Morris penned poetry and essays. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

With the Indian Removal Act of 1830, the Choctaw people began their journey over the Trail of Tears from their homelands in Mississippi to the new lands of the Choctaw Nation. Suffering a death rate of nearly 20 percent due to exposure, disease, mismanagement, and fraud, they limped into Indian Territory, or, as they knew it, the Land of the Dead (the route taken by the souls of Choctaw people after death on their way to the Choctaw afterlife). Their first few years in the new nation affirmed their name for the land, as hundreds more died from whooping cough, floods, starvation, cholera, and smallpox. Living in the Land of the Dead depicts the story of Choctaw survival, and the evolution of the Choctaw people in their new environment. Culturally, over time, their adaptation was one of homesteads and agriculture, eventually making them self-sufficient in the rich new lands of Indian Territory. Along the Red River and other major waterways several Choctaw families of mixed heritage built plantations, and imported large crews of slave labor to work cotton fields. They developed a sub-economy based on interaction with the world market. However, the vast majority of Choctaws continued with their traditional subsistence economy that was easily adapted to their new environment. The immigrant Choctaws did not, however, move into land that was vacant. The U.S. government, through many questionable and some outright corrupt extralegal maneuvers, chose to believe it had gained title through negotiations with some of the peoples whose homelands and hunting grounds formed Indian Territory. Many of these indigenous peoples reacted furiously to the incursion of the Choctaws onto their rightful lands. They threatened and attacked the Choctaws and other immigrant Indian Nations for years. Intruding on others' rightful homelands, the farming-based Choctaws, through occupation and economics, disrupted the traditional hunting economy practiced by the Southern Plains Indians, and contributed to the demise of the Plains ways of life.

Living in the Land of Death

Scott-Eliot was an English theosophist who suggests in his introduction that we should use astral clairvoyance in researching historical events. The author states 'A time will come as certainly as the precession of the equinoxes, when the literary method of historical research will be laid aside as out of date, in the case of all original work. People among us who are capable of exercising astral clairvoyance

in full perfection--but have not yet been called away to higher functions in connexion with the promotion of human progress, of which ordinary humanity at present knows even less than an Indian ryot knows of cabinet councils--are still very few. Those who know what the few can do, and through what processes of training and self-discipline they have passed in pursuit of interior ideals, of which when attained astral clairvoyance is but an individual circumstance, are many, but still a small minority as compared with the modern cultivated world. 2 Scott-Eliot said he received his knowledge from the Theosophical Masters by astral clairvoyance. The Story of Atlantis & The Lost Lemuria describes the continent of Lemuria as stretching from the east coast of Africa across the Indian and the Pacific Oceans.

Hades; or, the Intermediate state of man

'Vivid, illuminating and unbearably tense ... A masterly meditation on trauma, on beauty, on the idea of home and the limits of love' Guardian Charlie's experiences at the Battle of Kohima and the months he spent lost in the remote jungles of Nagaland during the Second World War are now history. Home and settled on a farm in Norfolk and newly married to Claire, he is one of the lucky survivors. Starting a family and working the land seem the best things a man can be doing. But a chasm exists between them. Memories flood Charlie's mind; at night, on rain-slicked roads and misty mornings in the fields, the past can feel more real than the present. Though hidden even to himself, the darkest secrets of Charlie's adventures in the strange and shadowy ridges of the Nagaland mountains, his dream-like encounters with the mysterious and ancient tribesmen, leak and bleed through his consciousness. What should be said and what left unsaid? Is it possible to forge a new life in the wake of unfathomable horror? A beautifully conceived, deftly controlled and delicately wrought meditation on the isolating impact of war, the troubling legacies of colonialism and the inescapable reach of the past, Georgina Harding's haunting, lyrical novel questions the very nature of survival, and what it is that the living owe the dead.

Abyssinia and Its People, Or, Life in the Land of Prester John

Throughout Oceania, land is central to identity because it is understood to be spiritually nourishing and sustaining. Land is the mother. Land, and the kinship it nurtures, is the basis for sustaining livelihoods and ways of life. Therefore, Indigenous dispossession from the land has deep and far-reaching consequences. My Land, My Life: Dispossession at the Frontier of Desire explores the land rush that took place in Vanuatu from 2001 to 2014 which resulted in over ten percent of all customary land being leased. In this book, Siobhan McDonnell offers new insights into the drivers of capitalist land transformations. Using multi-scalar and multi-sited ethnography, she describes not simply a linear march toward commodification of the landscape by foreign interests, but a complex web replete with the local powerful Indigenous men involved in manipulating power and property. McDonnell meticulously describes land-leasing processes and maps the relationships between investors, middlemen, and local men. She shows how property is a tool with which foreigners reassert capitalism and neocolonial control over Indigenous landscapes. The legal identity of "landowner" contains foundational contradictions between the rights established in Vanuatu's kastom system and those afforded by property, as individualized rights over land. Property has also created sites for the production of masculine authority and enabled men to manipulate claims to land and entrench their personal power. This book explores how transactions of customary land have created new domains of agency and frontiers of desire: foreign desire to possess land and local desire to lease land for cash. It concludes with a discussion of Vanuatu's constitutional and land reform package, drafted by the author, which took effect in 2014 and delivered a more empathetic approach to Indigenous land rights and ended the land rush. Informed by decades of study, legal work, and community engagement, My Land, My Life demonstrates an engaged anthropological practice based on reciprocity that responds directly to what Indigenous people have asked for. This book is certain to appeal to a wide range of scholars as well as policy makers.

The Story of the Glittering Plain which Has Been Also Called the Land of Living Men Or the Acre of the Undying

Community-based natural resource management or CBNRM, with its attention to community participation, its call for de-centralization of rights to local resource users through democratic and equitable structures, and its potential to deliver benefits to local livelihoods and national conservation interests now forms the predominant strategy for rural development in the communal areas of Namibia. This framework is presumed by the Namibian government and international bodies concerned with conservation and development to deliver measurable and positive economic, environmental, and political results for the State and all of its citizens. CBNRM has taken on particular form and significance for

the San in Namibia. Focusing on the experiences of a group of predominantly San communities in the North-East of Namibia, the historical and contemporary situations of the San of the Nǃa Jaqna Conservancy and their engagement with CBNRM are examined. In looking to the future, this work seeks to understand what mechanisms and institutions give indigenous groups, such as the San, a foothold in the State and an avenue through which to navigate and shape their own modernity(ies). This work explores the modalities through which conservation comes together with interests of indigenous groups and how these groups deploy leverage gained through invoking conservation as discourse and practice.

Living on the Land

The Life and Times of An Irish Countryman is a chronicle of courage and determination of three generations of the Keane family, whose love of the land endured through the trials of emigration, the birth of a new nation and other challenges along the way. The story focuses on the life of Tommy Keane, a man with stubborn commitment to rural life and to improving the plight of farm families in the West of Ireland.

Pressing Into the Land of the Living

In his gripping and provocative debut, anthropologist Jason De León sheds light on one of the most pressing political issues of our time—the human consequences of US immigration policy. *The Land of Open Graves* reveals the suffering and deaths that occur daily in the Sonoran Desert of Arizona as thousands of undocumented migrants attempt to cross the border from Mexico into the United States. Drawing on the four major fields of anthropology, De León uses an innovative combination of ethnography, archaeology, linguistics, and forensic science to produce a scathing critique of "Prevention through Deterrence," the federal border enforcement policy that encourages migrants to cross in areas characterized by extreme environmental conditions and high risk of death. For two decades, this policy has failed to deter border crossers while successfully turning the rugged terrain of southern Arizona into a killing field. In harrowing detail, De León chronicles the journeys of people who have made dozens of attempts to cross the border and uncovers the stories of the objects and bodies left behind in the desert. *The Land of Open Graves* will spark debate and controversy.

The Story of the Glittering Plain Or the Land of Living Men

A wickedly smart, funny, and irresistibly off-kilter account of an improbable thousand-mile journey on foot into the heart of modern Florida, the state that Russell calls "America Concentrate." In the summer of 2016, Kent Russell--broke, at loose ends, hungry for adventure--set off to walk across Florida. Mythic, superficial, soaked in contradictions, maligned by cultural elites, segregated from the South, and literally vanishing into the sea, Florida (or, as he calls it: "America Concentrate") seemed to Russell to embody America's divided soul. The journey, with two friends intent on filming the ensuing mayhem, quickly reduces the trio to filthy drifters pushing a shopping cart of camera equipment. They get waylaid by a concerned citizen bearing a rifle; buy cocaine from an ex-wrestler; visit a spiritual medium. The narrative overflows with historical detail about how modern Florida came into being after World War II, and how it came to be a petri dish for life in a suddenly, increasingly diverse new land of minority-majority cities and of unrivaled ethnic and religious variety. Russell has taken it all in with his incomparably focused lens and delivered a book that is both an inspired travelogue and a profound rumination on the nation's soul--and his own. It is a book that is wildly vivid, encyclopedic, erudite, and ferociously irreverent--a deeply ambivalent love letter to his sprawling, brazenly varied home state.

Life in Brazil| or, The land of the cocoa and the palm

A rare adventure with the last Stone Age hunting and gathering tribe in Africa. In 1997 James Stephenson arranged to have almost a full year free, a year he wanted to spend among the Hadzabe in East Africa. He had visited these people several times previously and with every trip his fascination with them deepened, for the Hadzabe are the last hunters and gatherers still living a traditional life in Africa. At the age of 27, Stephenson intended to spend the year living among the Hadzabe, and, more importantly, living their life, hunting what they hunted, eating what they ate, participating in their

dances and ceremonies, consulting with their medicine men and learning their myths and dreams. Armed only with his camera, his art supplies and the open-hearted courage of youth, he set out to visit with a people who have changed little since the Stone Age. He wanted to glimpse the world as they perceived it and learn the wisdom they had wrestled from the land. The Language of the Land, the account of his adventure and what he learned, is travel writing at its best.

The Story of the Glittering Plain (full title: The Story of the Glittering Plain which has been also called the Land of Living Men or the Acre of the Undying) is an 1891 fantasy novel by William Morris, perhaps the first modern fantasy writer to unite an imaginary world with the element of the supernatural, and thus the precursor of much of present-day fantasy literature.[2] It is also important for its exploration of the socialist themes that interested Morris. His earlier fantasies The House of the Wolfings and The Roots of the Mountains were to some degree historical novels. Like these The Story of the Glittering Plain is set in a world similar to the distant past of northern Europe. Morris would go on to develop the new genre established in this work in such later fantasies as Child Christopher and Goldilind the Fair, The Wood Beyond the World, The Well at the World's End, and The Water of the Wondrous Isles. PLOT: The book concerns the quest of Hallblithe of the House of the Raven to rescue his fiancée the Hostage, who has been kidnapped by pirates, which ultimately takes him to the utopian Land of the Glittering Plain, also known as the Acre of the Undying or the Land of the Living Men, whose inhabitants are supposedly immortal..... William Morris (24 March 1834 - 3 October 1896) was an English textile designer, poet, novelist, translator, and socialist activist. Associated with the British Arts and Crafts Movement, he was a major contributor to the revival of traditional British textile arts and methods of production. His literary contributions helped to establish the modern fantasy genre, while he played a significant role in propagating the early socialist movement in Britain. Born in Walthamstow, Essex, to a wealthy middle-class family, Morris came under the strong influence of medievalism while studying Classics at Oxford University, there joining the Birmingham Set. After university, he trained as an architect, married Jane Burden, and developed close friendships with the Pre-Raphaelite artists Edward Burne-Jones and Dante Gabriel Rossetti and with the Neo-Gothic architect Philip Webb. Webb and Morris designed a family home, Red House, then in Kent, where the latter lived from 1859 to 1865, before moving to Bloomsbury, central London. In 1861, Morris founded a decorative arts firm with Burne-Jones, Rossetti, Webb, and others: the Morris, Marshall, Faulkner & Co. Becoming highly fashionable and much in demand, the firm profoundly influenced interior decoration throughout the Victorian period, with Morris designing tapestries, wallpaper, fabrics, furniture, and stained glass windows. In 1875, Morris assumed total control of the company, which was renamed Morris & Co. Although retaining a main home in London, from 1871 Morris rented the rural retreat of Kelmscott Manor, Oxfordshire. Greatly influenced by visits to Iceland, with Eiríkr Magnússon he produced a series of English-language translations of Icelandic Sagas. He also achieved success with the publication of his epic poems and novels, namely The Earthly Paradise (1868-1870), A Dream of John Ball (1888), the utopian News from Nowhere (1890), and the fantasy romance The Well at the World's End (1896). In 1877 he founded the Society for the Protection of Ancient Buildings to campaign against the damage caused by architectural restoration.....

From a variety of methodological perspectives, contributors to Living on the Land explore the nature and scope of Indigenous women's knowledge, its rootedness in relationships, both human and spiritual, and its inseparability from land and landscape. The authors discuss the integral role of women as stewards of the land and governors of the community and points to a distinctive set of challenges and possibilities for Indigenous women and their communities.

Land of the Living

It is said that when the world dies, the spirits of the first people will return to witness the last days of humanity. Well, the spirits have arrived, and the end is here. But not everyone has given up hope. Naledi, a teenage girl living in the deserted city once called Johannesburg, has always believed that there is a land, hidden away in time where the gods still live. And where there are gods, there are miracles. Perhaps even miracles that are big enough to save our dying planet. And so, after a lifetime of isolation, Naledi will head out into the unknown with little to hold onto but her faith - and her magical pet plant, Buyo. A fairy tale for the times in which we find ourselves, brought to life by South African writer and producer Isaac Mogajane (Matwetwe, *Catching Feelings*) and Brazilian artist Santtos (*Night Shift*), *LAND OF THE LIVING GODS* will introduce you to a world of wonder and cruelty, beauty and perseverance - and will leave you profoundly changed.

The Porteusian Index; or, Family guide to the Holy Scriptures ... Selected and arranged upon the plan of the late Dr. Porteus. Compiled from the works of Beilby Porteus, Francis Gastrell, Samuel Clarke and Isaac Watts

Complete with a foreword by the late Terry Bogg, this handy pocketbook provides accessible guidance to health and social care practitioners on the day-to-day aspects of using and applying the Mental Capacity Act. This includes practical advice, explored with practice examples, on how to set up and undertake an assessment and how to make and implement informed decisions—quickly. The busy mental capacity practitioner, whether an AMHP, social worker, nurse or from other health professions who encounter vulnerable service users, will find this guide invaluable for efficiently locating the information they need to complete an assessment, supported with a working knowledge of the law.

- Practice information, reflecting revised advice on the Mental Capacity Act and practice changes since Cheshire West
- Guidance on undertaking assessments with the updated Deprivation of Liberty Safeguards and Liberty Protection Safeguards
- A dip-in, dip-out structure, with chapters dedicated to the legal landscape, understanding the scope of the Mental Capacity Act and linking the Mental Capacity Act with relevant legislation like the Mental Health Act
- Examples of best practice and common pitfalls, including links to the law to make your decisions evidence-based and authoritative
- Checklists and decision-making flow charts to simplify what can prove a complex area

*** This book forms part of a series of pocketbooks for social workers. These compact guides are written in an accessible and to-the-point style to help the busy practitioner locate the information they need as and when they need it—all bound up in A5 and under! The pocketbooks explore key practical skills involved in such areas as mental capacity, report writing and mental health.

The Pocketbook Guide to Mental Capacity Act Assessments

Despite an enormous amount of literature on St Augustine of Hippo, this work provides the first examination of what he taught about the resurrection of Jesus Christ. Augustine expounded Christ's resurrection in his sermons, letters, Answer to Faustus the Manichean, the City of God, Expositions of the Psalms, and the Trinity. Saint Augustine on the Resurrection of Christ: Teaching, Rhetoric, and Reception explores what Augustine held about the centrality of Christ's resurrection from the dead, the agency of Christ's resurrection, and the nature of his risen existence. Leading scholar, Gerald O'Collins, investigates the impact of his resurrection on others and his mediatory role as the risen High Priest. O'Collins then unpicks Augustine's rhetorical justification for the resurrection of Christ: evidence from creation, human history, and the desires of all human beings. This groundbreaking study illustrates the enduring significance of Augustine's teaching on and apologetic for the resurrection, and updates, augments, and corrects what Augustine held.

Saint Augustine on the Resurrection of Christ

The study of statesmanship is not a subject for leaders in politics alone. It is the study of the whole human being in thought and action. The classics teach us of the difficult choices that must be made, an activity that guides lives and forms character. This collection of writings includes ancient, Medieval, Renaissance, and modern scholarship on statesmanship from Xenophon, Aristotle, Cicero, Augustine, Erasmus, Niccolo Machiavelli, George Washington, Theodore Roosevelt, Winston Churchill, and more, selected and with an introduction by the president of the Intercollegiate Studies Institute, John A. Burtka.

Civilization and Its Discontents

A murdered prostitute: Des McGinlay's first big case should be easy to resolve. But he's struggling to fend off the 'big wallow' - desperate to pull his life together as he picks through the wreckage of others'. Vin, who loved her, is being set up as the fall guy for the murder. Bertha, the grieving mother, wants Des for a lucrative future. And as a photographer, a dopehead and a right-wing politician are sucked into the vortex, the lowlife sharks are circling. Bright-hearted Pearl offers Des a glimmer of hard-won redemption, but at street and canal level, down in the pubs and blues parties no one is playing by the rules.

Tax Advisers' Guide to Trusts

Discussions on cognitive-neuroenhancement for healthy adults tend to focus on theoretical positions while concrete policy proposals and detailed models are scarce. Furthermore, discussions generally rely solely on data from the US or UK, while international perspectives are mostly non-existent. This volume fills the gap addressing the conceptual, ethical, social, and legal implications of cognitive enhancement from an international perspective.

The Bible Student's Guide to the More Correct Understanding of the English Translation of the Old Testament, by Reference to the Original Hebrew

On War is a treatise about a military art which Prussian officer Carl Philipp Gottlieb von Clausewitz had been working on for 15 years. It is commonly believed that Clausewitz's treatise had a greater impact on military leaders of the late XIX and XX centuries than any other book. In reality, this book is an overturn in the war theory. The work is notable for its brightness, narration details as well as hard criticism of many war events. The author dedicates a special place in his work to politics, its influence on the war events, the dependence how the war finishes on powers and weaknesses of particular politicians and military leaders. There is a good reason why his famous phrase "the war is the continuation of the politics, but with other, strong arm methods" is still relevant.

The Holy Bible ... With Explanatory Notes ... By Thomas Scott ... A New and Improved Edition

Intolerance and bigotry lie at the heart of all human suffering. So claims Bertrand Russell at the outset of "In Praise of Idleness," a collection of essays in which he espouses the virtues of cool reflection and free enquiry; a voice of calm in a world of maddening unreason. With characteristic clarity and humour, Russell surveys the social and political consequences of his beliefs. From a devastating critique of the ancestry of fascism to a vehement defense of 'useless' knowledge, with consideration given to everything from insect pests to the human soul, " In Praise of Idleness " is a tour de force that only Bertrand Russell could perform.

For thirty years, Peter Singer's Practical Ethics has been the classic introduction to applied ethics. For this third edition, the author has revised and updated all the chapters and added a new chapter addressing climate change, one of the most important ethical challenges of our generation. Some of the questions discussed in this book concern our daily lives. Is it ethical to buy luxuries when others do not have enough to eat? Should we buy meat from intensively reared animals? Am I doing something wrong if my carbon footprint is above the global average? Other questions confront us as concerned citizens: equality and discrimination on the grounds of race or sex; abortion, the use of embryos for research and euthanasia; political violence and terrorism; and the preservation of our planet's environment. This book's lucid style and provocative arguments make it an ideal text for university courses and for anyone willing to think about how she or he ought to live.
