Addresses the emotional and psychological challenges of fighting breast cancer, refutes popular assumptions about treatment and post-treatment options, and offers guidance for making health decisions.

My Breast

After her breast cancer diagnosis in 1991, Joyce Wadler, a smart, savvy, forty-something New York writer, fought back with a grounded, roll-with-the-punches outlook. She took charge of her treatments, her options, her life-- and her disease. "My Breast" is her irreverently witty, fiercely personal story of facing cancer's obstacles and uncertainties with feisty courage. Read it for the first time, or read it again. In a new epilogue, meet Joyce Wadler as she is today. "My Breast" isn't the end of her journey, but a beginning...

All Woman

Yelland was diagnosed with breast cancer in 1998, but like all the women in this book, was determined not to let it prevent her from leading a full life. Among those whose accounts are included are Olivia Newton John and designer Catherine Walker.

Booting Breast Cancer

Are you or someone you know facing breast cancer? Booting Breast Cancer is a memoir of the author's journey through breast cancer. It will be helpful for you if you are beginning your journey, as well as anyone who will be with you along the way. Your first thought may be that this book is for females only, right? Actually, not necessarily. Included is a special section on what the journey was like for the author's husband and words of wisdom from him. The author shares her experiences through various

stages of the process. The author's story is real, raw, and totally transparent. Although cancer is NOT a laughing matter, her way of dealing with serious situations is to try and make light of them, to laugh instead of cry, to smile instead of frown. You will be inspired, educated, and above all, encouraged. You are not alone in your journey. Open your heart and your arms and they will both be filled with love and support. Although her journey was not one she would like to repeat, it was all part of God's Plan for her and her promise to Pay It Forward.

Breast Cancer

This book will empower women suffering with breast cancer, with the ability to cope with the disease and to find strength amidst their suffering. It is also a helpful guide for family and friends of the women suffering from the disease.

Breast cancer

Survivors of breast cancer offer warm, practical advice, essential information, and reassurance to women newly diagnosed.

Woman to Woman

On April 13, 1992, New York magazine published Joyce Wadler's cover story, "My Breast". During the next 48 hours, an entire city responded to Wadler's courage in confronting her fear of breast cancer. This book is the expanded, full-length version of Joyce Wadler's story. (Addison Wesley)

My Breast

A guide to understanding breast cancer, its cause, and its treatment.

Woman to Woman

To hear the word 'cancer' connected to your daughter, sister, or mother can be very frightening. Christine Morgan's family had always experienced excellent health and led an active lifestyle. Suddenly, the diagnosis of breast cancer threw her family into unfamiliar territory. A family accustomed to doing things together, they had no experience to face the throes of breast cancer and didn't know how to cope or help one another through the battle. Now, several years later, Author Morgan wants to help other families find the courage and strength to get through their own breast cancer battle, or any other type of cancer. She chronicles the fears of the realities and the unknowns, the shift from a happy-go-lucky family to a family with many tears, the family's disagreements for medical care, the various medical options available and finally she shares the family's plan to work together as a team to help her sister through this battle. My Sister Has Breast Cancer! is a heartfelt, touching and informative compilation of Author Morgan's journal entries, which she maintained through her family's own battle with breast cancer. Christine Morgan's book will inspire and comfort the reader through any crisis. Christine is a busy woman with a large and close-knit family, who works in many different arenas to help others. Her main interest is in women's health issues. She teaches prenatal health classes, childbirth preparation classes, and, most recently she has begun helping women attain good health through an exercise program. Christine has ministered as a pastor's wife for over thirty-five years. She enjoys leading small groups, teaching Bible studies and speaking at women's events. Christine and her husband, Eddie, reside in Clovis, California where they enjoy spending time with their three married children and seven grandchildren. While the author's earlier publications include journal articles related to childbirth, My Sister Has Breast Cancer! is Christine's first book.

Coping

"Funny You Should Ask" reveals intimate details and highlights the humor of the physical and emotional rollercoaster of finding balance, personal discoveries, and trying to feel "whole" through the ups and downs of breast cancer treatment. It is intended to give women who have been diagnosed with breast cancer, and their friends and family, a sneak peek into some of the physical and emotional aspects of the everyday challenges through the voice of one woman's personal experiences. The photography by Brian Kelly highlights the emotion of these moments. This book is meant to highlight the blessings and humor that ARE unexpectedly sprinkled through a challenging time.

My Sister Has Breast Cancer

I Am Not My Breast Cancer gathers the warm, loving, frank, and informed voices of more than eight hundred women—from every state in the nation and from continents as far away as Australia and Africa—who reveal their fears, trade advice, share experiences, and express their deepest, most intimate concerns. Essential reading for any woman with this diagnosis, it offers the companionship of other women dealing with this disease. Taking the reader chronologically through the stages of diagnosis, treatment, recovery, and self-discovery, I Am Not My Breast Cancer offers women a deeper understanding of themselves and living with cancer.

Funny You Should Ask

A breast cancer survivor shares her insights into the challenges of dealing with the disease and provides advice on how to cope with the emotional upheaval and anxiety caused by the disease, and how to deal with the side effects of treatment.

I Am Not My Breast Cancer

Breast cancer is reaching epidemic levels, especially among black women. This survival guide provides tools that women—black women in particular—can use to identify and combat this all-too-common threat. This "what you need to know" guide is unique in its common sense, "laywoman's" approach and particular relevance to women of color. Its premise is simple: ignorance and lack of education about breast cancer signs and symptoms are still all too prevalent among black women. Many women are not informed about resources available for early detection screening and are not referred for mammography screening. They may also receive significantly delayed treatment—especially black women. For those reasons and more, black women with or at risk for breast cancer need an advocate who speaks for them and tells them the truth. They have that advocate in Cheryl Holloway, PhD—and in this book. A breast cancer survivor and cancer researcher, Dr. Holloway draws on her personal experience and research to offer something far different than the usual medical/oncological works. Her book provides support, current information, and practical advice for confronting and beating the disease. The book is divided into four parts. "Dealing with the Basics" explains how breast cancer hits black women harder and discusses the types of breast cancer they may develop, with an emphasis on the most dangerous. The second section offers practical information, such as how screenings work and the meaning of various breast cancer tests. Part three describes treatments, including surgery, radiation therapy, chemotherapy, hormone therapy, combined therapy, and other options. The final section describes how to stay vigilant after the cancer is gone and also discusses other forms of cancer for which black women are at risk, such as lung cancer, colon cancer, and cervical cancer.

Breast Cancer, There and Back

"What is it like to know that you have breast cancer? The women in this book answer that often unspoken question, with wit, fortitude, passion and humour. Their experience of this disease varies widely - there are no simple recipes for recognising it, preventing it, treating it or overcoming fear of it, but what stands out in all the stories is how resolved and altered each woman is as a result; not one remains self-pitying and many see the experience as having a profoundly creative effect on their lives. Despite the sorrow and suffering, this book reveals women who are dealing, each in her own way, with dilemmas which confront every woman living with breast cancer in the 90s."--BOOK JACKET. The Black Woman's Breast Cancer Survival Guide

This is not an ordinary book. It's the raw, unedited, and unfiltered diary and photos of a woman going through, not just breast cancer, but also living alone in Melbourne's lockdown, during the covid pandemic while dealing with breast cancer. Nothing is off-limits. From the moment of being told 'you have breast cancer', author Jane Marshall

I have captured my own harrowing experience, which followed after I was positively diagnosed with multi-centric breast cancer. The contents of the book are based on my own version of the experience I had. This led me through many corridors I had to navigate myself through, to possibly save my life or maybe add a few more years to the only form of life I am familiar to. I did not understand what I had to deal with at the time and I desperately needed some kind of help at hand as I did not have any time

to research the possibilities of my condition. I became aware that breast cancer was on the increase long before my own diagnosis. This drove me to recall many agonizing memories, which I would have preferred to erase from my mind entirely, but I chose to mentally relive my torment in order to be of some benefit to my reader. Once I started with my chemotherapy sessions, I quickly realized why I heard and read of chemo patients who by their own choice gave up on chemotherapy, and lacked the endurance to complete the treatment. Who chose alternative treatment instead, until I was confronted to tolerate the shock of being treated for my condition. I have included my own account of my experiences before and after having a mastectomy, thereafter chemotherapy, radio therapy and an attempt at having a breast reconstruction.

The Naked Truth about Breast Cancer

When Musa Mayer's breast cancer was first diagnosed, none of the accounts she read fully addressed what, to her, was the most important aspect - the human, psychological dimensions of the illness and recovery. In this memoir for sufferers, as well as well as their families and friends, she chronicles her experience of several years with cancer, from biopsy and diagnosis to mastectomy, chemotherapy and reconstructive surgery. She describes coping with fears of recurrence and death, evaluating treatment options, dealing effectively with the medical establishment, and seeking personal support.

Every Woman's Secret Fear

Addresses the emotional and psychological issues that face women with breast cancer, especially those who lose one of their breasts to the disease. Covers femininity, sexuality, intimacy and more.

Examining Myself

"Chemo brain. Fatigue. Chronic pain. Insomnia. Depression. These are just a few of the ongoing, debilitating symptoms that plague some breast-cancer survivors long after their treatments have officially ended. After the Cure is a compelling read filled with fascinating portraits of more than seventy women who are living with the aftermath of breast cancer." "Having heard repeatedly that "the problems are all in your head," many don't know where to turn for help. The doctors who now refuse to validate their symptoms are often the very ones they depended on to provide life-saving treatments. Sometimes family members who provided essential support through months of chemotherapy and radiation don't believe them. Their work lives, already disrupted by both cancer and its treatment, are further undermined by the lingering symptoms. And every symptom serves as a constant reminder of the trauma of diagnosis, the ordeal of treatment, and the specter of recurrence." "Most narratives about surviving breast cancer end with the conclusion of chemotherapy and radiation, painting stereotypical portraits of triumphantly healthy survivors, women who not only survive but emerge better and stronger than before. After the Cure allows us to hear the voices of those who are silenced by the optimistic breast cancer culture, women who live with a broad array of health problems long after therapy ends. Here, at last, survivors step out of the shadows and speak compellingly about their real stories, giving voice to the complicated, often painful realities of life after the cure."--BOOK JACKET.

No Less a Woman

A new understanding of humanity and feminism from the starting point of breast health is the ultimate goal of Zillah Eisenstein's political memoir of her family's experience with breast cancer. The well-known feminist author argues that politics always needs the personal, and that the personal is never enough on its own. Her return to the personal side of the political combines the two for a radicalized way of seeing, viewing, and knowing. The author strives to bring together a critique of environmental damage and the health of women's bodies, gain perspective on the role race plays as a factor in breast cancers and in political agendas, link prevention and treatment, and connect individual support and political change. Eisenstein was sixteen when her forty-five-year-old mother successfully battled breast cancer. Her two sisters, Sarah and Giah, were in their twenties when they were diagnosed, but neither of them survived. She received her own diagnosis when she was forty. Despite her family history, however, Eisenstein rejects the simple argument that genes are simply determining, rather than liable to influence by external factors. She also questions the dominance of the theory that breast cancer is caused by high lifetime exposure to estrogen. Instead, she views breast cancer as an environmental disease, best understood in terms of ecological, racial, economic, and sexual influences on individual women. She uses the term "manmade" to indicate not only industrial carcinogens and other cultural causes, but also the male-dominated and -defined scientific practices of research and treatment. In response, Manmade

Breast Cancers offers a retelling of the meaning of breast cancer and a discussion of universal feminist issues about the body. The author says she writes "to discover a more just globe which will treasure the health of all of our bodies." The emotional depth and intellectual breadth of her argument adds new dimensions to how we understand breast cancer.

After the Cure

Born out of her own experience, *My Breast Life* chronicles Sarah Altman's experience with breast cancer in a candid, authentic, transparent and humorous way. From diagnosis, surgery, chemo and recovery, you'll feel like you're going through the experience with a friend as Sarah openly shares her challenges and insights. She even discusses some of those things you've always wondered about cancer but never wanted to ask, like what does chemo really feel like and what happens to your boobs during a mastectomy. This book can help you on your own journey with cancer or serve as a guide in supporting a loved one.

Manmade Breast Cancers

Every young woman is inundated with messages about her breasts. Too big, too small, wrong size or wrong shape. Most frightening: they'll be the death of her. Women everywhere have heard the statistic: 1 in 8 women will get breast cancer. But most changes in the breast are not cancerous. Educator and nurse practitioner Kerry Anne McGinn helps sift through the noise with *The Young Woman's Breast Health Book*. McGinn provides knowledge about non-cancerous changes that every young woman should know. Her decades of professional experience and her own personal search for answers come together in this practical, approachable discussion of lumps, breast pain, self-examination, imaging techniques, and more. McGinn explains how women can become informed members of their own healthcare teams. *The Young Woman's Breast Health Book* distills the key knowledge that young women need: when to relax, when to worry, and what to do.

My Breast Life

This is a book of elegant photographs by award-winning photographer Art Myers of women following treatment for breast cancer. Scars and missing breasts are openly revealed in an artistic way. The pictures are accompanied by vignettes written by each woman relating a short story of her journey through the breast cancer experience. Original poems by Maria Marrocchino are paired with some of the photos and the book has a poignant foreword by Dr. David Spiegel, author of *Living Beyond Limits*. The photographs include women in the United States as well as in France and the narratives written by the French women are presented in both French and English. Two women, well-known in the breast cancer support communities, Dani Grady in the US and Annick Parent from France, have written introductions.

No Less a Woman

An absorbing and unsettling history of breast cancer told through the stories of women who have confronted it from ancient times to the present. A *Los Angeles Times* Best Book of the Year In 1967, an Italian surgeon touring Amsterdam's Rijks museum stopped in front of Rembrandt's *Bathsheba at Her Bath* and noticed an asymmetry to Bathsheba's left breast; it seemed distended, swollen near the armpit, discolored, and marked with a distinctive pitting. The physician learned that Rembrandt's model, Hendrickje Stoffels, later died after a long illness. He conjectured that the cause of her death was almost certainly breast cancer. In *Bathsheba's Breast*, James S. Olson traces the history of breast cancer through women's experiences of the disease across epochs and continents. The stories range from the sixth-century Byzantine empress Theodora, who chose to die rather than lose her breast to Dr. Jerri Nielson, who was evacuated from the South Pole in 1999 after performing a biopsy on her own breast and self-administering chemotherapy. Olson explores every facet of the disease: medicine's evolving understanding of its pathology and treatment options; its cultural significance; the political and economic logic that has dictated the terms of a war on a "woman's disease"; and the rise of patient activism. "An invaluable aid to those breast cancer survivors with an interest in taking the long view of their illness." —Nick Owchar *Los Angeles Times*

The Young Woman's Breast Health Book

Like Any Other Woman speaks to the suffering that cancer causes, and to the profound human experience of renegotiating the physical and emotional balance between sickness and health when that balance is tipped by the onset of disease. A profound and moving collaboration between an artist and a young woman who has endured the impact of a cancer diagnosis and its consequences, this is not a book about the cancer itself, the medical world of causes, symptoms, interventions and treatment regimes. It is rather about what it feels like when all sense of normality, all the expectations of a future that accompany good health, suddenly become submerged in degrees of suffering that impact both on the individual and on the people who care for and about her. Like Any Other Woman is illustrated with original artwork by Jac Saorsa, taken from the Drawing Women's Cancer project.

Winged Victory

This story speaks not only to breast cancer survivors but also to all women when facing challenge and adversity. It began as a diary of diagnosis and treatment, but evolved into a discovery of self. It is not a story of tremendous courage against extraordinary odds, or of miraculous cures. It is simply one ordinary woman's fight against this insidious disease. Learning about and using the mind-body-spirit connection, and inviting family and friends to embark on this journey with her, made the author's illness and recovery so much easier to bear. Join her in this roller coaster ride of despair, hopes, fears, friendship, love, tears and laughter, and perhaps collect a little inspiration and joy along the way.

Breast Cancer from a young woman's perspective

When I was diagnosed with advanced breast cancer in 2001, I was frozen in time. At that time, the only thing I knew about any cancer, is that if you have it, you die. I agonized over things like, am I going to dwindle away and die a painful death? How do I tell my kids? Do I have enough time to get things in order? Who will take care of my husband? My mind went on and on. I looked for someone to talk to who had been diagnosed with my stage of cancer. When I couldn't find any, I thought the worst. I was told that once people go through their ordeal with cancer, they don't want to talk about it. I got on my knees and promised God that if he got me through this, I would become that voice. Well he kept his end of the bargain, and I'm keeping mine. But the stories in this book are not just about me; they are about people who have fought and won their battles with every type and stage of cancer. In talking to

them, I learned so much. The trauma one goes through from the beginning of the diagnosis to the end of the treatments makes it understandable that people want to forget it once it's over. But the people in this book wanted to share their stories to let anyone going through this to know it is not a death sentence, and more important-there is life after cancer! Belief in God, positive thinking, and a strong support system will see you through any trial. The stories in this book are also about the people who stand with us and fight for us in the battle against cancer. Without them, we wouldn't survive. So when you read these stories, look at not only the type of cancer they survived, but also the faith, love, and support they had. In some cases you will see how cancer changed their life for the better. So look at their lives post-cancer. Look at their strong, loving support system. When you feel depressed or feel like giving up, pick up this book and read one of the many inspirational stories. You'll learn not to be afraid of cancer; only be afraid if you don't do something about it. Then I guarantee, you too can become not just a survivor, but a Cancer Kickin' Warrior!

Storm in a D Cup! is a blow-by-blow account of Debbie Paton's journey through breast cancer. It is a candid account of the year between her initial diagnosis and her full recovery. When she was first diagnosed, Debbie wrote notes in a diary, but her daughter Georgia dragged her into the 21st century by convincing her to write a blog that could be shared with a wider audience. The blog soon became Debbie's cathartic writing. It gave her the freedom to express the rollercoaster of emotions as they happened, the good, the bad and the irrational. She shared her entries on social media for her friends and family to follow - it took the pressure off endless update phone calls! This is a no holds barred account of the mix of emotions, the highs and lows of the journey. It is not about doom and gloom, but rather the realities of the journey and the experiences Debbie had along the way. It is at times poignant and highly sensitive, at others, filled with laughter and fun. It was a year that shaped her life into something different. It is Debbie's hope that her experiences can help others by alleviating some of the fear surrounding a breast cancer diagnosis. If she could have read a similar blog before starting her own journey, Debbie feels certain she would've been far less fearful of what lay ahead. Yes, everyone's path is different, but there are elements of her experience that will resonate with others in the same position.

Cancer Kickin' Warrior

It's (Not) Just About the Breast is an inspiring book about Petrina's triumph over the adversity of her breast cancer and BRCA1 gene mutation diagnosis (also carried by Angelina Jolie). Diagnosed in 2007 at only 31 years of age, Petrina confronts the challenges of her breast cancer treatment and risk

reducing surgeries, including bilateral mastectomies and breast reconstructions to manage her breast cancer risk, and oophorectomies to manage her ovarian cancer risk. These treatments save her life; however, they also leave her with a number of challenges to overcome, including early menopause and infertility. In her must-read book, Petrina provides insights and ideas about how to navigate the post-diagnosis pathway. She demonstrates the importance of access to holistic and comprehensive healthcare, and the value of loving, supportive and meaningful relationships with friends and family. Petrina also shows us that through courage, hope and determination, it is possible to find our way back to a meaningful and full life. We must, however, always remain open to the positive times and opportunities that can come our way, even in our darkest and most vulnerable moments. This is her story, the story of healing and rebuilding after cancer, the story of the BRCA1 gene...and the story of family resilience over generations. "Petrina's book is a must-read... I couldn't put it down." Assoc. Prof. Paul Cohen, FRANZCOG, MD "Beautifully described. This book provides invaluable advice and inspiration... not just to survive, but to live, thrive and kick ass!" The Call of Cthulhu: A Mystery in Three Parts

Written in 1928, H.P. Lovecraft's *The Call of Cthulhu* defined the ancient gods as dark creatures who came from the stars and ruled the world before mankind. When these ancient ones awaken, humanity is plagued by a nightmare of terrors etched upon an epic backdrop. The author's concept deeply redefined the horror story with this thrilling, dense mystery that spawned a virtual genre. The artist Gary Gianni and designer Marcelo Anciano both felt that Lovecraft's short story presented an opportunity to visually expand the Cthulhu Mythos and push the boundaries of illustrated books. Intense and fast-paced, the tale enabled them to explore graphic storytelling and illustrate the text in a unique way. It was a personal project for Gianni, who drew upon his decades of experience in illustrating numerous books and graphic novels. *The Call of Cthulhu*, as illustrated by Gary Gianni, is a fusion of cinematic design, the graphic novel and illustrated books. Over a hundred finished pencil drawings with color pieces enhance and bring to life the work of two visionaries--Lovecraft and Gianni--in an extraordinary feat of storytelling and art.

A Bigger Picture

In *A Bigger Picture*, the bestselling political memoir of 2020, Malcolm Turnbull, Australia's 29th prime minister, tells the remarkable story of his life. Now in paperback, this edition is updated with an all-new foreword by the author that sheds light on the huge political and cultural changes happening today. When Malcolm Turnbull took over the nation's top job there was a sense of excitement in Australia. Sky-high opinion polls followed as the political outsider with a successful business, legal and media career took charge. The infighting that had dogged politics for the best part of a decade looked to be over. But a right-wing insurgency brutally cut down Turnbull's time in office after three years, leaving many Australians asking, 'Why?' Exceptionally candid and compelling, *A Bigger Picture* is the definitive narrative of Malcolm Turnbull's prime ministership. He describes how he legalised same-sex marriage, established Snowy Hydro 2.0, stood up to Donald Trump, and many more achievements – remarkable in their pace and significance, and delivered in the teeth of so much opposition. But it's far more than just politics. Turnbull's life has been filled with colourful characters and controversies, success and failure. From his early years in Sydney, growing up with a single father, to defending 'Spycatcher' Peter Wright against the UK government; the years representing Kerry Packer, leading the Republican Movement and making millions in business; and finally toppling Tony Abbott to become prime minister of Australia. For the first time he tells it all – in his own words. With revelatory insights on the workings of Canberra and the contentious events of Turnbull's life, *A Bigger Picture* explores the strengths and vulnerabilities of one of Australia's best-known and most dynamic business and political leaders. Lyrically written in highly readable and entertaining prose, this is a genuine page-turner that's not just for political junkies.

The Sixth Station

Some say Demiel ben Yusef is the world's most dangerous terrorist, personally responsible for bombings and riots that have claimed the lives of thousands. Others insist he is a man of peace, a miracle worker, and possibly even the Son of God. His trial in New York City for crimes against humanity attracts scores of protestors, as well as media and religious leaders from around the world. Cynical reporter Alessandra Russo heads to the UN hoping for a piece of the action, but soon becomes entangled in controversy and suspicion when ben Yusef singles her out for attention among all other reporters. As Alessandra begins digging into ben Yusef's past, she is already in more danger than she knows—and when she is falsely accused of murder during her investigation, she is forced to flee New York. On the run from unknown enemies, Alessandra finds herself on the trail of a global conspiracy and a story that could shake the world to its foundations. Is Demiel ben Yusef the Second Coming or the Antichrist? The truth may lie in the secret history of the Holy Family, a group of Templars who defied the church, and a mysterious relic stained with the sacred blood of Christ Himself.

Capitalist Nigger

Capitalist Nigger is an explosive and jarring indictment of the black race. The book asserts that the Negroid race, as naturally endowed as any other, is culpably a non-productive race, a consumer race that depends on other communities for its culture, its language, its feeding and its clothing. Despite enormous natural resources, blacks are economic slaves because they lack the 'devil-may-care' attitude and the 'killer instinct' of the Caucasian, as well as the spider web mentality of the Asian. A Capitalist Nigger must embody ruthlessness in pursuit of excellence in his drive towards achieving the goal of becoming an economic warrior. In putting forward the idea of the Capitalist Nigger, Chika Onyeani charts a road to success whereby black economic warriors employ the 'Spider Web Doctrine' – discipline, self-reliance, ruthlessness – to escape from their victim mentality. Born in Nigeria, Chika Onyeani is a journalist, editor and former diplomat.

A Hill of Fools

“There has never been a book provoking more delirium, foolishness and irrational movements, without any relationship to Jesus Christ [than the Book of Revelation].” —Jacques Ellul, Introduction Known for his trenchant critique of modernity and of those Christians who celebrate their captivity to it, Ellul here cuts to the heart of the theological intention of the Book of Revelation, and thereby reveals the liberating gospel in all its offensiveness. Neither an exhaustive commentary nor a work of historical-exegetical analysis, Apocalypse is a provocative, independent interpretation. Ellul seeks to rescue Revelation from the reassuring and orthodox banality to which commentators often reduce it. The goal is to perceive the totality of the book in its movement and structure. “Architecture in movement” is the key to understanding Revelation’s puzzling but simple message. This edition also comes with a new foreword by Jacob Marques Rollison who provides an essential aid for guiding readers through Ellul’s thorough engagement with Revelation.

It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the

boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

Cradling her, he moved over to the window, and leapt out. *** Alaric, a centuries-old vampire, lives a solitary life by choice. Yes, I went there. Every woman doesn't want to sleep with you and I'm sure you're not even good in bed. And I'm someone that would know. From, Your Secret Not Admirer

To My Arrogant Boss

Eliza Knight's bestselling Scottish historical romance series, *The Stolen Bride Series*, is back with another amazing tale of adventure, passion and love! Ceana Montgomery had notions of marrying for love after her first disastrous marriage ended in widowhood. But now Robert the Bruce has ordered her to marry a stranger, securing a strong alliance and ending a decades-old feud. Already used as a pawn once in marriage, she is devastated that she will once more have to give up her happiness in order to please the edicts of men. And while the braw warrior standing before her might incite feelings inside her she thought long since buried, desire is a far cry from love. The rivalry between Brochan Lamont and his twin brother, John, began in the womb, and only grew worse from there. They were pitted against each other in childhood, and their father left them with a legacy that was a race to the finish—whoever has an heir first inherits the lands. The only problem is that Brochan has given his loyalty to the Scots, and his brother to the English. In order to keep the lands and ships under Scottish control, Robert the Bruce demands Brochan marry to break the iron-clad will. His new bride harbors a fiery temperament that lures Brochan into stoking her passions instead of her ire. Aligned to strengthen the Scottish claims on the realm, Brochan and Ceana must work together to overcome the obstacles that bind them. But perhaps seeing their duties through does not have to be as painful as they both predicted. Is it possible that love can be forged from a union born in alliance? Maybe Fate knew all along just who was meant for who...

Honky Tonk Christmas

Left penniless and shattered by devastating secrets revealed in the aftermath of her seemingly successful lawyer husband's sudden death, Georgia rallies herself to pursue a new relationship and support her two daughters.

The Cottage of Curiosities (Pengelly Series, Book 2)

Travis King is the worst kind of asshole. He taunts me for being a good girl and mocks my high standards. He's cruel, crass, and has enough confidence to last two lifetimes. And I hate him. It wouldn't matter so much if he were avoidable. But considering he's my older brother's best friend and roommate, I see him more than I'd ever want to. His sculpted abs and gorgeous eyes are wasted on such an arrogant man,

which makes me hate him even more. Even though I've had a crush on him since I was ten, the feelings weren't mutual and he's always made that very clear. He's always loved getting under my skin and one night against my better judgment, I let him in my bed. I've succumbed to his manwhore ways, but that doesn't change a thing. Because the King is about to get played at his own game-and lose. Checkmate.

To The Rude Guy in Apartment Five

Teddy King excels at many things. Playing hockey. Check. Scoring on and off the ice. Check. Being stupidly attractive ... Double check. Despite his demanding schedule, he still finds time to annoy me. I knew him way back when. Before he was the guy everyone wanted a piece of, he was just a rebellious college co-ed and one of my more energetic study partners. But secrets have a way of getting out, and a steamy encounter from our college days (that we probably shouldn't have filmed) is about to cause a major scandal. Unless we can work together to stop it. Teddy's no stranger to hard work ... but the thing he wants most? Is me. Note: This high-heat standalone is chock-full of scorching banter and steamy good times. He's a testosterone-dripping hockey player who wants a second chance. She's a tough as nails attorney intent on making partner. Frienemies to lovers. No cliffhanger. Enjoy!
