"This Amar Chitra Katha collection brings together a sample of the Indian literary tradition down the years. It starts with the works of Kalidasa, moving to Sanskrit romances of the Gupta Age, and ancient Tamil Sangam literature which was influenced by Jain and Buddhist thought. As language and literature evolved, each region in the country began to develop its own special modes of writing and story-telling. By the nineteenth century, India was home to not one but a multitude of literatures, each borrowing from, referring to, and overlapping with the others.

Some love stories are one shade darker At twenty-seven, Kiyan Roy is the mysterious, reclusive bestselling author of Handcuffs—an erotic trilogy. When he appears publicly before his readers for the first time, Kiyan starts getting stalked by a seductive and alluring girl across cities, book events, hotels, luncheons and media interviews. Soon, he becomes obsessed by her and falls for her charms. The first time they sleep together, the girl gifts him something that is the first step to his doom. Kiyan soon realizes this girl is not who she says she is, but is it already too late to rectify his mistakes? Black Suits You is a gripping, fast-paced and a clever psycho-sexual thriller that will keep you guessing till the end.

AKASHVANI

Jugari Cross is a suspense thriller woven around the everyday incidents that occur with an ordinary farming couple's life. The story set within 24 hours is not just a typical suspense thriller with a trace of history and a literary quest, but enormously stimulates the reader to analyze the broader spectrum of philosophy, literature, and the principles of global economies established around us. I hope the reader community will appreciate how this suspense thriller gives the glimpses of nature, ecology, social reforms, literature, global/local economies, and many more social dimensions.

James Olney examines the writings of seven men--Montaigne, Jung, George Fox, Darwin, Newman, Mills, and Eliot--and traces the essential and unique autobiographical impulse, and in a real sense makes it live. Originally published in 1972. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

General Information as on ...

This book presents a feminist mapping of the articulation and suppression of female desire in Hindi films, which comprise one of modern India's most popular cultural narratives. It explores the lineament of evil and the corresponding closure of chastisement or domesticity that appear as necessary conditions for the representation of subversive female desire. The term 'bad' is used heuristically, and not as a moral or essential category, to examine some of the iconic disruptive women of Hindi cinema and to uncover the nexus between patriarchy and other hierarchies, such as class, caste and religion in these representations. The twenty-one essays examine the politics of female desire/s from the 1930s to the present day - both through in-depth analyses of single films and by tracing the typologies in multiple films. The essays are divided into five sections indicating the various gendered desires and rebellions that patriarchal society seeks to police, silence and domesticate.
