'Masterful and beautifully written. Riveting and compellingly authentic. Grips you like a vice from the first page and never lets you go' Damien Lewis Two men are on the run. They have four hundred miles to go across hostile territory. Soldiers on the ground track them day and night, a helicopter circles above, life becomes a second-by-second fight for survival. Each muscle movement, drop of sweat, glance and instinct matters. Every second counts. Through long slogs across country, risky raids for supplies, moments of sheer panic, and under the intense pressure to survive, an unbreakable bond between two men is forged. This stunningly written, adrenaline-pumping novel is a little-known classic of its genre. SHORTLISTED FOR THE FIRST EVER BOOKER PRIZE IN 1969 'England's prose has the tough, spare elegance of steel scaffolding... a brilliant achievement' The Times

Do unto others as you would others should do to you. You can never be rude if you bear the rule always in mind, for what lady likes to be treated rudely? True Christian politeness will always be the result of an unselfish regard for the feelings of others, and though you may err in the ceremonious points of etiquette, you will never be im polite. Politeness, founded upon such a rule, becomes the expression, in graceful manner, of social virtues. The spirit of politeness consists in a certain attention to forms and ceremonies, which are meant both to please others and ourselves, and to make others pleased with us ;a still clearer definition may be given by saying that politeness is goodness of heart put into daily practice; the.re can be no true, politeness without kindness, purity, singleness of heart, and sensibility. Many believe that politeness is but a mask worn in the world to conceal bad passions and impulses, and to make a show of possessing virtues not really existing in the heart; thus, that politeness is merely hypocrisy and dissimulation. Do not believe this; be certain that those who profess such a doctrine are practising themselves the deceit they condemn so much.

The only serious competitor to Emily Post as etiquette maven to America between the wars, LILLIAN EICHLER WATSON (b. 1902) was a 19-year-old copywriter for the book publisher Doubleday when she was commissioned to rewrite the outdated Encyclopedia of Etiquette by Emily Holt. This is the guide to good manners she produced in 1921, mining her own experience as a social misfit and would-be social climber, and it was a huge hit with those aspiring to a grander station. Volume II covers: [how to address servants [correct dress for the butler [use of the napkin [evolution of the afternoon tea [the man at the garden party [yachting parties for bachelors [musicales and private theatricals [when the lady is asked to dance [some important rules about golf [the charm of correct speech [the eccentric dresser [poise in public [and much more.
