#### Vocabulary Workshop Level Purple

Vocabulary from Classical Roots is a thematically organized vocabulary program based on Greek and Latin roots. Each of the 16 lessons features 23 roots and 815 words derived from these roots. Words are presented with dictionary-style definitions, and all words are used in example sentences. Lists of Familiar Words and Challenge Words are provided for each root to help all students activate prior knowledge and keep advanced students on task. Exercises include synonym/antonym, fill in the blank, identification of incorrect usage, and analogies. Review activities including writing extensions, discussion questions, and other exercises are provided after every two lessons. The themes presented in Book E include: Here and There, Government, Up and Down, Business, Light and Dark, Open and Shut, Military Matters, Good and Bad, and The Law. Some of the words presented in this book include: cede, exhort, cartel, aver, malign, induce, juxtapose, censure, echelon, peripatetic, and succumb. Grade 11."

#### Vocabulary Workshop

A quantitative, broad, hands-on introduction to the cutting-edge science of global warming This textbook introduces undergraduates to the concepts and methods of global warming science, covering topics that they encounter in the news, ranging from the greenhouse effect and warming to ocean acidification, hurricanes, extreme precipitation, droughts, heat waves, forest fires, the cryosphere, and more. This book explains each of the issues based on basic statistical analysis, simple ordinary differential equations, or elementary chemical reactions. Each chapter explains the mechanisms behind an observed or anticipated change in the climate system and demonstrates the tools used to understand and predict them. Proven in the classroom, Global Warming Science also includes "workshops" with every chapter, each based on a Jupyter Python notebook and an accompanying small data set, with supplementary online materials and slides for instructors. The workshop can be used as an interactive learning element in class and as a homework assignment. Provides a clear, broad, quantitative yet accessible approach to the science of global warming Engages students in the analysis of climate data and models, examining predictions, and dealing with uncertainty Features workshops with each chapter that enhance learning through hands-on engagement Comes with supplementary online slides, code, and data files Requires only elementary undergraduate-level calculus and basic statistics; no prior coursework in science is assumed Solutions manual available (only to instructors)

## Vocabulary Workshop: Level A (Grade 6)

A modern Thanksgiving classic about an immigrant girl who comes to identify with the story of the Pilgrims, as she seeks religious freedom and a home in a new land. As Molly nears her first Thanksgiving in the New World, she doesn't find much to be thankful for. Her classmates giggle at her Yiddish accent and make fun of her unfamiliarity with American ways. Molly's embarrassed when her mother helps with a class Thanksgiving project by making a little doll that looks more like a Russian refugee than a New England Pilgrim. But the tiny modern-day pilgrim just might help Molly to find a place for herself in America. The touching story tells how recent immigrant Molly leads her third-grade class to discover that it takes all kinds of pilgrims to make a Thanksgiving. Originally published in 1983, Molly's Pilgrim inspired the 1986 Academy Award-winning live-action short film.

Francisco, a young Mexican-American boy, helps his grandfather find work as a gardener, even though the old man cannot speak English and knows nothing about gardening.

## Vocabulary from Classical Roots

Originally published in German in 1936, *The Natural Law* is the first work to clarify the differences between traditional natural law as represented in the writings of Cicero, Aquinas, and Hooker and the revolutionary doctrines of natural rights espoused by Hobbes, Locke, and Rousseau. Beginning with the legacies of Greek and Roman life and thought, Rommen traces the natural law tradition to its displacement by legal positivism and concludes with what the author calls "the reappearance" of natural law thought in more recent times. In seven chapters each Rommen explores "The History of the Idea of Natural Law" and "The Philosophy and Content of the Natural Law." In his introduction, Russell Hittinger places Rommen's work in the context of contemporary debate on the relevance of natural law to philosophical inquiry and constitutional interpretation. Heinrich Rommen (1897–1967) taught in Germany and England before concluding his distinguished scholarly career at Georgetown University. Russell Hittinger is William K. Warren Professor of Catholic Studies and Research Professor of Law at the University of Tulsa.
