Narcissus and Goldmund

"Narcissus and Goldmund" is the story of a passionate yet uneasy friendship between two men of opposite character. Narcissus, an ascetic instructor at a cloister school, has devoted himself solely to scholarly and spiritual pursuits. One of his students is the sensual, restless Goldmund, who is immediately drawn to his teacher's fierce intellect and sense of discipline. When Narcissus persuades the young student that he is not meant for a life of self-denial, Goldmund sets off in pursuit of aesthetic and physical pleasures, a path that leads him to a final, unexpected reunion with Narcissus.

The Black Death is the name most commonly given to the pandemic of bubonic plague that ravaged the medieval world in the late 1340s. From Central Asia the plague swept through Europe, leaving millions of dead in its wake. Between a quarter and a third of Europe's population died. In England the population fell from nearly six million to just over three million. The Black Death was the greatest demographic disaster in European history. Sean Martin looks at the origins of the disease and traces its terrible march through Europe from the Italian cities to the far-flung corners of Scandinavia. He describes contemporary responses to the plague and makes clear how helpless was the medicine of the day in the face of it. He examines the renewed persecution of the Jews, blamed by many Christians for the spread of the disease, and highlights the bizarre attempts by such groups as the Flagellants to ward off what they saw as the wrath of God. His book is a vivid and dramatic account of one of the great catastrophes of history.

The Black Death

This book, written by a team of experts from many countries, provides a comprehensive account of the ways in which translation has brought the major literatures of the world into English-speaking culture. Part I discusses theoretical issues and gives an overview of the history of translation into English. Part II, the bulk of the work, arranged by language of origin, offers critical discussions, with bibliographies, of the translation history of specific texts (e.g. the Koran, the Kalevala), authors (e.g. Lucretius, Dostoevsky), genres (e.g. Chinese poetry, twentieth-century Italian prose) and national literatures (e.g. Hungarian, Afrikaans).

The true story of one girl who said "no" to tradition, and the effect it had upon a nationIn a remote village in Bengal, 11-year-old Rekha and her large family lived by rolling handmade cigarettes. She frequently observed the abrupt departure of her friends to go live with their mothers-in-law, where they were often treated like slaves. In spite of her youth, Rekha was aware of the harm done to these little girls. When, in their turn, her parents found a husband for her, a man she didn't know, she flew into a blinding rage at the idea of being taken away from any further schooling for good. After that, Rekha went from village to village to tell her story, and especially to explain the tragic consequences of early marriages. Thanks to her, several dozen children found the courage to say no to this tribal tradition. Her story gained national attention with India's newspaper hailing her for accomplishing change that the India government was incapable of making. Her exemplary journey gained her the recognition of the highest courts in the land, she has had an audience with the Indian President, and she is a recipient of India's National Bravery Award. Written with the collaboration of Mouhssine Ennaimi, a distinguished reporter for Radio France, *The Strength to Say No*, translated from Ennaimi's acclaimed French edition, is a documentary portrait of one girl's monumental struggle.

Strength to Say No

In the spring of 1922, several months after completing *Siddhartha*, Hermann Hesse wrote a fairy tale that was also a love story, inspired by the woman who was to become his second wife. That story, *Pictor's Metamorphoses*, is the centerpiece of this anthology of Hesse's luminous short fiction. Based on *The Arabian Nights* and the work of the Brothers Grimm, the nineteen stories collected here represent a half century of Hesse's short writings. They display the full range of Hesse's lifetime fascination with fantasy--as dream, fairy tale, satire, or allegory.

Pictor's Metamorphoses

Since 1951, the staunchly independent firm of Peter Owen has produced some of the most ground-breaking literature of any British publisher. With seven Nobel Prize winners and a backlist that includes some of the most talented writers from all over the world, Peter Owen's assault on the insular nature of Britain's reading habits put the company at the cutting edge of publishing throughout the second half of the twentieth century.

Siddhartha (first published in 1922) is a novel based on the early life of Buddha, inspired by the author's visit to India before the First World War. The novel is about the young Brahmin Siddhartha's search for self-realization. His quest takes him from a life of decadence to asceticism, from the illusory joys of sensual love with a beautiful courtesan, and of wealth and fame, to the painful struggles with his son and the ultimate wisdom of renunciation

This masterful synthesis of criticism and biography surveys all of Hermann Hesse's major works and many of his minor ones in relation to the intricate psychological design of his entire life history. Eugene Stelzig examines what it means to be an "autobiographical writer" by considering Hesse's fictions of the self as an exemplary instance of the relationship between life and art and between biography and autobiography. In a graceful and inviting style, he frees this major confessional writer from the confines of German culture and the status of "cult figure" of the 1960s, and situates him in the tradition of world literature and in a variety of literary, psychological, philosophical, and religious contexts. Three introductory chapters on autobiography and Hesse set the stage for a chronological study. Then follows a penetrating analysis of the balance between biographical fact and confessional fantasy in Hesse's long career, from the failed autobiography of his first literary success, *Beneath the Wheel*, through the protracted midlife crisis of the grotesque *Steppenwolf* period, to the visionary autobiography of his magisterial fictional finale, *The Glass Bead Game*. It is the story of the quest of Siddhartha, a wealthy Indian Brahmin who casts off a life of privilege and comfort to seek spiritual fulfillment and wisdom. On his journey, Siddhartha encounters wandering ascetics, Buddhist monks, and successful merchants, as well as a courtesan named Kamala and a simple ferryman who has attained enlightenment. Traveling among these people and experiencing life's vital passages--love, work, friendship, and fatherhood--Siddhartha discovers that true knowledge is guided from within.

Demian, by Hermann Hesse

After a student choir's practice session at a Helsinki villa turns deadly, Detective Maria Kallio finds herself in the middle of the action -- and her first murder case. Someone in the group wanted playboy Tommi Peltonen dead, but that's one song these suspects refuse to sing. Behind the choir's jovial facade lies bitter passion, and the victim's seemingly perfect life hid a host of sins that made him a target of almost everyone in the villa. As a young female -- and a redhead to boot -- Maria knows that solving this case will help her overcome her perceived shortcoming in the eyes of her colleagues. But as the case takes startling twists and turns, and friends and foes become interchangeable, will she be able to piece together the clues before the killer strikes again?

"[A] perfectly constructed novel.... The time is 1974, and Max, who is fleeing from the wreckage of his first marriage, is a summer-house guest on Lake Como, where he encounters the two characters who will shape his life over the next 20 years: Charlie Swan, a Harvard classmate from the 1950s turned famous architect...and Toby, a poised and polymorphous teenager who is soon to become Charlie's protege and lover." --Time BONUS: This edition includes an excerpt from Louis Begley's *Memories of a Marriage*.

Timetables of World Literature

Weaving together loss and anxiety with fantastic elements and literary sleight-of-hand, Kevin Brockmeier's richly imagined *Things That Fall from the Sky* views the nagging realities of the world through a hopeful lens. In the deftly told "These Hands," a man named Lewis recounts his time babysitting a young girl and his inconsolable sense of loss after she is wrenched away. In "Apples," a boy comes to terms with the complex world of adults, his first pangs of love, and the bizarre death of his Bible coach. "The Jesus Stories" examines a people trying to accelerate the Second Coming by telling the story of Christ in every possible way. And in the O. Henry Award winning "The Ceiling," a man's marriage begins to disintegrate after the sky starts slowly descending. Achingly beautiful and deceptively simple, *Things That Fall from the Sky* defies gravity as one of the most original story collections seen in recent years.

Hermann Hesse's Fictions of the Self

Peasants, religious heretics, witches, pirates, runaway slaves, prostitutes and pornographers, frequenters of taverns and fraternal society lodge rooms, revolutionaries, blues and jazz musicians, beats, and contemporary youth gangs--those who defied authority, choosing to live outside the defining cultural dominions of early insurgent and, later, dominant capitalism are what Bryan D. Palmer calls people of the night. These lives of opposition, or otherness, were seen by the powerful as deviant, rejecting authority, and consequently threatening to the established order. Constructing a rich historical

tapestry of example and experience spanning eight centuries, Palmer details lives of exclusion and challenge, as the "night travels" of the transgressors clash repeatedly with the powerful conventions of their times. Nights of liberation and exhilarating desire--sexual and social--are at the heart of this study. But so too are the dangers of darkness, as marginality is coerced into corners of pressured confinement, or the night is used as a cover for brutalizing terror, as was the case in Nazi Germany or the lynching of African Americans. Making extensive use of the interdisciplinary literature of marginality found in scholarly work in history, sociology, cultural studies, literature, anthropology, and politics, Palmer takes an unflinching look at the rise and transformation of capitalism as it was lived by the dispossessed and those stamped with the mark of otherness.

Things that Fall from the Sky

Americans are expressing deep concern about US dependence on petroleum, rising energy prices and the threat of climate change. Unlike the energy crisis of the 1970s, however, there is a lurking fear that, now, the times are different and the crisis may not easily be resolved. The Long Descent examines the basis of such fear through three core themes: Industrial society is following the same well-worn path that has led other civilizations into decline, a path involving a much slower and more complex transformation than the sudden catastrophes imagined by so many social critics today. The roots of the crisis lie in the cultural stories that shape the way we understand the world. Since problems cannot be solved with the same thinking that created them, these ways of thinking need to be replaced with others better suited to the needs of our time. It is too late for massive programs for top-down change; the change must come from individuals. Hope exists in actions that range from taking up a handicraft or adopting an "obsolete" technology, through planting an organic vegetable garden, taking charge of your own health care or spirituality, and building community. Focusing eloquently on constructive adaptation to massive change, this book will have wide appeal.

The Turn of the Screw, the Aspern Papers and Two Stories

Joseph Conrad once said of his friend Henry James, As is meet for a man of his descent and tradition, Mr. James is the historian of fine consciences. As it turns out, James was also incredibly gifted at writing exceptional ghost stories. This collection including, The Beast in the Jungle and The Jolly Corner, features James's finest supernatural tales, along with criticism, a discussion of the legacies of James's writing, and provocative study questions.

The Aspern Papers

Two of Henry James' most famous novellas bound in one volume. 'The Aspern Papers' is a tale of literary obsession and deception set in Venice, while 'The Turn of the Screw' is a chilling ghost story that has confounded readers for over a century. A must-read for fans of psychological fiction. This

The Aspern Papers

A literary historian develops a scheme to gain possession of love letters written by an American poet, and a governess tries to protect the two young children in her care from the ghosts she believes are haunting them.

The Turn of the Screw and The Aspern Papers

The Turn of the Screw is a novella written by Henry James. Initially, it was serialized but later on published in book form. Regarded by many as one of the world's most famous ghost stories, the story of The Turn of the Screw is narrated through the journal of a governess and describes her struggle to save her two young charges from the demonic influence of the uncanny apparitions of two former servants in the household. The novella has been adapted numerous times. The plot of this novella centered on an unnamed narrator and some of their friends who gather around a fire on the Christmas Eve. Douglas, one of them, reads a manuscript that tells the story of governess being hired by a man who has become responsible for his young niece Flora and nephew Miles following the deaths of their parents. Flora, is living in Bly, where she is cared for by Mrs. Grose, the housekeeper. Her uncle, the governess's new employer, is uninterested in raising the children and gives her full charge. The story inspired critical debate over the question of the ghosts.

The Turn Of The Screw

The Aspern Papers Henry James - The Aspern Papers is a novella written by Henry James, originally published in The Atlantic Monthly in 1888, with its first book publication later in the same year. One of James' best-known and most acclaimed longer tales, The Aspern Papers is based on the letters Percy Bysshe Shelley wrote to Mary Shelley's stepsister, Claire Clairmont, who saved them until she died. Set in Venice, The Aspern Papers demonstrates James' ability to generate suspense while never neglecting the development of his characters. Henry James, OM (15 April 1843 – 28 February 1916) was an American writer who spent most of his writing career in Britain. He is regarded as one of the key figures of 19th-century literary realism. He was the son of Henry James, Sr. and the brother of philosopher and psychologist William James and diarist Alice James. He is best known for a number of novels showing Americans encountering Europe and Europeans. His method of writing from a character's point of view allowed him to explore issues related to consciousness and perception, and his style in later works has been compared to impressionist painting. His imaginative use of point of view, interior monologue and unreliable narrators brought a new depth to narrative fiction. James contributed significantly to literary criticism, particularly in his insistence that writers be allowed the greatest possible freedom in presenting their view of the world. James claimed that a text must first and foremost be realistic and contain a representation of life that is recognizable to its readers. Good novels, to James, show life in action and are, most importantly, interesting. In addition to his voluminous works of fiction he published articles and books of travel, biography, autobiography, and criticism, and wrote plays. James alternated between America and Europe for the first twenty years of his life; eventually he settled in England, becoming a British subject in 1915, one year before his death. James was nominated for the Nobel Prize in Literature in 1911, 1912, and 1916.

The Aspern Papers

To read a story by Henry James is to enter a fully realized world unlike any other—a rich, perfectly crafted domain of vivid language and splendid, complex characters. Devious children, sparring lovers, capricious American girls, obtuse bachelors, sibylline spinsters, and charming Europeans populate these five fascinating nouvelles, which represent the author in both his early and late phases. From the apparitions of evil that haunt the governess in "The Turn of the Screw" to the startling self-scrutiny of an egotistical man in "The Beast in the Jungle," the mysterious turnings of human behavior are coolly and

masterfully observed—proving Henry James to be a master of psychological insight as well as one of the finest prose stylists of modern English literature.

Plot summary A nameless narrator goes to Venice to find Juliana Bordereau, an old lover of Jeffrey Aspern, a famous and now dead American poet. The narrator presents himself to the old woman as a prospective lodger and is prepared to court her niece Miss Tita (renamed Miss Tina in later editions), a plain, somewhat naive spinster, in hopes of getting a look at some of Aspern's letters and other papers kept by Juliana. Miss Tita had denied the existence of any such papers in a letter to the narrator and his publishing partner, but he believes she was dissembling on instructions from Juliana. The narrator eventually discloses his intentions to Miss Tita, who promises to help him. Later, Juliana offers to sell a portrait miniature of Aspern to the narrator for an exorbitant price. She doesn't mention Jeffrey Aspern's name, but the narrator still believes she possesses some of his letters. When the old woman falls ill, the narrator ventures into her room and gets caught by Juliana as he is about to rifle her desk for the letters. Juliana calls the narrator a "publishing scoundrel" and collapses. The narrator flees, and when he returns some days later, he discovers that Juliana has died. Miss Tita hints that he can have the Aspern letters if he marries her. Again, the narrator flees. At first he feels he can never accept the proposal, but gradually he begins to change his mind. When he returns to see Miss Tita, she bids him farewell and tells him that she has burned all the letters one by one. The narrator never sees the precious papers, but he does send Miss Tita some money for the miniature portrait of Aspern that she gives him... The Turn of the Screw [in, *The Aspern Papers and The Turn of the Screw: Edited with an Introduction by Anthony Curtis*] (Penguin Classics).

In "The Aspern Papers," an unnamed American editor rents a room in Venice in the home of Juliana Bordereau, the elderly mistress of Jeffrey Aspern, a deceased Romantic poet, in order to procure from her the poet's papers. Bordereau, a stingy, domineering woman, lives with her timid middle-aged niece, Tina. (The niece was named Tita until James revised the text in 1908.) The manipulative editor, obsessed with possessing the Aspern papers, exhibits progressively unscrupulous behaviour, such as assuming an alias, making false romantic overtures to Tina, and attempting burglary. When Bordereau dies, Tina offers the editor the coveted documents on the condition that he marry her. He initially refuses but returns to negotiate, only to find that Tina, in a display of newfound dignity, has burned the papers. The novelette was inspired by an actual incident involving Claire Clairmont, once the mistress of Lord Byron.

I had taken Mrs. Prest into my confidence; in truth without her I should have made but little advance, for the fruitful idea in the whole business dropped from her friendly lips. It was she who invented the short cut, who severed the Gordian knot. It is not supposed to be the nature of women to rise as a general thing to the largest and most liberal view--I mean of a practical scheme; but it has struck me that they sometimes throw off a bold conception--such as a man would not have risen to--with singular serenity. "Simply ask them to take you in on the footing of a lodger"--I don't think that unaided I should have risen to that. I was beating about the bush, trying to be ingenious, wondering by what combination of arts I might become an acquaintance, when she offered this happy suggestion that the way to become an acquaintance was first to become an inmate. Her actual knowledge of the Misses Bordereau was scarcely larger than mine, and indeed I had brought with me from England some definite facts which were new to her. Their name had been mixed up ages before with one of the greatest names of the century, and they lived now in Venice in obscurity, on very small means, unvisited, unapproachable, in a dilapidated old palace on an out-of-the-way canal: this was the substance of my friend's impression of them. She herself had been established in Venice for fifteen years and had done a great deal of good there; but the circle of her benevolence did not include the two shy, mysterious and, as it was somehow supposed, scarcely respectable Americans (they were believed to have lost in their long exile all national quality, besides having had, as their name implied, some French strain in their origin), who asked no favors and desired no attention. In the early years of her residence she had made an attempt to see them, but this had been successful only as regards the little one, as Mrs. Prest called the niece; though in reality as I afterward learned she was considerably the bigger of the two. She had heard Miss Bordereau was ill and had a suspicion that she was in want; and she had gone to the house to offer assistance, so that if there were suffering (and American suffering), she should at least not have it on her conscience. The "little one" received her in the great cold, tarnished Venetian sala, the central hall of the house, paved with marble and roofed with dim crossbeams, and did not even ask her to sit down. This was not encouraging for me, who wished to sit so fast, and I remarked as much to Mrs. Prest. She however replied with profundity, "Ah, but there's all the difference: I went to confer a favor and you will go to ask one. If they are proud you will be on the right side." And she offered to show me their house to begin with--to row me thither in her gondola. I let her know that I had already been to look at it half a dozen times; but I accepted her invitation, for it charmed me to hover about the place. I had made my way to it the day after my arrival in Venice (it had been described to me in advance by the friend in England to whom I owed definite information as to their possession of the papers), and I had besieged it with my eyes while I considered my plan of campaign. Jeffrey Aspern had never been in it that I knew of; but some note of his voice seemed to abide there by a roundabout implication, a faint reverberation.

Tina accepts him with a timid bewilderment, however the hero's kindness, his assertiveness and promise to tidy the garden brought about her promising to talk with her aunt. Hero with bated breath is looking forward to the meeting with the legendary Juliana, who turns out to be not anything however suspicious and greedy antique woman with the interested by cash. She asks from him an exorbitant fee for the room, and he is even afraid that if he consents with this rate, he will impersonate himself: no one could pay so much. The Aspern Papers

Lively, original and highly readable, *An Introduction to Literature, Criticism and Theory* is the essential guide to literary studies. Starting at 'The Beginning' and concluding with 'The End', chapters range from the familiar, such as 'Character', 'Narrative' and 'The Author', to the more unusual, such as 'Secrets', 'Pleasure' and 'Ghosts'. Now in its fifth edition, Bennett and Royle's classic textbook successfully illuminates complex ideas by engaging directly with literary works, so that a reading of *Jane Eyre* opens up ways of thinking about racial difference, for example, while Chaucer, Raymond Chandler and Monty Python are all invoked in a discussion of literature and laughter. The fifth edition has been revised throughout and includes four new chapters – 'Feelings', 'Wounds', 'Body' and 'Love' – to incorporate exciting recent developments in literary studies. In addition to further reading sections at the end of each chapter, the book contains a comprehensive bibliography and a glossary of key literary terms. A breath of fresh air in a field that can often seem dry and dauntingly theoretical, this book will open the reader's eyes to the exhilarating possibilities of reading and studying literature.

The Turn of the Screw

Much literary criticism focuses on literary producers and their products, but an important part of such work considers the end-user, the reader. It asks such questions as: how far can the author condition the response of the reader, and how much does the reader create the meaning of a text? Dr Bennett's collection includes important essays from such writers and critics as Wolfgang Iser, Mary Jacobus, Roger Chartier, Michel de Certeau, Shoshana Felman, Maurice Blanchot, Paul de Man and Yves Bonnefoy. It looks in turn at deconstructionist, feminist, new historicist and psychoanalytical response to the school. The book then considers the act of reading itself, discussing such issues as the uniqueness of any reading and the difficulties involved in its analysis.

Turn of the Screw, The

At the end of the First World War, France had to terminate its conquest of Morocco. Despite its military superiority, France had to attack the determination of resistance in the Middle Atlas, the High Atlas and Anti-Atlas. Pushed to the tops of mountains and peaks, Moroccan resistants strove to fight to the end against the imperialist armies to preserve their freedom. The most famous of these Moroccan militants was the Emir AbdelKrim El-Khattabi in the Rif region.

This work provides biographies of more than 500 men and women who have served as admiral, vice admiral, or rear admiral. While officers from the U.S., British, French and Japanese navies make up the bulk of the work, officers from 22 countries, including Australia, Canada, Germany, India, Italy,

the Netherlands, Russia, and Spain, are also included. The main criterion for inclusion is that each person must have actively served in the rank of at least rear admiral, but not necessarily in enemy action. This effectively rules out people who were granted the rank on retirement, as a courtesy title or posthumously. The book also includes lists of admirals organized by nationality and by year of birth.
