The Blue Flower (4th Estate Matchbook Classics)

Penelope Fitzgerald's final masterpiece. One of the ten books - novels, memoirs and one very unusual biography - that make up our Matchbook Classics' series, a stunningly redesigned collection of some of the best loved titles on our backlist.

The Blue Flower

Romance between the poet Novalis and his fiancée Sophie, newly introduced by Candia McWilliam. The year is 1794 and Fritz, passionate, idealistic and brilliant, is seeking his father's permission to announce his engagement to his heart's desire: twelve-year-old Sophie. His astounded family and friends are amused and disturbed by his betrothal. What can he be thinking?

The Blue Flower

From a childhood of gothic proportions in a vicarage on the Welsh borders, through adolescence, leaving herself teetering on the brink of the 1960's, Lorna Sage vividly and wittily brings to life a vanished time and place and illuminates the lives of three generations of women.

Bad Blood: A Memoir (Text Only)

On the Battersea Reach of the Thames, a mixed bag of eccentrics lives in houseboats. Belonging to neither land nor sea, they belong to one another. How each of their lives complicates the others is the stuff of this perfect little novel. Winner of a 1997 Booker Prize.

Offshore

'Stuart does not like the manuscript. He's after a bestseller, "like what Tom Clancy writes". "But you are not an assassin trying to frazzle the president with anthrax bombs," I point out. You are an ex-homeless, ex-junkie psychopath, I do not add.'

Stuart: A Life Backwards

Man Booker Prize Finalist: This "marvelous novel" about an abandoned husband, set in Moscow a century ago, is "bristling with wry comedy" (Newsday). March 1913. Moscow is stirring herself to meet the beginning of spring. English painter Frank Reid returns from work one night to find that his wife has gone away; no one knows where or why, or whether she'll ever come back. All Frank knows for sure is that he is now alone and must find someone to care for his three young children. Into Frank's life comes Lisa Ivanovna, a quiet, calming beauty from the country, untroubled to the point of seeming simple. But is she? And why has Frank's bookkeeper, Selwyn Crane, gone to such lengths to bring these two together? From a winner of the National Book Critics Circle Award, this novel, with a new introduction by Andrew Miller, author of *Pure*, is filled with "writing so precise and lilting it can make you shiver" (Los Angeles Times). "Fitzgerald was the author of several slim, perfect novels. *The Blue Flower* and *The Beginning of Spring* both had me abuzz for days the first time I read them. She was curiously perfect." —Teju Cole, author of *Open City*

The Beginning of Spring

In 1912, rational Fred Fairly, one of Cambridge's best and brightest, crashes his bike and wakes up in bed with a stranger--fellow casualty Daisy Saunders, a charming, pretty, working-class nurse. So begins a series of complications--not only of the heart but also of the head--as Fred and Daisy take up each other's education and turn each other's philosophies upside-down.

The Gate of Angels

The first biography to look at the early feminist and radical Mary Wortley Montagu, who successfully introduced Britain to the inoculation against the smallpox virus. 300 years ago, in April 1721, a smallpox epidemic was raging in England. Lady Mary Wortley Montagu knew that she could save her 3-year-old daughter using the process of inoculation. She had witnessed this at first hand in Turkey, while she was living there as the wife of the British ambassador. She also knew that by inoculating - making her daughter the first person protected in the West - she would face opposition from doctors, politicians and clerics. Her courageous action eventually led to the eradication of smallpox and the prevention of millions of deaths. But Mary was more than a scientific campaigner. She mixed with the greatest politicians, writers, artists and thinkers of her day. She was also an important early feminist, writing powerfully and provocatively about the position of women. She was best friends with the poet Alexander Pope. They collaborated on a series of poems, which made her into a household name, an 'It Girl.' But their friendship turned sour and he used his pen to vilify her publicly. Aristocratic by birth, Mary chose to elope with Edward Wortley Montagu, whom she knew she did not love, so as to avoid being forced into marrying someone else. In middle age, her marriage stale, she fell for someone young enough to be her son - and, unknown to her, bisexual. She set off on a new life with him abroad. When this relationship failed, she stayed on in Europe, narrowly escaping the coercive control of an Italian con man. After twenty-two years abroad, she returned home to London to die. The son-in-law she had dismissed as a young man had meanwhile become Prime Minister.

The Pioneering Life of Mary Wortley Montagu

Tono-Bungay is a semiautobiographical novel written by H. G. Wells. It is narrated by George Ponderevo, who is persuaded to help develop the business of selling Tono-Bungay, a patent medicine created by his uncle Edward. George devotes seven years to organizing the production and manufacture of the product, even though he believes it is "a damned swindle".

Tono-Bungay

At the height of the Nazi occupation of Rome, an unlikely band of heroes comes together to save innocent lives in this breathtaking World War II novel based on real historical events. Rome, 1943. With the fall of Italy's Fascist government and the Nazi regime occupying the streets of Rome, British ballerina Julia Bradbury is stranded and forced to take refuge at a hospital on Tiber Island. But when she learns of a deadly sickness sweeping through the quarantine wards—a fake disease known only as Syndrome K—she is drawn into one of the greatest cons in history. Alongside hospital staff, friars of the adjoining church, and two Allied medics, Julia risks everything to rescue Jewish Italians from the deadly clutches of the Holocaust. Soon a little girl who dreams of becoming a ballerina arrives at their door, and Julia is determined to reunite the young dancer with her family—if only she would reveal one crucial secret: her name. Present Day. Delaney Coleman recently lost her grandfather—a beloved small-town doctor and World War II veteran, so she returns home to help her aging parents. When a mysterious Italian woman reaches out claiming to own one of the family's precious heirlooms, Delaney is compelled to travel to Italy and uncover the truth of her grandfather's hidden past. With the help of the woman's skeptical but charming grandson, Delaney learns of a Roman hospital that saved

hundreds of Jewish people during the war. Soon, everything Delaney thought she knew about her grandfather comes into question. Based on true accounts of the invented Syndrome K sickness, *The Italian Ballerina* journeys from the Allied storming of the beaches at Salerno to the London ballet stage and the war-torn streets of World War II Rome, exploring the sometimes heart-wrenching choices we must make to find faith and forgiveness, and how saving a single life can impact countless others. Split timeline: WWII and present day Stand-alone novel Book length: approximately 107,000 words Includes discussion questions for book clubs

The Italian Ballerina

"A remarkable piece of invention, a flight from the world of the familiar and the real into the exotic universe of dream and desire." —New York Times Book Review When a light aircraft crashes into the Thames at Shepperton, the young pilot who struggles to the surface minutes later seems to have come back from the dead. Within hours everything in the dormitory suburb is transformed. Vultures invade rooftops, luxuriant tropical vegetation overruns the quiet avenues, and the local inhabitants are propelled by the young man's urgent visions through ecstatic sexual celebrations toward an apocalyptic climax. In this characteristically inventive novel Ballard displays to devastating effect the extraordinary imagination that has established him as one of the twentieth century's most visionary writers.

The Unlimited Dream Company: A Novel

Maurice Duke and Daniel P. Jordan vividly describe the colorful life and times of one of the South's—and America's—most important businesses and provide insight into how luck, management practices, and personalities helped the company rise to international prominence. Universal Leaf Tobacco Company, the world's largest independent leaf tobacco dealer, is one of the major buying arms for tobacco manufacturers worldwide, selecting, purchasing, processing, and storing leaf tobacco. The story opens during the aftermath of the Civil War when Southerners realized once again the worldwide potential of their native crop. The authors follow the company from its incorporation 1918 through one of the first hostile takeover attempts in American business, to its evolution in 1993 into Universal Corporation, a worldwide conglomerate with a number of products including tobacco. Based on scholarly research and over two hundred interviews with past and present Universal employees, this objective saga reveals much about American business and economic history.

Defending the Undefendable

Shortlisted for the Booker Prize. In a small East Anglian town, Florence Green decides, against polite but ruthless local opposition, to open a bookshop.

Tobacco Merchant

"Maddie Goldbloom stitched up a plan to ensure everything in her life was perfect - from a career in fashion to a chic NYC apartment to a pediatrician boyfriend. When her ex, Chase Black, storms back into her life with an outrageous request, her immediate reaction is to refuse him. But he only wants to fulfill his father's last wish. So even though he's the man who broke her heart, playing his fiancée shouldn't be hard, especially if it means she gets to watch the arrogant devil squirm a bit. What ensues is a chain of events that detonates Maddie's life - and when Chase's walls come down, they both are forced to face reality."--Provided by publisher.

The Bookshop

Robin Windsor has spent most of her life under an assumed name, running from her family's ignominious past. She thought she'd finally found sanctuary in her rather unremarkable used bookstore just up the street from the marina in River City, Michigan. But the store is struggling and the past is hot on her heels. When she receives an eerily familiar book in the mail on the morning of her father's scheduled execution, Robin is thrown back to the long-lost summer she met Peter Flynt, the perfect boy who ruined everything. That book--a first edition *Catcher in the Rye*--is soon followed by the other books she shared with Peter nearly twenty years ago, with one arriving in the mail each day. But why would Peter be making contact after all these years? And why does she have a sinking feeling that she's about to be exposed all over again? With evocative prose that recalls the classic novels we love, Erin Bartels pens a story that shows that words--the ones we say, the ones we read, and the ones we write--have more power than we imagine. ***** "The Words between Us is a story to savor and share: a

lyrical novel about the power of language and the search for salvation. A secondhand bookstore owner hiding from a legacy of scandal, tragedy, and heartbreak must unlock the secrets of the past to claim her happiness. I loved every sentence, every word."--Barbara Claypole White, bestselling author of *The Perfect Son* and *The Promise between Us* "Erin Bartels has done it again. She's created a story that has set up camp in my mind and now feels more like a memory, something I lived, than a piece of fiction. The added benefit is that it's a story about books, some of the best ones ever written. If you are the kind of person who finds meaning and life in the written word, then you'll find yourself hidden among these pages."--Shawn Smucker, author of *Light from Distant Stars* "Vividly drawn and told in expertly woven dual timelines, *The Words between Us* is a story about a woman who has spent years trying to escape her family's scandals and the resilience she develops along the way. Erin Bartels's characters are a treat: complex, dynamic, and so lifelike I half expected them to climb straight out of the pages."--Kathleen Barber, author of *Are You Sleeping*

The Devil Wears Black

An American Farm Boy In Search Of Meaning "Life was so short that it meant nothing at all unless it were continually reinforced by something that endured; unless the shadows of individual existence came and went against a background that held together." - Willa Cather, *One of Ours* Claude tries to escapes from his family firm grasp who want him pious and working at their family farm in Nebraska. He marries in his attempt to escape only to realize that his wife is not interested at all in him. Belinda: innocent yet passionate, she becomes his elegant muse and lover. As his passion for her deepens, so does his obsession with the past she will not talk about. Terrified of losing her, he is unable to live with her silence; and as he probes for the truth, he finds himself swept up in the world Belinda has fled from, a world of Hollywood money, lust and dark family secrets.

One of Ours

Co-founder and co-editor of *October* magazine, a veteran of *Artforum* of the 1960s and early 1970s, Rosalind Krauss has presided over and shared in the major formulation of the theory of postmodernism. In this challenging collection of fifteen essays, most of which originally appeared in *October*, she explores the ways in which the break in style that produced postmodernism has forced a change in our various understandings of twentieth-century art, beginning with the almost mythic idea of the avant-garde. Krauss uses the analytical tools of semiology, structuralism, and poststructuralism to reveal new meanings in the visual arts and to critique the way other prominent practitioners of art and literary history write about art. In two sections, "Modernist Myths" and "Toward Postmodernism," her essays range from the problem of the grid in painting and the unity of Giacometti's sculpture to the works of Jackson Pollock, Sol Lewitt, and Richard Serra, and observations about major trends in contemporary literary criticism.

The invention of mass marketing led to cigarettes being emblazoned in advertising and film, deeply tied to modern notions of glamour and sex appeal. It is hard to find a photo of Humphrey Bogart or Lauren Bacall without a cigarette. No product has been so heavily promoted or has become so deeply entrenched in American consciousness. And no product has received such sustained scientific scrutiny. The development of new medical knowledge demonstrating the dire harms of smoking ultimately shaped the evolution of evidence-based medicine. In response, the tobacco industry engineered a campaign of scientific disinformation seeking to delay, disrupt, and suppress these studies. Using a massive

archive of previously secret documents, historian Allan Brandt shows how the industry pioneered these campaigns, particularly using special interest lobbying and largesse to elude regulation. But even as the cultural dominance of the cigarette has waned and consumption has fallen dramatically in the U.S., Big Tobacco remains securely positioned to expand into new global markets. The implications for the future are vast: 100 million people died of smoking-related diseases in the 20th century; in the next 100 years, we expect 1 billion deaths worldwide.

The Originality of the Avant-Garde and Other Modernist Myths

A stunning novel in stories in the tradition of Jennifer Egan by the iconic actress Molly Ringwald. Tales of love, loss, and betrayal are at the heart of *When It Happens to You*, the debut novel in stories from actress and author Molly Ringwald. A Hollywood icon, Ringwald defined the teenage experience in the eighties in such classic films as *Pretty in Pink*, *The Breakfast Club* and *Sixteen Candles*. Ringwald brings the compelling candour she displayed in her film roles to the unforgettable characters she has created in this series of intertwined and linked stories about the particular challenges, joys and disappointments of adult relationships. Her characters grapple with infertility and infidelity, fame and familial discord in a magnificent debut that will resonate broadly, particularly with fans of Melissa Banks, Meg Wolitzer and Lorrie Moore. 'When It Happens to You is absolutely lovely, a smart, emotionally sophisticated, intricately dovetailed novel of stories. World, I'm telling you now: Molly Ringwald is the real deal' Lauren Groff, author of *Arcadia* 'Molly Ringwald understands how families work and uses her considerable talents to make them come alive on the page' Gary Shteyngart

Prometheus Deception Robert Ludlum is the acknowledged master of suspense and international intrigue. For over thirty years, in over twenty international bestsellers, he has set a standard that has never been equaled. Now, with the *Prometheus Deception*, he proves that he is at the very pinnacle of his craft. Nicholas Bryson spent years as a deep cover operative for the American secret intelligence group, the Directorate. After critical undercover mission went horribly wrong, Bryson was retired to a new identity. Years later, his closely held cover is cracked and Bryson learns that the Directorate was not what it claimed - that he was a pawn in a complex scheme against his own country's interests. Now, it has become increasingly clear that the shadowy Directorate is headed for some dangerous endgame - but no one knows precisely who they are and what they are planning. With Bryson their only possible asset, the director of the CIA recruits Bryson to find, reinfiltrate, and stop the Directorate. But after years on the sidelines, Bryson's field skills are rusty, his contacts unreliable, and his instincts suspect. With everything he thought he knew about his own life in question, Bryson is all alone in a wilderness of mirrors - unsure what is and isn't true and who, if anyone, he can trust - with the future of millions in the balance. *Sigma Protocol* Ben Hartman is vacationing in Zurich, Switzerland when he chances upon his old friend Jimmy Cavanaugh—a madman who's armed and programmed to assassinate. In a matter of minutes, six innocent bystanders are dead. So is Cavanaugh. But when his body vanishes, and his weapon mysteriously appears in Hartman's luggage, Hartman is plunged into an unfathomable nightmare... Meanwhile, Anna Navarro, field agent for the Department of Justice, has been asked to investigate the sudden, random deaths of eleven men throughout the world. The only thing that connects them? A secret file, over a half-century old, that's linked to the CIA—and is marked with the same puzzling codename: Sigma. As Anna follows the connecting thread—and Hartman finds himself on the run—she ends up in the shadows of a relentless killer who is one step ahead of her...victim by victim. Now, she and Hartman together must uncover the diabolical secrets long held behind Sigma. It will threaten everything they think they know about themselves—and confirm their very worst fears...

When It Happens to You

"A delectable comedy of manners" set in 1950s Florence, by the Man Booker Prize-winning author of *The Bookshop* (The Boston Globe). It's 1955, and Italy is still struggling a decade after the end of World War II. So are the Ridolfis, a Florentine family of long and fading noble lineage. Like their decrepit villa, they've seen better days. Only eighteen-year-old Chiara shows anything like vitality—however impulsive and perilously naïve. Chiara has set her heart and her future on Salvatore Rossi, a brilliant, penniless young doctor and bull-headed son of a Communist, who has erased both politics and romance from his list of priorities. With her plans stymied, Chiara calls on her resourceful and meddlesome British girlfriend, Barney, to help make an impossible match. Now, out of good intentions and the most innocent of instincts, two guileless friends are going to make a series of astonishingly wrong moves in the name

of love. From a winner of multiple major literary awards who was called “the best English novelist of her time” by Julian Barnes, *Innocence* is a novel “not just about Italians in love but of living and loving for all humans” (The Times). “As intoxicating as a shot of aged brandy.” —The Washington Post

The Prometheus Deception/The Sigma Protocol

Considered by many to be a founder of Afrofuturism, Sun Ra—aka Herman Blount—was a composer, keyboardist, bandleader, philosopher, entrepreneur, poet, and self-proclaimed extraterrestrial from Saturn. He recorded over 200 albums with his Arkestra, which, dressed in Egypto-space costumes, played everything from boogie-woogie and swing to fusion and free jazz. John Szwed's *Space is the Place* is the definitive biography of this musical polymath, who was one of the twentieth century's greatest avant-garde artists and intellectuals. Charting the whole of Sun Ra's life and career, Szwed outlines how after years in Chicago as a blues and swing band pianist, Sun Ra set out in the 1950s to impart his views about the galaxy, black people, and spiritual matters by performing music with the Arkestra that was as vital and innovative as it was mercurial and confounding. Szwed's readers—whether they are just discovering Sun Ra or are among the legion of poets, artists, intellectuals, and musicians who consider him a spiritual godfather—will find that, indeed, space is the place.

Innocence

Easy-to-read retelling of the hilarious misadventures of Don Quixote, the idealistic knight, and his squire, Sancho Panza, who set out to right the wrongs of the world. Abridged version with six charming illustrations.

Space Is the Place

Three women from very different backgrounds, bound by friendship, separated by destiny It was impossible, but in full view of the church, the Governor and wedding guests ... The bride had vanished. Some girls are born to be loved, some are born to be useful. Some girls are born to be bad. Indulged and wealthy Kat Fitzhubert is seemingly 'sold off' in an arranged marriage in a colony across the world. Lady Viola Montefiore is the dark-skinned 'changeling' of a ducal family, kept hidden and then shipped away. Titania Boot is as broad as a carthorse, and as useful. In the turmoil of an Australia in 1853 that reinvents itself from convict colony to a land of gold, one woman forges a business empire. One brews illegal poteen with a bushranger. And the third vanishes on her wedding day in a scandal that will mystify the world. In this magnificent and broad-sweeping saga, Jackie French defies the myth of colonial women as 'merely' wives, servants or whores. Instead portraying them as business women, farmers, bushrangers and brewers of illegal poteen, as well as arbiters of their destiny.

Adventures of Don Quixote

The first monograph of the stunning residences designed by a contemporary master of traditional architecture. A must-have for lovers of traditional or southwestern-inspired residential design, Michael G. Imber: *Ranches, Villas, and Houses* reveals the beauty of building from the rich architectural traditions of the desert southwest and Mexico. A master of traditional forms derived from these regions, particularly of his native Texas, Michael G. Imber begins each of his designs by considering the land through watercolors and then develops his ideas in relation to climate and local historical references. The result is an array of ranches and houses that evokes the rural building traditions of the west, that is unafraid of the delights of classical ornamentation, and that is nonetheless wholly modern in its execution. Here, in the first monograph devoted to the architect's work, is a collection of masterful residential projects ranging in scale from bungalows to sprawling ranches, all presented in large-format photographs and accompanied by Imber's extraordinary watercolor studies.

No Hearts of Gold

The author presents his 1996 work, "The Harper's Essay," offering additional writings that consider a central theme of the erosion of civic life and private dignity and the increasing persistence of loneliness in postmodern American.

"MISHA I can't help but smile at the lyrics in her letter. She misses me. In fifth grade, my teacher set us up with pen pals from a different school. Thinking I was a girl, with a name like Misha, the other

teacher paired me up with her student, Ryen. My teacher, believing Ryen was a boy like me, agreed. It didn't take long for us to figure out the mistake. And in no time at all, we were arguing about everything. The best take-out pizza. Android vs. iPhone. Whether or not Eminem is the greatest rapper ever... And that was the start. For the next seven years, it was us. Her letters are always on black paper with silver writing. Sometimes there's one a week or three in a day, but I need them. She's the only one who keeps me on track, talks me down, and accepts everything I am. We only had three rules. No social media, no phone numbers, no pictures. We had a good thing going. Why ruin it? Until I run across a photo of a girl online. Name's Ryen, loves Gallo's pizza, and worships her iPhone. What are the chances? F*ck it. I need to meet her. I just don't expect to hate what I find. RYEN He hasn't written in three months. Something's wrong. Did he die? Get arrested? Knowing Misha, neither would be a stretch. Without him around, I'm going crazy. I need to know someone is listening. It's my own fault. I should've gotten his phone number or picture or something. He could be gone forever. Or right under my nose, and I wouldn't even know it. *Punk 57 is a stand alone New Adult romance. It is suitable for ages 18+."--Amazon.com

THE MIND-BENDING CULT CLASSIC ABOUT A HOUSE THAT'S LARGER ON THE INSIDE THAN ON THE OUTSIDE • A masterpiece of horror and an astonishingly immersive, maze-like reading experience that redefines the boundaries of a novel. "Simultaneously reads like a thriller and like a strange, dreamlike excursion into the subconscious." —Michiko Kakutani, *The New York Times* "Thrillingly alive, sublimely creepy, distressingly scary, breathtakingly intelligent—it renders most other fiction meaningless." —Bret Easton Ellis, bestselling author of *American Psycho* "This demonically brilliant book is impossible to ignore." —Jonathan Lethem, award-winning author of *Motherless Brooklyn* Years ago, when *House of Leaves* was first being passed around, it was nothing more than a badly bundled heap of paper, parts of which would occasionally surface on the Internet. No one could have anticipated the small but devoted following this terrifying story would soon command. Starting with an odd assortment of marginalized youth—musicians, tattoo artists, programmers, strippers, environmentalists, and adrenaline junkies—the book eventually made its way into the hands of older generations, who not only found themselves in those strangely arranged pages but also discovered a way back into the lives of their estranged children. Now made available in book form, complete with the original colored words, vertical footnotes, and second and third appendices, the story remains unchanged. Similarly, the cultural fascination with *House of Leaves* remains as fervent and as imaginative as ever. The novel has gone on to inspire doctorate-level courses and masters theses, cultural phenomena like the online urban legend of "the backrooms," and incredible works of art in entirely unreal mediums from music to video games. Neither Pulitzer Prize-winning photojournalist Will Navidson nor his companion Karen Green was prepared to face the consequences of the impossibility of their new home, until the day their two little children wandered off and their voices eerily began to return another story—of creature darkness, of an ever-growing abyss behind a closet door, and of that unholy growl which soon enough would tear through their walls and consume all their dreams.

Methland

Since Plato, philosophers have described the decision-making process as either rational or emotional: we carefully deliberate or we 'blink' and go with our gut. But as scientists break open the mind's black box with the latest tools of neuroscience, they're discovering this is not how the mind works. Our best decisions are a finely tuned blend of both feeling and reason - and the precise mix depends on the situation. When buying a house, for example, it's best to let our unconscious mull over the many variables. But when we're picking stocks and shares, intuition often leads us astray. The trick is to determine when to lean on which part of the brain, and to do this, we need to think harder (and smarter) about how we think.
