Spain is an immemorial land like no other, one that James A. Michener, the Pulitzer Prize-winning author and celebrated citizen of the world, came to love as his own. Iberia is Michener's enduring nonfiction tribute to his cherished second home. In the fresh and vivid prose that is his trademark, he not only reveals the celebrated history of bullfighters and warrior kings, painters and processions, cathedrals and olive orchards, he also shares the intimate, often hidden country he came to know, where the congeniality of living souls is thrust against the dark weight of history. Wild, contradictory, passionately beautiful, this is Spain as experienced by a master writer. BONUS: This edition includes an excerpt from James A. Michener's Hawaii. Praise for Iberia "From the glories of the Prado to the loneliest stone villages, here is Spain, castle of old dreams and new realities."—The New York Times "Massive, beautiful . . . unquestionably some of the best writing on Spain [and] the best that Mr. Michener has ever done on any subject."—The Wall Street Journal "A dazzling panorama . . . one of the richest and most satisfying books about Spain in living memory."—Saturday Review "Kaleidoscopic . . . This book will make you fall in love with Spain."—The Houston Post

I-SPY Creepy Crawlies

Plymouth University academic, Dr Charlie Mansfield approaches literary tourism in this book initially from an historical perspective in order to define the phenomenon through a review of the existing academic literature in the field. The forms of literary tourism are analysed to provide a typology and from this the value of literary tourism is explained both from the visitor's point of view and the destination manager's. Current theories underpinning the existing literature on literary tourism, including Bourdieu's concept of cultural capital are reviewed. To extend the current state of research and to answer the research questions a case study of successful urban literary tourism is identified, in Brittany, France. The uses of French literature in literary tourism are reviewed to provide a sound basis on which to examine French texts and tourist destinations. Novel methods of field research are developed to formalise and to make reproducible the methodology for this study and for future work drawing on, and seeking to combine both literary theory and ethnography. Following a pilot study on the French Riviera the full discovery instruments are designed and applied in fieldwork on the case destination, Concarneau, using the detective novel, *The Yellow Dog*, which is set in Concarneau. Analysis of the findings from this provide a new contribution to the field of literary theory, in the area of reader interpellation, and answer the research questions in the form of a new set of recommendations for DMOs and tourism stakeholders. From the empirical study that used Web 2.0 social media, only available since 2013, an analysis of which novels do stimulate literary tourism is presented for the first time. Out of the research process new methods have been evolved, and are presented in the conclusion, for the DMO to synthesise and leverage digital resources. This provides DMOs with interpretation processes for its managed heritage to use with its local stakeholders in hotels and in tourism businesses. Finally, an innovative conceptualisation of what constitutes tourism knowledge is proposed.

This volume gathers 19 papers first presented at the 5th International Symposium of the ICA Commission on the History of Cartography, which took place at the University of Ghent, Belgium on 2-5 December 2014. The overall conference theme was 'Cartography in Times of War and Peace', but preference was given to papers dealing with the military cartography of the First World War (1914-1918). The papers are classified by period and regional sub-theme, i.e. Military Cartography from the 18th to the 20th century; WW I Cartography in Belgium, Central Europe, etc.

In the Garden

A comprehensive monograph on the work of KAWS, one of the most sought-after artists and creative forces of our time. Drawing from Pop art traditions, KAWS's work straddles the line between fine art and popular culture, crossing the mediums of painting and sculpture, along with fashion, merchandise, vinyl toys, and, most recently, augmented reality. This book, made in close collaboration with the artist, features his most well-known works alongside sketches, preparatory drawings, and never-before-seen images of KAWS at work, revealing the meticulous process behind his iconic artworks. Accompanying a major retrospective exhibition at the Brooklyn Museum, it captures the artist's unique ability to reshape the ways we think about contemporary art and culture today.

Includes lessons for fiction and nonfiction, plus ready-to-use graphic organizers and checklists. For use with Grades 4-6.

Growing Readers

Primary-grade teachers face an important challenge: teaching children how to read while enabling them to build good habits so they fall in love with reading. Many teachers find the independent reading workshop to be the component of reading instruction that meets this challenge because it makes it possible to teach the reading skills and strategies children need and guides them toward independence, intention, and joy as readers. In *Growing Readers*, Kathy Collins helps teachers plan for independent reading workshops in their own classrooms. She describes the structure of the independent reading workshop and other components of a balanced literacy program that work together to ensure young students grow into strong, well-rounded readers. Kathy outlines a sequence of possible units of study for a yearlong curriculum. Chapters are devoted to the individual units of study and include a sample curriculum as well as examples of mini-lessons and reading conferences. There are also four "Getting Ready" sections that suggest some behind-the-scenes work teachers can do to prepare for the units. Topics explored in these units include: print and comprehension strategies; reading in genres such as poetry and nonfiction; connecting in-school reading and out-of-school reading; developing the strategies and habits of lifelong readers. A series of planning sheets and management tips are presented throughout to help ensure smooth implementation. We want our students to learn to read, and we want them to love to read. To do this we need to lay a foundation on which children build rich and purposeful reading lives that extend beyond the school day. The ideas found in *Growing Readers* create the kind of primary classrooms where that happens.

Still Learning to Read

Foreword by Colby Sharp In the decade since the first edition of *Still Learning to Read* was published, the prevalence of testing and the Common Core State Standards have changed what is expected of both teachers and students. The new edition of *Still Learning to Read* focuses on the needs of students in grades 3-6 in all aspects of reading workshop, including reading workshop, read-aloud, classroom design, digital tools, fiction, nonfiction, and close reading. The book stays true to its original beliefs of slowing down and knowing our readers, but it also takes into account the sense of urgency that changing times and standards impose on classrooms. This edition examines current trends in literacy, includes a new section on intentional instructional planning, and provides expanded examples of mini-lessons and routines that promote deeper thinking about learning. It also includes a brand new chapter on scaffolding for reading nonfiction and showcases the authors' latest thinking on close reading and text complexity. Online videos provide glimpses into classrooms as students make book choices, work in small groups, and discuss their reading notebooks. Expanded and updated book lists, recommendations for digital tools, lesson cycles, and sections specifically written for school leaders round out this foundational resource.

Teaching Reading

Elementary teachers of reading have one essential goal—to prepare diverse children to be independent, strategic readers in real life. This innovative text helps preservice and inservice teachers achieve this goal by providing knowledge and research-based strategies for teaching phonemic awareness, phonics, fluency, vocabulary, all aspects of comprehension, and writing in response to literature. Special features include sample lessons and photographs of literacy-rich classrooms. Uniquely interactive, the text is complete with pencil-and-paper exercises and reproducibles that facilitate learning, making it ideal for course use. Readers are invited to respond to reflection questions, design lessons, and start constructing a professional teaching portfolio.

Reading Essentials

In this easy-to-read and research-based text, Regie Routman provides clarity, support, specific demonstrations, and confidence to teachers so they can teach reading well and get high test scores too - regardless of the reading program they use. Detailed lessons, immediately doable ideas, teaching tips, and lots of practical suggestions make this an essential text for excellent and enjoyable teaching and learning.

Literacy Development in Early Childhood

Widely recognized as a leading text in its field, this popular guide explores literacy development beginning in infancy and through fourth grade. The latest edition continues to prepare teachers to create and implement literacy-rich curricula in early childhood classrooms, while providing updates to federal legislation and highlighting the impact of state standards on educational settings. Recent technology is integrated into activities used to enhance literacy competencies. Throughout the book, the author's approach to reflective teaching empowers teachers to become effective decision makers and thoughtful mediators in children's transactions with literacy. A conceptual and theoretical foundation for describing reading and writing processes is followed by research-based descriptions of the signs of emergent literacy and developmentally appropriate instructional strategies. The emphasis on linguistic and cultural diversity includes an array of approaches for supporting English language learners. Chapter extension activities challenge readers to apply concepts through observation, research, curriculum development, and discussion. Sample observation and assessment forms assist in determining children's progress in developing literacy.

Reading with Meaning

Shows how to teach children strategies for comprehending text and to become independent and strategic readers.

Resources in Education

No two students in grades 4–8 are identical, and many struggle with literacy for different reasons. Using a teacher-friendly, hands-on approach, this eminently practical book walks educators through the nuts and bolts of literacy intervention in the middle grades. Highlights include “North Star” principles to orient instruction, an assessment flowchart, and extended case studies of three middle-grades learners. The book offers evidence-based intervention practices for targeting specific literacy components, including word recognition, fluency, vocabulary, and comprehension. Teachers are guided to plan structured but flexible interventions that promote literacy growth and engagement. Sample lesson plans and clear, engaging figures illustrate how to make literacy intervention work for all students.

An indispensable course text and practitioner resource, this teacher-friendly book puts the needs of English language learners (ELLs) front and center. Leading authorities connect current research to effective instructional practices for elementary students with varying degrees of English proficiency. Key components of literacy instruction are addressed, including phonemic awareness, phonics, fluency, vocabulary, and comprehension. Chapters also explore how linguistic, sociocultural, psychological, and educational factors shape ELL literacy development, highlighting practical implications for the classroom. Reflection questions and a wealth of illustrative examples enhance the utility of this engaging, tightly edited work.
