The Indian Independence Act of 1947

For centuries, India was the crown jewel of the British Empire, full of natural resources and well situated for access to the Asian ports. Great Britain maintained its hold on the subcontinent until 1947, when India was granted its independence. The battle for an independent India took place on many levels and in numerous ways, both peaceful and violent. Men like Mohandas Gandhi, Jawaharlal Nehru, and Muhammad Ali Jinnah led this movement. Yet the common quest for liberation pitted these leaders against one another and caused the partitioning of the subcontinent into the nations of India and Pakistan, sparking one of the most turbulent and deadly migrations of populations in history. The Indian Independence Act of 1947 examines how these events continue to impact the world in terms of politics, religion, and culture. Book jacket. Milestones in Modern World History introduces students to seminal historical events that helped shape the modern world. Bolstered by biographical sketches, illustrations, photographs, excerpts from primary source documents, and first-person narratives, this curriculum-based series is ideal for students writing reports. India's Struggle for Independence

India's struggle for Independence by Bipin Chandra is your go to book for an in-depth and detailed overview on Indian independence movement . Indian freedom struggle is one of the most important parts of its history. A lot has been written and said about it, but there still remains a gap. Rarely do we get to hear accounts of the independence from the entire country and not just one region at one place. This book fits in perfectly in this gap and also provides a narration on the impact this movement had on the people. Bipin Chandra's book is a well-documented history of India's freedom struggle against the British rule. It is one of the most accurate books which have been painstakingly written after thorough research based on legal and valid verbal and written sources. It maps the first war of independence that

started with Mangal Pandey's mutiny and witnessed the gallant effort of Sri Rani Laxmi Bai. Many of the pages of this book are dedicated to Mahatma Gandhi's non-cooperation and the civil disobedience movements. It contains detailed description of Subash Chandra Bose's weapon heavy tactics and his charisma. This book includes all the independence movements and fights, irrespective of their size and impact, covering India in its entirety. Although these movements varied in means and ideas, but they shared a common goal of independence. This book contains oral and written narratives from different parts of the country, making this book historically rich and diverse. The book captures the evolution of Indian independence struggle in full detail and leaves no chapter of this story untouched. This book is a good read for the students of Indian modern history and especially for students who are preparing for UPSC examination and have taken History as their subject.

Rash Behari Basu

This volume, published in association with the Indian Council for Cultural Relations (ICCR), is a commemorative work on the occasion of the fiftieth anniversary year of India's independence. It presents a comprehensive picture of the developments in different aspects of national life over the past half century.

Partition and Independence of India

M. Zahir was born in Ludhiana in the Indian Province of Punjab in 1936. His father was a doctor in the Punjab Medical Service and at the time of Indian Independence was in charge of the Government Hospital in the small town of Mukerian. Zahir describes the ancient, multicultural society he lived in, and its sudden and complete destruction in 1947 when India achieved its independence. India's independence from the British Raj was accompanied by the division of the country into India and Pakistan, a divide which resulted in unspeakable violence with the death of close to two million people. Caught on the wrong side of the dividing line between India and Pakistan, Zahir's family tried to leave by train to Pakistan. The train was ambushed and almost all the Muslims men were killed on the spot and women abducted. Miraculously, a young Hindu put his own life in danger to save most of Zahir's family. As a boy, Zahir witnessed firsthand what is described as 'the greatest loss of civilian life in human history in the absence of war or famine'. In this meticulously- remembered memoir, Zahir describes the events leading to Indian Independence, the catastrophic train journey, and his life in the new country of Pakistan. The legacy of those events still haunts the world. Zahir, a Rhodes Scholar and a retired physician, now lives in British Columbia, Canada.

1947. A Memoir of Indian Independence

At midnight on 14 August 1947, Britain finally granted independence to the peoples of India, without a single shot being fired in anger. Bathed in the rosy glow of retrospect, the birth of modern India and Pakistan has come to be regarded in the west as a great achievement, the proudest day in Britain's history, as predicted by Lord Macauley in 1835. But how justified is the romantic popular image? Was Indian independence a noble gesture by a benevolent colonial power or was freedom wrested from the British by Indian nationalists after more than a quarter of a century of bitter struggle? *The Proudest Day* examines whether the winning of freedom in India was a triumph or a tragedy.

Independence of India and Pakistan

A biography of Mohandas Gandhi, the Mahatma, who played a crucial role in the struggle for Indian independence from Great Britain in the 1930s and 40s.

The Proudest Day

Avowing that there was more to Indian independence in 1947 than nationalist campaigns or protracted negotiations with the British, 11 contributors reveal the political and business continuities that prevailed in India and Pakistan--rather than the more logically expected revolts--following the massacres and

mass migrations that accompanied the partitioning of the continent. Most chapters originated as papers for a 1993 workshop at New Delhi's Nehru Memorial Museum and Library. Annotation copyrighted by Book News, Inc., Portland, OR

Gandhi and the Struggle for India's Independence

This book examines the interplay of imperial, national and communal conflicts during the most crucial phase of India's national movement. By looking at the independence and partition that took place between 1945 and 1947, it covers a wide range of political events and the positions taken by the British, the Congress, the Muslim league and Hindu communal forces.

Freedom, Trauma, Continuities

Inspiration for the major film starring Hugh Bonneville, Gillian Anderson, Manish Dayal and Huma Qureshi and directed by Gurinder Chadha. Seventy years ago, at midnight on 14 August 1947, the Union Jack began its final journey down the flagstaff of Viceroy's House, New Delhi. A fifth of humanity claimed their independence from the greatest empire history has ever seen - but the price of freedom was high, as a nation erupted into riots and bloodshed, partition and war. This is an electrifying and acclaimed account of the dying days of the British Raj and the drama played out between Lord Mountbatten, Mahatma Gandhi, Nehru and Jinnah, as an empire undertook a violent transformation into the new India and Pakistan.

The Indian War of Independence, 1857

To tell the story of Indian independence and the creation of Pakistan through the chaotic and seismic events of 1947 and the experiences of the people who lived through them.

India Since Independence

This definitive guide to independent India takes us through the events and personalities that have shaped India in the seventy years since 1947. Starting with Independence Day, it covers the decades in which the subcontinent saw the rise of democracy, its metamorphosis from an economy driven by self-sufficiency to one propelled by the economic reforms of the 1990s, and the concurrent liberalization, privatization and globalization that boosted India's growth rate. It also marks the transition from the era of single-party dominance to that of coalition politics and to identity-based politics. Arranged chronologically, India since 1947 covers a wide range of topics, from the Green Revolution, the Five-Year Plans, the infamous Emergency and the emergence of the Bharatiya Janata Party as a major political force to the beginning of television in India and the launch of its space and nuclear programmes. A separate listing of the events leading up to Independence, interesting factoids on various aspects of modern India and a detailed index further enhance the appeal of the book.

Towards Freedom

Veer Savarkar was the first man who called the mutiny of 1857 'A War of Independence'. Until his time, no Indian had dared to say so. The martyrs of 1857 are really fortunate that they got such a historian to tell their history who himself was both a historian and a creator of history. At times, we visualise Veer Savarkar coloured in the red colour of that revolution, as if he himself was present on the battlefield and participated in the heroic war. At other times, we see him patiently analyse the strengths and weaknesses of both sides-why the mutineers lost and why the British won. The way he analyses the politico-military aspects of the revolution shows his wisdom as a youth of 26 years. The Indian War of Independence, 1857, is a step by step account of the uprising of Indian Hindus and Muslims against the ruthless British rulers. Tracing footsteps of the barefooted, undernourished and almost unarmed Indian masses challenging the British bullets by the sheer force of their will power, the author establishes beyond an iota of doubt that the uprising was a War of Independence and not a mere Sepoy Mutiny as dubbed by the British. Some glaring truths about this book: - This book became the Bible for Indian revolutionaries. - The book was proscribed by the British Government before its publication. - The book was smuggled into India and England after it was published in Holland. - The demand for this book was so enormous that it used to be sold and resold at the stupendous price of Rs. 300 (in 1910).

India After Independence

At midnight on 14 August 1947, Britain's 350-year-old Indian Empire was broken into three pieces. The greatest mass migration in history began, as Muslims fled north and Hindus fled south, and Britain's role as an imperial power came to an end. Patrick French's vivid and surprising account of the chaotic final years of colonial rule in India has been acclaimed as the definitive book on this subject. Journeying across India, Bangladesh and Pakistan, he brings to life a cast of characters including spies, idealists, freedom fighters and politicians from Churchill to Gandhi.

Committees and Commissions in Pre-independence India, 1836-1947: 1903-1912

This work describes the contest between British imperialists and Indian nationalists at the point when India sought to achieve its independence, and when the definition, acquisition and ownership of India was most at stake.

La Tour de Cristal

Le Bâton de Mort, arme maléfique, est tombé entre les griffes d'Ixiataaga ! Maître de légions de morts vivants, il s'apprête à ravager le Magnamund. Face à une telle menace, l'espoir des êtres libres repose sur vous, Loup Solitaire, Grand Maître Kaï du Sommerlund. Parviendrez-vous à atteindre les côtes gelées d'Ixia et à pénétrer dans la cité de Xaagon qui abrite Ixiataaga et ses démons ? Pour récupérer le Bâton de Mort, vous devez gravir la Tour de Cristal, où vous attendent d'innombrables périls... Vous seul prendrez les décisions utiles au succès de votre mission et, pour mener les combats, vous n'aurez besoin que de la Table du Hasard figurant dans cet ouvrage.

Le Tour du Monde en 80 Jours

The 17th congress of the Association Internationale pour l'Histoire du Verre (AIHV), held in Antwerp, Belgium from 4 to 8 September 2006, brought together scholars from all over the world specialized in the history of glass. AIHV is an international organisation whose membership spans the globe, from Los Angeles to Tokyo and from Helsinki to Adelaide. Since its creation 50 years ago, AIHV members have studied and reported on the extraordinary development of glass in all historical periods in the Annales of the AIHV. Next to containing numerous contributions on the use, manufacture and trade of glass in the Antique period, also the importance of glass in more recent historical periods, starting from the 15th century and ending in the 21st century, are dealt with in detail. Additionally, apart from contributions on stained glass, on glass decoration and the use of enamelling, a substantial series of papers dealing with the chemical analysis of glass form part of this proceedings volume.

Promenades sentimentales dans Londres et le Palais de Cristal

Berthault de Villbresmes, a prominent lawyer and adviser to Charles d'Orleans, completed this prose version of the first three branches of The Old French Crusade Cycle some time between 1465 and 1473. He undertook his "compendieuse translacion" of the Swan Knight story at the request of Charle's widow, Marie de Cleves. Daughter of Lamarck, Marie had a particular interest in this matter for the house of Cleves had claimed descent from Helias, the fabulous grandfather of Godfroy of Bouillon some time after the extinction of the house of Bouillon-Boulogne. It is tis particular interest that explains why Berthault's adaptation of the Old French epic matter stops short of the account of the Crusade proper even though the First Crusade continued at the time to be a powerful stimulus to the literary imagination. Berthault de Villebresmes's La Geste du Chevalier au Cygne will be especially welcome to all concerned with the recovery and study of late medieval literature and with the linguistic analysis of Middle French. The Old French Crusade Cycle consists of a series of nine volumes of epic poems that together form a cycle concerning the First Crusade and the legendary events associated with Godefori de Buillon. See index for a listing of the volumes published thus far in the series.

Le tour du monde en quatre-vingts jours

Alléché par un butin fabuleux, Arsène Lupin est incité par deux hommes de sa bande à cambrioler une villa à Enghien. Il s'aperçoit que la seule chose qui intéressait ses complices est un bouchon de cristal apparemment sans valeur, qui lui est volé quelques heures plus tard dans l'appartement secret où il a dormi. Trompé par des comparses puis cambriolé, Lupin est piqué dans son orgueil ! Il trouve en

la personne du propriétaire de la villa d'Enghien un adversaire intellectuellement à sa hauteur qui le démasque à plusieurs reprises et nargue, comme lui, la police. Mais c'est un homme odieux. La lutte sera sans merci, et riche en rebondissements.

Islam in Spanish Literature is a sweeping reinterpretation of Spanish literature, taking as its given the enormous debt to Arab culture that Spain incurred through the eight centuries of Islamic presence on the Iberian Peninsula. This volume takes up the thread of the work of the Arabist Miguel Asín Palacios, the first to comment extensively upon the marked Islamic features in many Spanish classics. After an initial survey of the presence of Islam and Judaism in Spanish history and culture, succeeding chapters explore the Muslim context of Juan Ruiz, the author of the *Libro de buen amor*; St John of the Cross; St Teresa de Jesus; the anonymous sonnet "No me mueve, mi Dios"; *aljamiado-morisco* literature and then "official" Moorophile literature, standing in such dramatic contrast to one another; and last, the novelist Juan Goytisolo, who, writing today, continues to reflect upon the impact of the East on Spanish culture. It is no exaggeration to state that this book redefines the ground of the study of Spanish literature; it will be hard for the contemporary reader ever again to read it with innocence, as a literature exclusively "European."

La tour de cristal

A sweeping reinterpretation of Spanish literature, showing the great debts to Arab culture that Spain incurred through the 800 years of Islamic presence in Iberia. By so doing it redefines the ground of the study of Spanish literature.

Cinema has been long associated with France, dating back to 1895, when Louis and Auguste Lumi_re screened their works, the first public viewing of films anywhere. Early silent pioneers Georges Méliès, Alice Guy Blaché and others followed in the footsteps of the Lumi_re brothers and the tradition of important filmmaking continued throughout the 20th century and beyond. In *Encyclopedia of French Film Directors*, Philippe Rège identifies every French director who has made at least one feature film since 1895. From undisputed masters to obscure one-timers, nearly 3,000 directors are cited here, including at least 200 filmmakers not mentioned in similar books published in France. Each director's entry contains a brief biographical summary, including dates and places of birth and death; information on the individual's education and professional training; and other pertinent details, such as real names (when the filmmaker uses a pseudonym). The entries also provide complete filmographies, including credits for feature films, shorts, documentaries, and television work. Some of the most important names

in the history of film can be found in this encyclopedia, from masters of the Golden Age_Jean Renoir and RenZ Clair_to French New Wave artists such as Fran_ois Truffaut and Jean-Luc Godard.

Annales Du 17e Congrès D'Associationi Internationale Pour L'histoire Du Verre

Written in both English and French, The 9.5mm Vintage Film Encyclopaedia provides a single-volume, comprehensive catalogue of all known 9.5mm film releases, including: Films: Comprising 12,460 individual entries, this A-Z reference index provides the main listing for each film and its origin where known, along with additional information including cast and crew, and cross references to other relevant material. People: This index of all known actors and film crew, comprising over 12,000 names, provides a listing which is cross referenced to the main entry for each original film they worked on. Numbers: Pathé-Baby/Pathéscope and other distributors' catalogue numbers, film length, release dates (where known) and the series in which the films were organised, are set out in detail. With a foreword from eminent film historian and filmmaker, Keith Brownlow, this extensively researched text explains the importance of the 9.5mm film, from its beginnings in the early 1920s to becoming synonymous with Home Cinema throughout Europe. Readers will also find a brief technical explanation on how 9.5mm films were produced, along with relevant images.

La Geste Du Chevalier Au Cygne

The 526 documents printed in this volume run from 28 November 1813 to 30 September 1814. During this period Jefferson reviews the extant sources on the 1765 Stamp Act crisis to aid William Wirt, a Patrick Henry scholar; records his largely positive impressions of George Washington; and updates a reading list for law students that he had initially drawn up forty years earlier. In the spring of 1814 Jefferson becomes a trustee of the Albemarle Academy, the earliest direct ancestor of the University of Virginia. He is soon actively involved in planning for its establishment, helping to draft rules for governance of the academy's trustees and propose funding options, and he lays out an expansive vision for its future as an institution of higher learning. Jefferson also exchanges ideas on collegiate education with such respected scholars as Thomas Cooper and José Corrêa da Serra. Jefferson's wide-ranging correspondence includes a temperate response to a lengthy letter from Miles King urging the retired president to reflect on his personal religion, and a diplomatic but noncommittal reply to a proposal by Edward Coles that the author of the Declaration of Independence employ his prestige to help abolish slavery. Having learned of the British destruction late in August 1814 of the public buildings in Washington, Jefferson offers his massive book collection as a replacement for the Library of Congress. The nucleus for one of the world's great public libraries is formed early in 1815 when the nation purchases Jefferson's 6,707 volumes. Some images inside the book are unavailable due to digital copyright restrictions.

Le poignard de cristal

In *Genius Envy*, Adrianna M. Paliyenko uncovers a forgotten history: the multiplicity and diversity of nineteenth-century French women's poetic voices. Conservative critics of the time attributed the phenomenon of genius to masculinity and dismissed the work of female authors as "feminine literature." Despite the efforts of leading thinkers, critics, and literary historians to erase women from the pages of literary history, Paliyenko shows how these female poets invigorated the debate about the origins of genius and garnered considerable recognition in their time for their creativity and bold aesthetic ideas. This fresh account of French women poets' contributions to literature probes the history of their critical reception. The result is an encounter with the texts of celebrated writers such as Marceline Desbordes-Valmore, Anaïs Ségalas, Malvina Blanchecotte, Louisa Siefert, and Louise Ackermann. Glimpses at the different stages of each poet's career show that these women explicitly challenged the notion of genius as gender specific, thus advocating for their rightful place in the canon. A prodigious contribution to studies of nineteenth-century French poetry, Paliyenko's book reexamines the reception

of poetry by women within and beyond its original context. This balanced and comprehensive treatment of their work uncovers the multiple ways in which women poets sought to define their place in history.
